

Blindfold Spinjitzu Tornado Build

How to set up & play

How it works

Split the children into teams and hand out the LEGO® bricks.

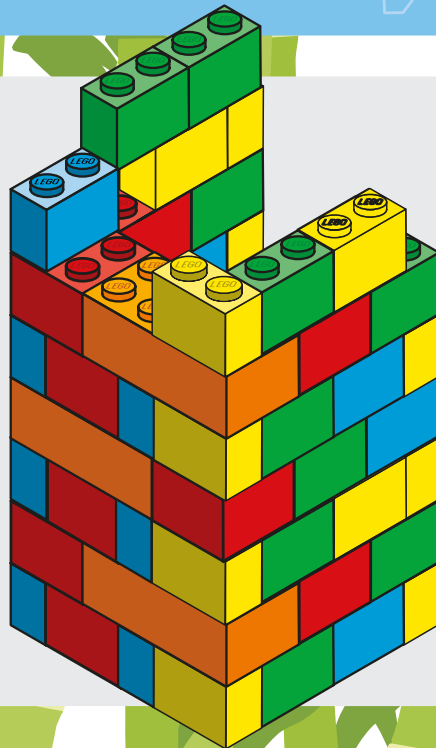

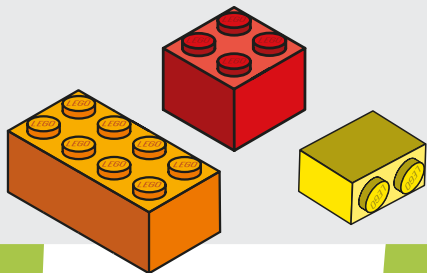

To make it more challenging use different sized bricks. Then to really test their ninja skills, blindfold the children and see who builds the tallest Spinjitzu Tornado Tower in 5 minutes!

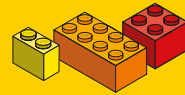

What you need to do:

On the day

1. Split the children into teams.
2. Hand out the LEGO bricks to each tower building team.
3. Explain the rules and place blindfolds on the children.
4. Set your timer and start the fun.

Things you need:

LEGO bricks

Blindfolds
(You can use ties or scarves)

Ruler or tape measure
for measuring the towers

Optional
Prize for the tallest tower

NINJAGO® facts:

Riyu is learning Spinjitzu just like the Ninja.
The ninja found the Scythe of Quakes at the Caves of Despair.

5 mins

Blindfold your ninjas and see who can build the tallest tornado tower against the clock.
