CLUE 3:
One set of footprints leading to the back of the jail, and two leading away ... but then they disappear!

SO MANY MYSTERIES ... THIS STRANGE ESCAPE, PLUS OUR FIRE HELICOPTER WAS STOLEN THIS MORNING!

SOLVE THE MYSTERY!

The piece of paper the Sky Police found has a coded message to the crook written on it. Can you help the firefighter finish the message to discover how the escape happened?

PLANTIMAL PERIL!

When Plantimals threaten, it's Rex to the rescue in his Offroader, along with his trusty troop of raptors. Check out Max's product review of Rex's Rex-treme Offroader!

You can take the blaster backpack off the dinosaur and give to Rex, or you can take it just because armed dinosaurs give you the shakes.

The Offroader rebuilds into a Rex-o-saurus Quad or Execu-Rex-o-saurus.

REBELS VS. EMPIRE: The Game!

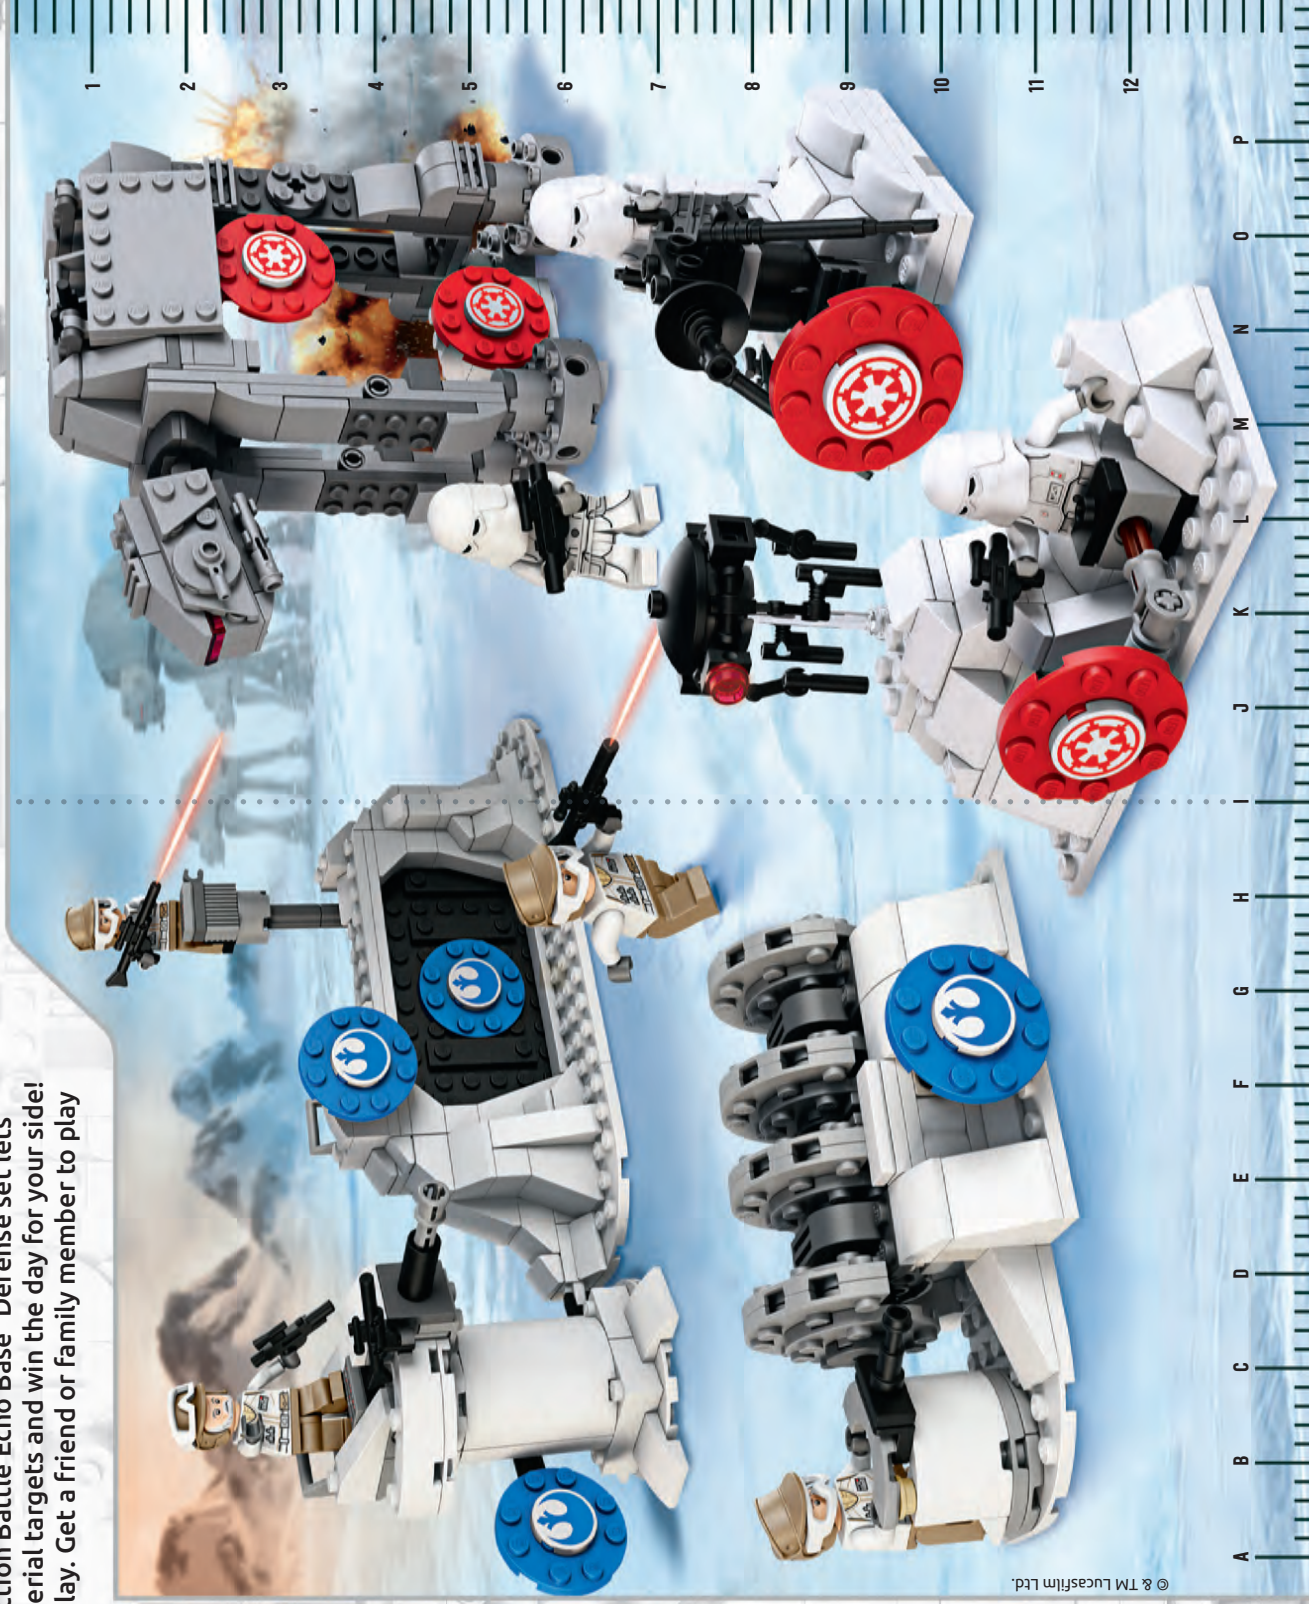

The new LEGO® Star Wars™ Action Battle Echo Base™ Defense set lets you take aim at Rebel or Imperial targets and win the day for your side! Now here's another way to play. Get a friend or family member to play the game with you.

HOW TO PLAY:

Take a piece of paper and cut it in half. Cover both the side with the Imperial (red) targets and the side with the Rebel (blue) targets. Keep the location of your targets secret from your opponent.

Take turns calling a coordinate on the grid (a letter and a number). If the coordinate you chose matches one of your opponent's targets, you get a point. First one to three points wins!

SOLAR SYSTEM FACTS!

- 1 The first man-made object in space was the Russian satellite Sputnik, which was launched in 1957.
- 2 Jupiter, Saturn, Uranus and Neptune are gas planets. That means if you visited them you wouldn't be able to walk anywhere because they have no solid surface!
- 3 The sunsets on Mars appear blue due to the planet's atmosphere! Draw a picture of what you think that would look like.
- 4 Venus is the hottest planet in our solar system. The surface is over 842 degrees Fahrenheit, whew!
