SYMBOLES MONUMENTAUX DE LA

ville de l'amour

Depuis des siècles, la capitale française attire, inspire et nourrit certains des artistes et architectes les plus renommés de l'histoire. Si elle très souvent appelée « ville de l'amour », ce surnom a une signification qui va bien au-delà d'un idéal de sentiments romantiques. Les monuments les plus emblématiques de Paris se dressent comme les symboles immuables d'une volonté collective et profonde de célébrer l'expression d'une créativité audacieuse, l'histoire et la beauté intemporelle. Peut-être la ville tient-elle une place particulière dans votre cœur en raison de son charme historique authentique ou de son mélange harmonieux d'innovation et de tradition dans les domaines de l'art, de la musique et de la mode. Si vous l'avez déjà visitée, nous espérons que ce modèle créé en son hommage fera remonter de beaux souvenirs. Si vous n'y êtes jamais allé(e), nous espérons que vous apprécierez cet aperçu de l'atmosphère extraordinaire qu'offre cette célèbre ville.

Notre-Dame de Paris

La construction de Notre-Dame de Paris a débuté en 1163. La cathédrale est aujourd'hui une icône de l'art gothique et le symbole de la résilience au cœur de l'histoire de France. Reconstituée et rouverte en 2024, elle a survécu aux révolutions, aux incendies et à l'épreuve du temps. 15 millions de personnes visitent chaque année cette célèbre cathédrale.

La tour Eiffel

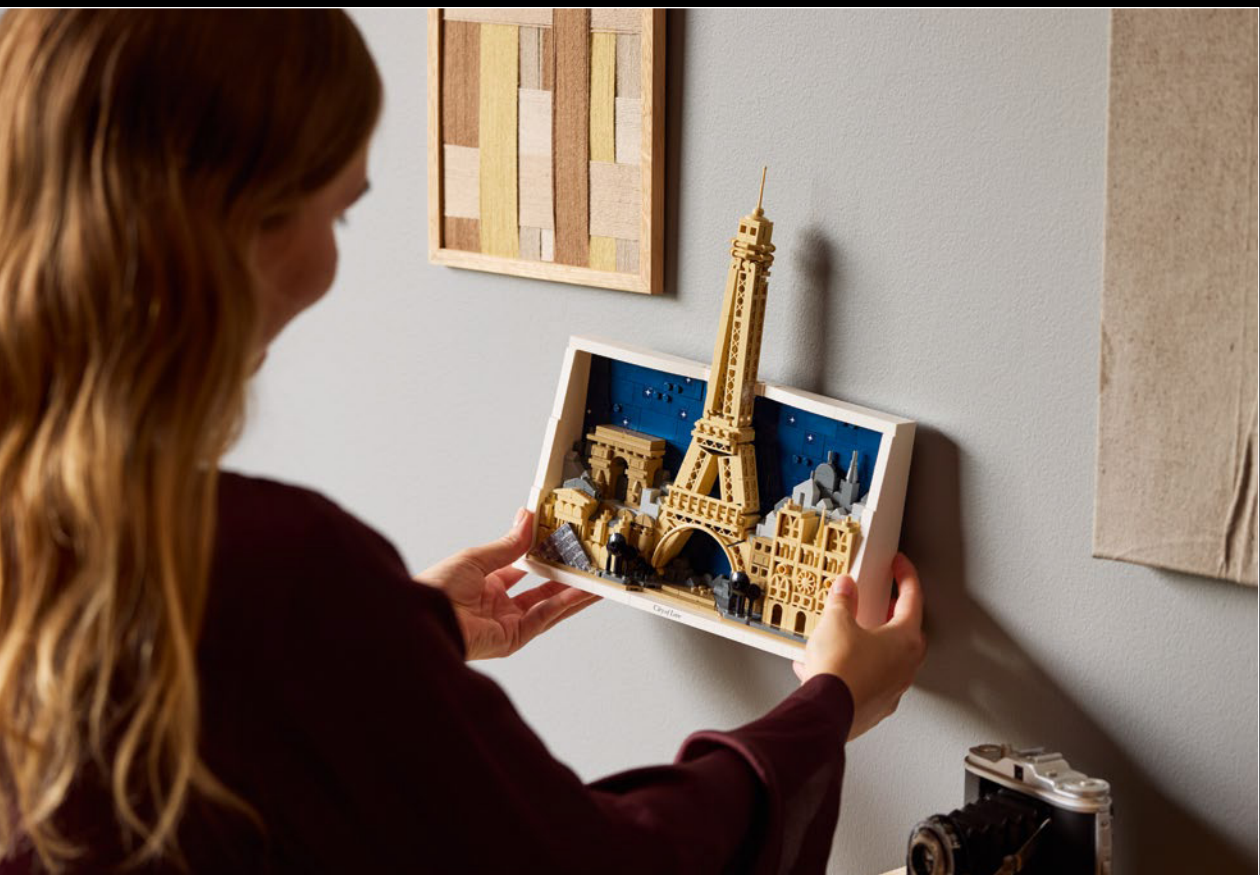

Construite par Gustave Eiffel pour l'exposition universelle de 1889, la « Dame de fer » mesure 300 m de haut et accueille six millions de visiteurs chaque année. Conçue à l'origine pour durer 20 ans, il n'a fallu qu'un peu plus de deux ans pour la construire. Sa silhouette caractéristique est depuis longtemps devenue une icône mondiale de la France.

L'Arc de Triomphe

Commandé par Napoléon en 1806 et achevé en 1836, l'Arc de Triomphe rend hommage aux armées françaises d'hier et d'aujourd'hui. Il se dresse au-dessus de la tombe du Soldat inconnu, ce qui en fait à la fois un symbole de triomphe et un lieu solennel de commémoration nationale.

Le Louvre

Ouvert à tous depuis 1793, le Louvre est aujourd'hui l'un des plus grands musées du monde. Né de la Révolution française et héritier de collections royales prestigieuses, cet ancien palais des rois de France a toujours su refléter et s'adapter à l'histoire nationale comme internationale.

Un cadre blanc minimaliste entoure la scène, permettant de présenter le modèle sur une étagère ou de l'accrocher au mur.

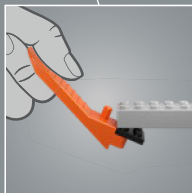

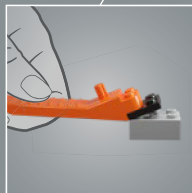

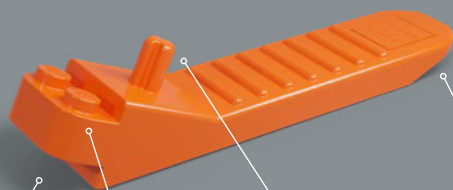

LE MOT DE

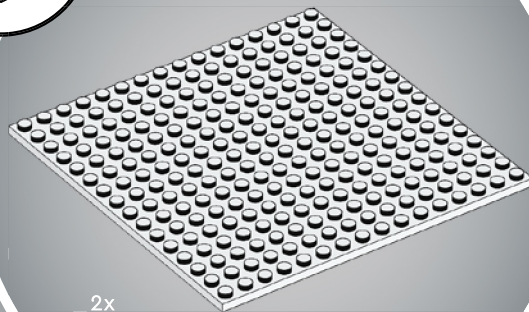

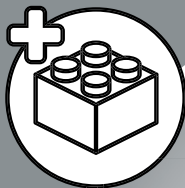

L'ÉQUIPE DE DESIGNERS

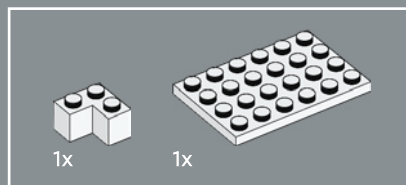

LEGO® ARCHITECTURE

Ce modèle capture l'émotion et l'esthétique de Paris dans une superbe décoration intérieure, en créant une représentation artistique de quelques-uns des sites les plus célèbres de la ville. Combinant des bâtiments emblématiques de la ville de Paris et des silhouettes urbaines, il crée une scène immersive, pleine de charme. Si vous connaissez les modèles de la gamme LEGO® Architecture, ce set propose une nouvelle variante de notre série Skyline. Les structures des monuments sont toujours reproduites avec un sens aigu du détail, bien que l'accent soit plutôt mis sur la création d'une scène et d'une atmosphère globales que sur une représentation strictement conforme à la réalité. Compte tenu de l'échelle réduite, nous avons expérimenté différents éléments avant de trouver les pièces LEGO parfaites pour représenter les différents détails. Plus on s'enfonce dans le modèle, plus l'échelle diminue, ce qui donne à la scène une impression de profondeur (observez les arbres bordant la rue, par exemple). Certaines sections du modèle se superposent pour créer une illusion de profondeur malgré la faible épaisseur du cadre. Le modèle étant constitué de petites sections pour chaque structure présentée, toutes contenues dans le cadre, vous pouvez construire chaque section individuellement, puis assembler le tout à la façon d'un puzzle ou d'une carte postale en 3D.
