Conosciamo il fan-designer

Il fan designer Maximilian Lambrecht (nome LEGO® Ideas HisBrickMaterials) è un artista di effetti visivi tedesco, con la passione per la natura:

"Cerco di trascorrere il mio tempo libero lontano da qualsiasi cosa a forma di schermo: al pianoforte, dipingendo, disegnando o giocando a giochi da tavolo. Ma la natura è la mia fonte di ispirazione più sorprendente, spettacolare e fondamentale! Adoro le lontre e, per questo modello, ho guardato tanti documentari e sono andato allo zoo locale, disegnando contorni e schizzi per la versione LEGO. Volevo catturare l'essenza giocosa della lontra e non vedevo l'ora di confrontarmi con altri appassionati per scoprire trucchi sulla costruzione e fare battute estremamente 'lontraiose'! La lontra è mostrata nel suo habitat naturale, con un senso di profondità immaginario. Ho aggiunto elementi roccia, accessori artiglio, tessere modificate, slope e varie parti della vegetazione al modello e ho modulato i colori dei mattoncini per ottenere un aspetto armonioso. Tuttavia, non avrei mai immaginato un risultato del genere - è un'esperienza surreale che custodirò a lungo nel mio cuore".

LA PRESENTAZIONE ORIGINALE DI MAXIMILIAN:

La lontra marina ha un aspetto quasi realistico con la sua adorabile espressione del volto e posa. I dettagli e i colori sapientemente incorporati sotto la superficie trasparente delle tessere aggiungono profondità al suo ambiente.

Il LEGO® Ideas Design Team

La lontra giocosa di Maximilian ha subito avuto un forte impatto su di noi. Lavorando con lui, abbiamo deciso di migliorarne l'aspetto realistico mantenendo il fattore simpatia, ovviamente, quindi abbiamo incluso un cucciolo di lontra posizionato sulla pancia della madre. Le lontre sono piuttosto lunghe, ma la posa 'fluttuante' era perfetta per il modello, con le zampe rivolte verso l'alto. I colori delle lontre marine variano a seconda della specie, della regione e dell'età. La pelliccia è spesso di un marrone molto scuro e la testa è un po' più chiara, quindi abbiamo cercato di migliorare l'esperienza di costruzione tramite un processo di astrazione dei colori. Volevamo le sue braccia fossero mobili, permettendole di posizionare le zampe contro il viso (una posa molto comune per le lontre) e di allungarle in avanti per posare una zampa sul cucciolo o sulla conchiglia. Questa si è rivelata una sfida divertente. Il gomito doveva sembrare come se fosse "immerso" nell'acqua. Abbiamo creato un'apertura sulla superficie dell'acqua che corrispondeva perfettamente alla forma del braccio inferiore e, per avere un range di movimento completo, abbiamo incluso due punti di articolazione sotto la superficie dell'acqua.

BRACCI MOBILI

Oh, essere un cucciolo di lontra! Se il cucciolo se ne va per andare a giocare altrove, potete muovere delicatamente le braccia della mamma e posizionare il suo spuntino preferito qui.

GAMBE RPIEGATE

Sia le gambe sia le dita delle zampe sono articolate per poter imitare le diverse pose giocose della lontra marina.

PROFONDITÀ NEI DETTAGLI

Abbiamo aggiunto maggiore profondità alle parti dell'acqua, utilizzando elementi stratificati in blu e verde con un livello di contorno sotto lo strato dell'acqua, per creare l'illusione delle dimensioni complete della lontra.

Il vecchio del mare

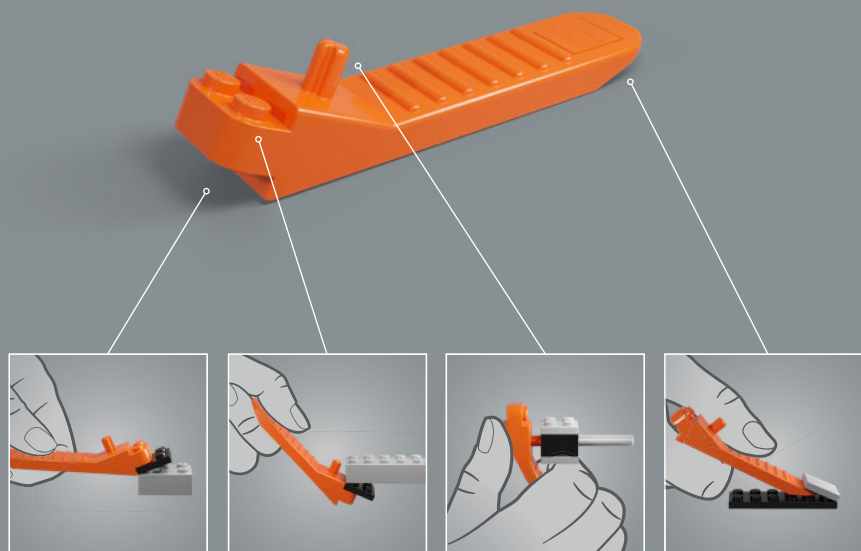

Con i loro occhi grandi e scuri e un aspetto quasi da peluche, le lontre marine sono così tenere che verrebbe voglia di abbracciarle e baciarle! E con il loro comportamento intelligente, il fascino delle lontre marine diventa ancora più irresistibile! Galleggiano a pancia in su, riposano tra le alghe e persino intrecciano le zampe per non perdersi di vista, le lontre marine conquistano letteralmente il cuore di chiunque! Con l'uso di pietre - alcune addirittura conservano il loro sasso preferito in una comoda tasca - aprono con abilità vongole, mitili e granchi. Consumando il loro spuntino con il cibo sapientemente posizionato sulla pancia, sembrano vivere la loro vita migliore in una perenne vacanza a bordo piscina. Poiché non hanno grasso per mantenersi al caldo, le lontre marine fanno affidamento sul loro pelo incredibilmente folto - fino a un milione di peli per 6,5 cm quadrati. Con tutto questo pelo, mantenersi pulite e ben curate è un lavoro a tempo pieno. Sono super socievoli, allevano i loro cuccioli nell'acqua e li coccolano insegnando loro a nuotare e giocare. Se hai la fortuna di vederne una in natura, ricorda: il "vecchio del mare" apprezza il suo spazio personale, quindi assicurati di tenerti a una distanza di sicurezza.

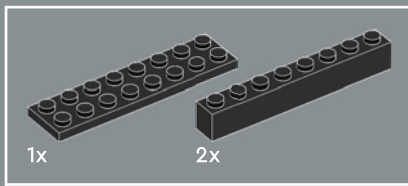

Nelle acque poco profonde lungo le coste dell'Alaska e del Pacifico settentrionale, le lontre marine si trovano solitamente su coste rocciose, barriere coralline, foreste di alghe e zone litoranee.

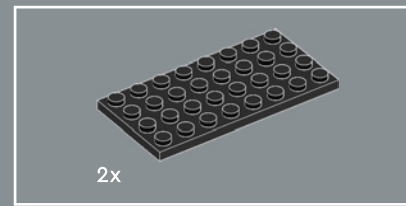

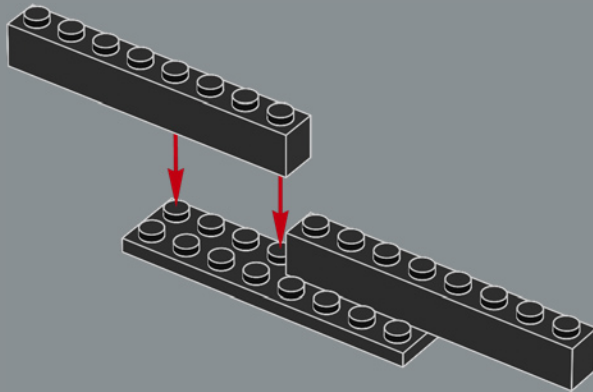

Si prendono cura dei loro "strumenti" (le rocce) e l'una dell'altra. Ci auguriamo che vi divertirete a prendervi cura di questo esemplare!
