TODO ESTÁ EN ORDEN

TRUCO CON EL CAMPO DE TRACCIÓN

Obi-Wan puede engancharse al campo magnético que encontró en el corredor del núcleo central del nivel 6. Detrás del seguro del fondo hay una representación en miniatura del núcleo del reactor, el objetivo principal para destruir de manera definitiva la segunda Estrella de la Muerte en *Star Wars: El Retorno del Jedi*.

NIVEL 5, BLOQUE PRISIÓN AA-23, CELDA 2187

Desde la sala de control del bloque prisión, los rebeldes localizan la de Leia. Puedes sacar la celda de Leia a través de la abertura de un lateral del modelo, colocar a Leia en su interior y acoplar el droide interrogador que *flota* junto a su litera. (Y también echar un vistazo a la parte de atrás para comprobar si Luke tiene realmente la estatura necesaria para ser soldado de asalto). Un vertedero de desperdicios que lleva al triturador de residuos está convenientemente situado cerca para escapar sin problemas.

NO HAY TIEMPO QUE PERDER

Nuestros rebeldes someten al guardia de la sala de control del hangar y, de inmediato, empiezan a planear su huida buscando el campo magnético de la Estrella de la Muerte. Las cosas dan un giro inesperado cuando R2-D2 descubre que la Princesa Leia está encerrada en un bloque prisión no lejos de allí.

FUERZAS IMPERIALES EN ACCIÓN

TRIPULANTE IMPERIAL

Además de las responsabilidades de mantenimiento, los tripulantes imperiales deben actuar ante cualquier irregularidad detectada en las operaciones de la Estrella de la Muerte.

OFICIAL DE LA ARMADA IMPERIAL

Un uniforme negro y una gorra con visera caracterizan a los imponentes oficiales y soldados de la Armada Imperial. Estos le allanan el camino a la Estrella de la Muerte por toda la galaxia, cueste lo que cueste.

SOLDADO DE LA ARMADA IMPERIAL

Habiendo servido tanto en la primera Estrella de la Muerte como en la segunda, los soldados de la Estrella de la Muerte son la élite de la Armada Imperial que se encarga de pilotar la superestructura a su destino y de controlar su escudo deflector y su superláser.

OBI-WAN KENOBI

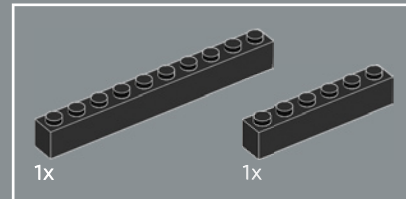

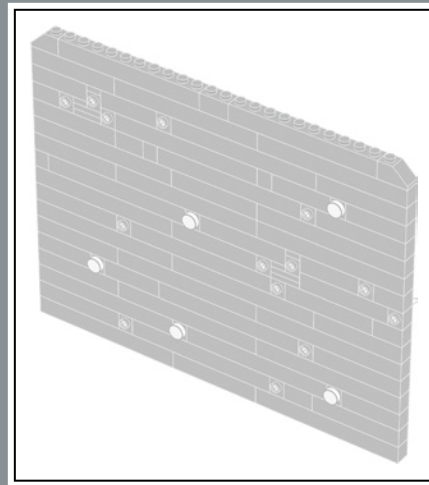

Obi-Wan usa la Fuerza para distraer a los soldados de asalto que vigilan el campo magnético de la Estrella de la Muerte y consigue escabullirse. ¡Los rebeldes tienen ahora la oportunidad de escapar!

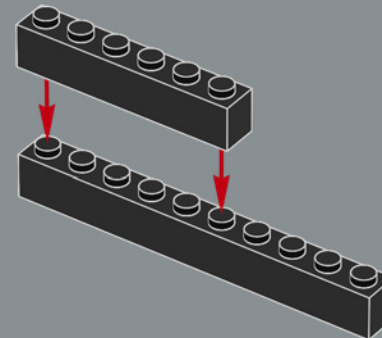

R3-T6

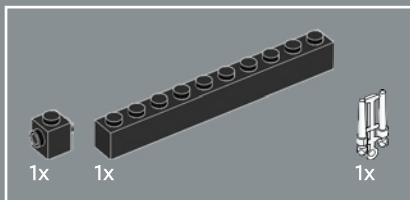

Como parte de la serie R3 de Industrial Automation, el droide astromecánico R3-T6 realizó tareas de astronavegación a bordo de la primera Estrella de la Muerte. Los droides de este modelo pueden personalizarse con una interfaz informática y brazos prensiles, descargadores eléctricos y soldadores de arco, y se someten periódicamente a borrados de memoria para evitar que desarrollen una personalidad independiente.
