Helianthus annuus und Eucalyptus

SONNENBLUMEN UND EUKALYPTUS

Ob sie nun wild auf dem Feld wachsen, in den Garten gepflanzt werden oder dein Zuhause verschönern – Sonnenblumen machen ihrem Namen alle Ehre. Mit ihren flauschigen, hoch aufragenden Stielen, die sich zum Himmel strecken, strahlen sie Glück und Optimismus aus und fordern spielerisch die Sonne in puncto Aufmerksamkeit heraus! Sonnenblumen stammen aus Mittelamerika und dem Osten der Vereinigten Staaten und werden seit Jahrtausenden wegen ihres Nährwerts, ihrer Widerstandsfähigkeit und ihrer strahlenden Schönheit geschätzt. Vor fast 5000 Jahren begannen alte Zivilisationen mit ihrem Anbau, und seit Jahrhunderten dienen ihre leuchtenden Blüten als Blumenschmuck und zeitlose Modelle für die größten Künstler der Welt. In dieser LEGO® Botanicals Version werden sie von silberfarbenen Eukalyptuszweigen begleitet, die in Farbe und Dichte einen schönen Kontrast bilden.

**„Wir wollten mit dem
Blumenstrauß zeigen, wie
spektakulär Sonnenblumen
in ihren verschiedenen
Blütephasen sind.“**

*Das LEGO® Botanicals
Designteam*

AUS EINER WINZIGEN KNOSPE

Sonnenblumen sind beliebte Geschenke für wichtige Momente im Leben, ob groß oder klein. Die junge Knospe verspricht einen Neuanfang, bringt Freude und steht für die Vorfreude auf neue Abenteuer.

HALB GEÖFFNET

Halb geöffnete Sonnenblumen zeigen, wie Wünsche Gestalt annehmen. Sie strahlen den frischen Optimismus der Jugend und Begeisterung aus.

IN VOLLER BLÜTE

Eine Sonnenblume in voller Blüte strotzt nur so vor Farbe und Selbstbewusstsein – ein prächtiges Symbol für Wachstum und Erfüllung. Und wenn sie schließlich verwelkt, nährt sie den Boden und verspricht künftige Blüten.

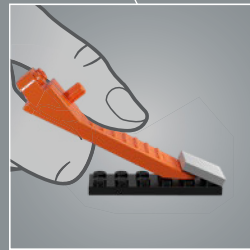

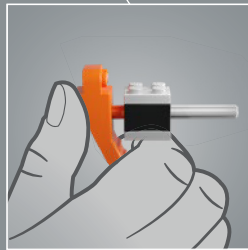

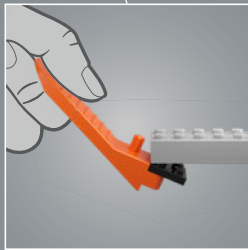

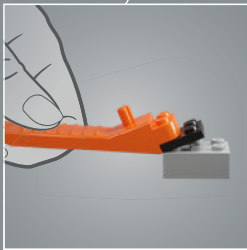

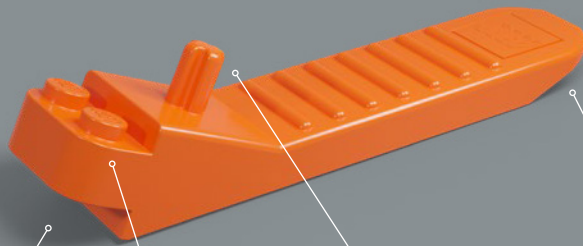

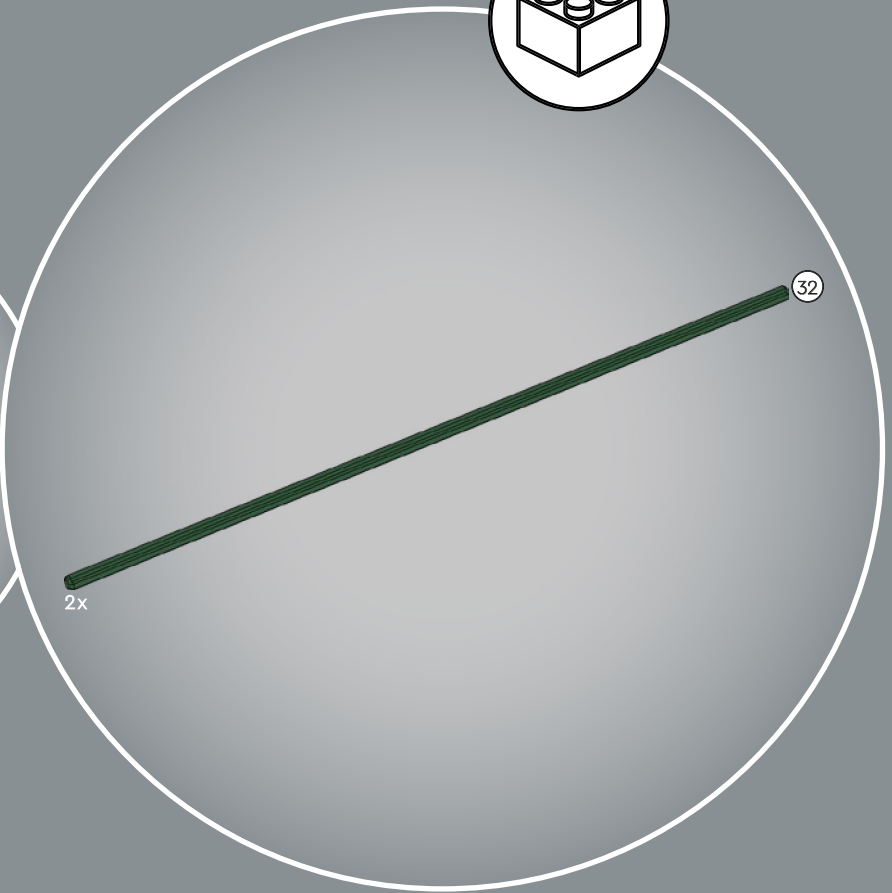

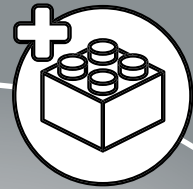

EUKALYPTUS

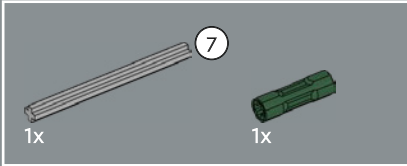

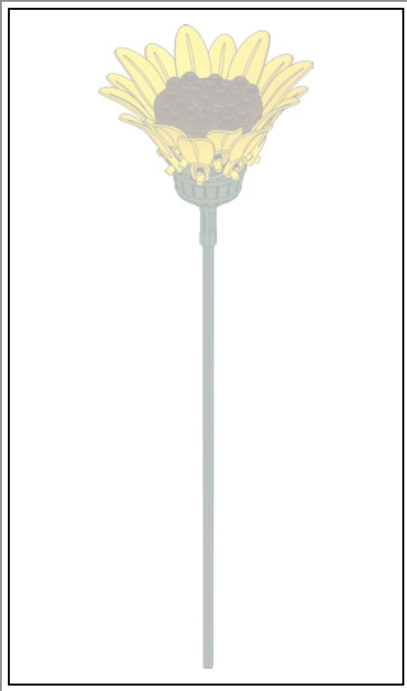

Der duftende silbrige Eukalyptusbaum stammt aus Australien und ist nicht nur dekorativ, sondern auch ein wichtiger Bestandteil der Ernährung von Koalas. Als Geschenk verspricht Eukalyptus Wohlbefinden, Kraft und Klarheit – ein perfekter Begleiter, wenn man neue Unternehmungen in Angriff nimmt.
