AT-ST: SEMPRE INCONFONDIBILE

Sono passati quasi due decenni dall'ultima versione dell'AT-ST Walker LEGO® Star Wars™ Ultimate Collector Series (10174, 2006). Da allora, la saga ha continuato ad attrarre nuove generazioni di fan dei film, delle serie in streaming e di LEGO Star Wars. Non c'è niente che ci renda più felici che condividere con voi modelli altamente dettagliati di veicoli popolari come questo e, speriamo, ispirare ed entusiasmare i fan di tutto il mondo. Dalle battaglie di Hoth ed Endor ne *L'Impero colpisce ancora* e *Il ritorno dello Jedi*, versioni aggiornate dei walker AT-ST sono apparsi in *Gli ultimi Jedi*, *Rogue One: A Star Wars Story* e *The Mandalorian*. Con questo modello, torniamo al suo design originale, con tantissimi dettagli e funzioni in più.

Buona costruzione!

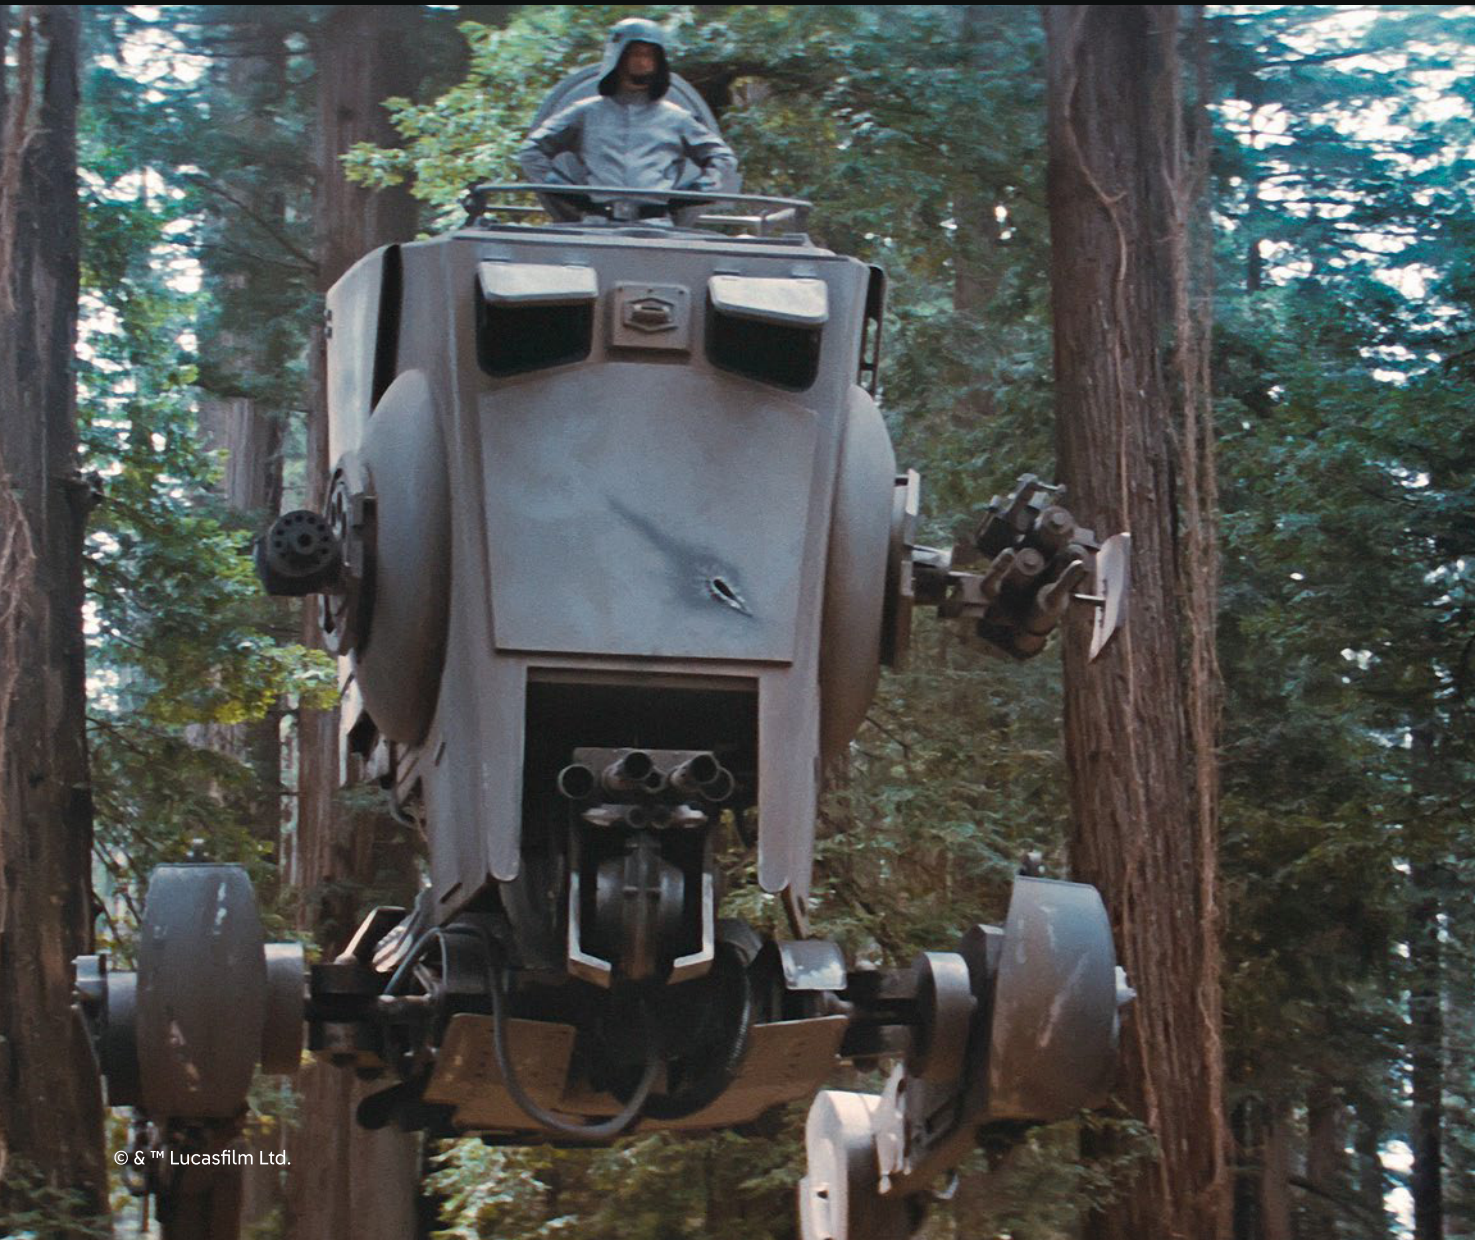

Jens Kronvold Frederiksen
Creative Lead e Design Director

ALL TERRAIN SCOUT TRANSPORT – IL TERRIFICANTE CUGINO DELL'AT-AT

I camminatori AT-ST, che spesso vengono utilizzati insieme ai più grandi camminatori AT-AT, sono vitali per le forze dell'Impero. Un veicolo ricognitore per due persone, dotato di cannoni blaster montati sul mento e di mortai per granate a concussione installati lateralmente, che eccelle nelle missioni di ricognizione e di supporto a terra. Si muove più velocemente dell'AT-AT grazie a un girostabilizzatore e a un sistema di locomozione avanzato che gli conferisce una camminata distinta, simile a quella di una creatura bipede. Nelle tranquille foreste di Endor, i walker attraversano il santuario naturale degli Ewok, e nessuno sembra in grado di arrestarli. Nel caos, la missione dei Ribelli di disattivare lo scudo deflettore della Morte Nera è in pericolo. Questo fino a quando, come per altre forze di spedizione imperiali, i Ribelli e i loro alleati non troveranno modi intelligenti per sfruttare le debolezze dei walker a loro vantaggio. Gli Ewok, armati di armi artigianali e di rocce, difendono valorosamente la loro terra con trappole ingegnose, permettendo a Chewbacca e ad alcuni Ewok intelligenti di impadronirsi di un camminatore. La strada verso la vittoria è assicurata.

IL LEGO® STAR WARS™ DESIGN TEAM

La maggior parte dei veicoli di *Star Wars*™ è notoriamente di aspetto robusto, con autentici segni di un utilizzo intensivo. In questo modello, le sfumature di colore sottolineano le macchie di ruggine e di sporcizia, frutto degli spostamenti nelle foreste di Endor e, per la prima volta, abbiamo anche un interno dettagliato. Costruire un veicolo di questa forma, con gambe sottili e una "testa" grande e pesante, richiede un approccio ingegneristico specifico. Nelle versioni cinematografiche, le gambe erano stabilizzate con un'asta d'acciaio orizzontale, che non è un'opzione nella versione LEGO®! Abbiamo sperimentato con le proporzioni e modificato il design per trovare il centro di gravità ottimale. Abbiamo aggiunto elementi in gomma antiscivolo alla base dei piedi, allungato leggermente sia i piedi sia gli artigli e posizionato le gambe ad angolo. Questo ci ha aiutato a creare una posa dinamica e a garantire la stabilità del modello.

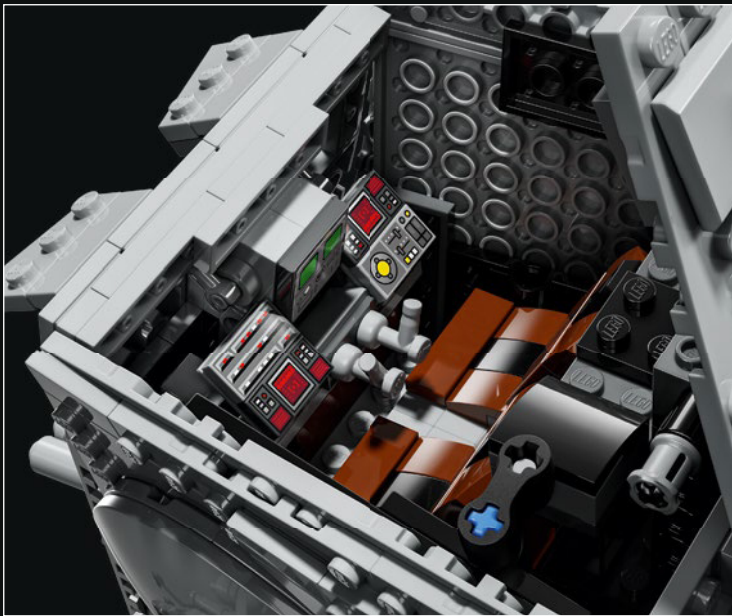

A detailed LEGO Star Wars AT-AT Walker, constructed from grey and black bricks. The model is shown from a side profile, highlighting its massive size and intricate mechanical details. The head is a complex assembly of bricks with a large circular sensor or eye. The body is a rectangular box with various protrusions and recesses. The legs are long and segmented, ending in large, claw-like feet. The entire model is set against a dark green background.

DETTAGLI DALLA TESTA AI PIEDI

I dettagli del greebling sono una caratteristica dei veicoli di *Star Wars*™ e ci divertiamo sempre a ricrearli. Durante la costruzione, cercate elementi LEGO® insoliti come bastoni da sci e rulli per dipingere!

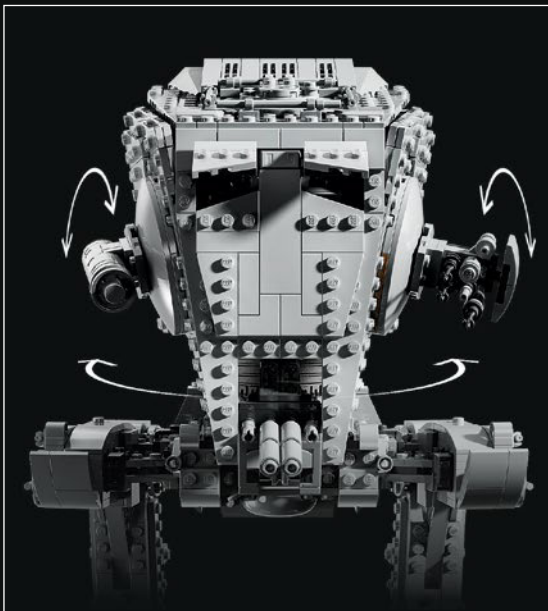

All'interno della cabina di guida, i comandi, i visori e gli olo-proiettori aiutano i piloti imperiali a vedere davanti e dietro di sé per spostarsi su qualsiasi terreno e individuare le minacce in arrivo.

Apri l'intera sezione superiore per dare un'occhiata più da vicino all'interno.

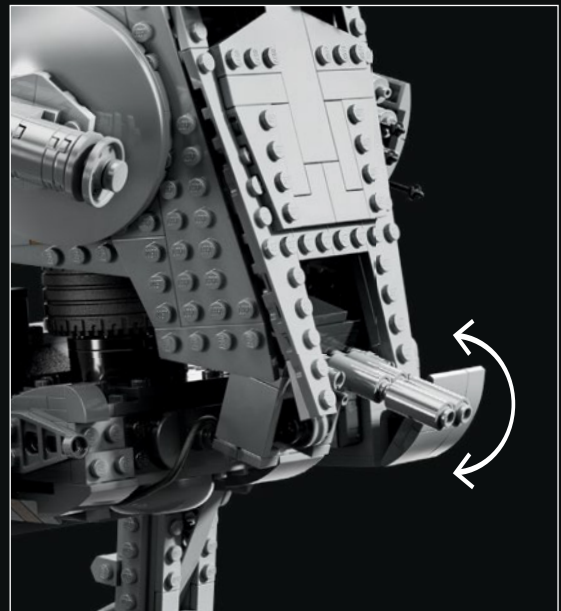

Il portello si apre all'indietro per consentire ai piloti di entrare e uscire dal walker.

Sposta la "testa" da un lato all'altro.

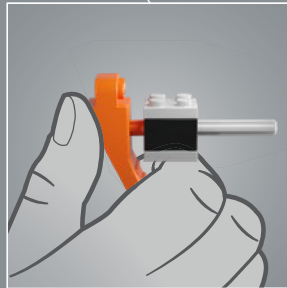

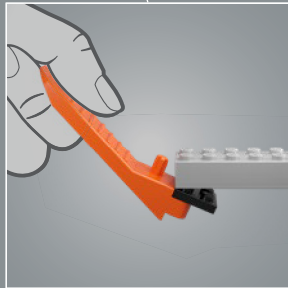

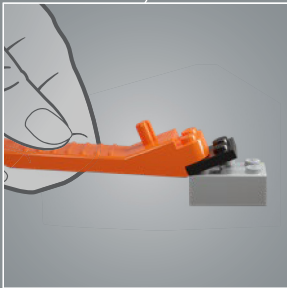

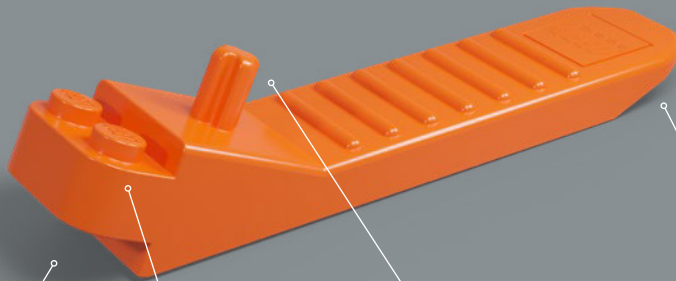

Il cannone blaster leggero (a sinistra) e il lanciagranate (a destra) ruotano verso l'alto e verso il basso.

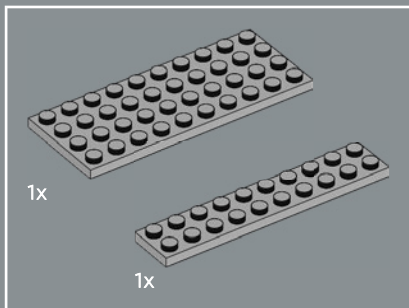

Il doppio cannone blaster montato sul mento si muove verso l'alto e verso il basso.
