INNOVACIÓN CONSTRUCTIVA: LA COLABORACIÓN ENTRE LEGO® TECHNIC Y VOLVO

Los equipos de diseño de LEGO® Technic y Volvo Construction Equipment llevan más de una década uniendo fuerzas para recrear algunos de los vehículos de construcción más potentes del mundo con un extraordinario nivel de detalle y funcionalidad. Tales colaboraciones han dado lugar a una serie de fieles modelos Technic basados en vehículos reales que han servido de inspiración para la creación de nuevos vehículos conceptuales de vanguardia con características de última generación. Cada set nos empuja a buscar nuevas formas de combinar la creatividad con la tecnología del mundo real.

IMPRESIONES DEL EQUIPO DE DISEÑO DE LEGO® TECHNIC

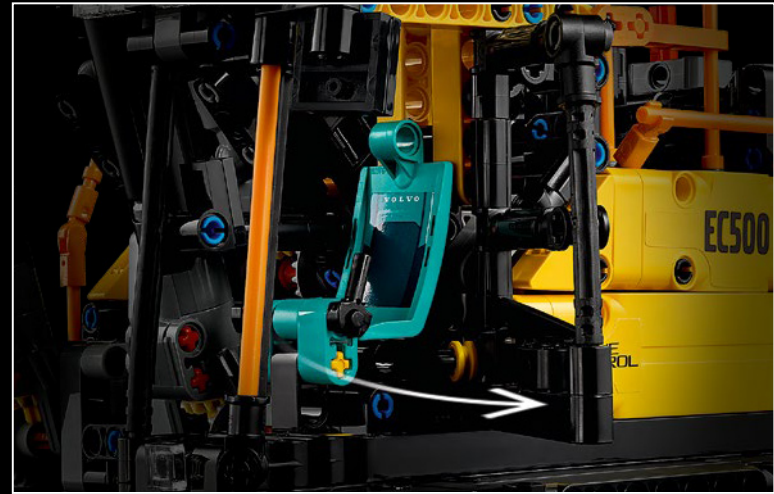

La Volvo EC500 Hybrid pertenece a una nueva generación de vehículos de construcción híbridos y es la primera excavadora de su clase lanzada en versión LEGO® Technic. El equipo de Volvo Construction Equipment fue increíblemente generoso al compartir su experiencia durante el desarrollo del vehículo real y sus revolucionarias soluciones de alta tecnología. El motor de 424 CV está optimizado para alcanzar una alta eficiencia en el consumo de combustible mediante la innovadora tecnología híbrida hidráulica de Volvo. ¡Además, por supuesto, la máquina está perfectamente equipada para operar en entornos exigentes, como la minería y la construcción pesada! Fiel al vehículo real, el modelo incorpora funciones motorizadas que permiten controlar la pluma y cambiar entre la pala y el martillo. Los nuevos paneles triangulares fueron de gran ayuda para replicar los característicos ángulos exteriores, y las barandillas de seguridad en color naranja, así como el nuevo color del asiento, rematan un diseño redondo.

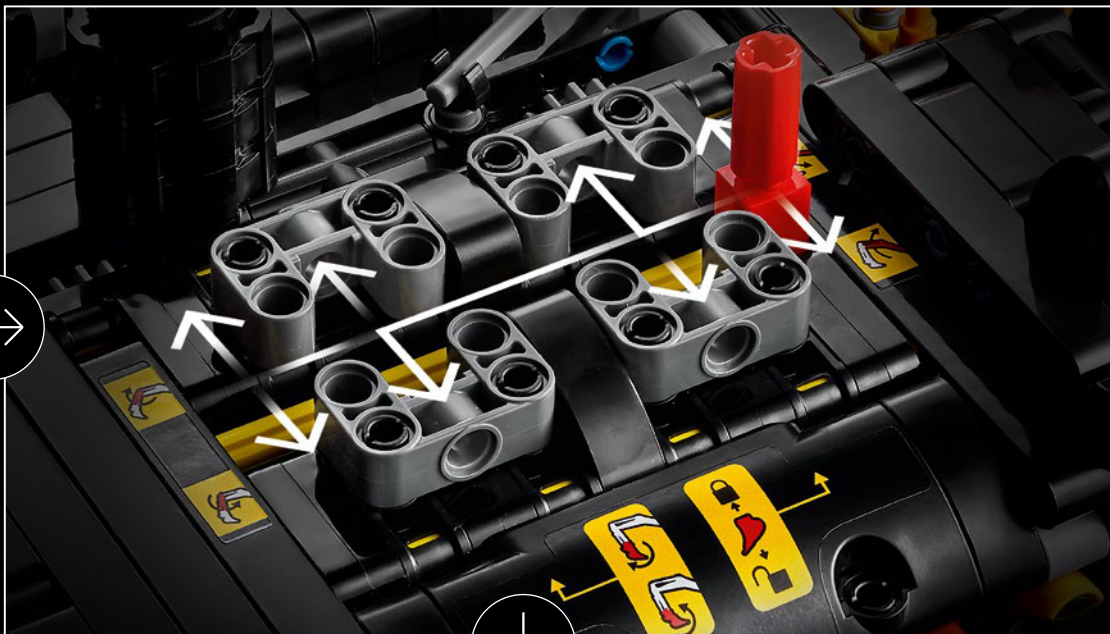

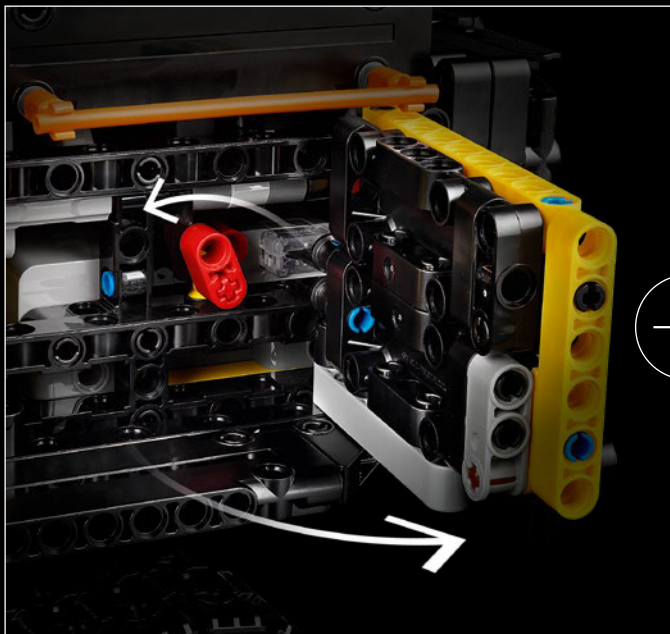

UNA GRAN EXCAVADORA PARA GRANDES FANS DE LA CONSTRUCCIÓN

El modelo representa la esencia de la complejidad que es posible lograr con LEGO® Technic usando un solo motor y una caja de cambios. Al construir y controlar el modelo, podrás disfrutar contemplando mecanismos como la junta de transmisión entre la superestructura y la pluma, o una solución de transmisión por engranajes totalmente nueva que activa otras funciones de gran realismo. ¡Esperamos que el modelo sirva de inspiración a los fans de Volvo y LEGO Technic para explorar el dominio de la ingeniería con un toque de diversión!

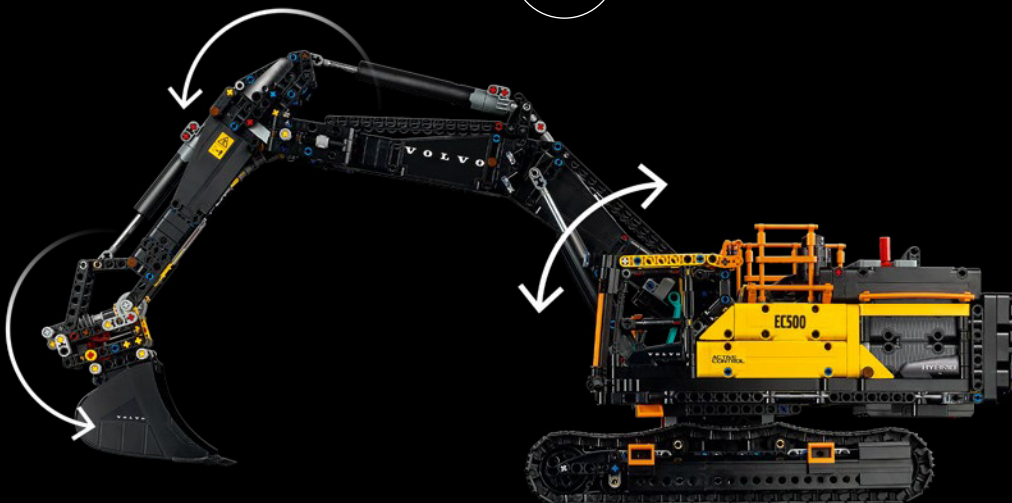

Funciones manuales

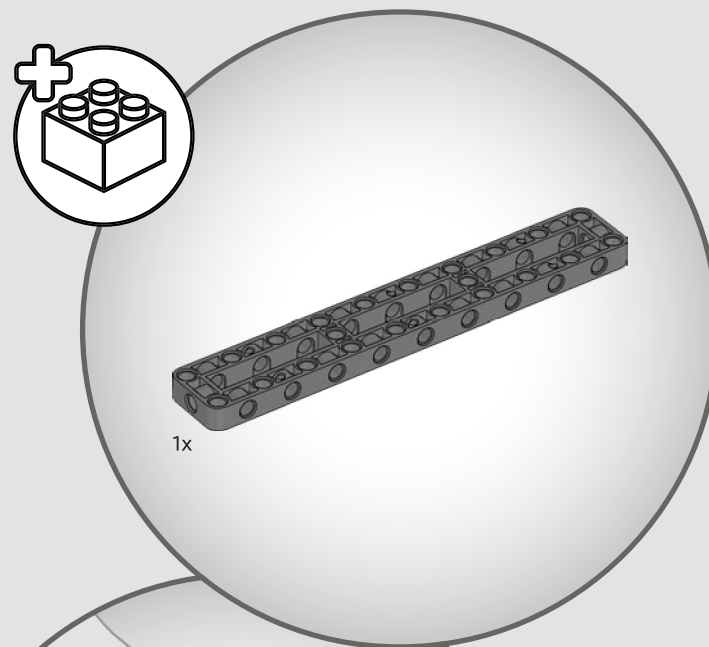

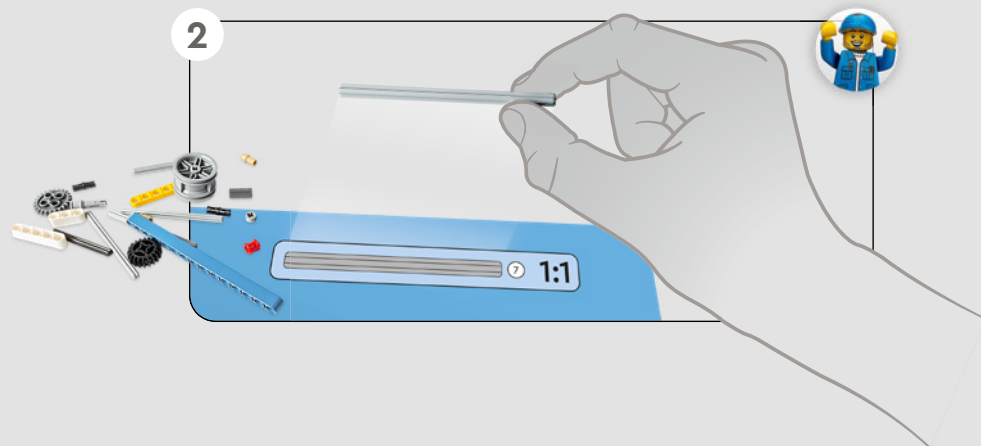

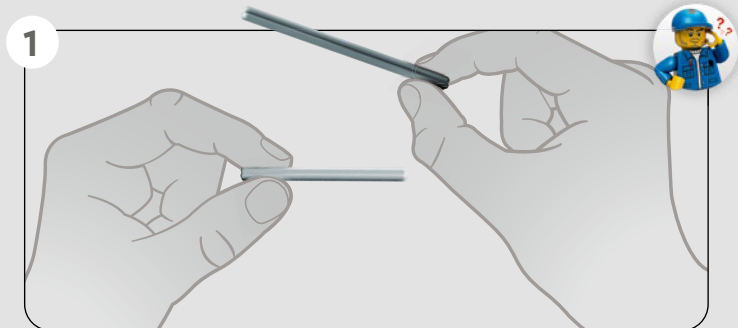

- Abre la cabina
- Gira la superestructura
- Conduce usando las orugas

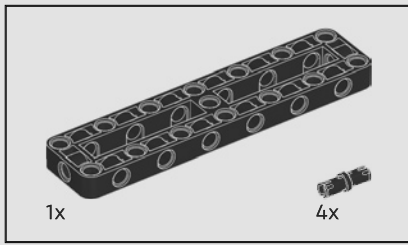

Movimientos motorizados

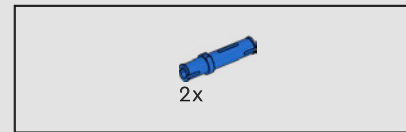

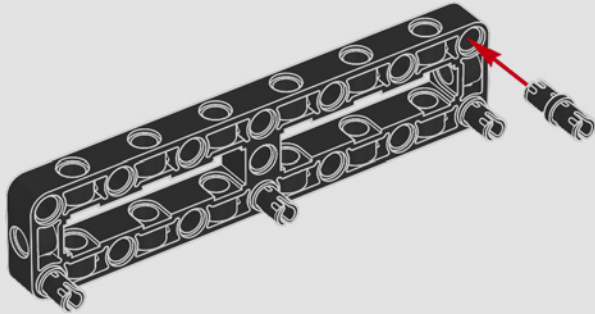

- Sube y baja la pluma
- Libera la herramienta y cámbiala
- Mueve el balancín
- Mueve las herramientas adelante y atrás
