Q LEGO® Builder

“El punto de conexión lateral del abedul permite al trepador saltar por el tronco del árbol, tal como lo haría en la vida real”.

El equipo de diseño de LEGO® Icons

Impresiones del equipo de diseño de LEGO® Icons

Te damos la bienvenida al tercer modelo de la colección LEGO® Icons Jardines del Mundo, donde podrás relajarte en una acogedora escena otoñal. Inspirado en las casitas rurales con techo de paja del norte de Europa, este set retrata el encanto de la vida en el campo en todas sus variantes, ya sea que quieras buscar comida en el bosque, cosechar lo que crece en el huerto o cuidar de la fauna (o, tal vez, lo mejor de todo, ¡cocinar los platos más sustanciosos!). El techo y la estructura de la casita cobran forma gracias a técnicas de construcción lateral y geometrías triangulares, y muchos elementos LEGO debutan en nuevos colores o con diferentes decoraciones, incluidos los dos pájaros: un petirrojo europeo y un trepador azul. ¡También puedes usar elementos del Jardín Meditativo (10315) o del Jardín con Fuente (10359) para dar un toque creativo adicional a tu modelo!

Especies de pájaros locales

Trepador azul

Con su elegante plumaje gris azulado y su característica raya negra en el ojo, jeste ágil pájaro cantor es famoso por su singular capacidad para descender por los troncos de los árboles cabeza abajo!

Petirrojo europeo

Con su vibrante pecho naranja y su melodioso canto, el petirrojo europeo es un querido habitante de los jardines, donde es frecuente encontrarlo buscando insectos desenterrados.

Los gnomos de jardín traen buena suerte (o, al menos, un poco de diversión) a tu jardín. La leyenda dice que llevan gorros blancos cuando quieren ser vistos, ¡y rojos si quieren esconderse! Esta es la primera vez que podemos ver este gorro LEGO® puntiagudo en rojo.
