DAS UNIVERSALFAHRZEUG

Vor dem 1. Oktober 1908 waren Autos zwar schon seit einigen Jahrzehnten im Einsatz, doch Pferdekutschen waren nach wie vor das häufigste Bild auf den Straßen. Autos waren ein Luxus, der nur wenigen vorbehalten war. Willkommen in der Ford Motor Company. Die Vision: ein Auto für das Volk bauen. Das Ford® Model T® war nicht nur langlebig und komfortabel (nach damaligen Maßstäben), sondern auch ein erschwingliches Fahrzeug, das den modernen Transport und die moderne Fertigung inspirierte. Um die Stärken und Vielseitigkeit des Fahrzeugs zu demonstrieren, wurde es umfangreichen Tests unterzogen, die von einem Jagdausflug in den Bergen bis hin zur Fahrt über die Treppen des Tennessee State Capitol reichten! Das Modell T wurde im Ford-Werk in Highland Park auf dem ersten Fließband effizient produziert. Ursprünglich wurde es 1908 für 850 Dollar verkauft, doch dank Verbesserungen am Fließband sank der Preis kontinuierlich und erreichte schließlich einen Tiefststand von 250 Dollar. Als für seine Zeit innovatives Modell verfügte es über Vanadiumstahlkomponenten, ein Lenkrad auf der linken Seite, eine leichtgängige Gangschaltung, eine Windschutzscheibe, einen kompakten Motor und sogar einen Werkzeugsatz. Von Kleinstädten und unwegsamem Gelände bis hin zu Stadtautobahnen eroberte das Model T die amerikanischen Straßen und bald darauf auch die restliche Welt. Mit mehr als 15 Millionen verkauften Exemplaren bis 1927 schrieb das Model T Geschichte und trug sogar dazu bei, diese zu beschleunigen, indem es den Transport demokratisierte.

„Hunderte dieser Autos wurden 1909 für Rundreisen genutzt, [...] nicht nur in Amerika, sondern in fast allen Ländern aller anderen Kontinente.“

ANMERKUNGEN DES LEGO® ICONS DESIGNTEAMS

Wenn es um Oldtimer geht, verkörpert die Ästhetik der frühen 1900er-Jahre und insbesondere das Ford® Model T® den ganzen Zauber und die Nostalgie der Anfänge des Automobildesigns. Diese detailgetreue Hommage ist von der Version des Runabout aus dem Jahr 1913 inspiriert, mit ihrer eckigen Motorhaube, dem flachen Armaturenbrett aus Holz und der Kabine für zwei Personen. Bekannt für seine schwarze Lackierung, gab es ihn auch in anderen Farben! Unsere Version verfügt über goldene/messingfarbene Verzierungen, die das Modell besonders hervorheben, wie beispielsweise die goldfarbenen Scheinwerfer, die Hupe und die Kühlergrillverzierung. Wir haben das clevere, ikonische Design und die technischen Details des Originals nachgebildet, von der handbetriebenen Zündung und dem Lenkradgashebel bis hin zum Kraftstofftank unter dem Sitz. Speichenräder und authentisch aussehende Felgen, das Faltdach und ein funktionierender Antrieb tragen zur Authentizität des Fahrzeugs bei, das die Automobilindustrie revolutionierte.

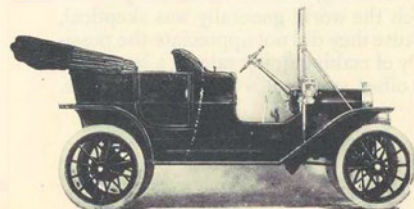

* * * *

„Wir hoffen, dass man beim Bauen entdecken kann, wie das Auto funktioniert: Man sieht, wie sich der Motor dreht, kann schalten und den Sitz anheben, um an den Kraftstofftank zu gelangen.“

Die Unternehmenshistoriker der Ford Motor Company halfen uns dabei, alle charakteristischen Merkmale des Autos zu erfassen. Während des gesamten Designprozesses haben sie uns beeindruckende Archivfotos, Diagramme und andere Materialien zur Verfügung gestellt. So haben wir erfahren, dass diese Version des Model T nur eine Tür hatte!

 Das 1908 eingeführte Ford® Model T®
 wurde bis 1927 produziert.
