Q LEGO® Builder

“Il punto di connessione laterale sul tronco della betulla permette al picchio muratore di saltare su e giù lungo il fusto, proprio come fanno nella realtà”.

Il LEGO® Icons Design Team

Il commento del LEGO® Icons Design Team

Benvenuti al terzo modello della nostra serie “Giardini del mondo” LEGO® Icons, dove potrete rilassarvi in una calda e accogliente scena autunnale. Ispirato ai rustici cottage dotati di tetto di paglia del Nord Europa, questo set racchiude tutto il fascino della vita di campagna, che tu voglia esplorare il bosco, raccogliere verdure dall’orto o prenderti cura degli animali selvatici. (O, forse meglio, cucinare un bello stufato!) La costruzione obliqua e la forma geometrica triangolare definisce il tetto e la struttura del cottage, con numerosi elementi che esordiscono in nuove tonalità LEGO o decorazioni, compresi i due uccelli: un pettirosso e un picchio muratore. È persino possibile utilizzare elementi del set Il giardino tranquillo 10315 o del set Il giardino della fontana 10359 per aggiungere un tocco creativo al tuo modello!

Specie di uccelli locali

Picchio muratore

Con il suo elegante piumaggio blu-grigio e la caratteristica striscia nera intorno all'occhio, questo agile uccellino è famoso per la sua straordinaria capacità di scendere dai tronchi degli alberi a testa in giù!

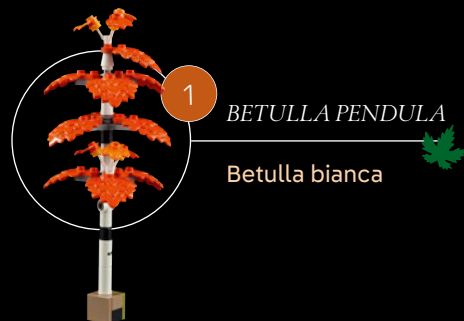

Pettirosso

Con il suo vivace petto arancione e il canto melodioso, il pettirosso è un abitante dei giardini molto amato, spesso intento a cercare gli insetti nascosti nel terreno.

Gli gnomi portano fortuna, o almeno divertimento, nel tuo giardino. Si dice che indossino cappelli bianchi se vogliono farsi notare, rossi se vogliono nascondersi! Questo cappello LEGO® a punta debutta in rosso per la prima volta.

Il pettirosso adora quando fai giardinaggio!
Se ne vedi uno che ti "sorveglia", potrebbe essere
ansiosamente in attesa di catturare insetti e vermi
che affiorano quando lavori la terra.
