EN COULISSES

OCCUPÉ ! (CE N'EST PAS LA CAPSULE QUE VOUS RECHERCHEZ)

À l'étage supérieur, à gauche, le personnel de l'Étoile de la Mort LEGO® peut se reposer et récupérer entre deux batailles et missions de destruction de planètes.

La machine à karaoké et la boisson chaude de votre choix constituent un clin d'œil à une scène culte du jeu vidéo LEGO® Star Wars : La Saga Skywalker.

UN DÉTAIL EXPLOSIF

Si vous retirez le côté droit du toit de la salle du trône, vous pouvez ouvrir le panneau latéral pour révéler un canon blaster caché. La salle du canon blaster contient un petit panneau de contrôle et suffisamment de place pour accueillir une minifigurine d'artilleur LEGO®.

POUR LES DÉPLACEMENTS DES VIP

Vous devez vous rendre quelque part ? La navette impériale peut déployer ses ailes pour activer le mode vol. Sinon, après une journée difficile passée à transporter l'Empereur, repliez les ailes, rentrez le train d'atterrissage et stationnez-la dans le hangar pour l'exposer. Vous pouvez ouvrir le cockpit et le fuselage pour placer le pilote de la navette impériale ainsi qu'un passager à l'intérieur.

LES PLANS LES MIEUX ÉLABORÉS

Le directeur Krennic, responsable de la recherche sur les armes avancées pour l'armée impériale, et Galen Erso, l'architecte de l'Étoile de la Mort, sont représentés à côté d'une console contenant les plans de l'Étoile de la Mort. L'autocollant placé sur le côté du modèle représente la faille dans le conduit d'évacuation que Galen a intégrée lors de sa conception. Une tuile 1x2 décorée présente les plans que la fille de Galen, Jyn Erso, a volés dans le coffre-fort de Scariff dans *Rogue One*.

MENTIONS SPÉCIALES

STORMTROOPER DU JACUZZI

Derrière l'image d'une ruche pleine d'activité qu'ils donnent en public, les stormtroopers LEGO® trouvent des moyens créatifs de s'amuser et d'oublier leurs problèmes, comme on le voit dans le jeu vidéo LEGO® Star Wars : La Saga Skywalker.

PILOTE DE NAVETTE IMPÉRIALE

Réputés pour leurs réflexes remarquables et leur dévouement à éradiquer les ennemis de l'Empire, les pilotes impériaux sont l'élite de l'Empire.

DIRECTEUR ORSON KRENNIC

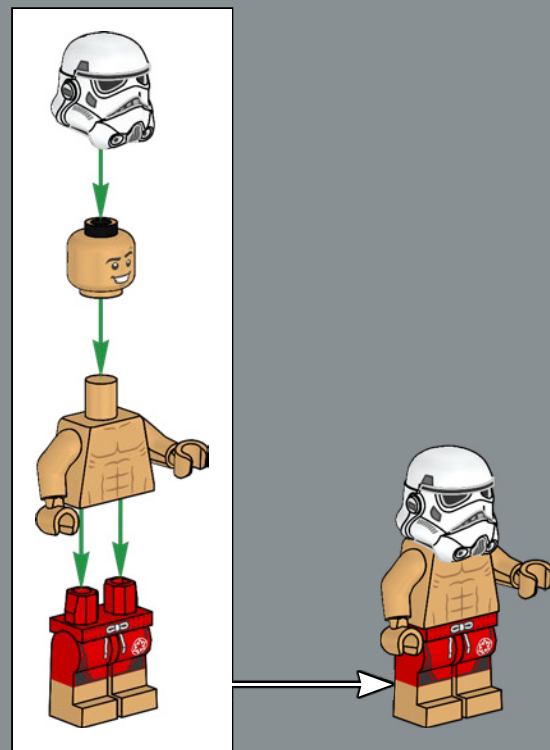

En forçant Galen Erso à achever ses travaux sur les cristaux kyber afin d'augmenter le rendement énergétique, le directeur Orson Krennic a pu réaliser ses ambitions dangereuses et créer l'arme impériale ultime : le superlaser de l'Étoile de la Mort.

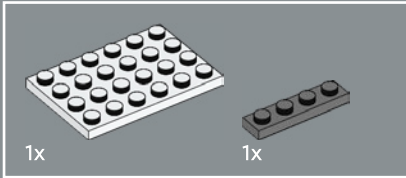

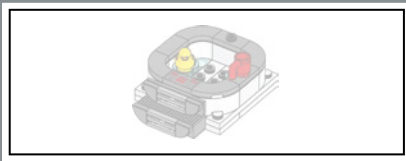

GALEN ERSO

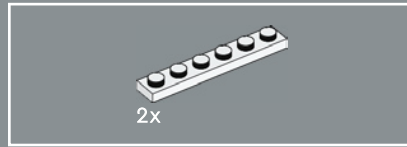

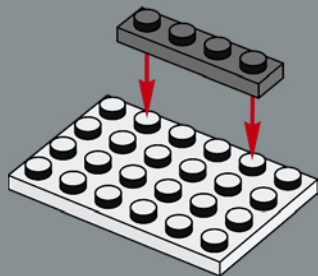

Principal architecte, malgré lui, de l'Étoile de la Mort il n'a jamais vu son projet se concrétiser. Conscient du danger que représenterait ce chef-d'œuvre d'ingénierie pour la galaxie, il y a délibérément intégré une faille au péril de sa vie, ce qui a finalement permis aux Rebelles de détruire ce monstre redouté.

This image shows the completed LEGO Technic assembly from a perspective view. The structure is built on a base of 1x10 Technic bricks. The internal frame is constructed using 1x5 and 1x3 Technic bricks. Two motor units are highlighted with green outlines, showing the motor, gear, and pulley components. The assembly is designed to hold two motors in a specific orientation, likely for a dual-motor drive system.
