DETRÁS DE LAS CÁMARAS

¡OCUPADA! (ESTA NO ES LA CÁPSULA QUE BUSCAS)

En la planta superior izquierda, el personal de la Estrella de la Muerte LEGO® puede retirarse para descansar y recuperarse entre sus múltiples batallas y misiones de destrucción de planetas. Esta cápsula, equipada con una máquina de karaoke y una bebida caliente a elegir, es una alusión directa a una emblemática escena del videojuego LEGO® Star Wars: La Saga Skywalker.

TODA UNA EXPLOSIÓN

Si quitas la parte derecha del techo de la sala del trono, podrás abrir el panel lateral para descubrir un cañón bláster oculto. La sala del cañón bláster tiene un pequeño panel de control y espacio para una minifigura LEGO® de un artillero.

PARA VIAJAR CON EXCLUSIVIDAD

¿Tienes que ir a algún sitio? La lanzadera imperial puede desplegar sus alas para activar el modo de vuelo. Y después de un duro día transportando al Emperador, pliégle las alas, retrae el tren de aterrizaje y estacionala en el hangar para exponerla. Tanto la cabina como el fuselaje se pueden abrir para colocar en su interior al piloto de la lanzadera imperial y a un pasajero.

EL PLAN PERFECTO

Orson Krennic, director de investigación de armas avanzadas del ejército imperial, y Galen Erso, el arquitecto de la Estrella de la Muerte, aparecen junto a una consola que contiene los planos de la temible estación de combate. La pegatina de la construcción que tienen al lado muestra el punto débil de la abertura de salida que Galen incorporó al diseño. Una cubierta decorada 1x2 muestra los planos que la hija de Galen, Jyn Erso, roba del almacén de Scarif en *Rogue One*.

MENCIONES ESPECIALES

SOLDADO DE ASALTO EN BAÑADOR

Tras su fachada de individuos que actúan como miembros de una colmena, los soldados de asalto LEGO® encuentran formas creativas de divertirse y olvidarse de sus problemas, como se ve en el videojuego LEGO® Star Wars: La Saga Skywalker.

PILOTO DE LANZADERA IMPERIAL

Los pilotos imperiales son la flor y nata del Imperio, conocidos por sus extraordinarios reflejos y su dedicación al deber de erradicar a los disidentes.

DIRECTOR ORSON KRENNIC

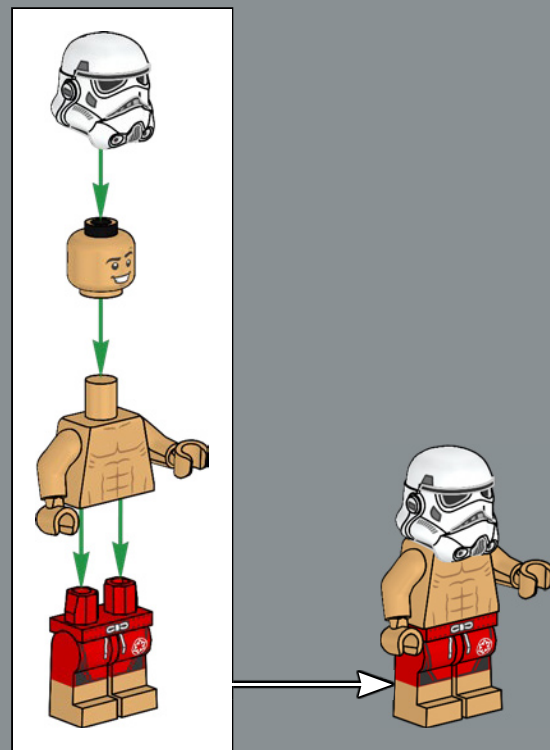

Obligando a Galen Erso a completar su trabajo con los cristales de Kyber para mejorar el rendimiento energético, el Director Orson Krennic pudo cumplir su peligrosa ambición de crear el arma imperial definitiva: el superláser de la Estrella de la Muerte.

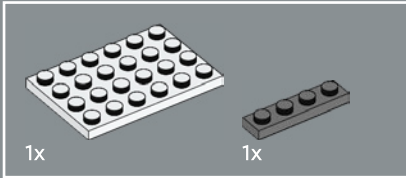

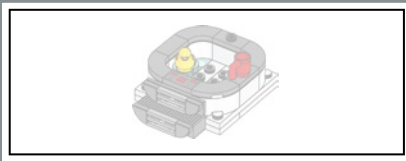

GALEN ERSO

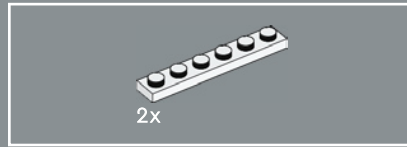

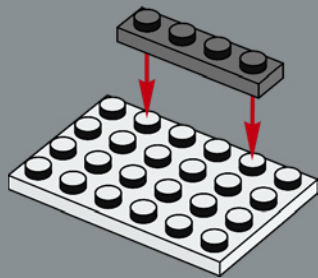

El reacio arquitecto principal de la Estrella de la Muerte nunca vio su diseño en funcionamiento. Plenamente consciente de la amenaza potencial que esta obra maestra de la ingeniería representaría para la galaxia y corriendo un gran riesgo personal, introdujo un fallo deliberado que, al final, permitió a los rebeldes destruir la temida monstruosidad.

This image shows the completed LEGO Technic assembly from a perspective view. The structure is built on a base of 1x10 Technic bricks. The internal frame is constructed using 1x5 Technic bricks and 1x3 Technic bricks. Two motor units are highlighted with green outlines, each consisting of a 1x3 Technic brick, a 1x2 Technic brick, and a 1x1 Technic brick. The assembly is designed to be a functional model, likely a robot or a vehicle, given the inclusion of motors and the use of Technic components.
