*El fan diseñador de
LEGO® Ideas Alexis Dos
Santos con su modelo
original.*

CONOCE AL FAN DISEÑADOR

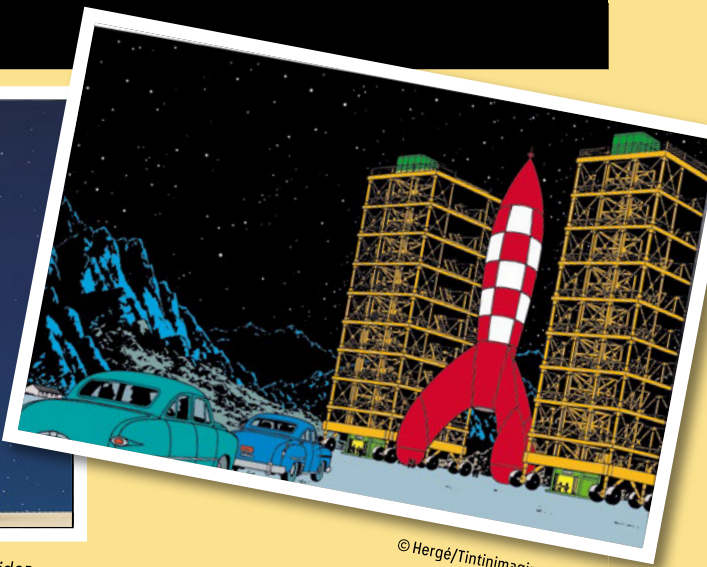

No sabemos cómo al programador y diseñador web portugués Alexis Dos Santos (conocido en LEGO® Ideas como Tkel86) le alcanza el tiempo para hacer todo su trabajo a la vista de su amplia cartera de complejos modelos MOC (siglas en inglés de "My Own Creation", es decir, "mi propia creación"): ¡este fan diseñador se mantiene muy ocupado!

"En mi tiempo libre, me encanta hacer cualquier cosa que combine creatividad e ingenio, desde construir con LEGO hasta proyectos de electrónica, carpintería, dibujo, diseño gráfico, modelos 3D y escultura. Me fascina reutilizar materiales para nuevos fines, como desmontar un set LEGO para crear otro, por ejemplo. Guardo muchos recuerdos de cuando jugaba con ladrillos LEGO de niño. Heredé una caja llena de piezas de un primo y, desde entonces, fui ampliando mi colección hasta la adolescencia. Me alejé de los ladrillos de los 16 a los 26 años, en lo que se podría llamar una época oscura. Pero redescubrí mi pasión cuando, por casualidad, visité una exposición para fans de LEGO organizada por una comunidad. Terminé por unirme a ellos, y mi afición creció exponencialmente. Este proyecto duró aproximadamente seis meses. Siempre he admirado a Tintin, y un compañero del trabajo

me animó a recrear este modelo con ladrillos LEGO. Para hacer los acoples de las patas y el cono superior, usé algunas piezas Technic. Me gusta que el modelo presente elementos redondos y cónicos creados a partir de varias piezas, ya que, cuando las construcciones entrañan cierta complejidad, minimizar las separaciones visibles es siempre un desafío. ¡También fue bastante difícil encontrar en rojo unos cuantos de esos elementos! Mi plan era seguir perfeccionándolo después de compartirlo en el sitio web de LEGO Ideas, pero, poco a poco, mientras estaba ocupado trabajando en otros proyectos, alcanzó los 10.000 seguidores. Me encanta cuando los modelos combinan belleza estética y mecanismos con movimiento. Espero que a los fans les guste el impactante efecto de la versión definitiva".

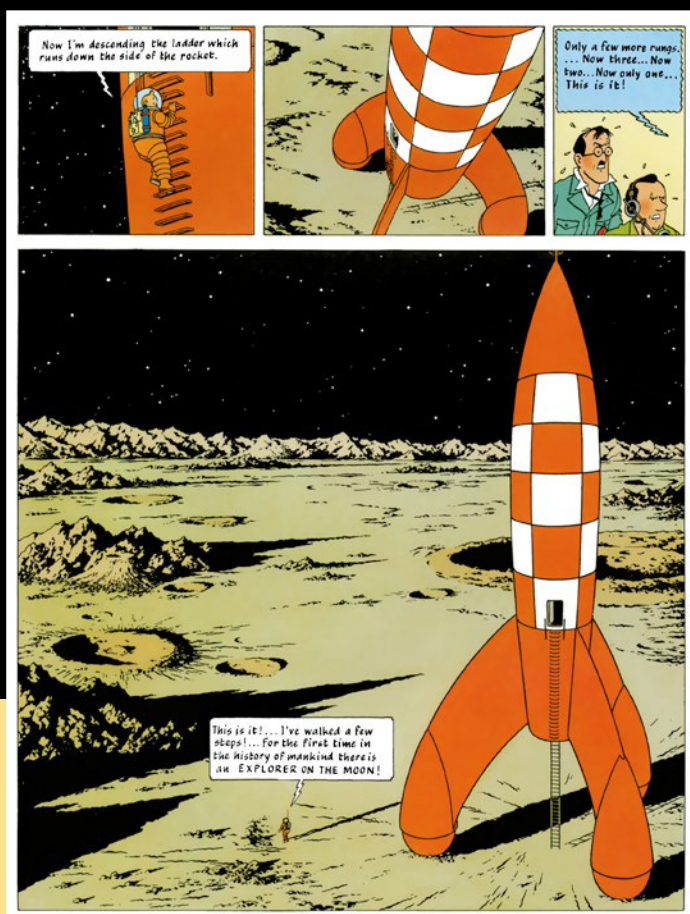

El modelo de Alexis y la imagen del libro que inspiró su idea.

¡LISTOS PARA ATERRIZAR EN LA LUNA!

El cohete con diseño ajedrezado rojo y blanco de *Destination Moon* (1953) y *Explorers on the Moon* (1954) sigue siendo uno de los iconos más reconocibles de *The Adventures of Tintin*. En la historia, Tintin, Captain Haddock, Snowy y Professor Calculus se embarcan en un audaz viaje para explorar la cara oculta de la Luna lanzando un innovador cohete desde el país ficticio de Syldavia. Cuando se publicó por primera vez, la aventura transportó a los lectores a un futuro en el que los viajes espaciales tripulados parecían estar al alcance de la mano, en una época en la que el alunizaje real todavía era solo un sueño. Con una mezcla de aventura, suspense y ciencia moderna, Tintin y sus amigos cautivaron la imaginación de millones de seguidores, y el cohete no tardó en convertirse en un símbolo del avance tecnológico y la innovación.

© Hergé/Tintinimaginatio 2026

EL ARTE Y LA CIENCIA SE UNEN

La historia entrelazó con naturalidad los ingeniosos diálogos y el característico humor de los personajes con una narrativa llena de suspense que giraba en torno al espionaje y los descubrimientos científicos. Dado que tanto el diseño del cohete como el Sprodj Atomic Research Center y los aspectos técnicos del viaje se basaban en investigaciones reales disponibles en la época, la trama resultaba tan novedosa como convincente y los nutridos detalles de las escenas acercaban la ciencia de vanguardia a un público más amplio. El legado de Tintin se conserva ahora en lugares como el Musée Hergé, y el espíritu pionero de su cohete sigue inspirando a soñadores y exploradores por igual.

© Hergé/Tintinimaginatio 2026

Numerosos detalles se basaban en datos científicos reales.

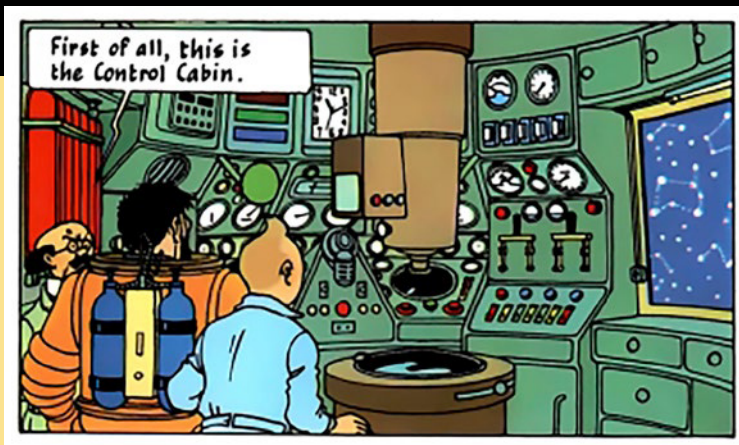

© Danny Gys - Atelier Christian de Portzamparc Hergé-Tintinimaginatio 2026

Hergé recopiló una gran cantidad de materiales de investigación y documentos. Algunos cuyo origen es poco claro, como estas fotos en blanco y negro, están clasificados en una categoría aparte llamada "Documentación de Hergé".

EL EQUIPO DE LEGO® IDEAS

El modelo del fan estaba muy bien hecho, ¡y también era enorme! Por eso, decidimos eliminar la torre y centrarnos en el cohete, llevar el modelo de Alexis de la Tierra al espacio y mostrar a los personajes con sus emblemáticos trajes espaciales, ¡incluida la figura LEGO® de Snowy! Hergé era famoso por prestar muchísima atención a los detalles y la precisión, y queríamos hacer justicia a su trabajo. La forma del cuerpo del cohete es la de un prisma hexagonal con caras redondeadas, levemente ensanchado por el centro. Exploramos innumerables técnicas de construcción y ángulos diferentes para conseguir esta silueta. El diseño ajedrezado del cohete se

compone de formas trapezoidales, y recrearlo fielmente con una superficie lisa y un patrón auténtico fue un apasionante desafío. Otra parte técnicamente compleja fueron las aletas. La solución fue utilizar un triángulo reflejado en cada una de ellas, algo que, además de crear el ángulo correcto, las asegura al modelo, proporcionándole firmeza. Para la punta del cohete, creamos un nuevo elemento cónico similar a los de las patas para mantener la coherencia.

© Hergé/Tintinmaginaireto 2026

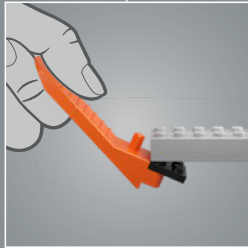

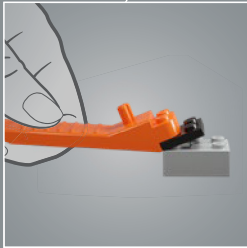

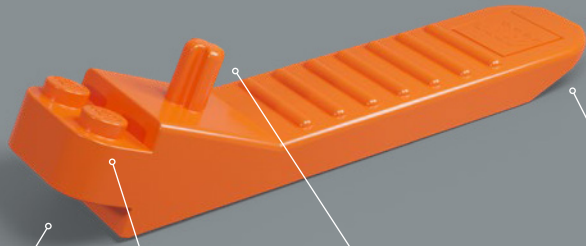

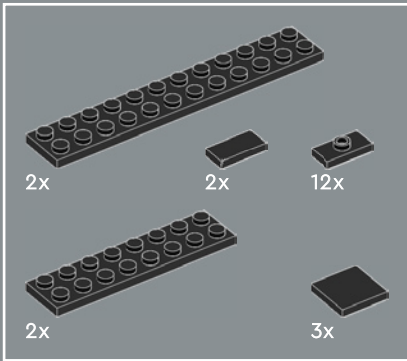

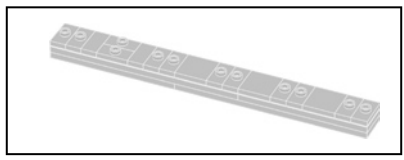

Incluimos una sala de control en la parte superior para recrear una escena mítica de los momentos posteriores al despegue, cuando los personajes contemplan la Tierra por primera vez desde el espacio. Maximizamos su precisión con decoraciones, detalles y pegatinas, y hasta logramos integrar la escotilla que conduce al nivel inferior del cohete.

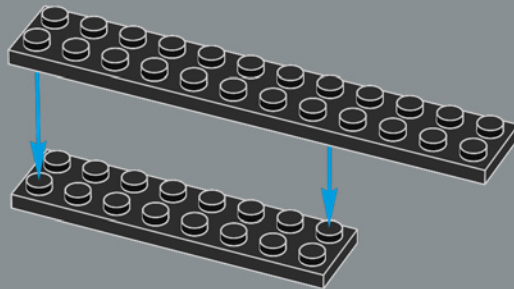

Traducir los personajes al formato de minifigura fue un proceso muy divertido. Tienen una gran personalidad y han aparecido en historietas muy distintas, así que, al final, nos quedamos con expresiones que reflejaran esta trama. Los trajes espaciales están inspirados en *Explorers on the Moon*, y el pelo verde de Thomson and Thompson es una referencia a una graciosísima escena del cómic!
