TOUT EST SOUS CONTRÔLE

MANŒUVRES ASTUCIEUSES DU RAYON TRACTANT

Obi-Wan peut être attaché au rayon tractant qu'il a trouvé dans le couloir du puits central du niveau 6. Derrière le loquet à l'arrière se trouve une représentation miniature du cœur du réacteur, la cible principale pour la destruction ultime de la deuxième Étoile de la Mort dans *Star Wars : Le Retour du Jedi*.

NIVEAU 5, BLOC DE DÉTENTION AA-23, CELLULE 2187

Depuis la salle de contrôle du bloc de cellules, les Rebelles localisent la cellule de Leia. Vous pouvez retirer la cellule de Leia par une ouverture située sur le côté du modèle, placer Leia à l'intérieur et fixer le droïde d'interrogatoire qui semble « flotter » à côté de son lit. (À l'arrière, vous pouvez vérifier que Luke répond réellement aux exigences de hauteur des Stormtroopers...) Le conduit à ordures menant au compacteur de déchets est idéalement situé pour permettre une évasion en douceur.

CE N'EST PAS LE MOMENT DE TRAÎNER

Nos Rebelles maîtrisent le garde de la salle de contrôle du hangar et commencent immédiatement à planifier leur évasion en cherchant l'emplacement du rayon tractant de l'Étoile de la Mort. Les choses prennent une tournure inattendue lorsque R2-D2 découvre que la Princesse Leia est retenue dans un bloc de détention situé à proximité.

FORCES IMPÉRIALES À L'ŒUVRE

ÉQUIPAGE IMPÉRIAL

Non seulement l'équipage impérial est tenu de procéder à l'entretien, mais il doit également intervenir en cas d'irrégularités détectées dans le fonctionnement de l'Étoile de la Mort.

OFFICIER DE LA FLOTTE IMPÉRIALE

L'uniforme noir et les casquettes évasées caractérisent les officiers et soldats menaçants de la Flotte Impériale. Ceux-ci ouvrent la voie à l'Étoile de la Mort dans la galaxie, et ceci, à n'importe quel prix.

SOLDAT DE LA FLOTTE IMPÉRIALE

Présents à bord de la première et de la deuxième Étoile de la Mort, les soldats de l'Étoile de la Mort sont l'élite de la Flotte impériale. Ils sont chargés de piloter la super-structure vers ses destinations et de contrôler le bouclier déflecteur, ainsi que le superlaser.

OBI-WAN KENOBI

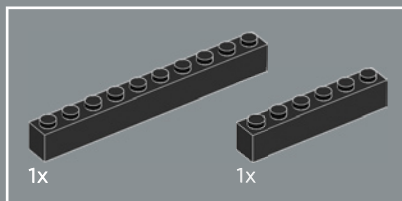

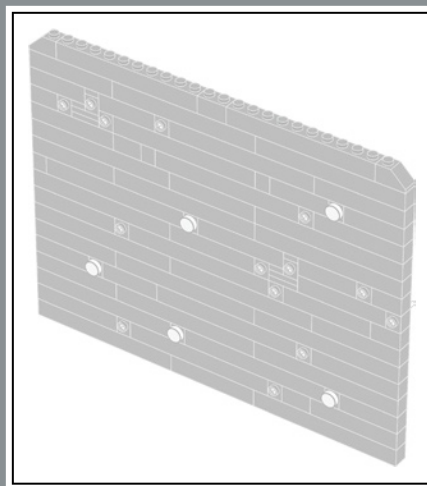

Obi-Wan utilise la Force pour distraire les stormtroopers qui gardent le rayon tractant de l'Étoile de la Mort et parvient à passer discrètement. Les Rebelles ont maintenant une chance de s'échapper !

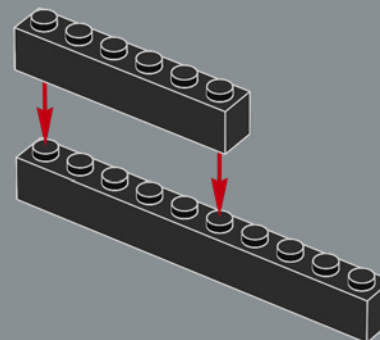

R3-T6

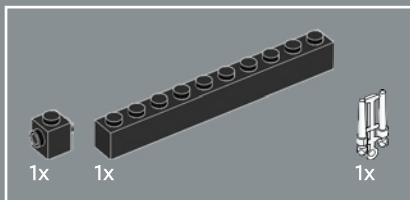

En tant que modèle de la série R3 fabriquée par la société Industrial Automaton, le droïde astromech R3-T6 effectuait des tâches d'astro-navigation à bord de la première Étoile de la Mort. Ce modèle de droïde peut être personnalisé avec une interface informatique, des bras préhensiles, des aiguillons électrocutants et des postes de soudure à l'arc, et il subit régulièrement des effacements de mémoire afin de prévenir toute velléité d'indépendance.
