Conoce al fan diseñador

El fan diseñador Maximilian Lambrecht (conocido en LEGO® Ideas como HisBrickMaterials) es un artista de efectos visuales de Alemania con una gran pasión por la naturaleza:

"Trato de pasar mi tiempo libre alejado de todo lo que parezca una pantalla, bien al piano, pintando, dibujando o jugando a juegos de mesa. No obstante, la naturaleza es mi principal fuente de inspiración. ¡Es lo más sorprendente, espectacular y tranquilizador que existe! Me fascinan las nutrias y, para recrearlas en versión LEGO, vi algunos documentales y fui al zoológico local, lo que me permitió elaborar los bocetos preliminares. Quería capturar la esencia juguetona de estas criaturas, y estaba impaciente por charlar con otros fans sobre trucos de construcción... ¡y por hacer juegos de palabras pésimos con nutrias sin rutinas! El modelo muestra a la nutria en su hábitat natural con una sensación imaginaria de profundidad. Incorporé elementos que representan rocas, garras, cubiertas modificadas, ladrillos con pendiente y vegetación, y ajusté los colores para armonizar su apariencia. Aun así, no podría haber soñado un resultado mejor; es una increíble experiencia que recordaré con emoción durante mucho mucho tiempo".

PROPUESTA ORIGINAL DE MAXIMILIAN:

La expresión facial y la postura de la nutria marina hacen que parezca casi de verdad. Una serie de ingeniosos detalles y los colores estratégicamente colocados bajo la superficie de cubiertas transparentes aportan profundidad al entorno.

Impresiones del equipo de diseño de LEGO® Ideas

La juguetona nutria de Maximilian nos cautivó al instante. En colaboración con él, decidimos realzar el realismo del modelo sin perder la ternura que transmite y, por eso, agregamos un cachorro durmiendo plácidamente sobre el vientre de su madre. Las nutrias son muy largas, pero la postura a flote con las patitas arqueadas hacia arriba resultó ideal para el modelo. Los colores de las nutrias marinas varían según la especie, la región y la edad. Para mejorar aún más la experiencia de construcción, reproducimos la variación de tonos del pelaje mojado, que suele ser marrón oscuro en el cuerpo y un poco más claro en la cabeza. También queríamos que tuviera brazos móviles que le permitieran tocarse la cara (una pose muy común entre las nutrias) y poner las manitas sobre el cachorro o la almeja. Eso se convirtió en un divertido desafío. Además, era necesario que el codo pareciera estar sumergido. Creamos un recorte en la superficie del agua con una forma muy similar a la de la parte inferior del brazo, con dos puntos de articulación para ampliar el rango de movimiento.

BRAZOS MÓVILES

¡Ay, quién fuera cachorro de nutria marina! Si este nada a otro lugar para jugar un poco, puedes poner suavemente los brazos de su mamá sobre su tentempié favorito.

PATITAS ARQUEADAS

Tanto las patas como los dedos pueden colocarse en distintas posiciones divertidas como las de las nutrias marinas de verdad.

DETALLES EN PROFUNDIDAD

Dimos más profundidad a las partes de agua formando capas de elementos azules y verdes y delineando la silueta de la nutria en el fondo para crear la ilusión de estar contemplando el cuerpo completo del animalito.

La anciana del mar

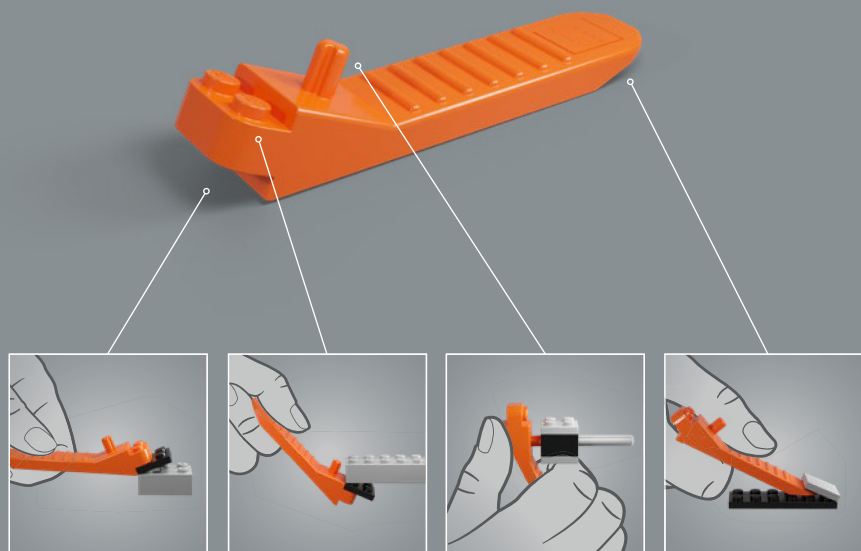

¡Los grandes ojos oscuros y el esponjoso pelaje de las nutrias marinas te hacen querer abrazarlas al instante! Si a eso le agregas la inteligencia de su comportamiento, ¡la ternura se desborda! Duermen sobre las algas o flotando boca arriba y, cuando lo hacen juntas, a veces se agarran de la mano para que las corrientes no las separen (¡qué monas!). Usan rocas (que incluso guardan bajo los pliegues de su piel cuando una les gusta particularmente) para abrir almejas, mejillones o cangrejos. Suele vérselas flotando con algún tentempié sobre el vientre y comiéndolo sin prisa, como si disfrutaran de unas vacaciones permanentes junto al agua. Al no tener mucha grasa corporal, las nutrias marinas dependen de su denso pelaje (con unos 150.000 pelos por centímetro cuadrado de piel) para conservar el calor del cuerpo. No obstante, mantenerlo limpio es un trabajo a jornada completa. También son muy sociables y crían a sus cachorros en el agua, abrazándolos frecuentemente mientras les enseñan a nadar, jugar y sobrevivir. Si tienes la suerte de cruzarte con una en la naturaleza, recuerda que la *anciana del mar* valora su espacio personal, así que asegúrate de contemplarla desde una distancia segura.

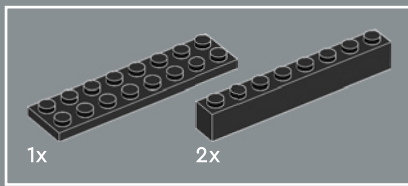

Es común encontrar nutrias marinas en las orillas rocosas, las zonas intermareales, las barreras de coral y los bosques de algas de las aguas costeras poco profundas de Alaska y el Pacífico norte.

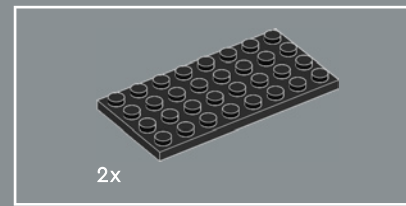

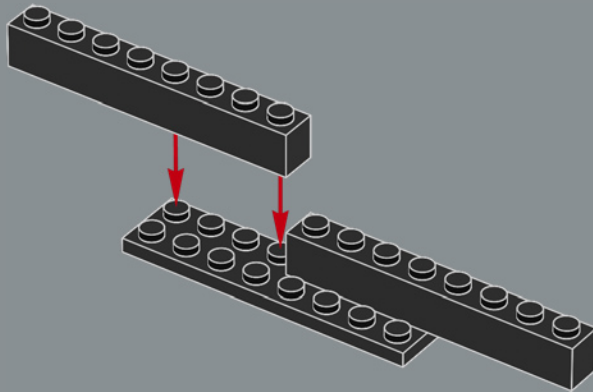

Son expertas en cuidar de sus herramientas (las rocas) y de otros de su especie. ¡Esperamos que a ti te encante cuidar de este ejemplar!
