Answers on page 27.
Hi! You know, I love animals of all kinds… well, except maybe spiders. But I can promise you there are no spiders in this issue!

Can you spot Max’s least favorite creature in this scene?

Hi, it’s Max! Here with a few of my favorite animal friends to celebrate this issue of creatures and critters!

Some are extinct, like the saber tooth tiger and mammoth in the LEGO® City comic, some are made-up like the LEGO® Star Wars™ Porg®, and others you’ll just have to find out for yourself!

Parents!

Do you have kids aged 5-9 years old? Then this magazine is perfect for them. Older kids will love the LEGO® Life app, available for free in the App Store and Google Play.

Max Comic

Hey, Max, a big spider showed up. Big. Real big. He’s on page 26.

Um, gotta go, folks! Now! Oh, and enjoy the issue!

What… S-S-Spider?? You mean SpI-d-er?

Parents!

AN ICY ESCAPADE!

BE CAREFUL! WE'RE EXCAVATING FOSSILS, NOT MAKING SNOW CONES!

THE ARCTIC AER TRANSPORT IS NEARLY HERE! EVERYBODY READY?

WUPPA-WUPPA-WUPPA-WUPPA!

HEY, FOCUS! STOP MAKING YOUR OWN SOUND EFFECTS!

UH-OH, THIS ONE IS ALREADY STARTING TO MELT.

THE ARCTIC AER TRANSPORT WILL CARRY THE SABER TOOTH TIGER TO THE RESEARCH LAB IN LEGO CITY, AND WE'LL BRING THE MAMMOTH WITH US.

MAKE SURE THEY STAY FROZEN IN ICE! OTHERWISE, WHEN THEY MELT, THE WATER MIGHT WASH THEM AWAY!

QUICK, HOP ON THE BACK AND START FANNING IT WITH YOUR ARMS! THAT SHOULD COOL IT DOWN.

THE ARCTIC AIR TRANSPORT WILL CARRY THE SABER TOOTH TIGER TO THE RESEARCH LAB IN LEGO CITY, AND WE'LL BRING THE MAMMOTH WITH US.
I DON’T KNOW IF THIS IS WORKING! WE GOTTA HURRY!

UNDERSTOOD! TIME TO GO MAX SPEED!

WE MADE IT!

QUICK! BUILD A FAN TO KEEP THE ICE COLD! WE’RE ALMOST THERE!

OH!... ARE WE GOING MAX SPEED?

WHEEE!

HMMM... I’M NOT SURE IF I WANT TO BUILD WITH THIS COLOR BRICK, I WISH THEY WERE GREEN...

We made it!

Quick, build a fan to keep the ice cold! We’re almost there!

Great job team! When animals or fossils are frozen, the ice stops most decomposition. For example, most woolly mammoths became extinct about 10,000 years ago, but you can barely tell!

Hmmm... I’m not sure if I want to build with this color brick, I wish they were green...

Quick, build a fan to keep the ice cold! We’re almost there!

Great job team! When animals or fossils are frozen, the ice stops most decomposition. For example, most woolly mammoths became extinct about 10,000 years ago, but you can barely tell!

Wow, check out that Smilodon, also called the saber toothed tiger!

Woo hoo! They just made another discovery in the ice!

Hah! You don’t stand a chance against me!

Wow, check out that Smilodon, also called the saber toothed tiger!

Woo hoo! They just made another discovery in the ice!

Hah! You don’t stand a chance against me!

The End!
CHILL OUT WITH SOME COOL AND INTERESTING FACTS ABOUT ANIMALS IN THE ARCTIC!

TRUE ARCTIC FACTS!

THE WORD ‘ARCTIC’ COMES FROM THE GREEK WORD FOR BEAR, ARKTOS.

DUE TO THE EARTH’S TILT, ONCE A YEAR THERE’S AN ENTIRE DAY OF SUNSHINE! THINK ABOUT THAT, 24 WHOLE HOURS TO PLAY OUTSIDE!

A POLAR BEAR’S FUR ISN’T WHITE!
It’s actually transparent with a hollow core that reflects light. This clever camouflage helps the bears blend in with their surroundings.

Temperatures as low as -94° F have been recorded in northern Greenland. BRRRRR!

Did you know glaciers store about 75% of the world’s fresh water?

Due to the Earth’s tilt, once a year there’s an entire day of sunshine! Think about that, 24 whole hours to play outside!

A species found only in the Arctic is the narwhal, often referred to as the ‘unicorn of the sea’. Male narwhals have a straight tusk poking out from the front of their head that can grow to over 9ft in length!

Glaciers store about 75% of the world’s fresh water!

Polar bear cubs stay with their mother for about two years, while they learn the skills needed to survive in the Arctic.

TODAY, GLACIERS COVER AROUND 10% OF THE EARTH’S TOTAL LAND AREA.

The word ‘Arctic’ comes from the Greek word for bear, Arktos.
ESCAPE FROM JURASSIC WORLD™!

Claire and Owen must escape from the rampaging Carnotaurus. They are on different parts of Isla Nublar and time is running out. You and a friend must help them reach the truck and gyrosphere in the center of the maze before it’s too late!

DINOSAUR FUN FACTS!

FACT #1
Did you know the name Carnotaurus means meat-eating bull?

FACT #2
One of the largest dinosaur eggs was laid by a Gigantoraptor. The oval-shaped eggs of these dinosaurs are over 20 inches long.

FACT #3
The oldest dinosaur tracks are about 245 million years old, from back when dinosaurs were tiny and not ruling the Earth just yet.

Jurassic World is a trademark and copyright of Universal Studios and Amblin Entertainment, Inc. Licensed by Universal Studios. All Rights Reserved.

BUILD A DINOSAUR MAZE!

Like this puzzle? Build your own maze to escape from the dinosaurs using pieces from your LEGO® collection. Then share it in the #JurassicWorld group in the LEGO Life app!

Answers on page 27.
A step-by-step guide for new owners

So you’ve got a brand new porg™, but you’re not sure how to care for it? Don’t worry, we’re here to answer all your questions!

**WHAT ARE PORGS?**

Porgs are birds from the planet Ahch-To. They normally live in nests made in cliffs. Porgs can fly, but not for very long distances.

**FEEDING YOUR PORG**

Porgs like to eat fish and crustaceans (creatures like crabs and lobsters). They will also go for your fish sandwich if you leave it out. Porgs are used to hunting for their food, so you might want to put their dinner at the bottom of the pool and let them dive for it.

**BATH TIME**

Porgs love water, so getting them into the bath won’t be a problem. Getting them out could be, especially if they start playing. Oh, better have a mop handy, too.

**HEY, WHERE’S MY WATCH?**

Porgs like shiny things. Jewelry, keys, bits of your hyperdrive, whatever they can get a hold of, they will use to build a nest. At first, it’s cute. Later, when half your ship is missing, not so much.

**CUTE AND CURIOUS**

Porgs are curious about everything. You know, what your lunch tastes like, what’s inside that storage unit, or what happens if you hit that button marked “Blaster cannon.” Keep an eye on your porg. Actually, keep both eyes on it, just to be safe.

OWOOOAH

Who's Hungry?
First things first: wiggle your fingers and stretch your thumbs. It’s time to build my brand new app-controlled Batmobile and hit the dark streets of Gotham City™!

My Batmobile comes equipped with awesome stud-shooters, an opening cockpit, and of course ME! I also have an exclusive new look for this special Batmobile – always remember to fight crime with style!
Second thing’s second... download the LEGO® Powered Up app. Use your device’s Bluetooth® to connect to the Batmobile. With my genius intellect I personally programmed two different interfaces for you to use:

**SPEED INTERFACE**

This interface has a slider steering functionality. There are three buttons with predefined stunts I’ve already coded for you. Yeah. You’re welcome.

- **BUTTON 1:** Wheelie with BOOST special effects.
- **BUTTON 2:** Backup controls and 180° turn.
- **BUTTON 3:** 360° turn and drive forward with special effects.

**BATTLE INTERFACE**

The second interface has a button steering functionality. There are three more buttons with stunts already coded. Pshh – I’m doing half the work for you.

- **BUTTON 1:** Turn back and forth, radar effects then shooting effects.
- **BUTTON 2:** Wheelie with missile shooting effects.
- **BUTTON 3:** Backing up in defense mode with clanking shields effects.

I need a new vehicle to help me fight crime! Use your LEGO® bricks to build me a new vehicle. Go the #DC Super Heroes group in the LEGO Life app and join the challenge! Make sure it’s AWESOME!
Treasure is waiting for you - if you can escape the danger! Zombies, cave spiders and more are lurking down here, but don’t worry, we have all the inside information on the mobs you’ll meet. Grab your torch and sword and let’s start exploring!

**YOUR STUDY GUIDE TO THE CREATURES BENEATH THE OVERWORLD!**

**BEDROCK BEASTS!**

**How Many Different Ores Can You Spot in the Bedrock?**

**Undead Humanoid Hostile Mob**
- Undead humanoid hostile mob that will continue to pursue even after taking damage.

**Silverfish**
- Insect-like hostile mob. When damaged, can cause other silverfish to break out of monster eggs.

**Creeper™**
- Hostile mob. Explodes when within three blocks of a player. Afraid of ocelots and cats.

**Cave Spider**
- Neutral mob that can inflict poison. Much faster than normal spiders. Attacks by leaping.

**Zombie**
- Undead humanoid hostile mob that will continue to pursue even after taking damage.

**Did You Know...**

- That you can make a “golden apple” by combining 8 gold ingots and 1 red apple in a crafting table?

CREATE YOUR DC SUPER-VILLAIN!
The latest and greatest LEGO® DC video game features villains vs. villains. Check out these screenshots from the game and get ready to join the villains!

FIGHT BATTLES & COMPLETE NEW MISSIONS!
Create and design your own character to go on missions and fight battles with your favorite DC Super-Villains.

DC SUPER-VILLAINS NEED TO SAVE THE DAY!
Yeah, you heard me. The good guys have disappeared, so it’s up to the DC Super-Villains to team up and save the world!

VILLAIN GENERATOR
Choose your super-powers and super-weaknesses from the list below to create your very own super villain! Once you finish, build your villain design out of LEGO® bricks or use pens and markers to draw them!

SUPER-POWERS
- Super Speed
- Genius Mind
- Super Strength
- Sleeps with Eyes Open
- Flight
- Invisibility
- Laser Vision
- Super Bank Account
- Supersonic Farts
- Speaks to Animals

SUPER-WEAKNESSES
- Melts in the Rain
- Afraid of Bees
- Scared of Purple
- Rocks from Space
- Direct Sunlight
- Talks Only in Screams
- Pointy Objects
- Ice Cream Cake
- Only Runs Sideways
- Nocturnal
JOIN THE UNIKINGDOM!

Unikitty™ and her brother Puppyncorn™ are waiting for you! Create and build your own totally awesome character, then play along with their adventures!

BUILD US A NEW FRIEND!

Create a new Unikingdom character using bricks from your LEGO® collection.

Place your creation on the rainbow at the bottom of the page, next to Unikitty™, and take a photo.

Upload and share your photo in the Unikitty group in the LEGO Life app!

Dear Max,
I want to say thanks for the magazine and for commenting on my creation “The Ultimate Base”. I’ve been working on it for three years! I really want it to be shown in the magazine.

Your friend, Mattia

Dear Mattia,
WOW!!! So you worked on this awesome model for 1,096 days?? That’s crazy cool! I’m impressed with all the detail you added in there - lots of cool elements and gears, and I even spot some sweet sideways building. I’m really glad you shared this with me... It’s giving me some ideas for a makeover to my bedroom. Keep on building, I can’t wait to see what you create next!

Your brick-loving buddy,
WE WANT TO HEAR FROM YOU!

Send us:
- A letter to Max!
- A drawing or painting
- Any LEGO® questions
- Your funny jokes!

Write to LEGO Life by sending us an email - go to LEGO.com/life and select ‘Magazine’ to read how!
