

The LEGO Group's Supplier List

In the LEGO Group our aim is to ensure the rights and wellbeing of everyone involved in making LEGO products and to protect the environment. We work in a transparent way with suppliers who share this ambition and commitment, requiring all suppliers and business partners to adhere to the LEGO Responsible Business Principles.

The 12 Responsible Business Principles set out our expectations for our own production sites, suppliers and partners and relate to ethics, people, children, and the environment.

The LEGO Group's Supplier List includes all direct suppliers of materials, components, or items used in finished LEGO products.

The list is updated on an annual basis as a minimum and was last updated July 2025.

In the LEGO Group, we value transparency and feedback for improving our relationship with suppliers and to be notified about any inappropriate circumstances at our suppliers we may be unaware of.
