Q LEGO® Builder

Conoce al fan diseñador

 Damian Andres (conocido en LEGO® Ideas como The Yellow Brick) es un estudiante y YouTuber nacido en Bélgica. Este set se basa en un modelo que Damian creó anteriormente para LEGO Ideas, el Gato Bicolor (21349):

"Mi intención era tener un modelo que representara a nuestro gato, Miro, así que mi diseño original se inspiró en sus colores y su personalidad. Lo medí incluso e investigué mucho para afinar las formas y las proporciones. No tenía gran experiencia en la construcción de siluetas orgánicas, ¡así que no fue tarea fácil! El mayor desafío fue la cabeza. Dar con una cara que tuviera una apariencia realista resultó muy complicado. Cuando acabé de actualizar el diseño, decidí publicarlo en el sitio web de LEGO Ideas, principalmente por diversión, porque no esperaba que alcanzara los 10.000 votos. Ha sido una locura ver al Gato Bicolor encontrar tantos hogares nuevos durante estos dos años, ¡y es increíble participar también en este proyecto sabiendo que ahora tendrá un nuevo y simpático amigo!"

*Propuesta original de Damian
inspirada en Miro, su gato*

*Este podría ser el comienzo de
una fantástica amistad felina*

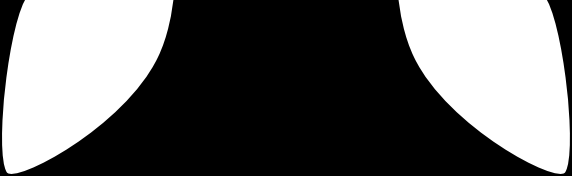

Sus majestades de pelaje naranja

🐾 Los dueños de felinos llevan mucho tiempo sospechando que los gatos naranjas son una categoría aparte, y los mininos parecen saberlo bien. Como las encantadoras majestades que son, tienen una reputación que mantener, y vaya si se lo toman en serio. Aunque somos conscientes de que el pelaje no determina la personalidad, es muy posible que nos *parezcan* un poco más extravagantes debido a su vibrante color. De cualquier modo, los conocemos y adoramos como lo que son: los acróbatas por excelencia del mundo felino, aparentemente impulsados por una combinación de entusiasmo caótico, temeridad y un don para las entradas (y salidas) espectaculares.

Se lanzan desde el frigorífico persiguiendo a una mosca que puede existir o no. Sienten orgullo al meterse en recipientes tres tallas más pequeños que ellos como verdaderos contorsionistas y tiran al suelo tu taza favorita con total descaro mientras te cantan dulcemente. Una incógnita constante es si sus travesuras son un intento de impresionar a otros felinos o al humano a su servicio, o una explícita declaración de que son ajenos a toda consecuencia por decisión propia. Independientemente de sus motivos, siempre se saldrán con la suya con solo acurrucarse junto a nosotros entre ronroneos y parpadeos lentos. ¡Que sus insaciables ganas de vivir nos inspiren a todos!

Impresiones del equipo de diseño de LEGO® Ideas

🐾 ¡Nos sorprende el amor que ha recibido el Gato Bicolor a partir de su lanzamiento! Desde que aterrizó en los estantes (sobre sus cuatro patas, naturalmente), muchos constructores han pedido gatos de otros colores. Pues los miembros de nuestro equipo, que comparten la obsesión por los felinos, están encantados de presentarles y presentarte a este nuevo amigo (que también lo será del Gato Bicolor). Como los ojos verdes fueron muy solicitados, para este modelo diseñamos un juego que es compatible con el minino original, además de otros marrones, lo que hace un total de cuatro colores de ojos intercambiables.

El color principal de este gato se llama Medium Nougat (caramelo suave), y es la aproximación LEGO® más cercana al color real de los gatos naranjas. Le dimos un poco de asimetría al patrón de la cara e incluimos elementos con forma de esquina de techo de pagoda que imitan los mechones de pelo de manera muy convincente. Aparte de cambiarle el color de los ojos, puedes hacer que tu gato LEGO exprese distintas actitudes en función de la posición de las patas, la cola, la cabeza y la boca. Con un aspecto travieso, simpático y adorable, está especialmente diseñado para integrarse a la perfección en tu entorno creativo.

Un conjunto de elementos LEGO® nuevos ofrecen la opción de mostrar la boca abierta o cerrada.

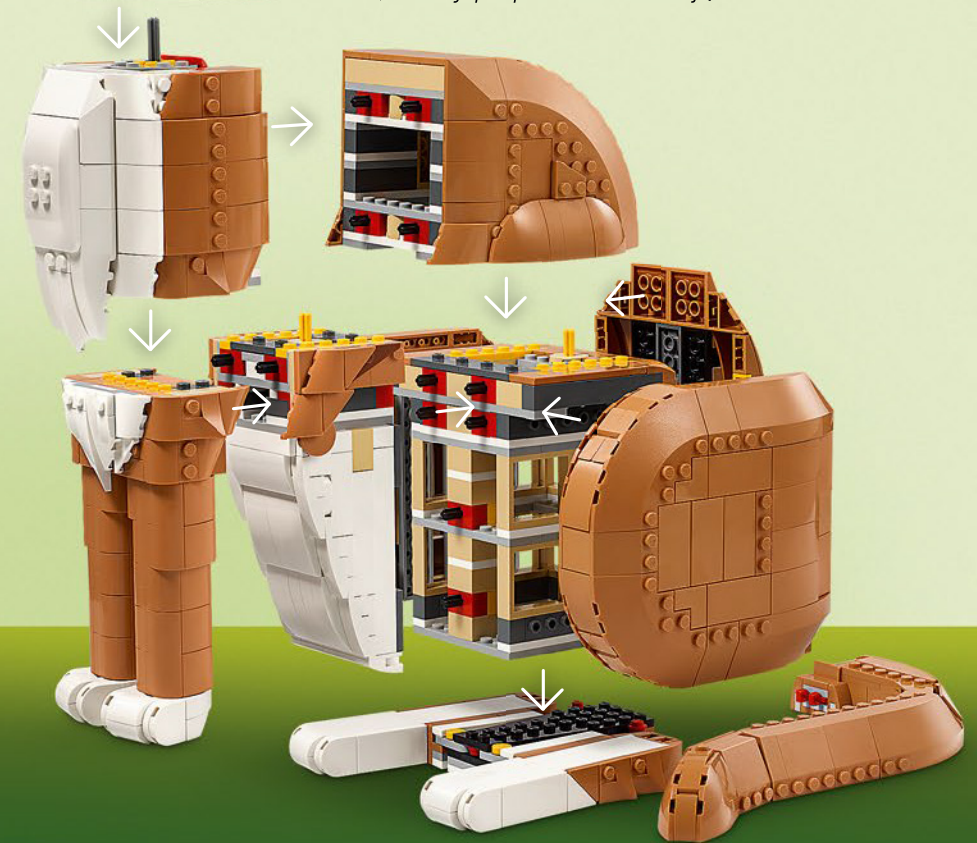

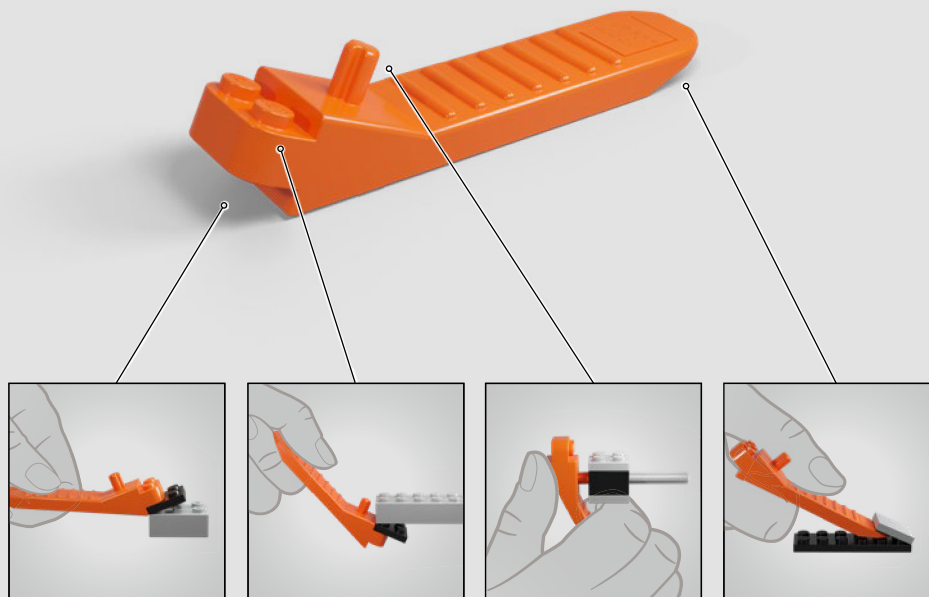

Si también tienes el Gato Bicolor, puedes sentar a los mininos uno al lado del otro sin que sus colas se enreden.

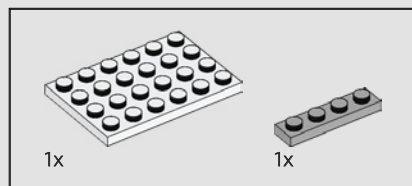

Cámbiale los colores de los ojos, o combínalos para darle un aspecto aún más encantador y singular.

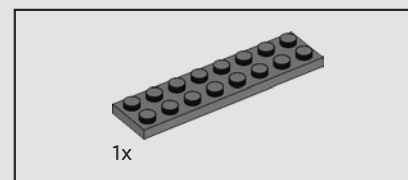

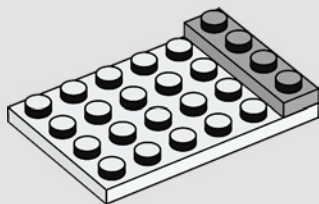

El tope del cuello permite girar la cabeza en un rango realista (si quieres que gire más, solo hay que quitar el elemento rojo).
