*Il Fan Designer di
LEGO® Ideas Alexis
Dos Santos con il suo
modello originale*

CONOSCIAMO IL FAN-DESIGNER

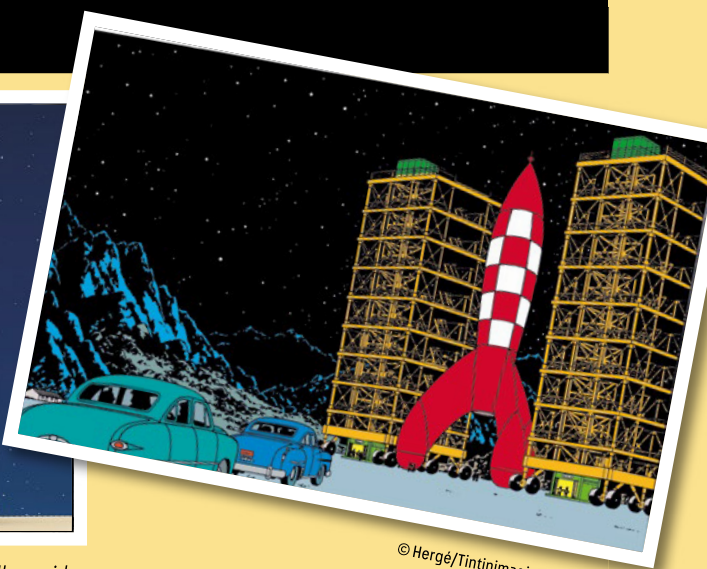

Come il portoghese Alexis Dos Santos (nome LEGO® Ideas Tkel86) riesca a trovare abbastanza ore al giorno per il suo lavoro di programmatore e web designer è per noi un mistero. Con un vasto portfolio di intricati MOC (My Own Creation), questo fan designer ha sempre qualcosa da fare!

Nel mio tempo libero, amo fare qualsiasi cosa che unisca creatività e ingegno: costruzioni LEGO, progetti elettronici, lavorare il legno, disegnare, progettare grafica, modelli 3D e scolpire. Adoro riutilizzare i materiali per nuovi scopi, come smontare un set LEGO per crearne un altro. Ricordo sempre di aver giocato con i mattoncini LEGO: da bambino ho ereditato una scatola piena di pezzi da un cugino e da allora ho ampliato la mia collezione fino all'adolescenza. Ho attraversato quella che chiamano l'"età oscura", lontano dai mattoncini, dai 16 ai 26 anni. Poi ho riscoperto la mia passione quando, per caso, ho visitato una mostra di fan LEGO creata da una comunità. Ho finito per unirmi a loro e questo hobby è cresciuto esponenzialmente. Questo progetto ha richiesto circa sei mesi. Ho sempre

ammirato Tintin e un collega mi ha ispirato a ricreare questo modello in mattoncini LEGO. Ho usato alcune parti Technic per realizzare elementi per le gambe e il cono superiore. Mi piace il fatto che il modello utilizzi elementi rotondi e conici realizzati con più pezzi, poiché è sempre una sfida riuscire a ridurre gli spazi visibili con soluzioni relativamente complesse. Alcuni di questi elementi in rosso sono stati difficili da trovare! Dopo averlo condiviso sul sito LEGO Ideas, il mio piano era di continuare a perfezionarlo, ma a poco a poco, mentre ero impegnato a lavorare ad altri progetti, ha raggiunto 10.000 sostenitori. Mi piace quando i modelli combinano movimenti meccanici e una bella estetica. Spero che i fan adoreranno il fattore Wow del modello finale".

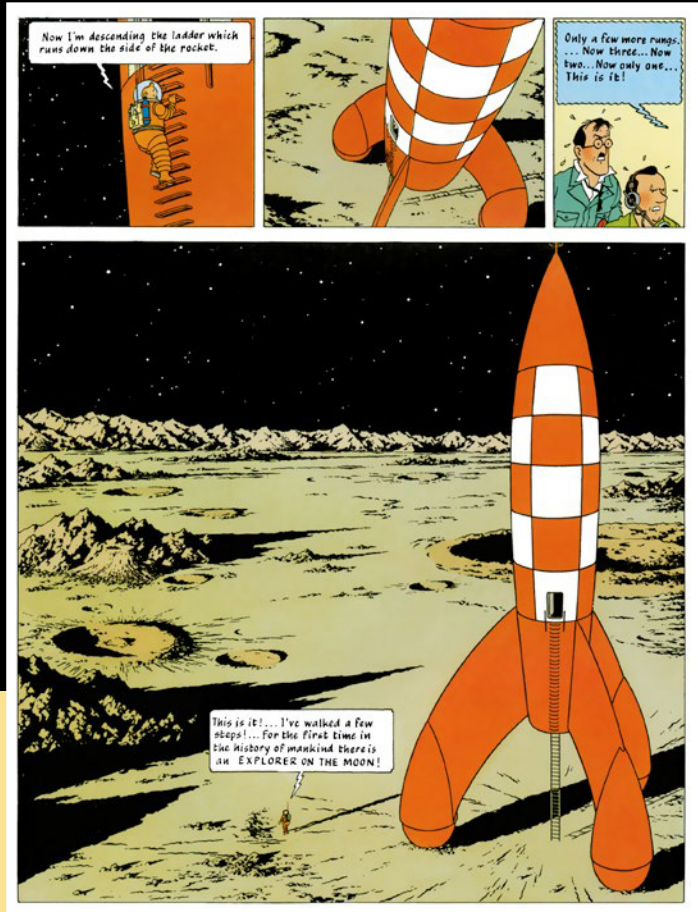

Il modello di Alexis e l'immagine del libro che ha dato origine alla sua idea

UN ESPORATORE SULLA LUNA!

Il razzo a scacchi rosso e bianco di *Obiettivo Luna* (1953) e *Uomini sulla Luna* (1954) rimane uno dei simboli più riconoscibili de *Le avventure di Tintin*. Nella storia, Tintin, Capitano Haddock, Snowy e il Professor Calculus intraprendono un audace viaggio per esplorare il lato oscuro della Luna, lanciando un razzo rivoluzionario dal paese immaginario di Syldavia. Quando fu pubblicata per la prima volta, l'avventura trasportò i lettori in un futuro in cui i viaggi spaziali umani sembravano a portata di mano, in un'epoca in cui un vero e proprio allunaggio era ancora solo un sogno. Il razzo divenne rapidamente un'immagine simbolo del progresso e dell'innovazione tecnologica, poiché Tintin e i suoi amici catturarono l'immaginazione di milioni di persone con un mix di avventura, suspense e scienza moderna.

© Hergé/Tintinimagination 2026

L'ARTE INCONTRA LA SCIENZA

La storia intreccia in modo impeccabile le battute, l'arguzia e l'umorismo dei personaggi in un racconto ricco di suspense, di spionaggio e di scoperte scientifiche. Poiché il progetto del razzo, il centro di ricerca atomica Sprodj e i dettagli tecnici del viaggio erano tutti basati su ricerche reali disponibili all'epoca, la storia risultò al tempo stesso nuova e convincente e le scene ricche di dettagli introdussero la scienza avanzata a un pubblico più vasto. L'eredità di Tintin è oggi custodita in luoghi come il Musée Hergé e lo spirito pionieristico del suo razzo continua a ispirare sognatori ed esploratori.

© Hergé/Tintinimagination 2026

Molti dettagli erano basati sulla scienza reale.

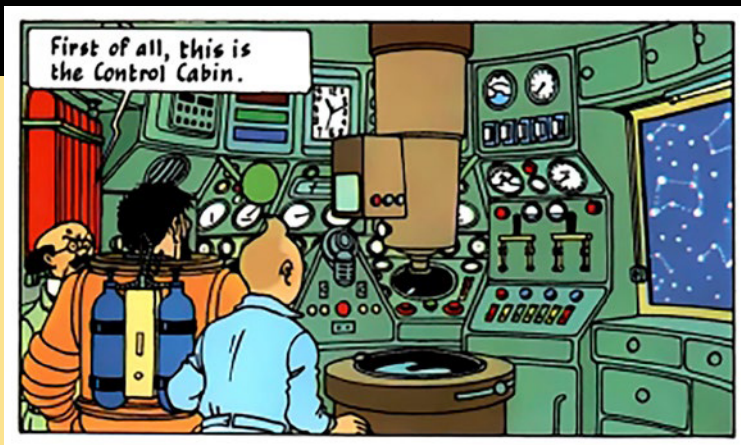

© Danny Gys - Atelier Christian de Portzamparc Hergé-Tintinimagination 2026

Hergé creò un'ampia collezione di materiali di ricerca e documenti. Alcune avevano un'origine poco chiara, come queste foto in bianco e nero, classificate in una categoria separata, "Documentazione Hergé".

IL LEGO® IDEAS TEAM

Il modello del fan è davvero ben fatto ed era anche enorme! Abbiamo quindi deciso di rimuovere la torre, di concentrarci sul razzo, di portare il modello di Alexis dalla Terra allo spazio e di presentare i personaggi nelle loro iconiche tute spaziali, tra cui, ovviamente, un personaggio di LEGO® Snowy! Hergé era noto per la sua grande attenzione ai dettagli e alla precisione, e noi volevamo rendere giustizia al suo lavoro. Il razzo ha una forma a 6 lati con una curva sottile dall'alto verso il basso. Abbiamo esplorato innumerevoli tecniche di costruzione e angoli diversi per ottenere questa forma. I quadrati del motivo a scacchi sulla superficie del razzo sono

trapezoidali e, per rimanere fedeli al design, la superficie liscia e il motivo autentico sono stati una sfida emozionante. Le alette sono state un'altra parte molto tecnica del modello. La soluzione a questo problema è stata quella di utilizzare un triangolo "riflesso" per ciascuna delle alette, per creare l'angolazione corretta e bloccarle per conferire maggiore resistenza al modello. Per il cono superiore del razzo, abbiamo creato un nuovo elemento conico simile ai piedi del razzo, per omogeneità.

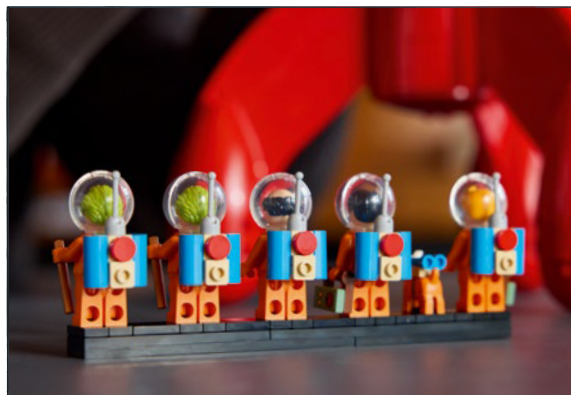

© Hergé/Tintinmagazine 2026

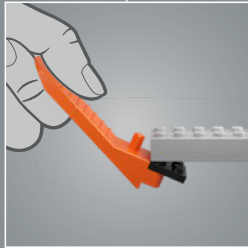

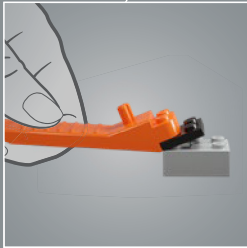

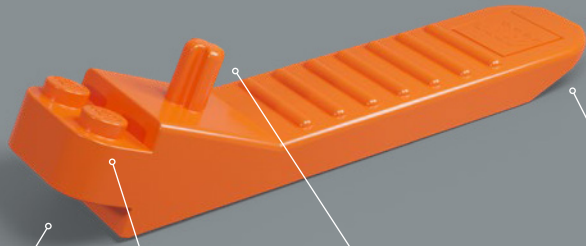

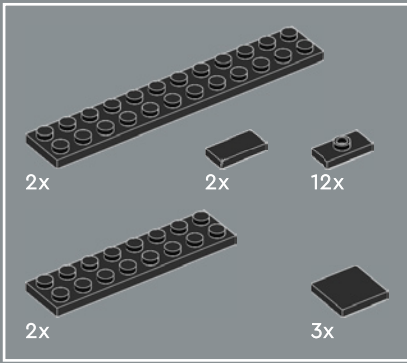

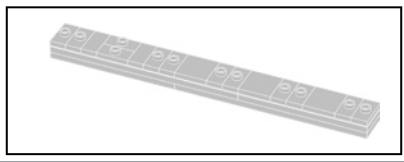

Abbiamo incluso una sala di controllo in cima al razzo per mostrare una scena iconica dopo il decollo, quando i personaggi vedono la Terra dallo spazio per la prima volta. L'abbiamo resa quanto più accurata possibile, con decorazioni, dettagli e adesivi, e siamo persino riusciti ad aggiungere il portello che conduce al livello successivo del razzo.

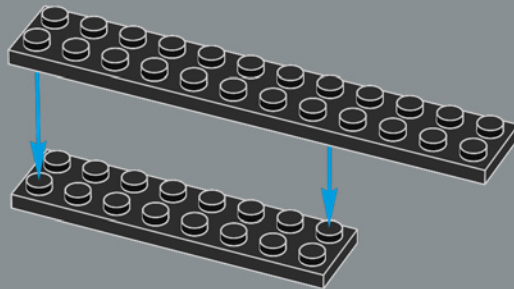

“Tradurre” i personaggi in minifigure è stato un processo molto divertente. Hanno così tanta personalità e una storia fumettistica che abbiamo ristretto il campo a espressioni che riflettessero questa trama. Le tute spaziali sono ispirate a *Uomini sulla Luna* e i capelli verdi di Dupont e Dupont richiamano una scena esilarante nel fumetto!
