

Source Dragon Super Build

How to set up & play

How it works

Like the children at your NINJAGO® party, every Source Dragon is different.

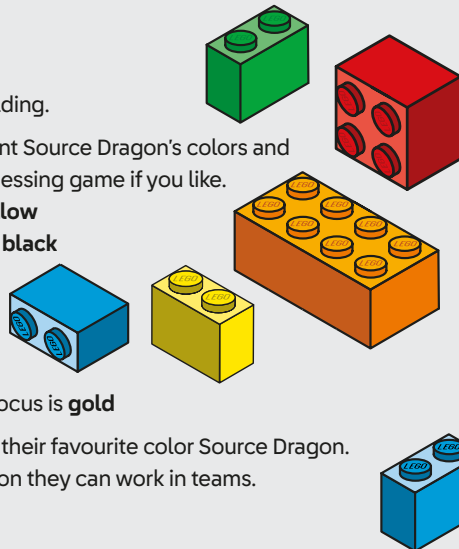

The dragon's color stands for a power, such as Strength, Harmony or Fire. Which Source Dragon will the children want to be and build from LEGO® bricks?

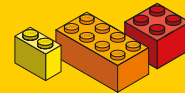

What you need to do:

On the day

- Put out the LEGO bricks for dragon building.
- Speak to the children about the different Source Dragon's colors and powers. You can turn this into a mini guessing game if you like.
 - Source Dragon of Motion/Energy is **yellow**
 - Source Dragon of Strength is **brown or black**
 - Source Dragon of Life is **green**
 - Source Dragon of Ice is **white**
 - Source Dragon of Fire/Motion is **red**
 - Source Dragon of Water is **blue**
 - Source Dragon of Harmony/Balance/Focus is **gold**
- Explain they need to choose and build their favourite color Source Dragon. If children want to build the same dragon they can work in teams.
- Set your timer and start the fun.

Things you need:

A selection of different colored LEGO bricks

A timer/stopwatch

Optional

Some reference pictures of Source Dragons.

NINJAGO facts:

Lloyd used to want to be like his father Garmadon until Destiny chose him as the Green Ninja.

Arin loves to bake pies.
