# BIENVENUE DANS LEGO® ART

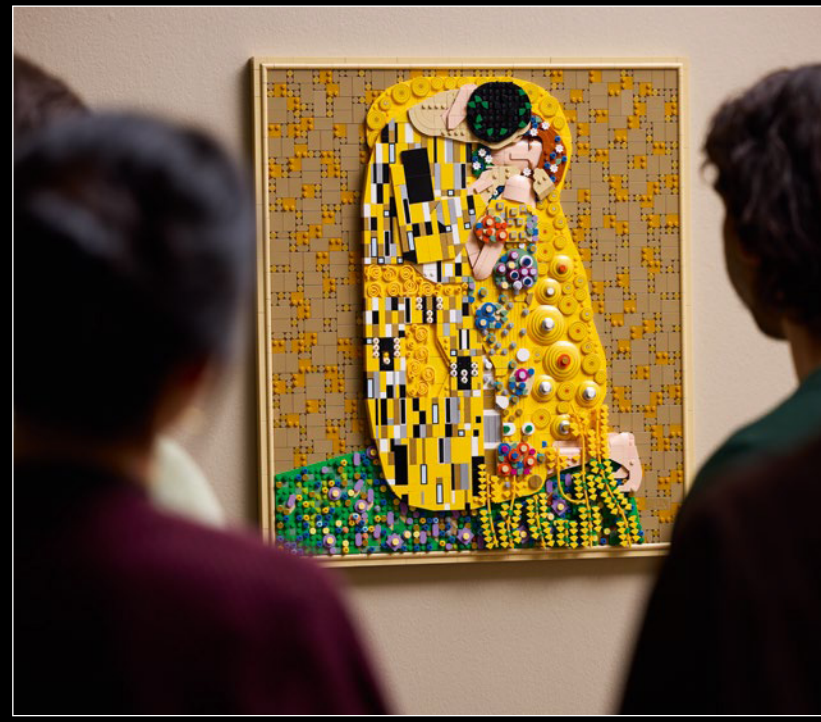

« Le talent artistique », c'est savoir utiliser son imagination pour transformer des choses familières en quelque chose de nouveau et d'original. L'artiste autrichien Gustav Klimt a fusionné ses talents avec des éléments issus de différentes compétences et différents styles artistiques pour créer des chefs-d'œuvre intemporels. Sa curiosité – cette envie de voir ce qui se passe lorsque l'artisanat et l'art se rencontrent sous de nouvelles formes – s'accorde parfaitement avec l'univers LEGO® Art.

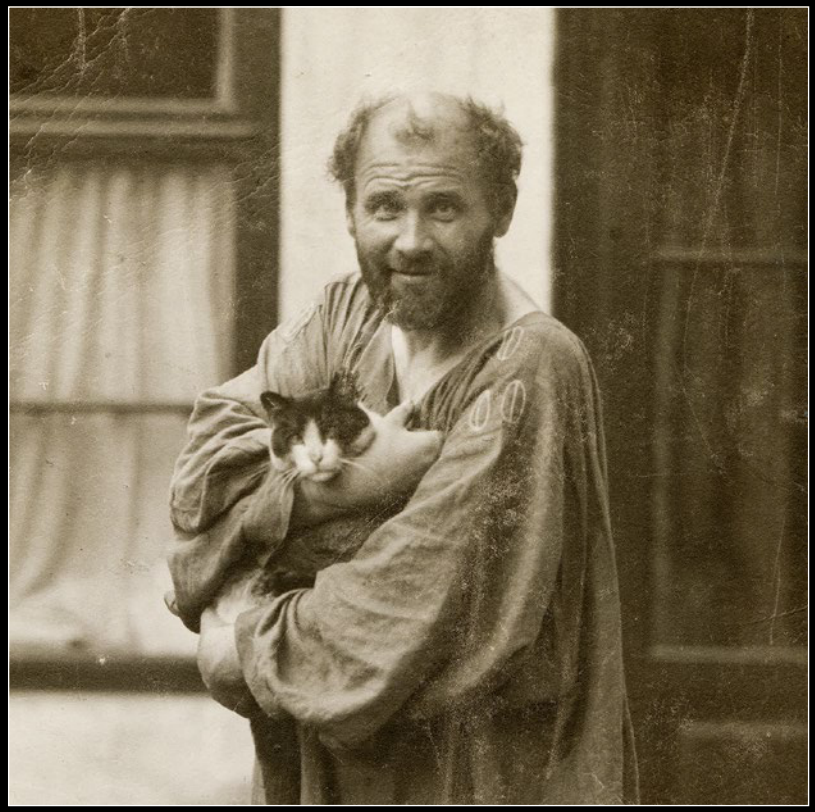

# PROCESSUS DE CONSTRUCTION

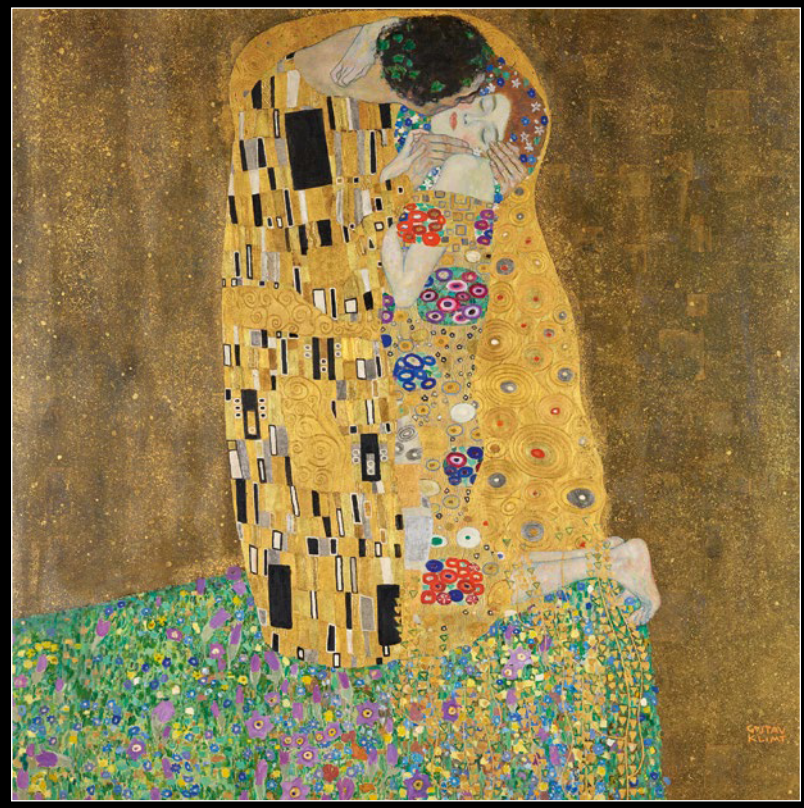

Klimt souhaitait rendre l'art plus accessible, aussi bien aux artistes qu'au grand public. Avec cette version LEGO Art de l'œuvre *Le Baiser*, vous pouvez désormais vous rapprocher un peu plus de sa création la plus célèbre.

# LA VIE ET L'HÉRITAGE DE KLIMT

Gustav Klimt est né dans une famille modeste mais créative et a été formé à l'École des arts appliqués de Vienne comme peintre d'histoire. Alors qu'il était déjà un artiste reconnu, il a commencé à explorer un style plus personnel mêlant des éléments du symbolisme et des formes fluides inspirées de la nature propres à l'Art nouveau. Bien qu'il ait été un personnage public, Klimt attachait une grande importance à sa vie privée. Il adorait ses nombreux chats, portait volontiers des tuniques amples, ne s'intéressait pas aux autoportraits et ne s'est jamais peint lui-même. En rupture avec les conventions académiques, il a été l'un des fondateurs du mouvement de la Sécession viennoise et a promu une vision de l'art plus inclusive et progressiste. Les œuvres de sa « période dorée » ont été façonnées par sa fascination pour les métaux précieux, les mosaïques byzantines et les ornements audacieux, et elles ont, au départ,suscité des critiques mitigées. *Le Baiser* place Klimt parmi les artistes les plus célèbres de l'histoire.

« L'ART EST UNE LIGNE AUTOUR DE VOS PENSÉES »

– Gustav Klimt

# SOUS LA LUMIÈRE DE L'AMOUR

Le Belvédère a reconnu la vision de Klimt et a acheté *Le Baiser* en 1908, avant même que le tableau ne soit terminé. Depuis, c'est une œuvre majeure de la collection permanente du musée. Durant sa période dorée, Klimt s'est inspiré des mosaïques byzantines et des laques japonaises, ainsi que du travail de son père, graveur sur or. Il a également ajouté des éléments en feuilles de métal à ses peintures à l'huile, pour un résultat éblouissant. La taille impressionnante du *Baiser* (180 × 180 cm) et son éclat métallique accentuent la lumière pure qui irradie des amants et éclipse tout ce qui les entoure, même la nature elle-même. Aujourd'hui symbole universel de l'amour, cette œuvre permet à chacun de projeter sa propre interprétation de la scène.

# L'ART EST POUR TOUT LE MONDE

L'une des valeurs fondamentales du Belvédère de Vienne, en Autriche, est que l'art et la culture sont des ressources partagées qui doivent être accessibles à tous. Figurant parmi les plus grands musées d'art au monde et inscrit au patrimoine mondial de l'UNESCO, il joue un rôle important dans l'identité culturelle de l'Autriche et repose sur un engagement fort : exposer, étudier, collectionner et préserver l'art. Construit à l'origine comme résidence d'été du prince Eugène de Savoie en 1723, le palais a été transformé en musée d'art public en 1777. Son architecture baroque offre un cadre unique où héritage culturel se fond avec les idées modernes et 800 ans d'histoire de l'art. La générosité et l'immense savoir des experts du Belvédère ont aidé notre équipe de designers LEGO® Art à élaborer chaque détail de ce modèle afin qu'il reste fidèle à la vision de Klimt.

# LE MOT DE L'ÉQUIPE DE DESIGNERS LEGO® ART

Cette interprétation du *Baiser* de Gustav Klimt est notre plus grande reconstitution LEGO® Art à ce jour avec ses 4 000 pièces. L'utilisation de feuilles de métal par Klimt apporte un effet réfléchissant et scintillant qui change lorsque l'on se déplace autour du tableau. Nous avons utilisé des éléments dorés et argentés métallisés pour recréer cet effet. Nous avons soigneusement déconstruit les formes abstraites en 2D et « traduit » les personnages dans un espace en 3D. Les personnages sont construits en relief, ce qui leur permet de se détacher vraiment parmi les spirales et le halo. Vous reconnaîtrez peut-être différents éléments LEGO qui reproduisent les détails de la prairie, les formes rectangulaires du manteau de l'homme et les formes organiques et arrondies de la robe de la femme.
