CE N'EST PAS UNE LUNE.

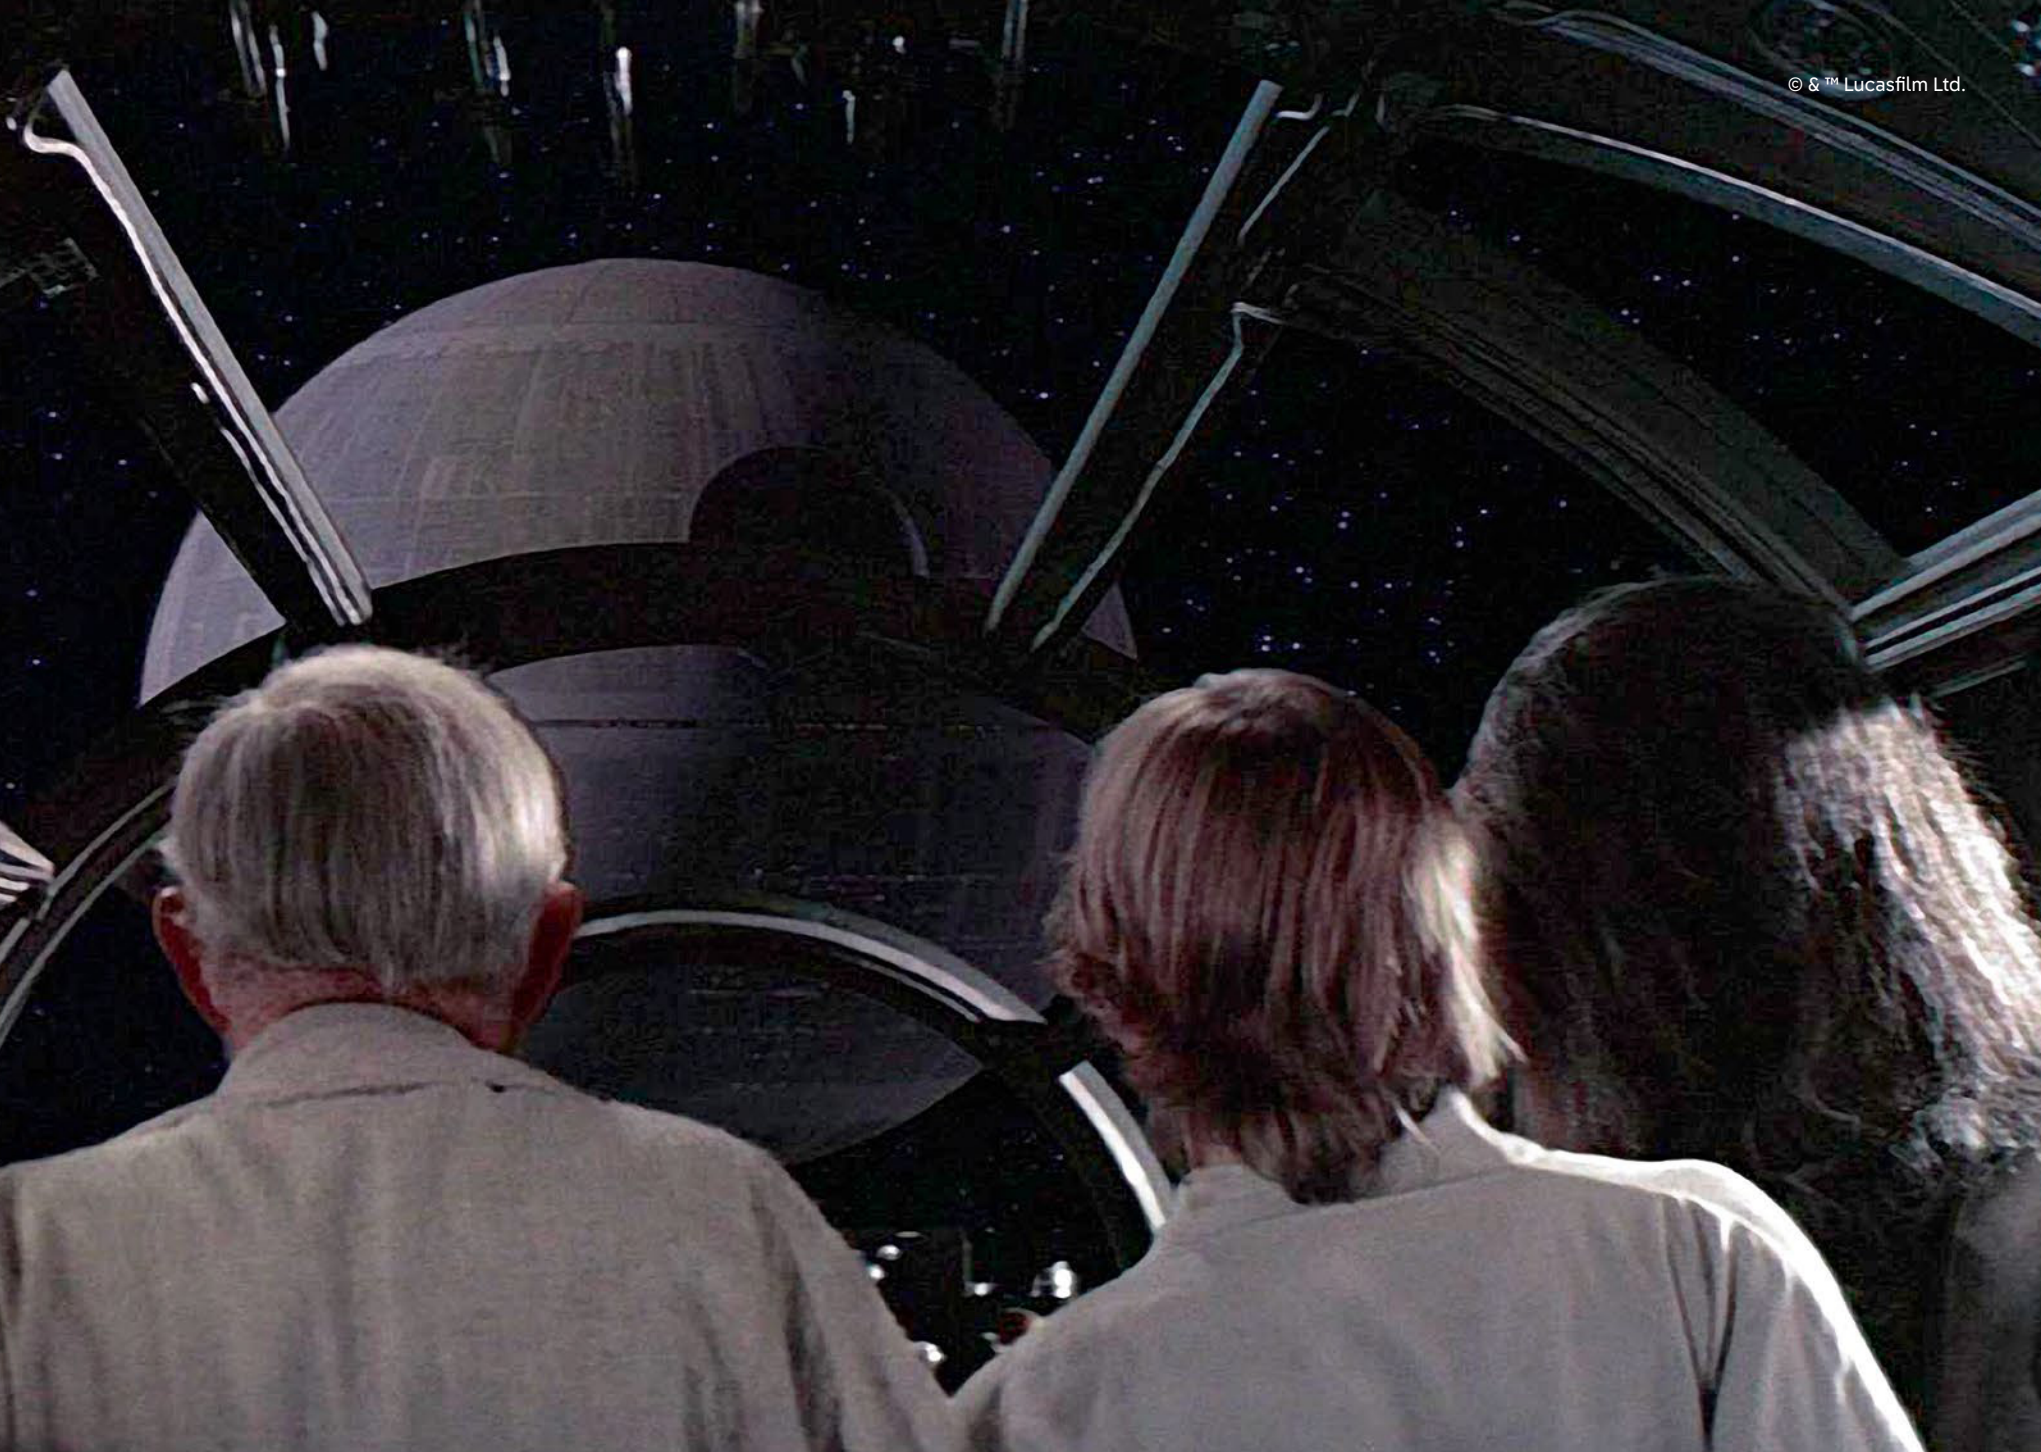

Depuis l'arrivée de nos premiers sets LEGO® *Star Wars*™ dans notre galaxie en 1999, nous avons lancé des centaines de modèles détaillés de toutes tailles et destinés aux constructeurs de tous âges. Nous restons toujours à l'écoute de nos fans et cherchons de nouveaux moyens créatifs de recréer des moments mémorables de la saga pour améliorer l'expérience LEGO *Star Wars*. L'Étoile de la Mort est une icône incontestée de l'univers de *Star Wars*, tant pour les fans que pour nous, les designers. Cette version Ultimate Collector Series combine des éléments de l'Étoile de la Mort et de l'Étoile de la Mort II, et constitue, de loin, notre set LEGO *Star Wars* le plus détaillé, le plus impressionnant en termes de dimensions, de poids et de nombre de briques et de minifigurines. Dans la saga, la construction des Étoiles de la Mort est enveloppée de mystère, et bien que nous ne puissions pas, nous non plus, révéler tous nos secrets de conception, nous vous promettons que vous aurez l'occasion de découvrir de nouveaux aspects de cette station spatiale spectaculaire !

Bonne construction !

BREF HISTORIQUE DES ÉTOILES DE LA MORT LEGO®

De nombreuses variantes de l'Étoile de la Mort ont vu le jour depuis la sortie de la première version LEGO® en 2005. Cependant, les sets les plus appréciés restent les versions emblématiques, imposantes et immédiatement reconnaissables de la gamme Ultimate Collector Series – et vous possédez désormais le modèle le plus grand et le plus détaillé à ce jour. Feu à volonté...

C'EST UNE STATION SPATIALE

L'Étoile de la Mort est le symbole ultime de la puissance de l'Empire galactique : une station spatiale de la taille de la Lune, capable d'anéantir des planètes entières d'un seul coup. Conçue pendant les Guerres des clones sous la direction secrète de Dark Sidious, sa construction fut supervisée par des personnages célèbres, tels que le vice-amiral Rancit et, plus tard, le Grand Moff Wilhuff Tarkin, et s'étala sur plusieurs décennies, marquées par plusieurs revers et sabotages. La première Étoile de la Mort prouva sa puissance en anéantissant Alderaan, mais grâce à nos héros Rebelles, l'Alliance rebelle sut exploiter une faille de conception et la détruire lors de la bataille de Yavin.

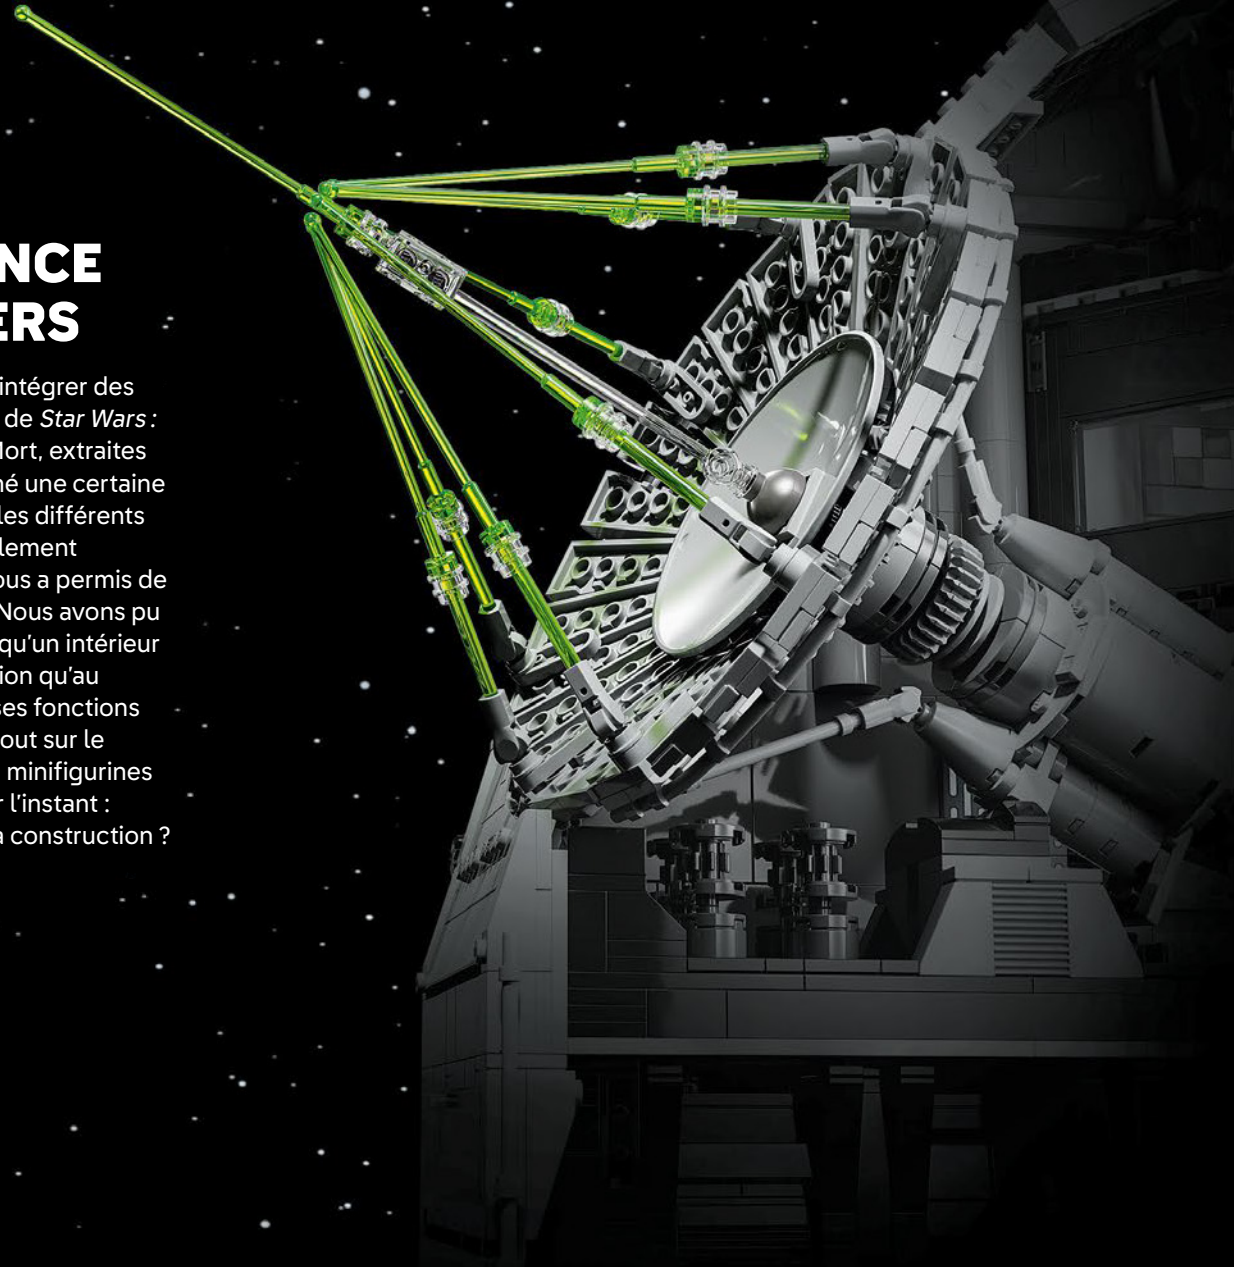

L'ÉTOILE DE LA MORT II

Plutôt que de se laisser abattre, l'Empire entama la construction d'une deuxième Étoile de la Mort, plus grande, près d'Endor, dotée d'une puissance de feu encore plus dévastatrice. Orchestrant un piège pour écraser l'Alliance rebelle, l'Empereur Palpatine laissa fuir des informations sur la construction de la deuxième Étoile de la Mort, attirant ainsi les Rebelles dans une confrontation décisive. L'Empereur trouva la mort lors de la bataille d'Endor qui s'ensuivit, tué par Dark Vador, qui, dans un acte de rédemption ultime, se retourna contre son maître pour sauver son fils, Luke Skywalker. Profitant de ce moment, les Forces rebelles lancèrent une attaque coordonnée qui entraîna la destruction de la deuxième Étoile de la Mort, assénant un coup décisif à l'Empire et marquant un tournant dans la Guerre civile galactique.

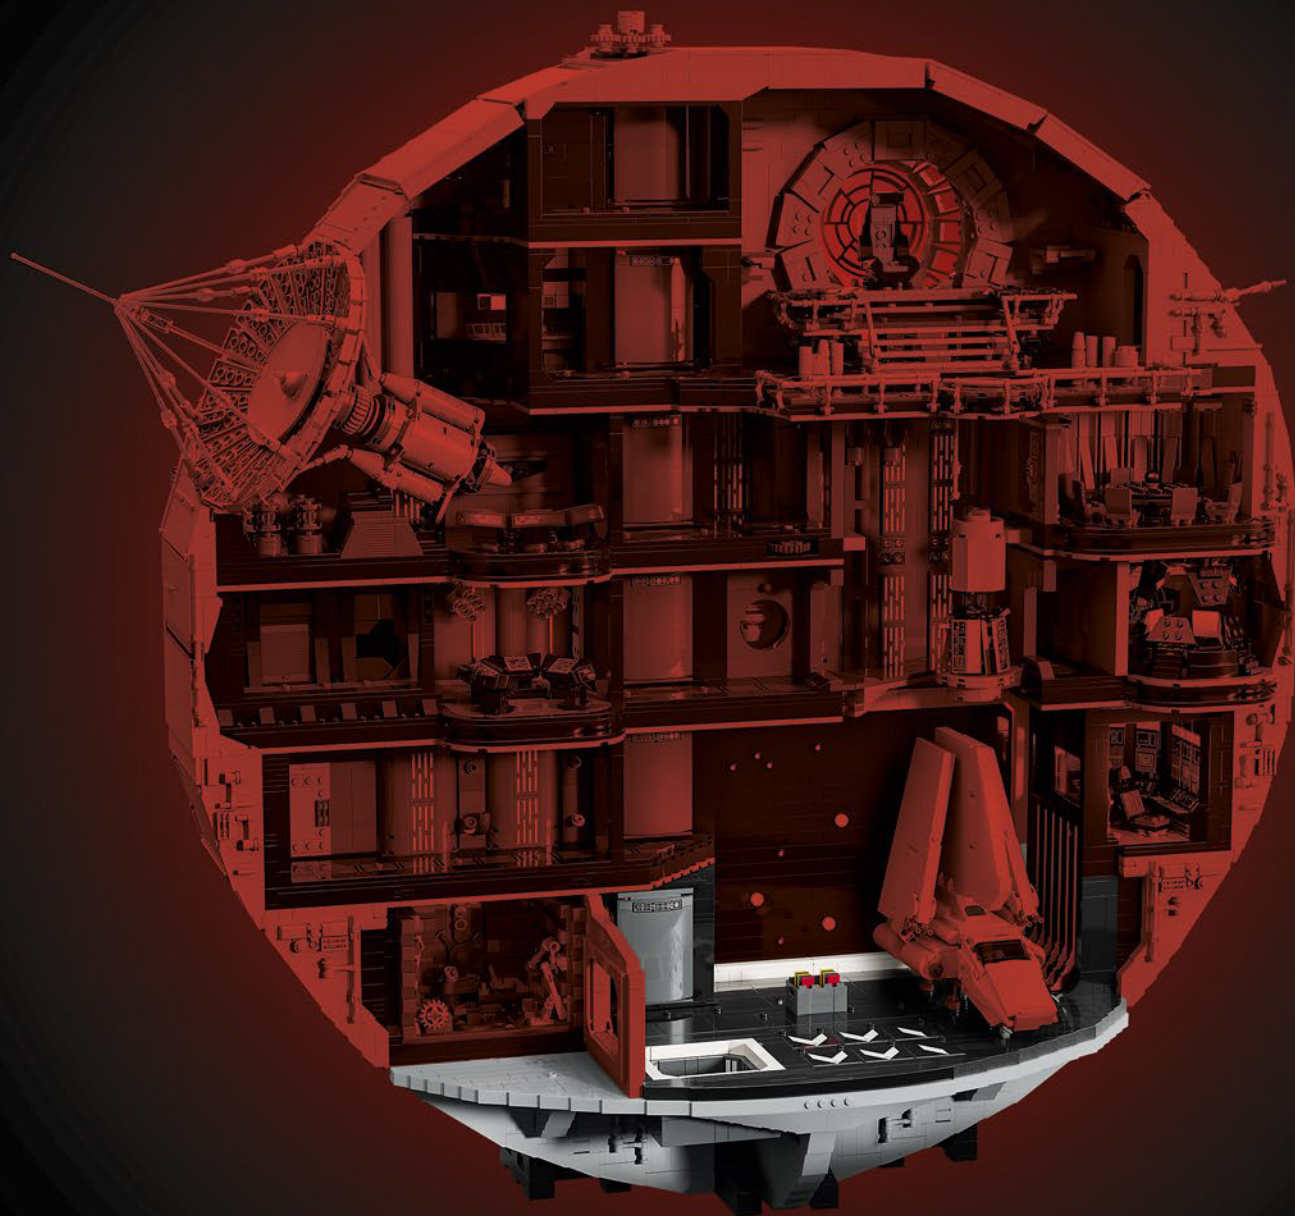

RECRÉER LA PUISSANCE SUPRÊME DE L'UNIVERS

Dès le début du processus, nous avons décidé d'intégrer des scènes de la première Étoile de la Mort, extraites de *Star Wars : Un nouvel espoir* et de la deuxième Étoile de la Mort, extraites de *Star Wars : Le retour du Jedi*. Cela nous a donné une certaine liberté créative et nous a permis d'expérimenter les différents lieux afin de créer une structure qui suit le déroulement logique de la saga. La grande taille du modèle nous a permis de concevoir plus qu'un modèle détaillé à exposer. Nous avons pu intégrer de nombreuses fonctions géniales ainsi qu'un intérieur regorgeant de références, tant dans la construction qu'au niveau des graphismes. Découvrez les nombreuses fonctions dynamiques et amusantes présentes un peu partout sur le modèle, qui ne manqueront pas d'occuper les 36 minifigurines et les 2 droïdes ! Mais n'en révélons pas plus pour l'instant : pourquoi ne pas nous lancer tout de suite dans la construction ?

EMBARQUEMENT IMMÉDIAT

BAIE D'AMARRAGE 327

L'équipage et les visiteurs, qu'ils soient venus de leur plein gré ou aient été forcés, arrivent par des navettes ou d'autres vaisseaux spatiaux via la baie d'amarrage du hangar. (Attention à la cage d'ascenseur dans le sol.) Si vous n'êtes pas en train de fuir ou de vous cacher des stormtroopers, prenez le temps d'admirer la vue panoramique sur la galaxie, avec des représentations de planètes et d'étoiles.

JE VOUS DÉPOSE ?

Se déplacer dans l'Étoile de la Mort en utilisant les escaliers serait éprouvant. Les minifigurines peuvent accéder à chaque étage, de la base au sommet, en empruntant l'ascenseur. En haut du modèle, tournez la molette dans le sens des aiguilles d'une montre pour faire monter la cabine d'ascenseur, et dans le sens inverse pour la faire descendre. Lorsqu'elle atteint le niveau souhaité, un petit panneau blanc apparaît à gauche de la porte. (Musique d'ambiance d'ascenseur non incluse.)

UNE NOUVELLE ALLIANCE COMMENCE À SE FORMER

ÉQUIPAGE IMPÉRIAL

L'Étoile de la Mort est une machine extraordinairement bien huilée. L'équipage impérial, spécialisé dans le savoir-faire technique et la logistique, est nécessaire à tous les niveaux, afin de garantir son bon fonctionnement et son entretien régulier.

STORMTROOPER

Les stormtroopers sont impitoyables au combat et conditionnés pour faire preuve d'une loyauté absolue envers l'Empire. Il est impossible de les distinguer les uns des autres car ils portent tous une armure blanche caractéristique. De plus, ils semblent pouvoir être remplacés à l'infini lors des combats. Toutefois, leurs activités pendant leur temps libre à bord de cette station spatiale pourraient vous surprendre.

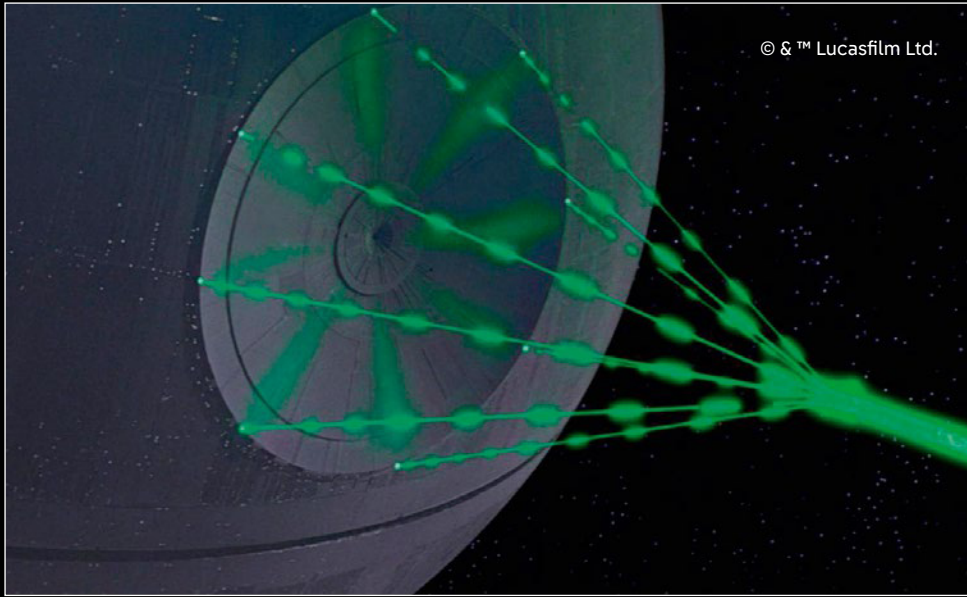

LUKE SKYWALKER (le Rebelle)

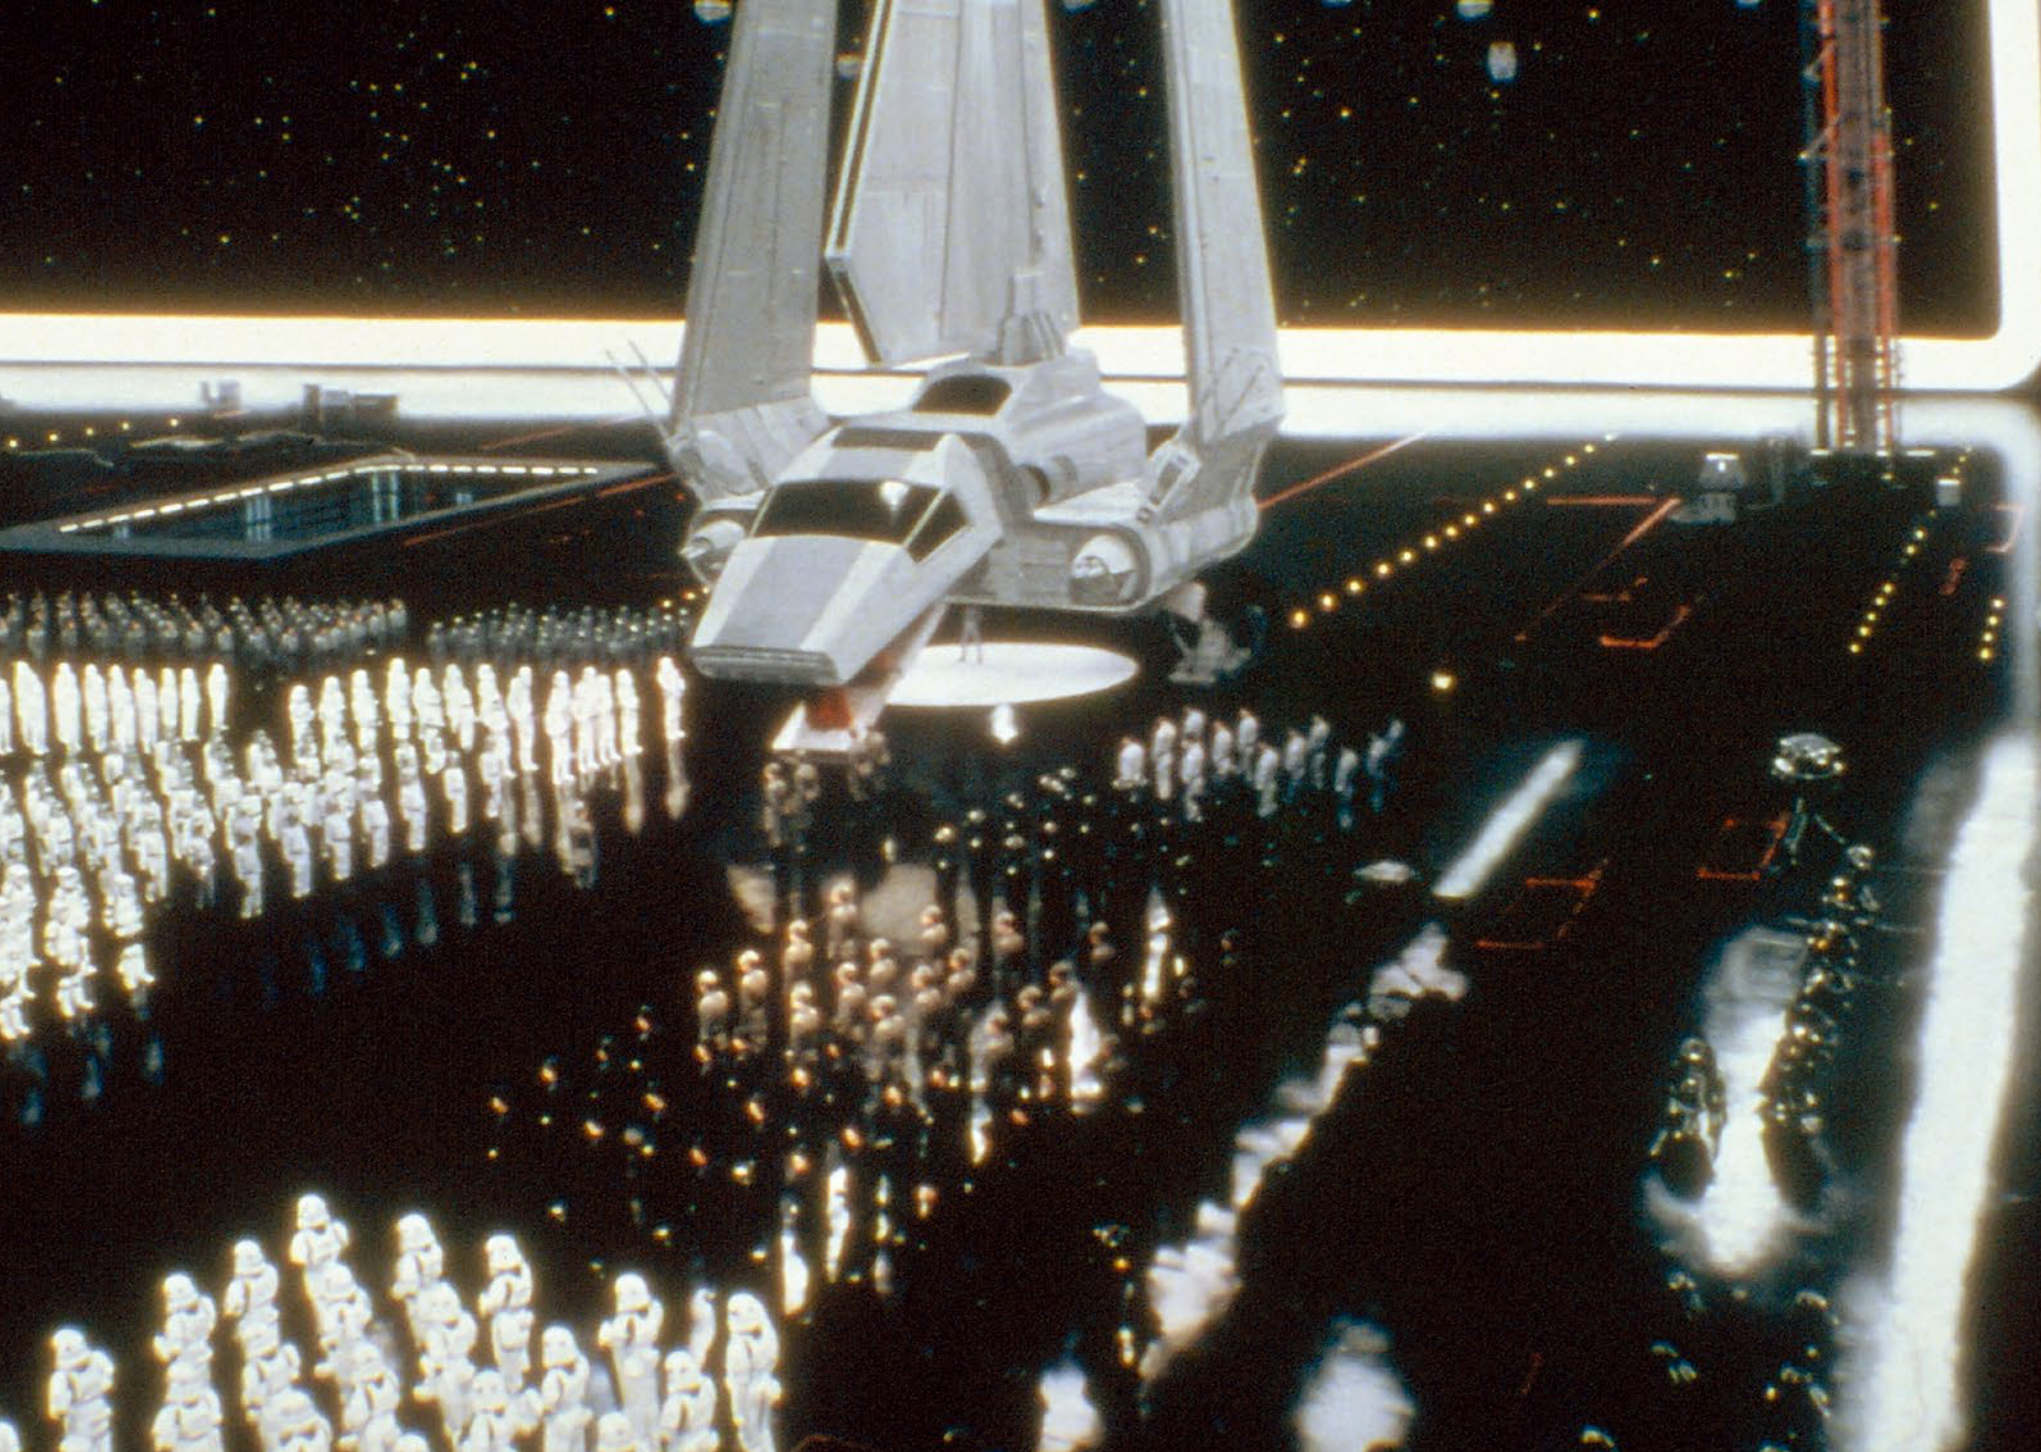

Luke menait une vie tranquille et sans histoire comme fermier sur Tatooine lorsqu'il se retrouva propulsé dans un drame galactique aux proportions épiques. À bord de l'Étoile de la Mort, il apprit rapidement à naviguer dans un nouveau territoire en tant que Rebelle, aux côtés de ses nouveaux amis et de ses fidèles droïdes.

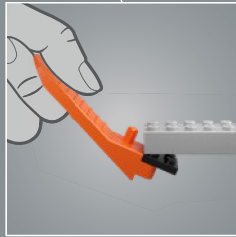

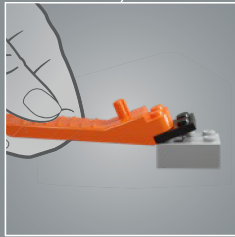

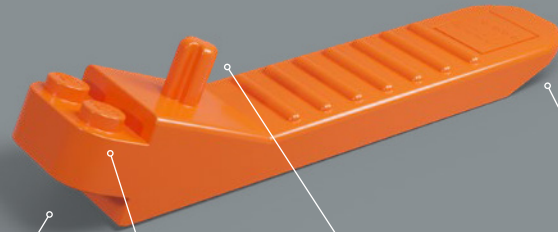

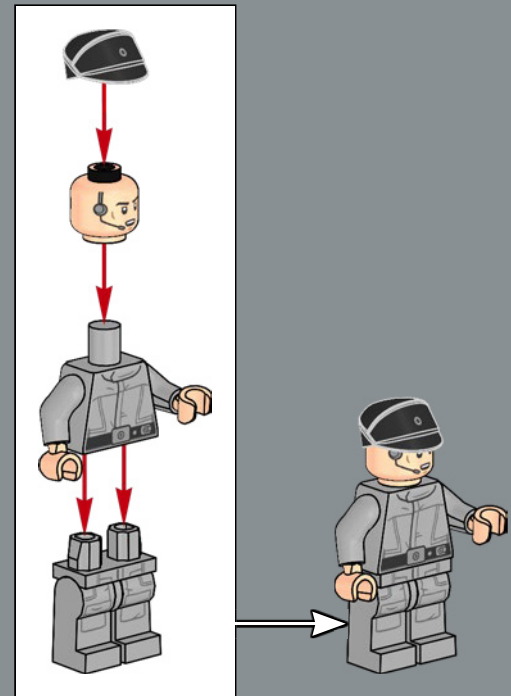

HAN SOLO (capitaine du *Faucon Millenium*)

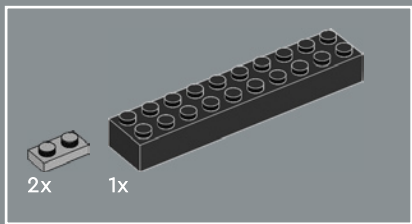

Contrebandier devenu Rebelle, le héros le plus charmant et le plus tristement célèbre de la galaxie a appris dès son plus jeune âge que la seule personne en qui il peut avoir confiance est lui-même. Ainsi que son copilote et complice, Chewbacca, bien sûr. Mais la patience du capitaine du *Faucon Millenium* envers l'Empire (et inversement) est limitée, alors s'il peut gagner un ou deux crédits en sauvant une princesse kidnappée de leurs griffes... Ça lui convient.
