Magnolienzweige

Seit dem ersten LEGO® Botanicals Blumenstrauß wollten wir ein Set kreieren, das die Schönheit des Magnolienbaums feiert. Im Laufe der Jahre haben wir mit verschiedenen Bautechniken und Elementen experimentiert, um das unverwechselbare Aussehen zweifarbiger Arten zu interpretieren.

Schließlich haben wir uns von den subtilen Farbverläufen der Blütenblätter inspirieren lassen und eine neue Version eines unserer bestehenden Blattelemente entworfen. Unser Team für die Elementformung hat ein einzigartiges Verfahren eingesetzt, bei dem die beiden Farben nahtlos zu einem Blattelement verschmelzen, um einen gleichmäßigen Farbverlauf zu erzielen.

“

„Am Ende gelang es uns, unseren Strauß aus Magnolienzweigen zum Leben zu erwecken. Während du baust, kannst du die verschiedenen Wachstumsstadien der Blumen beobachten, von winzigen Knospen bis hin zu prächtigen Blüten. Wir hoffen, du hast viel Freude daran, dein Zuhause mit der zarten Schönheit dieses prächtigen Baumes zu verschönern!“

DAS LEGO® BOTANICALS DESIGN TEAM

Alte Wurzeln

Fossilien zeigen, dass Magnolien zu den ältesten Blütenpflanzen gehören – sie lassen sich bis zu 95 Millionen Jahre zurückverfolgen.

Eine vielfältige Spezies

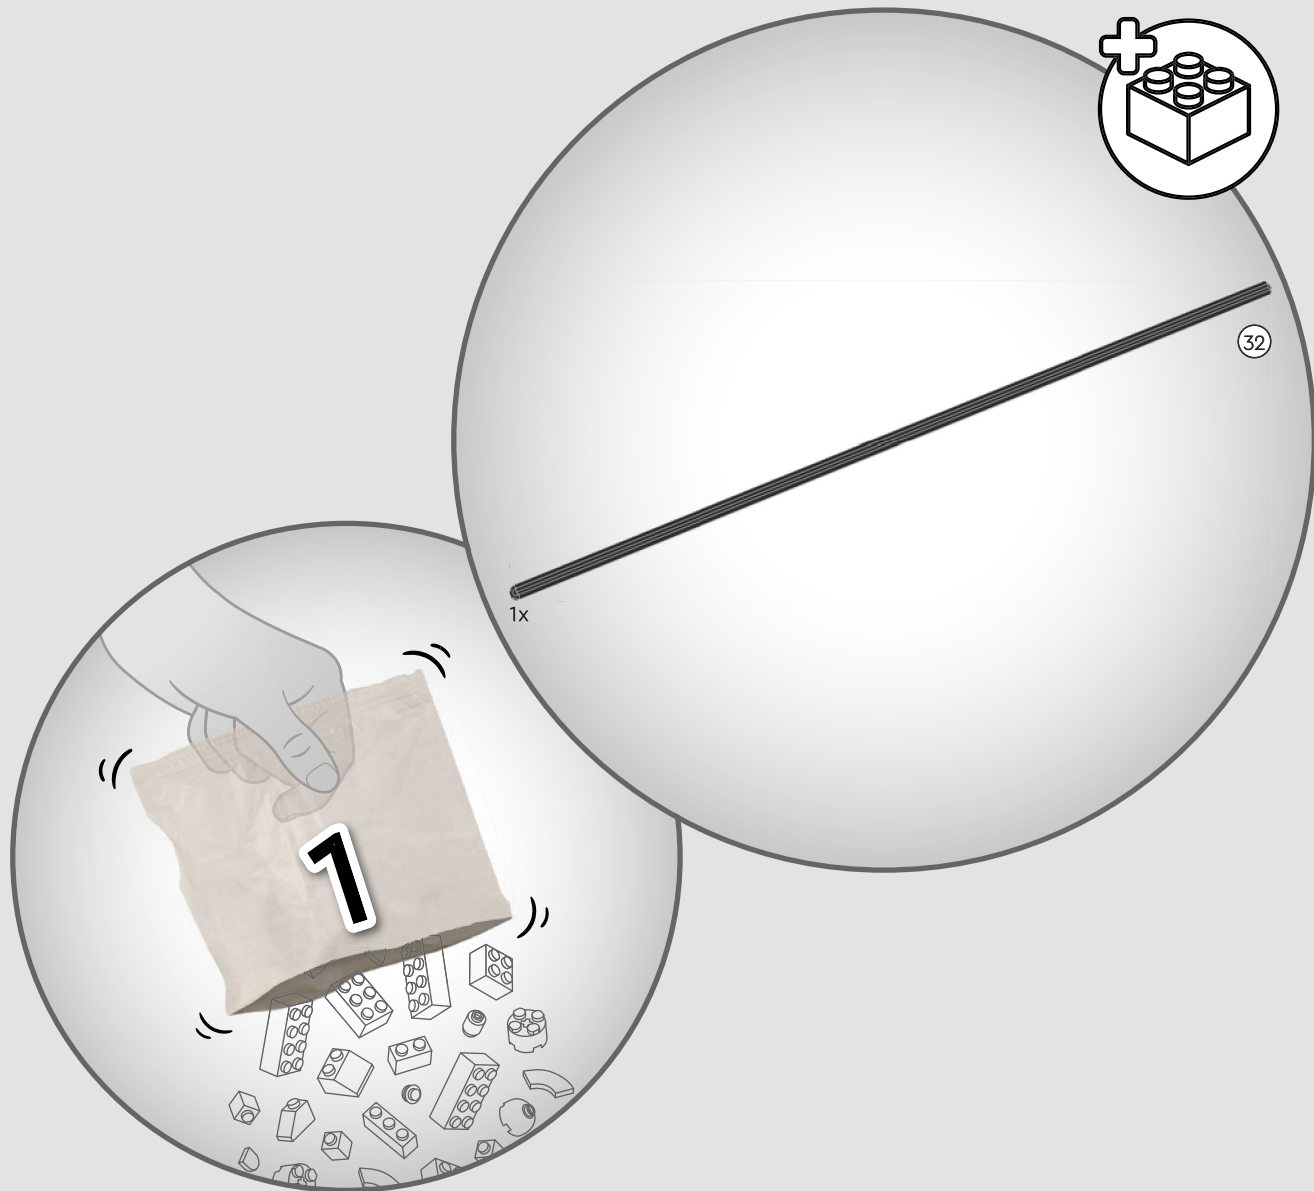

In Asien, Nord- und Mittelamerika sowie in der Karibik gibt es fast 250 Arten von Magnolienbäumen und -sträuchern.

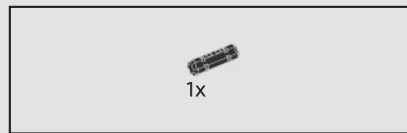

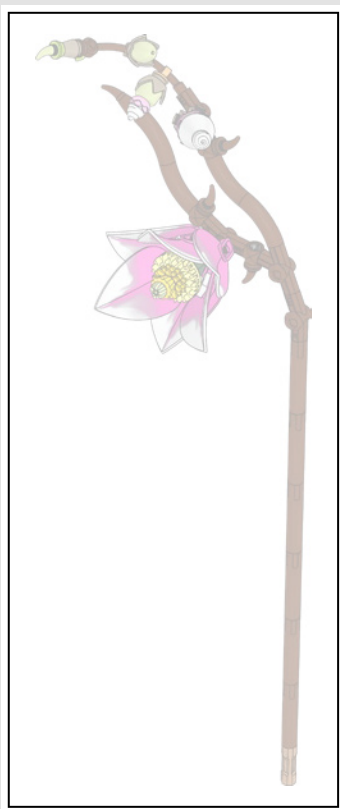

Spiralmuster

Während viele Blumen ausgeprägte Blütenblätter haben, sind die Blütenteile von Magnolien wie Staubblätter und Fruchtblätter spiralförmig angeordnet.

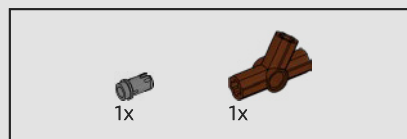

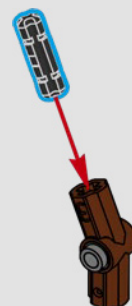

Finde heraus, wie du diese Blumen mit anderen LEGO® Botanicals Sets kombinieren kannst.

Brumm, brumm! Wenn du Autofan bist, erkennst du vielleicht dieses Element – es ist eine Radkappe, die wir in LEGO® Autos verwenden.
