MONUMENTALE WAHRZEICHEN DER

Stadt der Liebe

Seit Jahrhunderten lockt die französische Hauptstadt einige der berühmtesten Koryphäen aus Kunst und Architektur an, denn in Paris finden sie Inspiration – und sie können ihre Kreativität ausleben. Paris wird gerne als Stadt der Liebe bezeichnet. Doch dieser Beiname bedeutet viel mehr als nur romantische Zuneigung. Die berühmtesten Wahrzeichen von Paris sind bleibende Symbole für den starken kollektiven Wunsch, kühne kreative Werke, die Geschichte und zeitlose Schönheit zu feiern. Vielleicht liebst du diese Stadt wegen ihres authentischen historischen Charmes oder weil sie Innovation und Tradition in Kunst, Musik und Mode so nahtlos verbindet. Du warst schon dort? Dann wird dir diese Hommage hoffentlich schöne Momente in Erinnerung rufen. Du willst Paris erst noch besuchen? Dann wirst du dort bestimmt selbst diese außergewöhnliche Atmosphäre genießen.

Notre-Dame de Paris

Der Bau von Notre-Dame de Paris begann im Jahr 1163. Heute ist die Kathedrale eine Ikone der Gotik und ein Symbol der Widerstandsfähigkeit, die Frankreich in seiner Geschichte immer wieder demonstriert hat. Sie hat Revolutionen, schwerste Zeiten und sogar Brände überstanden. Nach ihrem Wiederaufbau öffnete sie im Jahr 2024 wieder ihre Pforten. 15 Millionen Menschen besuchen die berühmte Kathedrale jedes Jahr.

Der Eiffelturm

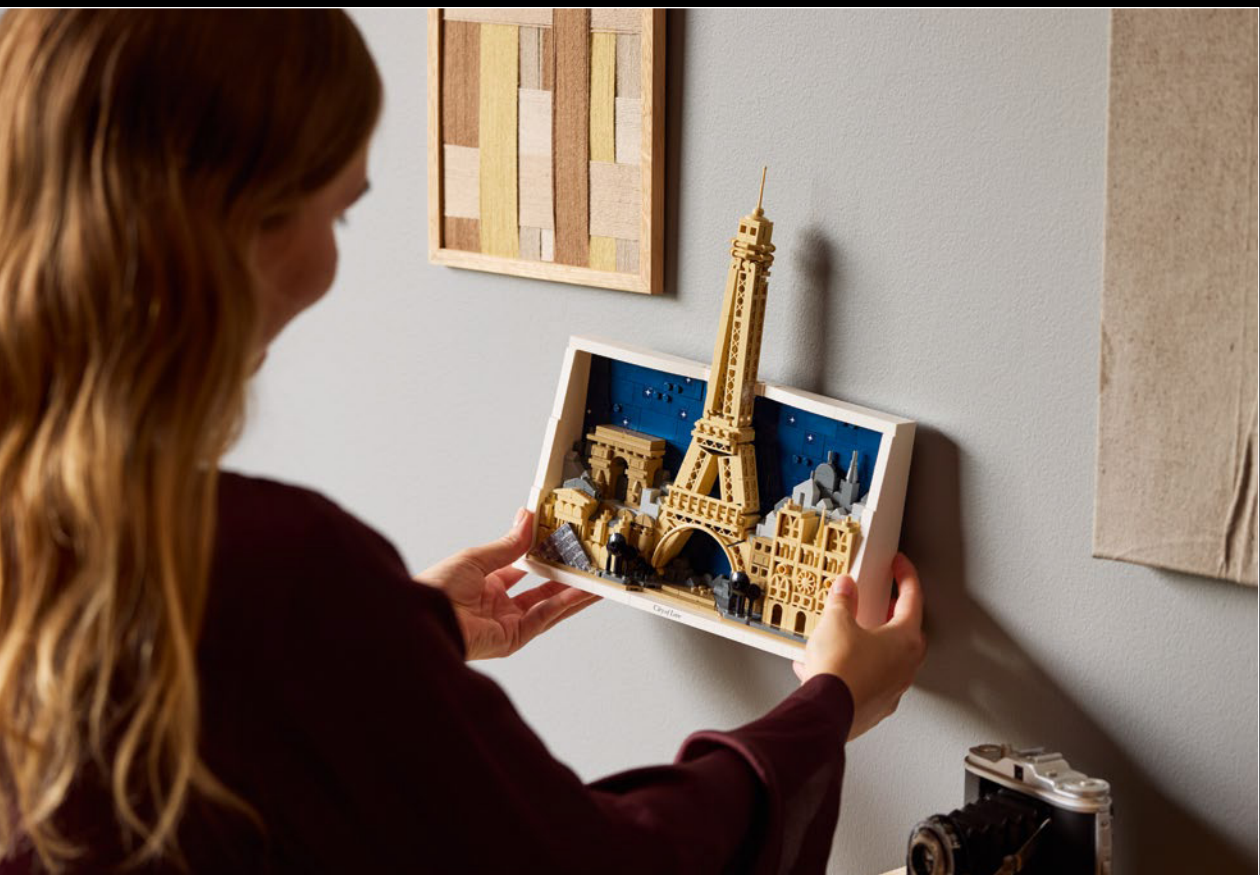

Die von Gustave Eiffel zur Weltausstellung im Jahr 1889 errichtete „Eiserne Dame“ ist 300 Meter hoch und lockt jedes Jahr sechs Millionen Menschen an. Der Bau des Turms dauerte etwas länger als zwei Jahre. Ursprünglich war er auf eine Nutzungsdauer von 20 Jahren ausgelegt. Seine markante Silhouette ist längst zu einem weltweiten Symbol für Frankreich geworden.

Der Triumphbogen

Der Triumphbogen zu Ehren früherer und heutiger französischer Streitkräfte wurde 1806 von Napoleon in Auftrag gegeben und 1836 fertiggestellt. Unter dem Bogen befindet sich das Grabmal des unbekannten Soldaten. Deshalb ist er nicht nur ein Siegesymbol, sondern auch eine nationale Gedenkstätte.

Der Louvre

Der Louvre, der seit 1793 für alle zugänglich ist, zählt heute zu den bedeutendsten Museen der Welt. Entstanden aus der Französischen Revolution und Erbe bedeutender königlicher Sammlungen, hat sich dieser ehemalige Palast der französischen Könige stets an die nationale und globale Geschichte angepasst und diese widergespiegelt.

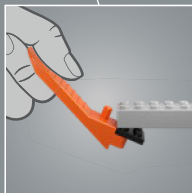

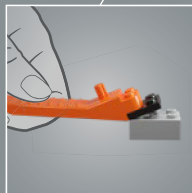

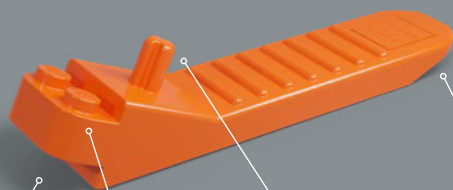

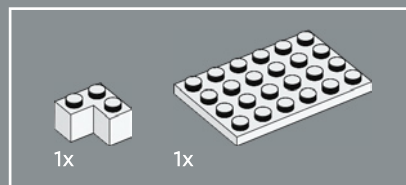

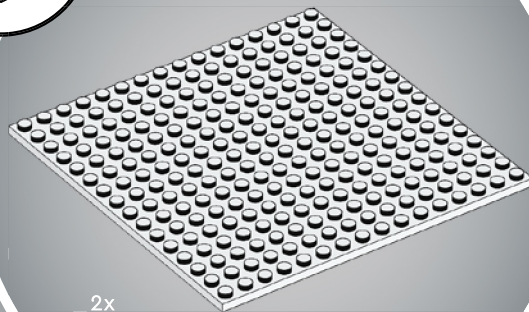

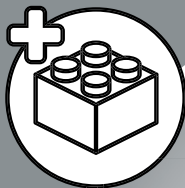

Ein minimalistischer weißer Rahmen umsäumt die Szene, damit das Modell leicht in einem Regal ausgestellt oder an die Wand gehängt werden kann.

ANMERKUNGEN DES LEGO® ARCHITECTURE

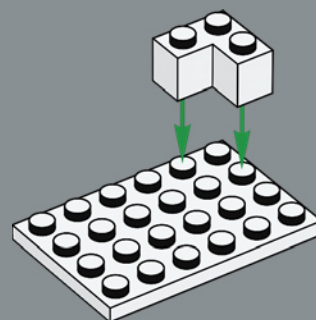

Designteams

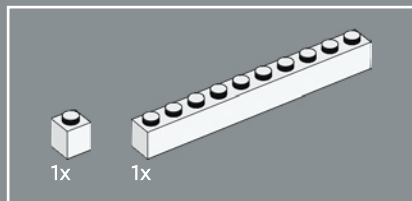

Dieses Modell soll das Lebensgefühl und die Ästhetik von Paris in einer wunderschönen Zimmerdeko einfangen und einige der berühmtesten Wahrzeichen der Stadt kunstvoll darstellen. Diese Kombination aus typischen Pariser Bauwerken und Skyline-Silhouetten erzeugt ein ebenso zauberhaftes wie faszinierendes Bild. Wer sich mit unseren LEGO® Architecture Sets auskennt, wird feststellen, dass dieses Modell unsere Skyline-Reihe fortführt – allerdings mit einem neuen Kniff. Berühmte Bauwerke werden weiterhin sehr detailgetreu nachgebildet, doch vor allem sollen ein Gesamtbild und eine Atmosphäre erzeugt werden, ohne allzu streng an der Wirklichkeit zu haften. Angesichts des kleinen Maßstabs haben wir mit verschiedenen Elementen experimentiert, um die perfekten LEGO Teile für die Darstellung diverser Details zu finden. Je weiter man im Modell zurückgeht, desto kleiner wird der Maßstab, wodurch die Szene eine gewisse Tiefe erhält, zum Beispiel durch die Bäume, die die Straße säumen. Verschiedene Teile des Modells sind übereinandergeschichtet, um trotz des niedrigen Profils die Illusion von Tiefe zu erzeugen. Das Modell besteht aus kleinen Modulen, die jeweils eines der Bauwerke darstellen und vom Rahmen umsäumt und vereint werden. Du kannst diese Module einzeln bauen und dann wie ein Puzzle oder eine 3D-Postkarte zusammenfügen.
