

The LEGO Group's Investment in Virginia | February 2024

State-of-the-art
manufacturing site

More than **\$1 billion**
USD

Chesterfield County
near Richmond, Virginia

1,760
positions
over 10 years

Visit legocareersvirginia.com
to explore jobs

13 buildings

totalling
1.7 million sq. ft (158k sq. meters)
across **340 acres** (137 hectares)

molding, processing, packing,
warehouse, and office spaces

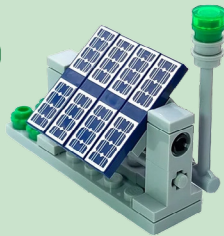

Solar plant on-site:

35,000-40,000
ground panels

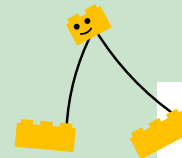

12,000-13,000
roof panels

20-25 MW
in total capacity

Carbon neutral run

The ambition is to demonstrate zero carbon
emissions from electricity and fuel use (scope 1
and 2) using on-site and off-site renewable energy.

Certification

The aim is to secure WELL and LEED Platinum
certifications for office/administration building,
and LEED Gold certification for the rest of the
facility. **Once the facility is operational, it aims
to be certified LEED Zero Energy and Water.**

Sustainability

Community

\$1 million
USD

in 2023 grants to six
local organizations
**supporting children
and families** across
Greater Richmond
Region.

Building on partnerships and grant funding of

\$300,000 USD

for area museums through the **LEGO Playful
Learning Museum Network** initiative.
