Meet your personal bodyguard – a schnauzer will protect you and even treat you like one of its own puppies! They are smart, watchful, and patient. And they look like they have a moustache and beard!

PUG

They look so funny, don't they? Pugs might look silly, but they are smart and loyal and they learn fast. They also love to have company: the more people, the better. A perfect family dog.

HELP! CATCH THE CROOK

NEW!

The crook is escaping with the money and the police have to catch him! Help them out by finding a way through the maze. Follow the pictures in this order to get to the end.

Hint: The correct path can go up, down or across.

The police have arrived. But the crook hid inside the building! Help the police solve this puzzle. Match the picture of the crook with his shadow on the window.

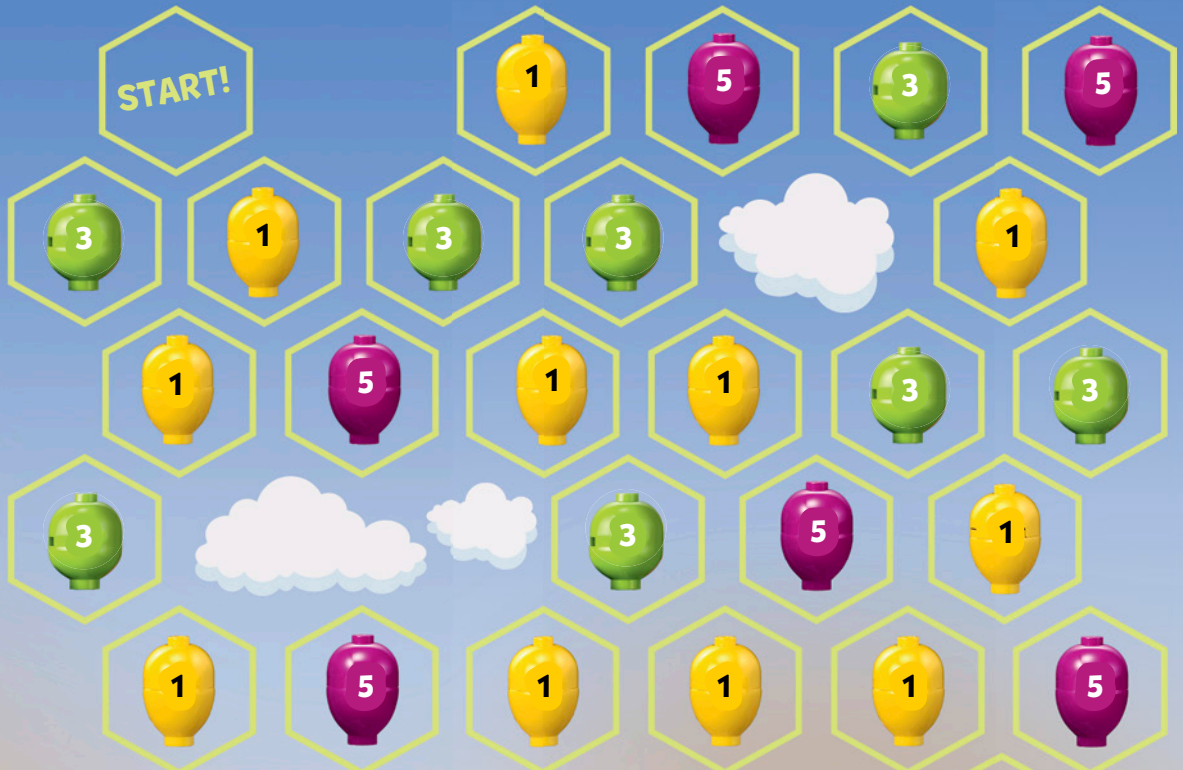

I WONDER WHICH ONE IS THE CROOK.

GO UP WITH THE BALLOONS!

Carl Fredricksen, Dug the talking dog and Russell the explorer are ready to go on an adventure! But wait a minute ... their balloons have flown away, and they need to collect them before setting off on their trip. **Gather as many balloons as possible. The person with the most points wins!**

HOW TO PLAY:

- 1 This is a two-player game.
- 2 Each player picks a pen, marker or crayon in their favourite colour.
- 3 The aim is to draw a path from the Start tile to the Finish tile, while collecting as many balloons as possible. Mark your path with a pen, circling each balloon you visit.
- 4 You can move to one tile at a time, in any direction, but you cannot jump over tiles.
- 5 If you visit a tile already marked by another player, you get zero points for that balloon.
- 6 The game ends when one player reaches the Finish tile. The other player then has one more move.
- 7 Now, count your balloons and check who's the winner!

MAGICAL CHECKERS

A game for 2. To win: remove all your opponent's pieces from the board.

- 1 Each player picks 12 LEGO® bricks in one colour. Then pick a side.
- 2 Put the bricks on the dark squares with stars in front of you: 4 in each of the first 3 rows.
- 3 The younger player goes first.
- 4 In your turn you can move 1 piece by 1 square forward diagonally – to the next empty dark square.
- 5 To remove the opponent's piece: jump diagonally over it if there's an empty dark square behind it. You can do multiple jumps forward to remove more pieces.
- 6 If you reach the last row the piece becomes a king. It can move forward and backward. Put another brick on top of it to mark the king.
