QUÍTALE LA MÁSCARA A TU CREATIVIDAD

✷ Fundada en el siglo V, Venecia surgió de la ingeniosa conexión de 118 pequeñas islas para formar una ciudad construida sobre el agua. Si has visitado la laguna de Venecia y contemplado sus singulares estructuras y canales, seguramente habrás podido sentir su increíble ambiente, tan impregnado de historia. Declarada Patrimonio de la Humanidad por la UNESCO y reconocida por su arquitectura gótica veneciana y su riqueza cultural, esta ciudad ha nutrido a generaciones de artesanos y ha facilitado la evolución de tradiciones artesanales de prestigio mundial. La música, el arte, la moda y los mosaicos de la época bizantina tejen un vibrante tapiz de expresiones creativas. Cada año, en febrero o marzo, la Serenísima se convierte en un escenario festivo con la llegada de los millones de visitantes que acuden al Carnaval de Venecia. ¡Y este modelo presenta el acontecimiento en todo su esplendor! Con extravagantes disfraces y enigmáticas máscaras llenas de simbolismo, todos tienen un papel que desempeñar en la animada celebración de la belleza y el misterio. ¡Dejaremos que sea tu imaginación la que decida quiénes son los personajes de este set!

LA LUNA Y EL SOL

Representaciones de la Luna, el Sol y otros cuerpos celestes se ven con frecuencia en Venecia y son temas muy populares en las máscaras y los disfraces de su carnaval. En conjunto, simbolizan el equilibrio universal, la armonía y el amor.

GONDOLEROS

Cuando las calles y las plazas se llenan de desfiles, lo mejor es alejarse del bullicio y dejar que un gondolero experto te lleve a recorrer los tranquilos canales.

IMPRESIONES DEL EQUIPO DE DISEÑO DE LEGO® ICONS

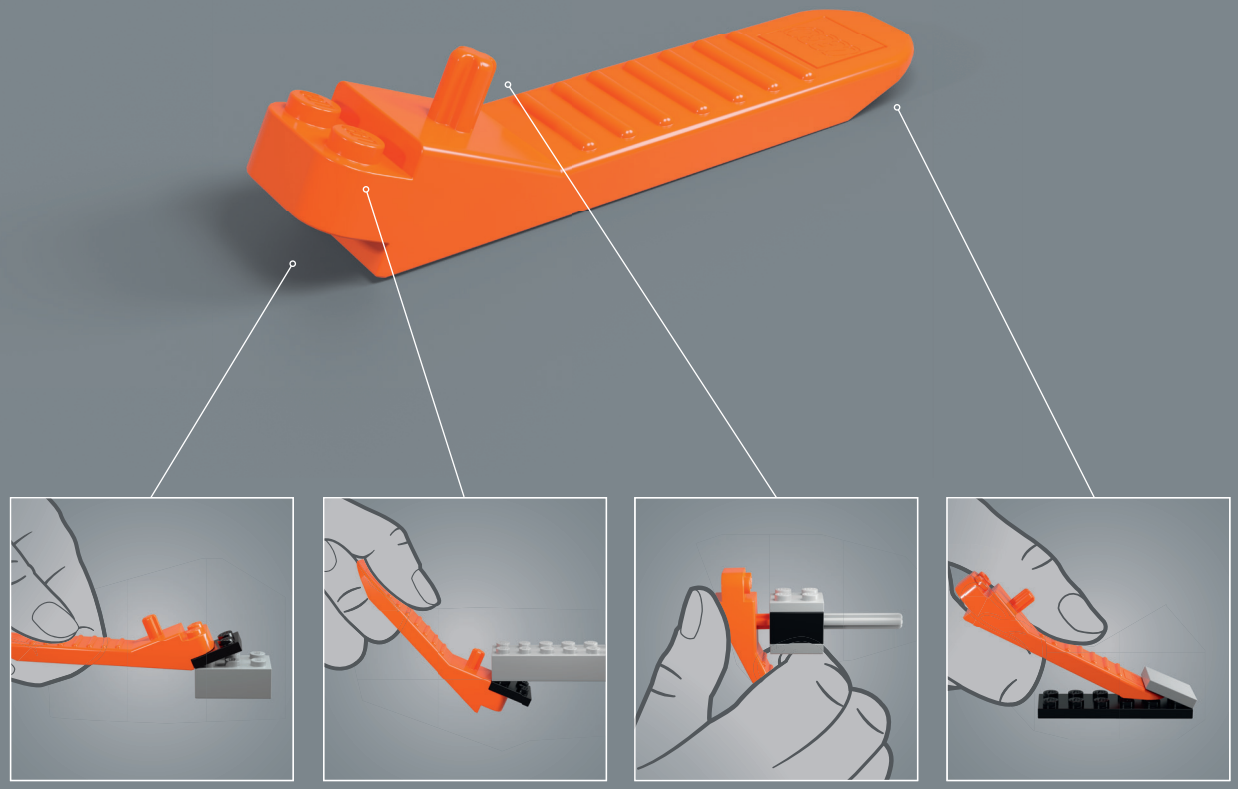

✷ Si quieres dar vida a una experiencia narrativa LEGO® Icons basada en una arquitectura única y repleta de minifiguras, el Barrio Veneciano lo tiene todo. Inspirados por los estilos, las referencias históricas y el emblemático carnaval de la ciudad, hemos diseñado una interpretación creativa que te permite pasear por este pintoresco paisaje urbano. Puedes separar las cubiertas con tejas de terracota y asomarte por los altos techos a un apartamento lujosamente amueblado con antigüedades. En la tienda de cristalería encontrarás auténticas joyas creadas por manos expertas que ponen de manifiesto el florecimiento de la artesanía tradicional. (¡Cuidado con los resbaladizos escalones cubiertos de musgo!). Al otro lado del puente peatonal, puedes explorar la antigua torre y girar su parte superior para que mire en otra dirección; acciona también la palanca y verás cómo se mueve el calendario celeste. Si necesitas tiempo para asimilarlo todo, relájate a la sombra del antiguo olivo. Incluso puedes intercambiar las dos secciones del modelo y exponerlo como prefieras. ¡Esperamos que disfrutes de tu estancia!

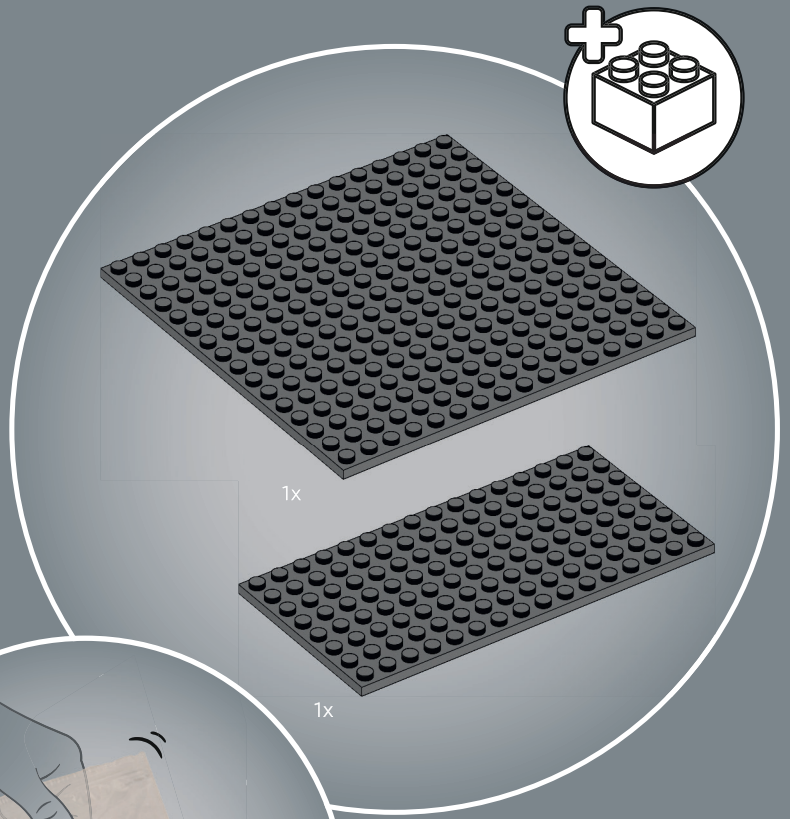

QUE SUENE LA MÚSICA

¿Oyes música? Venecia parece resonar al compás de una cautivadora partitura escrita hace siglos. Este piano en miniatura es una pieza impresa en 3D creada por un equipo de diseñadores de elementos, modelistas e ingenieros de sonido de LEGO® para darle un toque extra de ambiente.

Consejo: *Gira el jarrón colocado encima para que suene una melodía conocida.*

El archipiélago veneciano se sustenta sobre miles de pilotes de madera clavados a gran profundidad en el lecho de la laguna. (Te prometemos que este modelo tiene menos, y no tardarás el mismo tiempo en construirlo).

La técnica del soplado de vidrio consiste en insuflar aire mediante una pipa o caña hueca a una pasta de vidrio calentada a 1100 °C para, posteriormente, darle forma sobre un mable con diversas herramientas. (No lo intentes en casa).
