## L'AT-ST FAIT PEAU NEUVE

Cela fait près de deux décennies que nous n'avons pas proposé de version LEGO® Star Wars™ Ultimate Collector Series de l'AT-ST Walker (10174, en 2006). Depuis, la saga n'a cessé de séduire de nouvelles générations de fans, à travers ses films, ses séries en streaming et, bien sûr, la gamme LEGO Star Wars. Rien ne nous rend plus fiers que de partager avec vous des modèles détaillés de véhicules culte comme celui-ci et d'inspirer ainsi les passionnés du monde entier. Depuis les batailles de Hoth et d'Endor dans *L'Empire contre-attaque* et *Le Retour du Jedi*, de nouvelles versions des marcheurs AT-ST sont apparues dans *Les Derniers Jedi*, *Rogue One : A Star Wars Story* et *The Mandalorian*. Ce modèle marque un retour aux sources, avec plus de détails et de fonctionnalités que jamais.

Bonne construction !

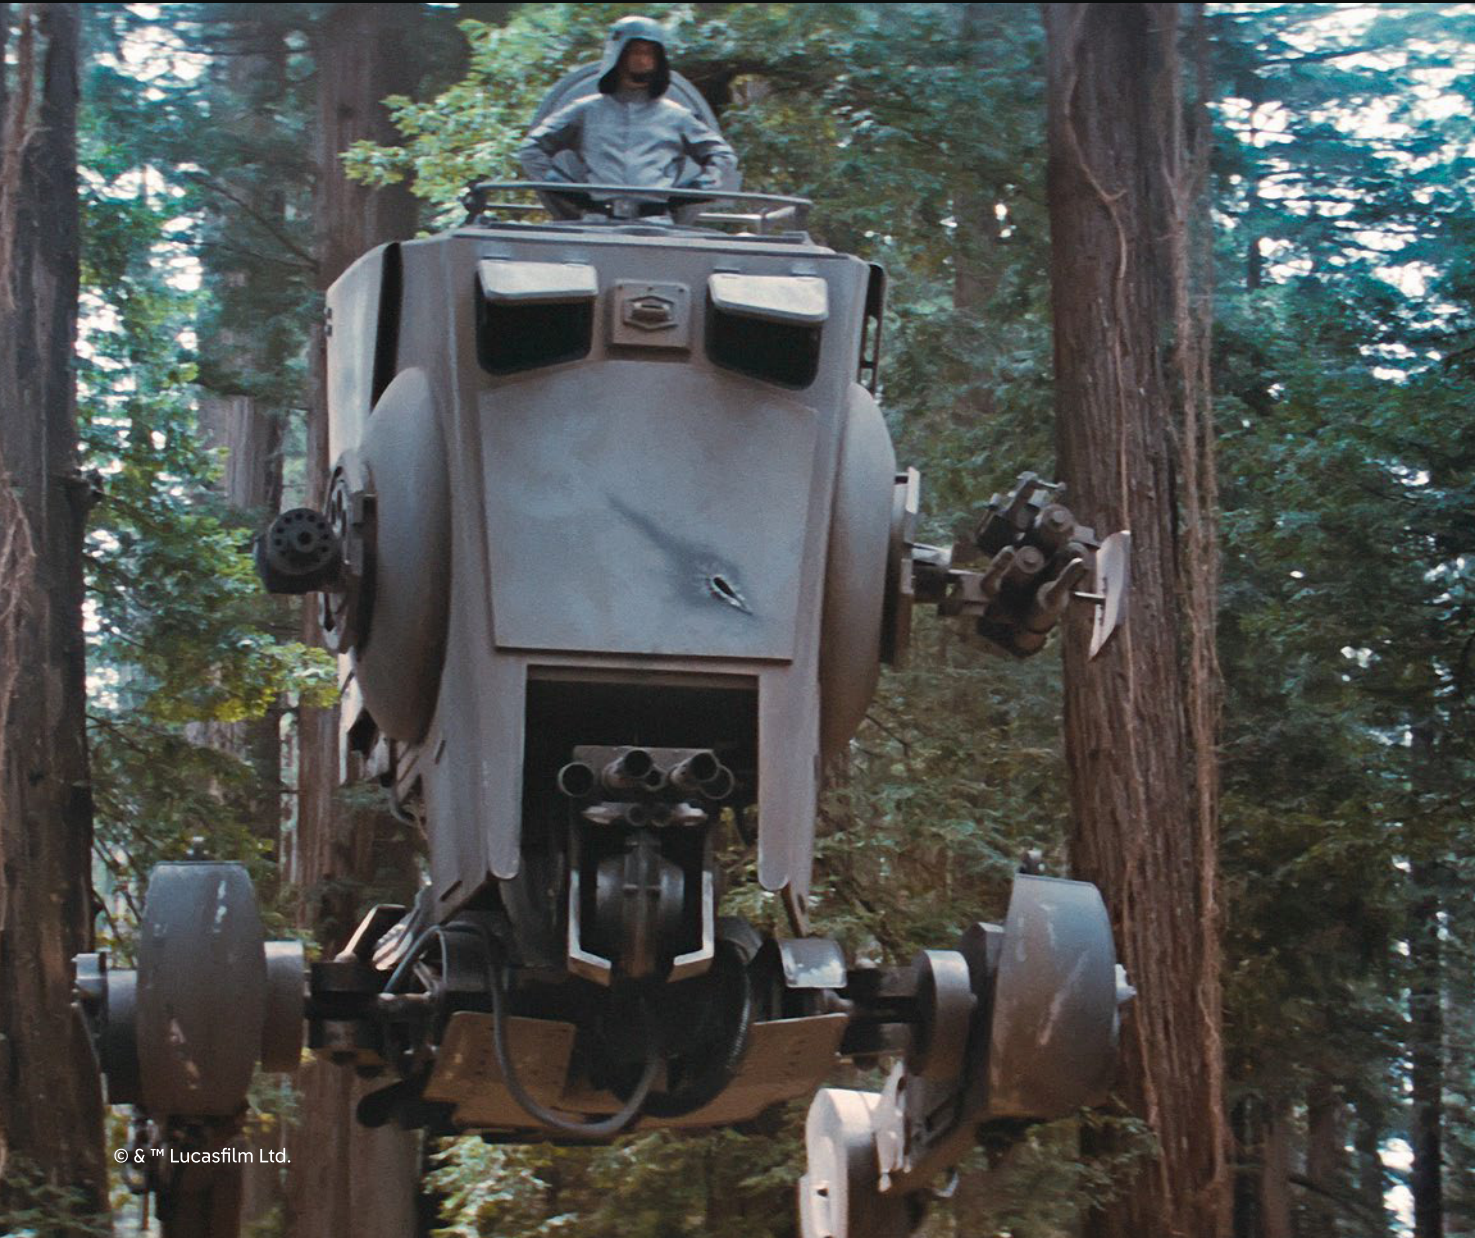

**Jens Kronvold Frederiksen**

## **ALL TERRAIN SCOUT TRANSPORT – LE TERRIFIANT COUSIN DE L'AT-AT**

Souvent utilisés aux côtés des marcheurs AT-AT de plus grande taille, les marcheurs AT-ST sont essentiels aux forces de l'Empire. Conçu pour deux pilotes, ce véhicule de reconnaissance est équipé de canons blaster sur le « menton » et de lanceurs à concussion sur le côté. Il excelle dans les missions de reconnaissance et de support terrestre. Agile et rapide grâce à son stabilisateur gyroscopique et son système de locomotion avancé, il se déplace plus rapidement que l'AT-AT, avec une démarche caractéristique évoquant celle d'une créature. Dans les paisibles forêts d'Endor, les redoutables marcheurs écrasent tout sur leur passage, menaçant le sanctuaire naturel des Ewoks. Au cœur du chaos, la mission des Rebelles consistant à désactiver le bouclier déflecteur de l'Étoile de la Mort est en jeu. Mais, comme face à d'autres forces expéditionnaires impériales, les Rebelles et leurs alliés exploitent ingénieusement les faiblesses des AT-ST. Équipés d'armes artisanales et de simples pierres, les Ewoks défendent vaillamment leur terre natale avec des pièges ingénieux. Grâce à Chewbacca et quelques Ewoks intelligents, un AT-ST est capturé, ouvrant la voie à la victoire.

## À PROPOS DE L'ÉQUIPE CHARGÉE DE LA CONCEPTION DE LEGO® STAR WARS™

La plupart des véhicules *Star Wars*™ sont réputés pour leur robustesse et présentent des marques authentiques d'usure. Les subtiles variations de couleurs de ce modèle évoquent ainsi la rouille et les traces de saleté accumulées lors des patrouilles dans les forêts d'Endor. Pour la première fois, le véhicule présente également un intérieur détaillé. Construire un véhicule à la silhouette aussi singulière (des pattes fines soutenant une « tête » massive) a présenté un véritable défi d'ingénierie. Dans les films, les pattes étaient stabilisées à l'aide d'une tige horizontale en acier, une solution impraticable en version LEGO® ! Nous avons donc retravaillé sur les proportions et affiné le design pour trouver un centre de gravité optimal. Nous avons ajouté des éléments en caoutchouc antidérapant sous les pieds, légèrement allongé les patins et les lames et incliné les pattes. Ces ajustements donnent une posture dynamique au modèle, tout en assurant une stabilité parfaite.

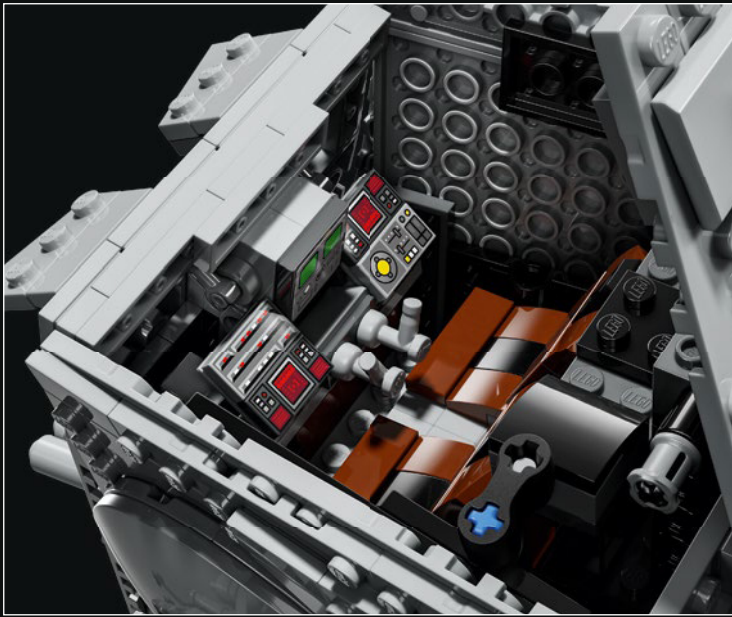

A detailed LEGO Star Wars AT-AT Walker, constructed from grey and black bricks. The model is shown from a side profile, highlighting its massive head, thick body, and long, jointed legs. The head features a large circular sensor or eye on the right side and a smaller one on the left. The body is rectangular with various mechanical details and a small orange piece visible on the right side. The legs are long and segmented, ending in large, claw-like feet. The entire model is set against a dark green background, and its reflection is visible on the surface it stands on.

## DÉTAILS DE LA TÊTE AUX PIEDS

Les « greeblings » sont une caractéristique emblématique des véhicules *Star Wars*™, et nous avons pris beaucoup de plaisir à les recréer ici. Pendant la construction, amusez-vous à repérer les éléments LEGO® insolites, comme les bâtons de ski et les rouleaux de peinture !

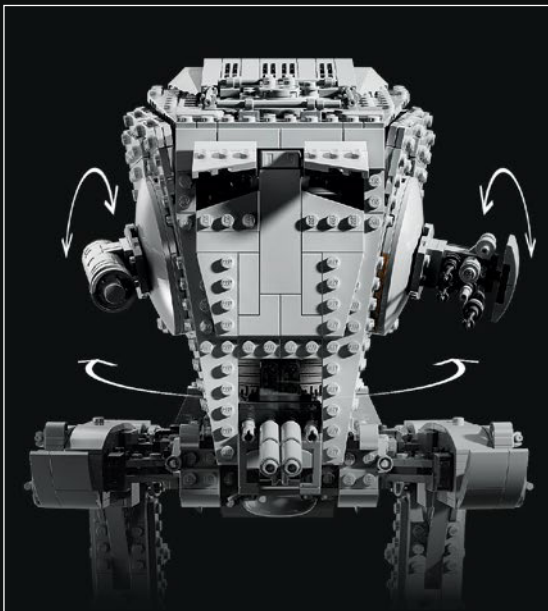

À l'intérieur du cockpit, les commandes, écrans et holoprojecteurs permettent aux pilotes impériaux de se déplacer sur n'importe quel terrain et de détecter les menaces imminentes, aussi bien devant que derrière eux.

Ouvrez la partie supérieure pour admirer l'intérieur en détail.

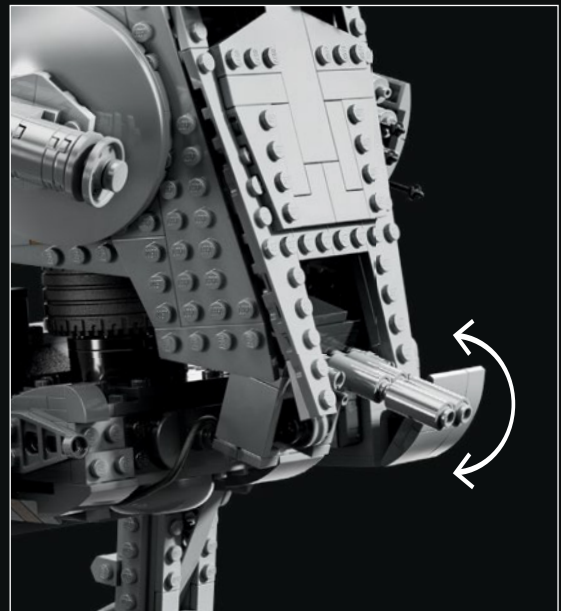

La trappe s'ouvre de l'avant vers l'arrière, permettant aux pilotes d'entrer et de sortir facilement du marcheur.

Faites pivoter la « tête » d'un côté à l'autre.

Le canon blaster léger (à gauche) et le lanceur à concussion (à droite) s'inclinent verticalement.

Le double canon blaster sur le menton se déplace de haut en bas.
