Q LEGO® Builder

Biografia del cucciolo

Introduzione: oh, fantastico... questo è il giorno più bello della mia vita! Sei il mio nuovo migliore amico? Sono contentissimo di vederti! Hai sentito quel rumore nella scatola? Ero io, che mi allenavo con gli zoomie (il mio passatempo preferito)!

Nome: SEI tu a dovermi dare un nome! Se lo desideri, puoi scriverlo qui:

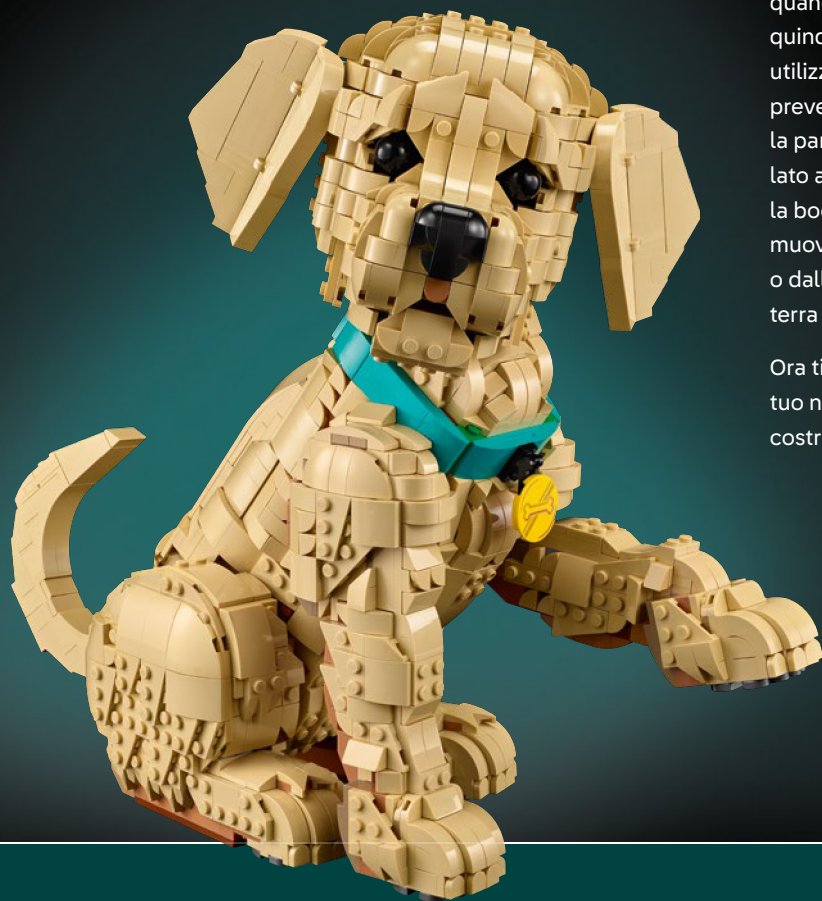

Hobby: hai del burro di arachidi LEGO®? Sì, grazie. Palle da tennis LEGO? Ovviamente. Bastoni? Un grande sì. Hai un gatto? Un gatto LEGO, forse? Mi piacerebbe giocarci. Ho un cuore d'oro (e di mattoncini), quindi prometto che sarò bravo.

Talenti speciali: fai sorridere i miei umani (ovviamente). So già come sedermi e scodinzolare (parecchio) e dare il cinque. Posso anche essere molto tranquillo. Dopo qualche ora di attività frenetica, sono sempre pronto a fare un pisolino. Ma ora, possiamo già giocare? Sì!

Il LEGO® Icons Design Team

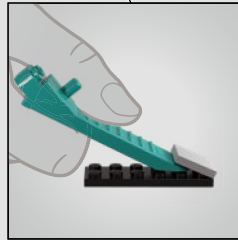

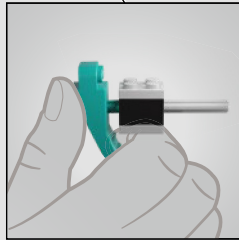

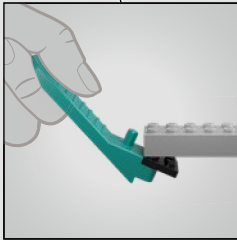

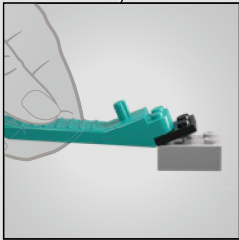

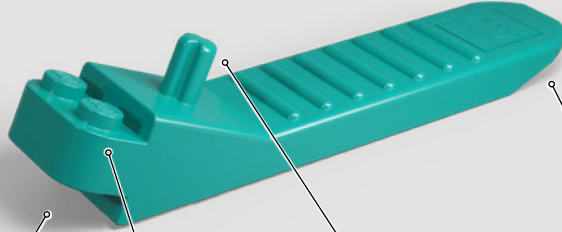

Il Golden Retriever è una delle razze canine più adatte alle famiglie e più riconoscibili. Abbiamo allevato questo cucciolo con tanto amore, e ora che è pronto per vivere a casa tua per sempre, speriamo che lo amerai tanto quanto lo amiamo noi!

Quando progettiamo una creatura, iniziamo sempre con gli occhi e il viso per riflettere e definire la personalità dell'animale e renderlo realistico. Abbiamo scoperto che i caschi delle minifigure sono incredibilmente adatti per questi occhi da cucciolo quando sono decorati con una mezzaluna! Abbiamo quindi progettato diversi punti di articolazione, utilizzando una nuova tecnica di costruzione che prevede l'unione di due sezioni prima di costruire la parte esterna. È possibile spostare la testa da un lato all'altro e inclinarla a sinistra e a destra, mentre la bocca può essere aperta e chiusa. Le orecchie si muovono, la coda può essere posizionata da un lato o dall'altro, e la zampa sinistra può essere poggiata a terra o tesa in avanti.

Ora ti diamo il guinzaglio e auguriamo a te e al tuo nuovo migliore amico una felice avventura di costruzione insieme!

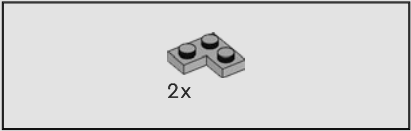

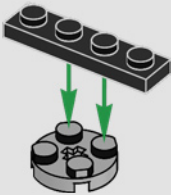

"Sono così felice di conoscerti:
sei il mio nuovo migliore amico!"

era importante?”

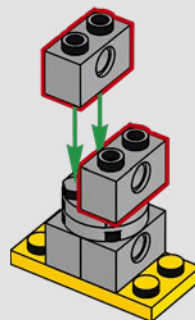

24

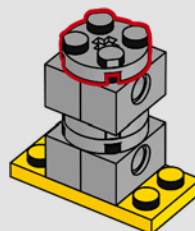

25

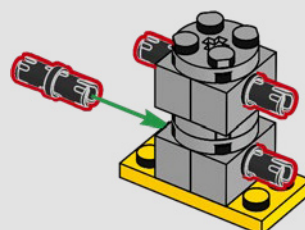

26

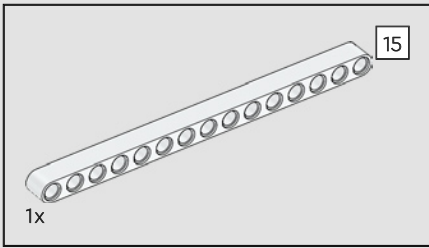

27

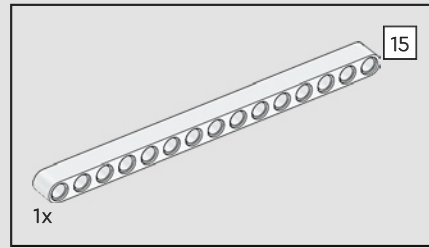

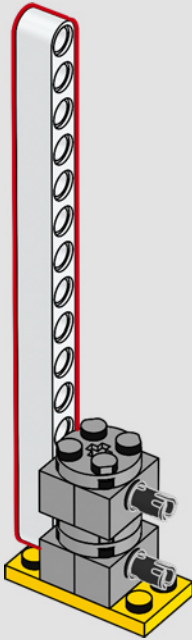

28

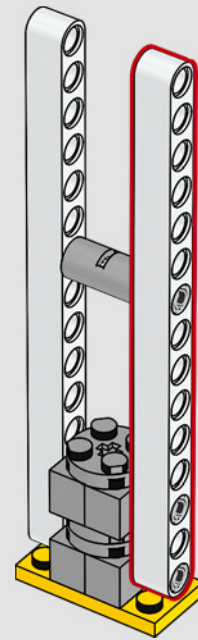

I cuccioli sono famosi per essere un po' instabili sulle gambe nei loro primi mesi di vita. Queste travi LEGO® Technic sono utilizzate per garantire che la struttura di questo cucciolo sia forte e stabile!

Con il modo in cui muovono le zampe, verrebbe da pensare che i cuccioli abbiano articolazioni di gomma! Abbiamo usato piccoli giunti sferici per fissare gli arti, assicurando una forte connessione e usando un angolo di nuova concezione.

Questo cucciolo non vede l'ora di imparare nuovi giochi.
Le gambe anteriori sono costruite in modo diverso: la gamba
anteriore sinistra può essere rivolta verso l'alto in una posa
"dammi la zampa" o "dammi il cinque".
