**» L'espace : la frontière ultime. Ceci est le récit des voyages du vaisseau Enterprise. Sa mission permanente : explorer de nouveaux mondes étranges, chercher de nouvelles vies et de nouvelles civilisations, aller courageusement là où personne n'est allé auparavant. »**

## VOUS AVEZ LA PASSERELLE

■ Située au XXIV<sup>e</sup> siècle, *Star Trek : La nouvelle génération* (1987-1994) a tracé une nouvelle voie audacieuse dans l'univers *Star Trek*, tout en restant fidèle à l'esprit de la série originale. Sous le commandement du capitaine Jean-Luc Picard, l'équipage diversifié de l'*U.S.S. Enterprise NCC-1701-D™* découvre de nouveaux mondes extraordinaires et affronte des ennemis légendaires. En tant que représentants de la Fédération des Planètes unies, leur objectif est de promouvoir et de développer une coexistence pacifique et diplomatique avec toutes les civilisations. Grâce à leur vision optimiste de l'avenir et à leur technologie innovante, la série, le vaisseau spatial et son équipage ont inspiré des générations de fans de *Star Trek*.

## LE TOUT PREMIER MODÈLE LEGO® STAR TREK

Star Trek, l'une des franchises de science-fiction les plus anciennes à la télévision et au cinéma, a acquis un statut emblématique dans le genre. Les modèles Starship Enterprise ont toujours été les objets de collection préférés des fans, et nous sommes très heureux d'accueillir cette version pour la toute première fois dans la collection LEGO® Icons. Sans plus tarder, ALLEZ HARDIMENT ! Nous vous présentons l'*U.S.S. Enterprise NCC-1701-D™*.

# UNE STAR DE L'HISTOIRE DE *STAR TREK*

■ L'*U.S.S Enterprise* NCC-1701-D™, vaisseau amiral de classe *Galaxy* de Starfleet, est porteur d'un héritage qui s'étend sur des siècles. Dans l'histoire de *Star Trek*, il a toujours été un phare de l'exploration et de la diplomatie. Il s'agit du sixième vaisseau spatial qui porte le nom légendaire *Enterprise* sur sa coque, honorant ainsi une tradition qui remonte aux anciens navires de guerre, voire à la première navette spatiale. Lancé depuis Mars en 2363, il a été perfectionné dans la station terrestre McKinley avant que le capitaine Jean-Luc Picard n'en prenne le commandement.

## MISSIONS CÉLÈBRES

### ■ Rencontre à Farpoint, parties I et II

*Sa mission inaugurale a conduit l'*Enterprise-D* à la mystérieuse station Farpoint et au premier contact de l'équipage avec le Continuum Q.*

### ■ La lumière intérieure

*Rendu inconscient par une sonde extraterrestre, Picard va « vivre » une vie entière sous le nom de Kamin, originaire du monde de Kataan, détruit depuis longtemps.*

### ■ Unification, parties I et II

*Soupçonnant que l'ambassadeur Spock est devenu renégat, a fait défection et a rejoint l'Empire romulien, Picard et Data mènent une mission sous couverture sur Romulus.*

### ■ Toutes les bonnes choses...

*Dans le dernier épisode de la série, l'équipage voyage dans le temps pour empêcher une anomalie cosmique, réfléchissant aux événements passés et futurs afin de sauver l'humanité.*

# EN COULISSES

■ L'illustrateur consultant principal de la série télévisée, l'artiste de talent Andrew Probert, a conçu l'apparence de l'*U.S.S. Enterprise-D*. Sa vision futuriste reflétait les progrès imaginés dans le domaine des voyages spatiaux un siècle après les événements de la série originale. Le design profilé de Probert comprenait une section de soucoupe plus grande et des nacelles de distortion repositionnées plus près du centre de gravité du vaisseau pour plus d'équilibre. Le créateur de la série, Gene Roddenberry, a légèrement modifié le design, notamment en allongeant les nacelles et en plaçant la passerelle au-dessus de la soucoupe pour respecter les proportions.

## CARACTÉRISTIQUES

CONSTRUCTION :	Chantiers Spatiaux d'Utopia Planitia
LONGUEUR :	641 m (2 103 pi)
PONTS :	42
ÉQUIPAGE :	1 014 (normalement)
DISTORSION MAXIMALE :	9,9
ARMEMENTS :	Phaseurs et torpilles à photons

# AU COMBAT !

■ À bord de l'*U.S.S Enterprise-D*, l'équipage, composé d'hommes et d'autres espèces, aussi bien organiques que mécaniques, est uni dans la quête de la connaissance, de la justice et de la paix. Leurs origines, leurs passions, leur esprit et leurs perspectives uniques contribuent à créer un environnement où la collaboration, la curiosité et le respect peuvent combler tous les fossés. La *Nouvelle Génération* envisage un avenir où l'égalité et la raison triomphent, nous invitant à accepter les différences et à apprendre les uns des autres pour le bien de tous.

« Veillons à ce  
que l'histoire  
n'oublie jamais  
le nom...  
d'Enterprise. »

Capitaine Jean-Luc Picard

« Je suis supérieur  
à bien des égards,  
monsieur, mais  
je renoncerais  
volontiers à cela  
pour être humain. »

Lieutenant Commander Data

« Je suis un  
Klingon ! Si vous  
en doutez, une  
démonstration  
peut s'arranger. »

Lieutenant Worf

« L'inattendu est  
notre routine. »

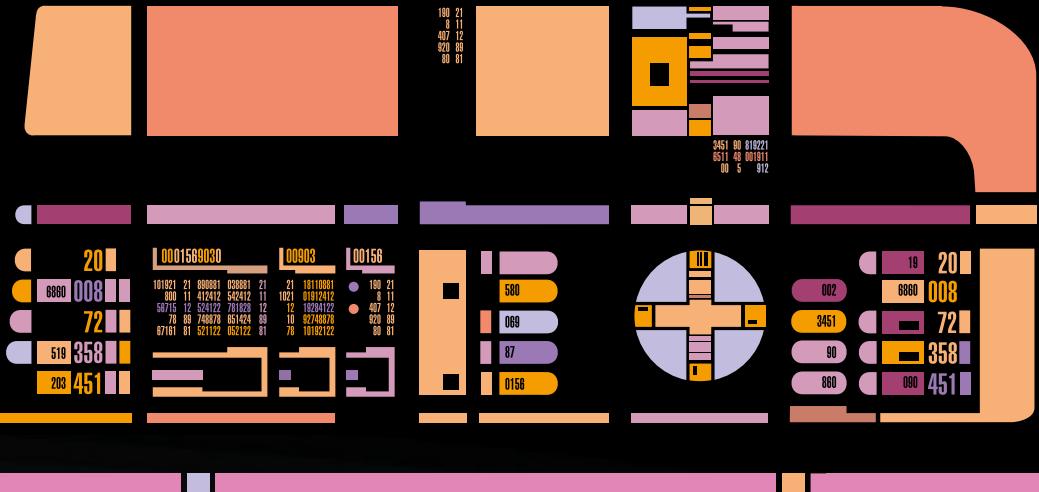

Commandant William Riker

« Aimerais-tu parler de  
ce qui te dérange, ou  
aimerais-tu casser d'autres  
meubles ? »

Conseillère Deanna Troi

« ... c'est la lutte qui importe. C'est ce qui nous aide à définir notre place dans l'univers. »

Dr Beverly Crusher

« Il y a la théorie, et puis la pratique. Elles ne concordent pas toujours. »

Lieutenant Commander Geordi La Forge

« Je m'appelle Guinan. Je m'occupe du bar et je sais écouter. »

Guinan

« Ce n'est que le début, nous n'avons représenté que 19 % de notre galaxie. Le reste n'attend que vous. »

Wesley Crusher

# LE MOT DE L'ÉQUIPE DE DESIGNERS LEGO® ICONS

■ Nous voulions un modèle de taille conséquente qui puisse tenir en équilibre sur un seul bras de support d'exposition. La forme de la coque principale (la « section de la soucoupe ») a été conçue avec des panneaux inclinés qui ajoutent de la densité au disque. Pour obtenir sa forme ovale, nous avons développé deux nouveaux éléments d'arc LEGO®. Les deux moteurs à chaîne, connectés à des pylônes fins et courbes, et la fixation du disque à soucoupe amovible ont constitué un autre défi en termes de stabilité du modèle. Mais la fonction de séparation de la soucoupe, bien que rarement utilisée

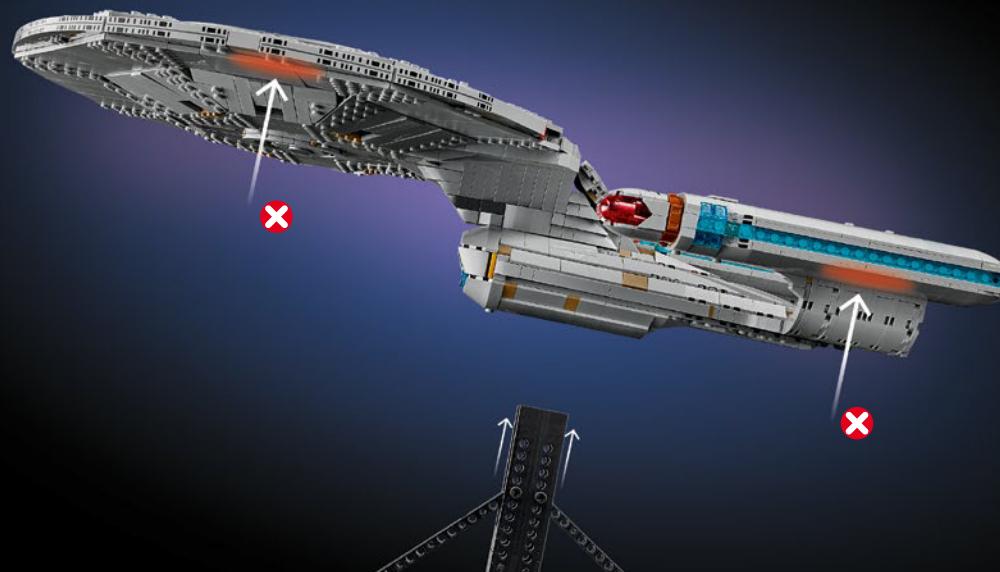

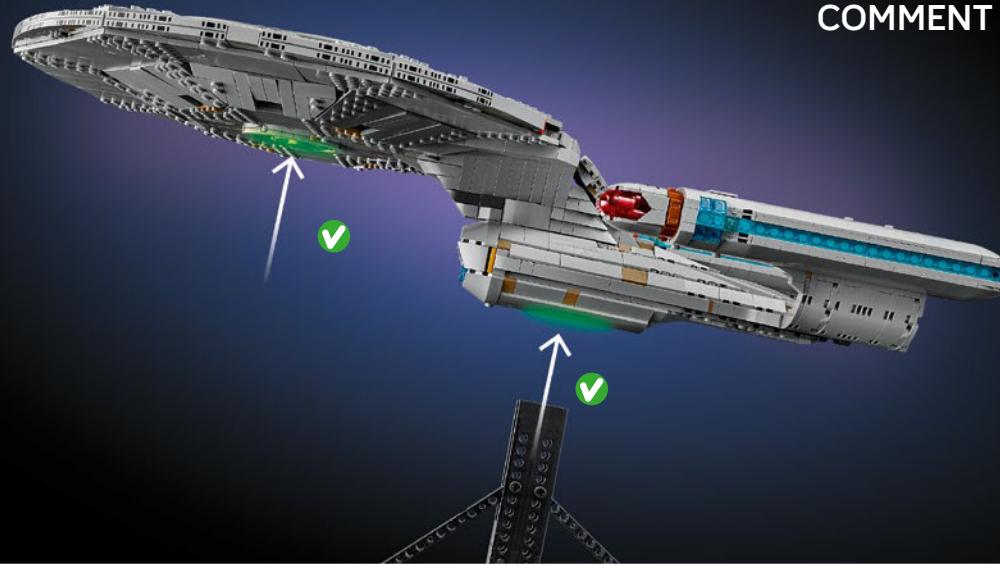

dans la série, est une caractéristique essentielle. Nous avons appliqué une construction latérale avec des plaques, en particulier dans la zone « cou », pour obtenir la bonne résistance. Le modèle original du film est recouvert de fenêtres, même sur le dessous ! Ici, elles sont imprimées sur la jante de la section de la soucoupe. Et comme touche finale, nous avons accordé une attention particulière au déflecteur de navigation du vaisseau afin de trouver le meilleur rendu pour la géométrie de l'élément de pare-brise.

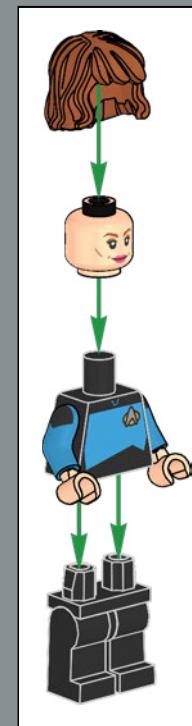

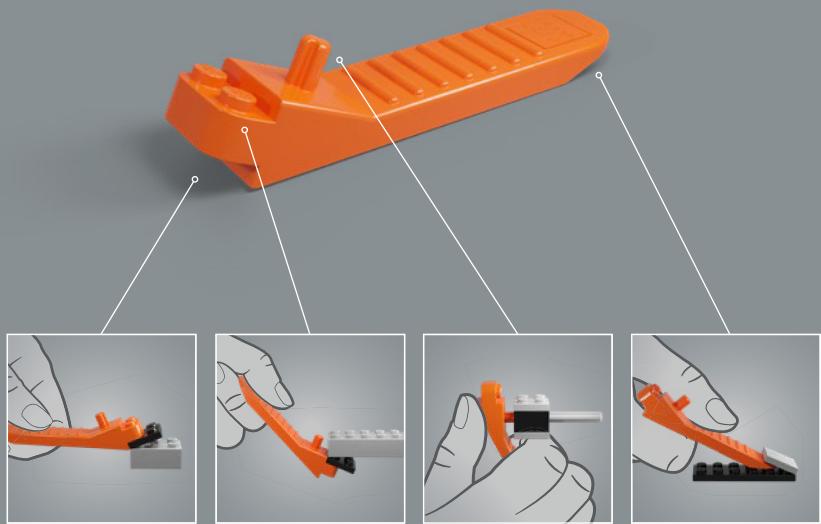

« Cela a été un défi de conception technique passionnant de recréer au format LEGO® un vaisseau spatial qui signifie tant pour les générations de fans de Star Trek ! »

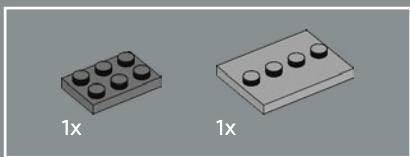

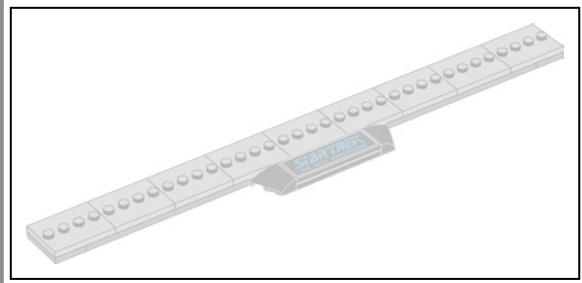

*L'équipe de designers LEGO® Icons*

## COMMENT TENIR LE MODÈLE

 En tant que médecin-chef de l'*Enterprise*,  
le docteur Beverly Crusher porte toujours  
avec elle son tricordeur médical.
