EL FERRARI F2004

// El Ferrari F2004, con el legendario piloto Michael Schumacher al volante, dominó la temporada 2004 de Formula 1®. Aún considerado por muchos como uno de los mejores coches de F1® de la historia, contribuyó en gran medida a que Schumacher obtuviera su séptimo y último título de campeón del mundo, que supuso su quinto entorchado consecutivo. También sirvió a Ferrari para aumentar su extenso palmarés, ya que obtuvo su sexto Campeonato de Constructores consecutivo con el F2004, alcanzando la cúspide de su era de dominio de los circuitos y ofreciendo momentos inolvidables durante las carreras a sus fans de todo el mundo.

M. Schumacher

UNA LEYENDA DEL AUTOMOVILISMO

// La unión entre Ferrari y Michael Schumacher dio lugar a un tipo único de sinergia que solo resulta posible cuando se produce una alineación perfecta entre estrellas de sus respectivos campos. Schumacher se incorporó a la escudería en 1996 y encontró un aliado inmejorable para su talento extraordinario y su profunda dedicación a la colaboración y la búsqueda de la perfección. Defendió con tesón la condición de campeón del mundo de Ferrari, ya que Schumacher obtuvo 72 victorias en grandes premios durante su período en la escudería. Gracias a su compromiso inquebrantable con el deporte y su colaboración con diversas organizaciones benéficas, dejó una huella imborrable en el mundo del automovilismo.

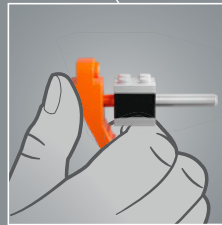

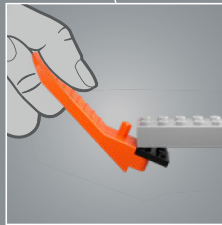

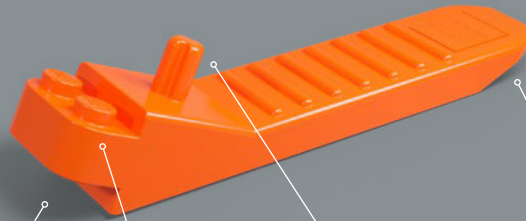

IMPRESIONES DEL EQUIPO DE DISEÑO DE LEGO® ICONS

// Nuestros fantásticos socios de Scuderia Ferrari nos ayudaron a definir de manera correcta las formas y las proporciones del F2004 en formato LEGO® con un nivel de detalle milimétrico. Para reproducir tanto las formas aerodinámicas alargadas, complejas y rematadas con un morro esbelto como las características de diseño específicas del F2004, usamos diferentes piezas LEGO curvadas y elementos en arco. Bajo el capó, contemplarás un detallado vano motor y quizá descubras algunas referencias a la historia del coche, así como a su legendario piloto.

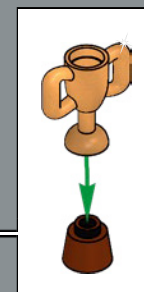

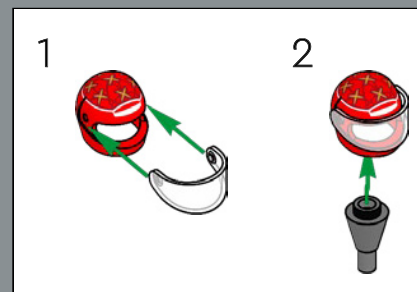

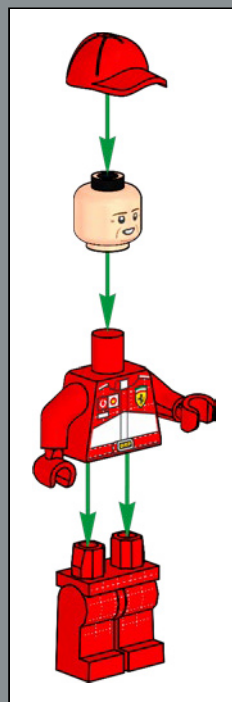

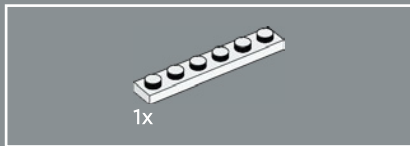

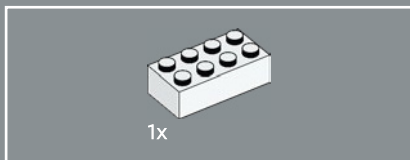

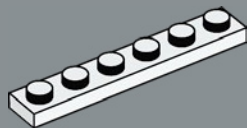

A Michael Schumacher le entusiasmó el automovilismo desde muy pequeño, ya que se inició en los karts con cuatro años y conquistó su primer campeonato de karts solo dos años después. Conducía un kart construido por su padre con piezas de desguace.

La carrocería aerodinámica del Ferrari F2004 se diseñó para optimizar las prestaciones de este coche; para ello, se mejoró el flujo de aire y se aprovecharon las ventajas de los neumáticos con ranuras.

Cuando la escudería Ferrari probó el F2004 en Imola para compararlo con su predecesor, el F2003-GA, preveía que el nuevo coche fuera al menos medio segundo más rápido, ¡pero Schumacher recortó el tiempo de la vuelta rápida en 2 segundos!

Hemos diseñado un nuevo elemento de rueda para representar los neumáticos Bridgestone con ranuras que se montaron en los coches de F1® entre 1999 y 2008.

Cada elemento de los sets LEGO® Icons se selecciona minuciosamente para representar un aspecto específico del componente real con el que se corresponde. ¿Has contado el número de elementos dorados que incluye este modelo?
