SÍMBOLOS MONUMENTALES DE LA

# *Ciudad del Amor*

Durante siglos, la capital francesa ha atraído, inspirado y nutrido a algunos de los artistas y arquitectos más célebres de todos los tiempos. Si bien es ampliamente conocida como la Ciudad del Amor, esta ciudad encierra significados que van mucho más allá de los ideales del amor romántico. Los monumentos más emblemáticos de París se erigen como símbolos perdurables de un profundo deseo colectivo de celebrar las expresiones creativas más audaces, la historia y la belleza intemporal. Tal vez la urbe ocupe un lugar especial en tu corazón por su auténtico encanto histórico o por su perfecta mezcla de innovación y tradición en ámbitos como el arte, la música y la moda. Si ya has estado allí, confiamos en que este homenaje en formato de modelo reavive tus recuerdos más gratos; si aún no la has visitado, esperamos que disfrutes de una visión de la extraordinaria atmósfera que ofrece esta famosa metrópoli.

## *La Catedral de Notre Dame*

Las obras de la Catedral de Notre Dame comenzaron en 1163; hoy es un icono del gótico y representa la resiliencia en el corazón de la historia de Francia. Reconstruida y reinaugurada en 2024, ha sobrevivido a revoluciones, incendios y el paso del tiempo. La famosa catedral recibe la visita de 15 millones de personas al año.

## *La Torre Eiffel*

Proyectada por Gustave Eiffel para la Exposición Universal de 1889, la Dama de Hierro tiene una altura de 300 m y recibe a seis millones de visitantes al año. Diseñada originalmente para durar dos décadas, tardó en construirse solo un par de años. Su inconfundible silueta es un icono mundial de Francia desde hace ya mucho tiempo.

## *El Arco del Triunfo*

Encargado por Napoleón en 1806 y terminado en 1836, el Arco del Triunfo honra a los ejércitos franceses del pasado y el presente. Bajo él se encuentra la tumba del soldado desconocido, lo que lo convierte tanto en un símbolo de triunfo como en un lugar solemne de memoria patria.

## *El Louvre*

Abierto al público desde 1793, el Louvre es hoy uno de los museos más importantes del mundo. Nacido de la Revolución francesa y heredero de importantes colecciones reales, este antiguo palacio de los reyes franceses siempre ha reflejado la historia tanto nacional como mundial, adaptándose a ella.

*El marco blanco minimalista que contiene la escena se puede exponer fácilmente en una estantería o colgado en la pared.*

LEGO® ARCHITECTURE: IMPRESIONES DEL

## *equipo de diseño*

Este modelo busca capturar la emoción y la estética de París en una bella pieza para exponer en el hogar que retrata artísticamente algunos de los monumentos más famosos de la ciudad. La combinación de edificios eminentemente parisinos y siluetas del horizonte urbano crea una escena encantadoramente inmersiva. Si estás familiarizado con los modelos LEGO® Architecture, en este set descubrirás un nuevo giro a nuestra serie Skyline. Aunque las estructuras icónicas se plasman con gran detalle, en este caso se prioriza la creación de una escena y una atmósfera generales por encima del realismo. Las dimensiones más reducidas nos obligaron a experimentar con distintos elementos para encontrar las piezas LEGO perfectas para representar diversos detalles. Cuanto más retrocedes en el modelo, menor es la escala, lo que refuerza la sensación de profundidad de la escena (solo tienes que mirar lo que pasa con los árboles). A pesar de su estrecha base, la superposición de sus diferentes partes logra crear la ilusión de profundidad. Como el modelo se compone de un marco de exposición y múltiples secciones pequeñas para cada estructura destacada, puedes dar forma a estas individualmente y ver cómo todo se une como un rompecabezas o una postal en 3D.
