LA PUISSANCE DE L'EMPIRE

Peu de vaisseaux impériaux inspirent autant de crainte que le vaisseau amiral de Dark Vador : le monstrueux *Executor*. Ses prédécesseurs, les premiers Destroyers stellaires de classe *Impérial*, paraissent presque insignifiants en comparaison. Après l'échec de la stratégie d'attaque de l'amiral Ozzel lors de la bataille de Hoth, Vador prend lui-même le commandement de l'*Executor* pour mener à bien la mission. Même si la majorité des Rebelles parviennent à s'échapper, leur base est laissée en ruines. Lors de la bataille d'Endor, le destin semble une fois de plus s'acharner contre les Rebelles, jusqu'à ce que le colosse soit finalement abattu par un chasseur A-Wing rebelle. La délivrance est cathartique. Au fil des années, nous avons ajouté d'impressionnants vaisseaux à notre flotte LEGO® Star Wars™, y compris de précédentes versions de l'*Executor* – mais jamais à une telle échelle.

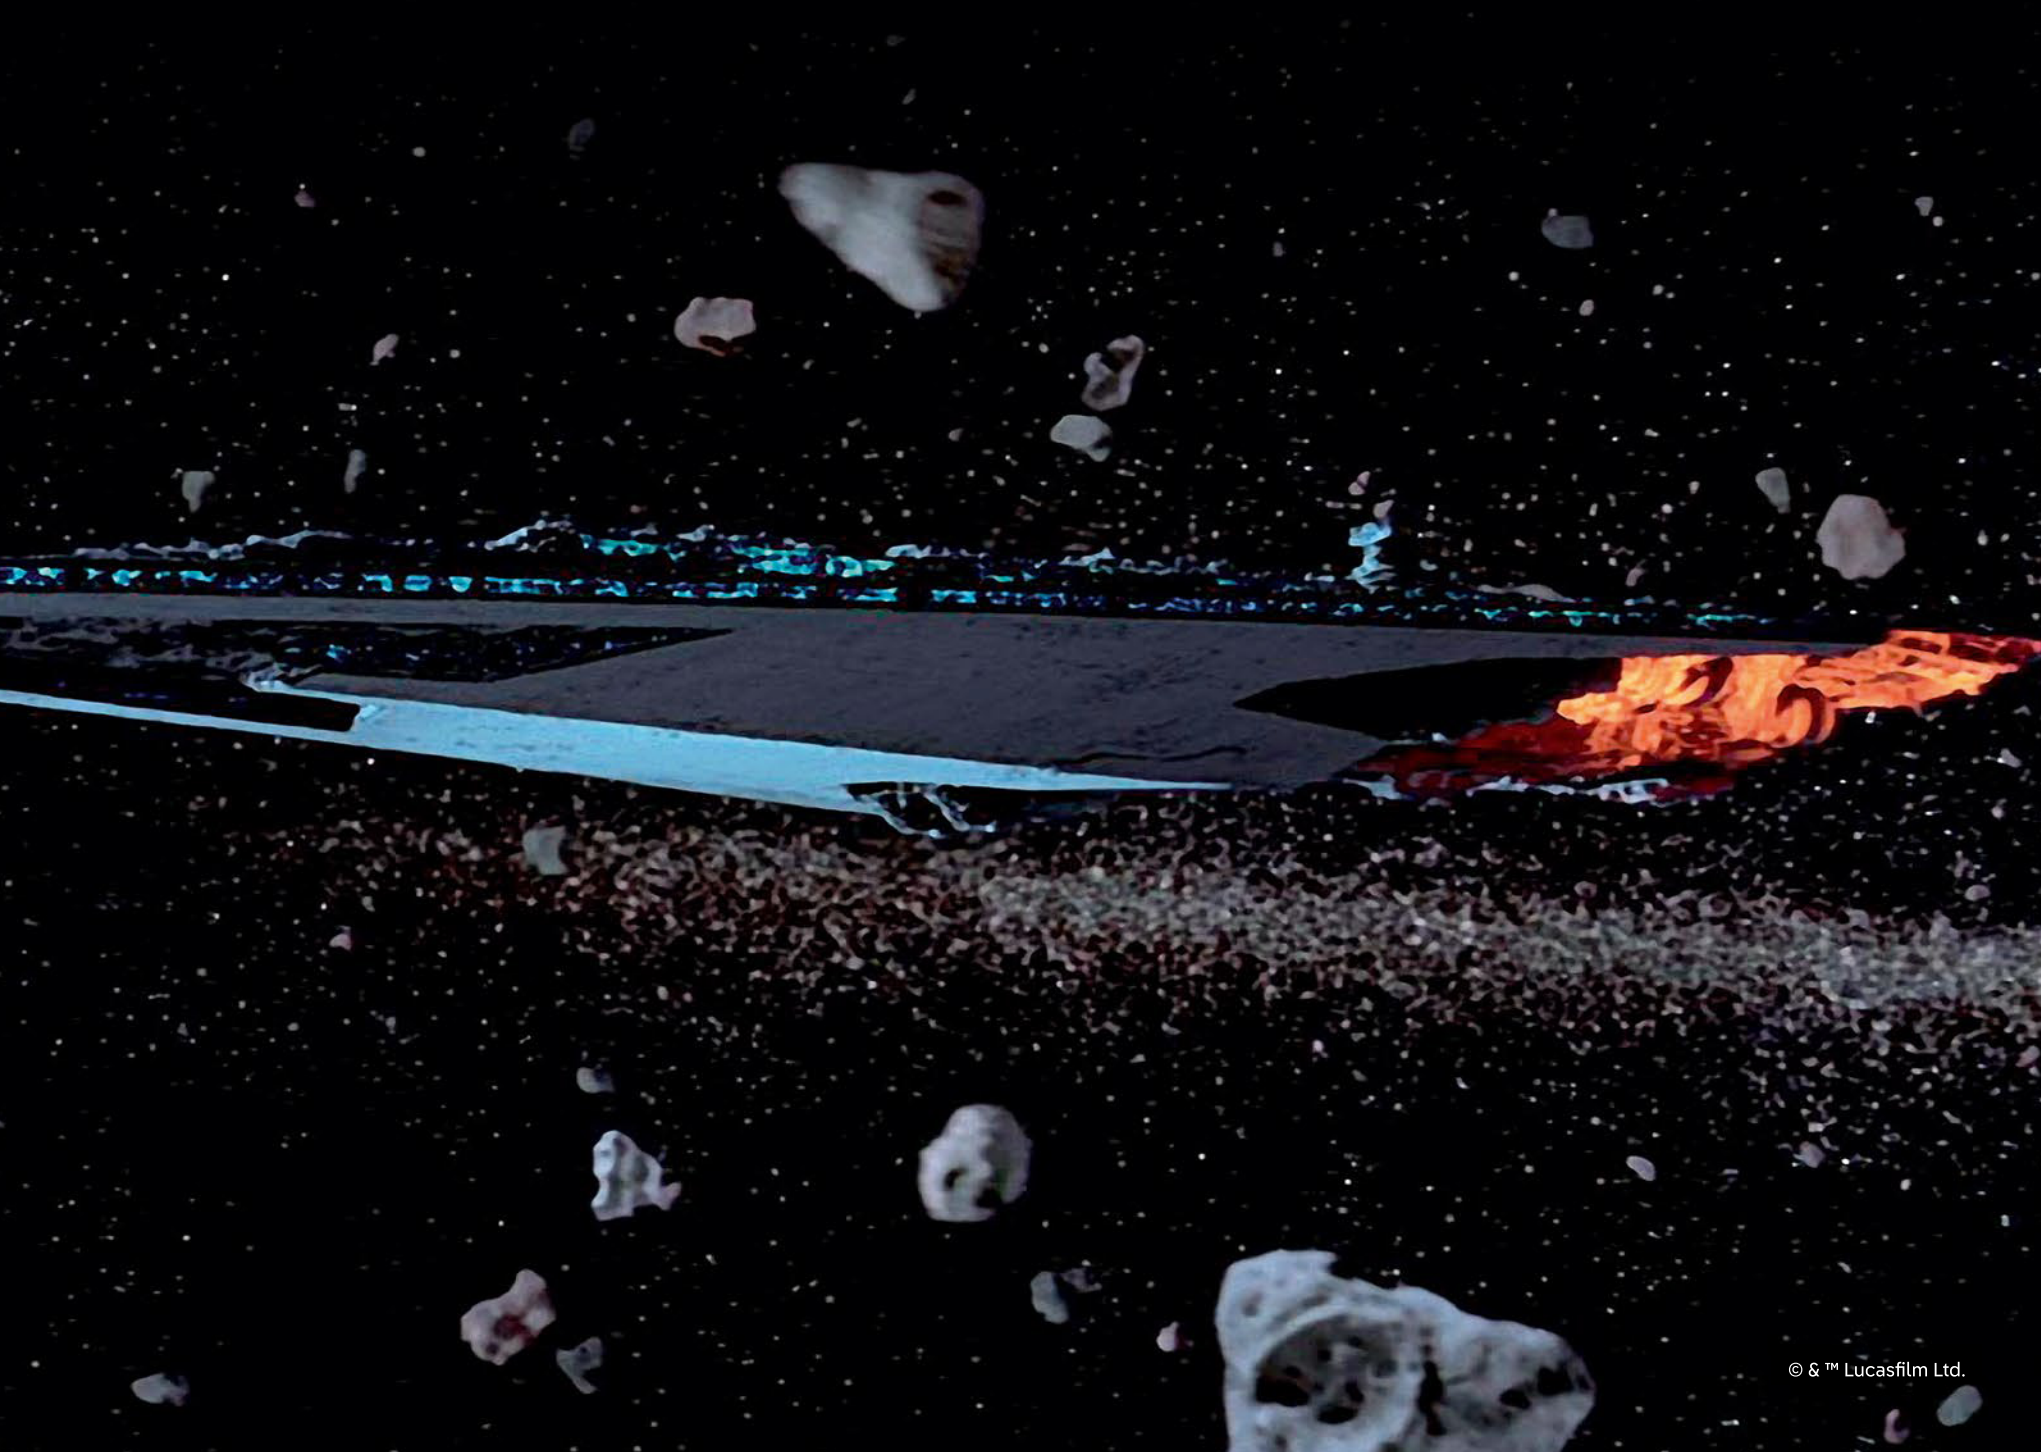

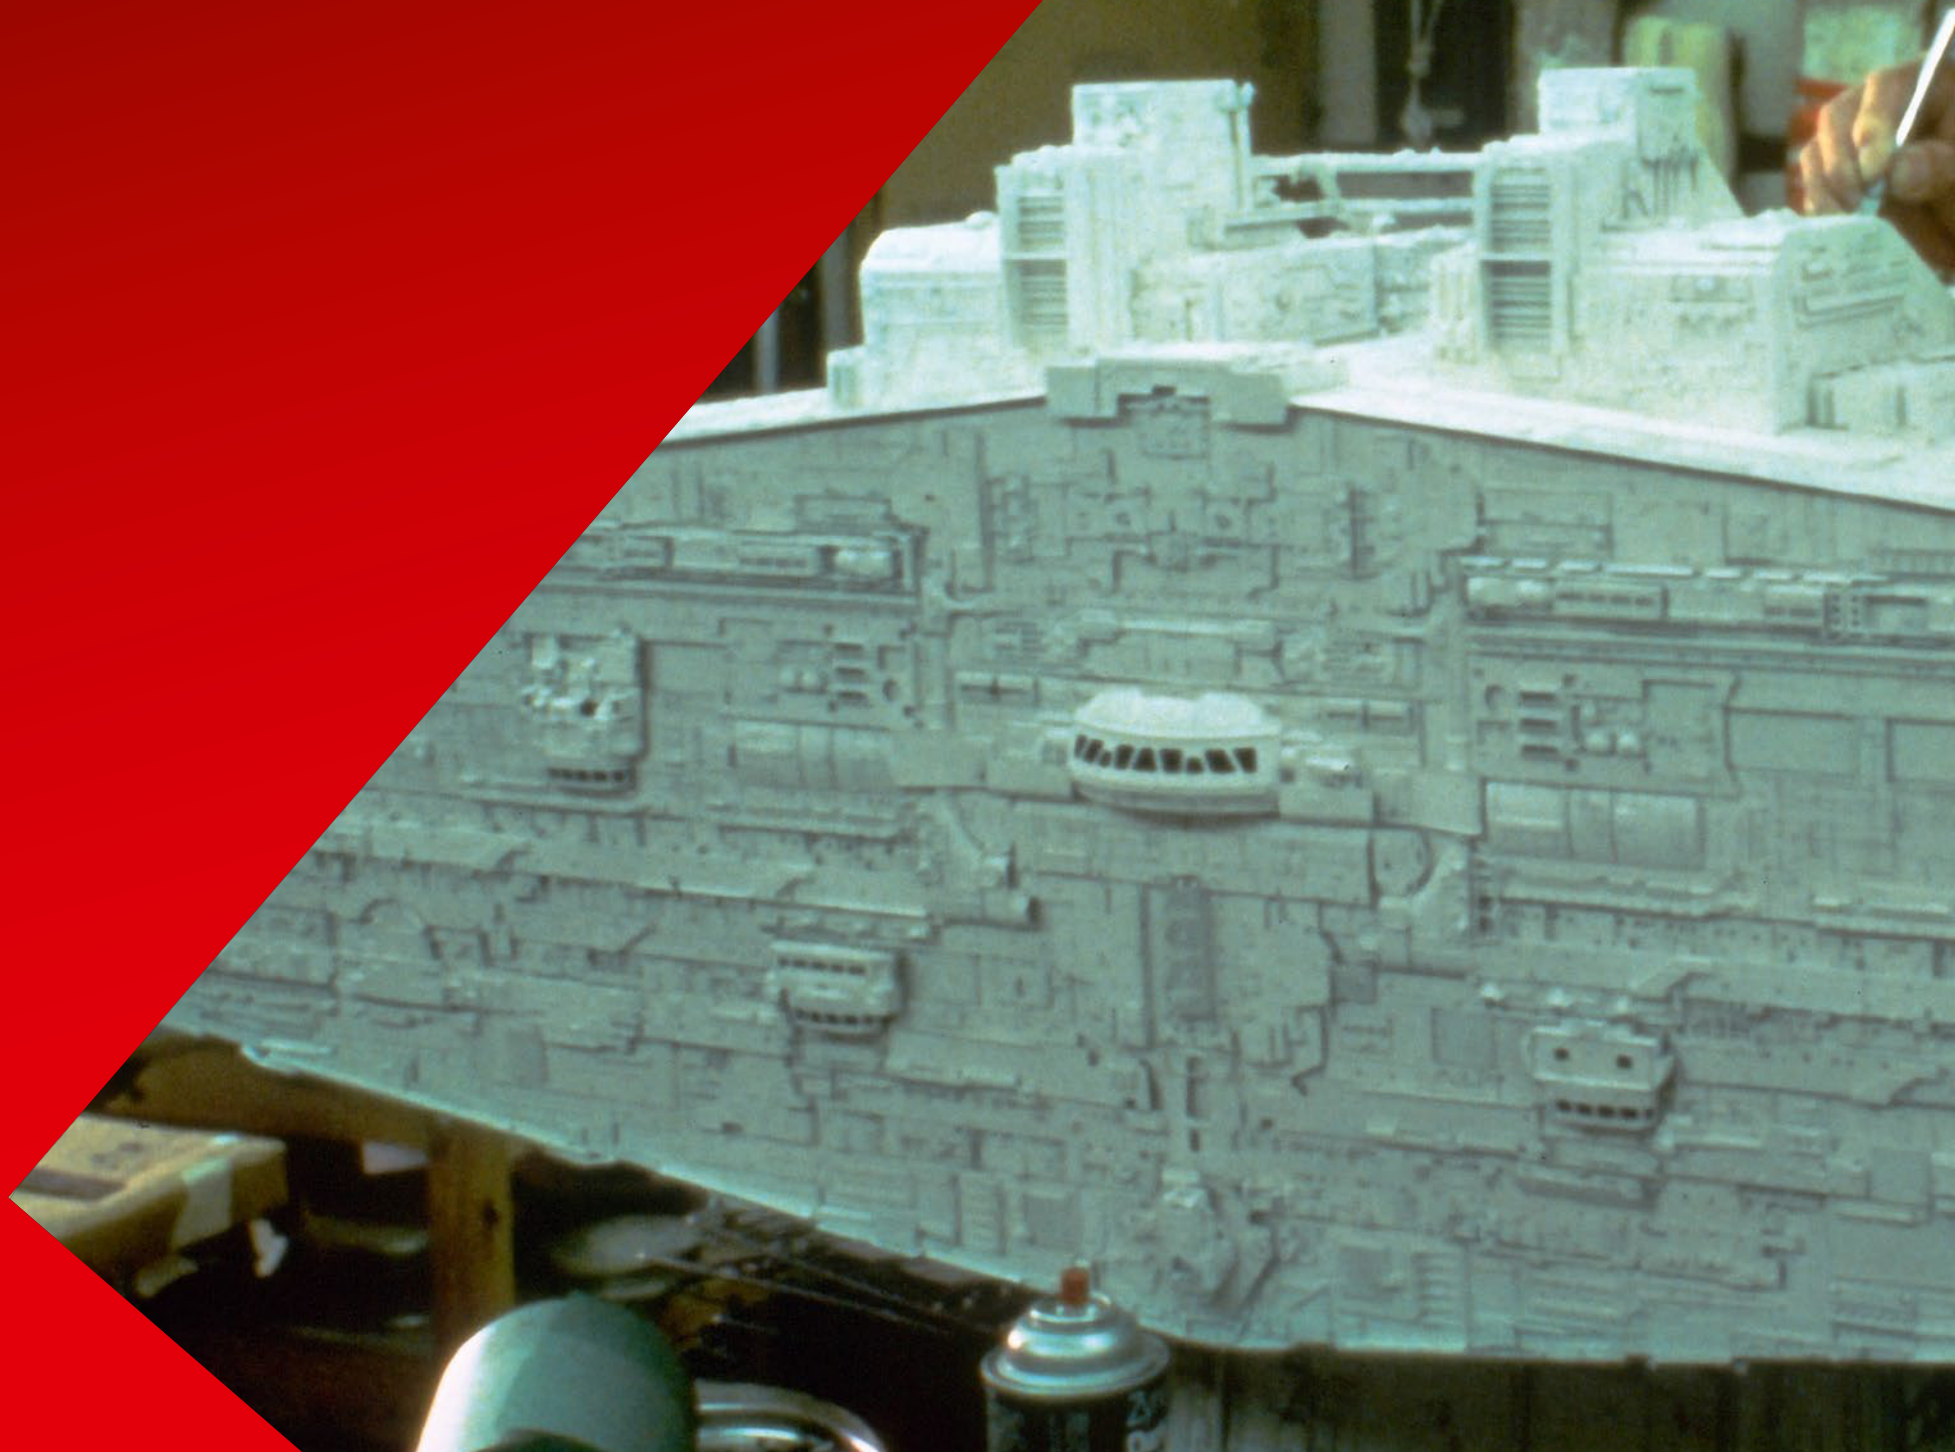

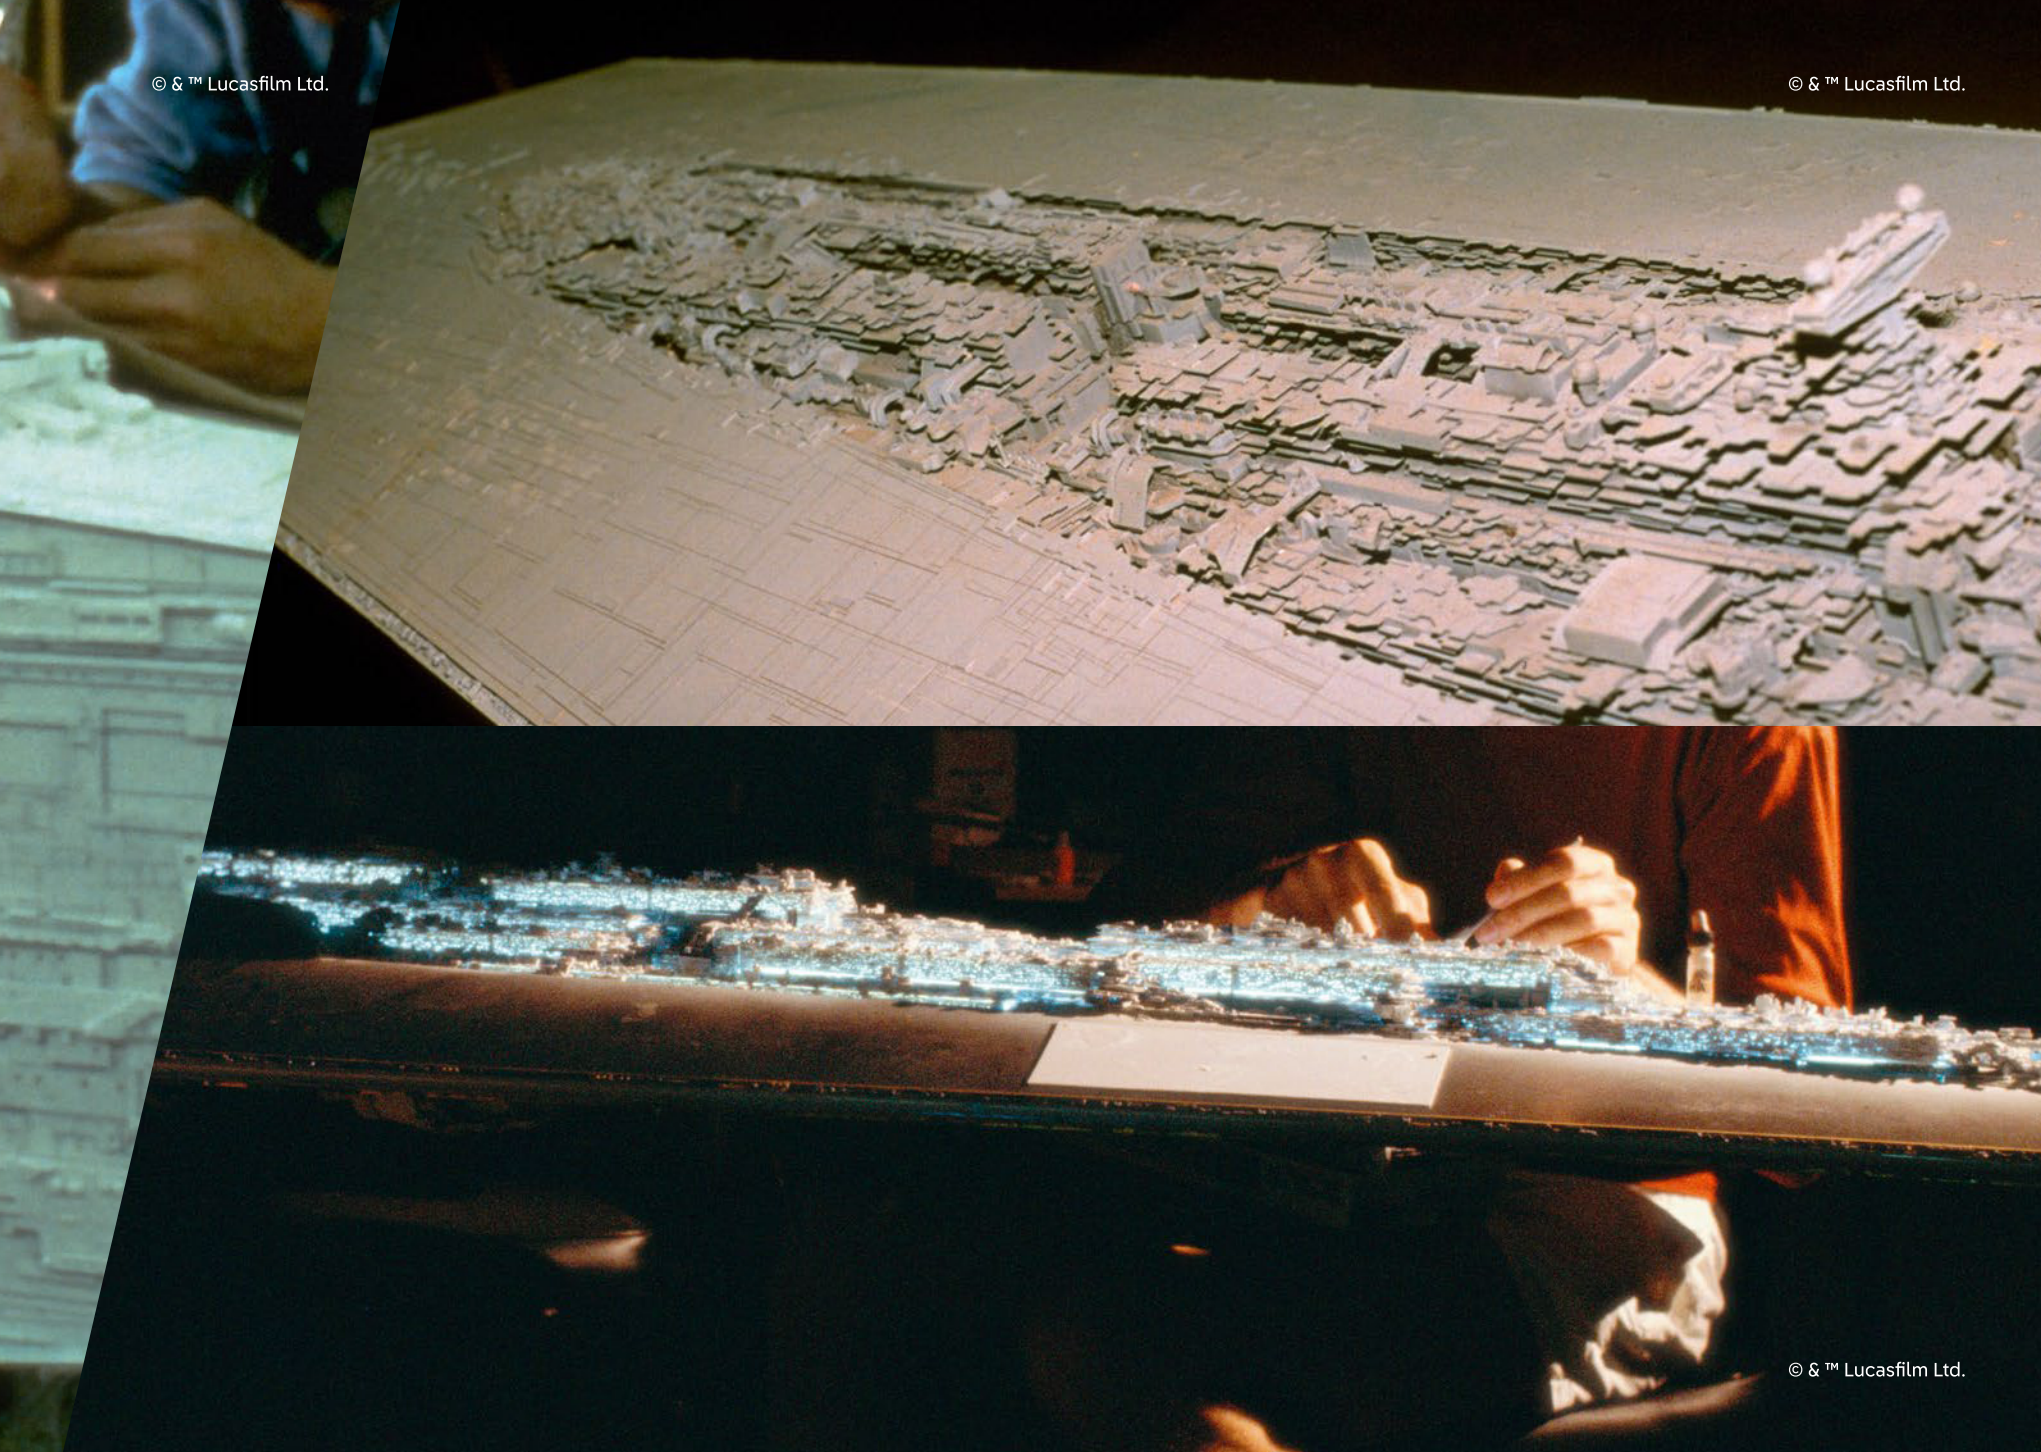

DOMINER LA GALAXIE

Avec une longueur astronomique de 19 km, soit environ douze fois la taille des premiers Destroyers stellaires de classe *Impérial*, l'effroyable cuirassé stellaire de classe *Executor* de Dark Vador est une force avec laquelle il faut compter. Premier du genre, il est confié à Vador, qui en fait réaménager l'intérieur selon ses goûts et ses besoins, notamment avec une chambre de méditation semblable à celle qu'il possède sur Mustafar. Son design agressif en forme de flèche symbolise la domination de l'Empire sur la galaxie, appuyé par un arsenal de plus de 1 000 armes. Grâce à sa puissance d'artillerie massive, combinée à des TIE Fighters, des bombardiers TIE et des intercepteurs TIE, l'*Executor* est parfaitement équipé pour les batailles spatiales et les assauts planétaires. Sa seule faiblesse – mais qui se révélera fatale – reste sa passerelle de commandement principale exposée.

A detailed LEGO Star Wars model of the Executor, a massive Imperial Star Destroyer. The model is shown from a low angle, emphasizing its immense scale. It features a complex internal structure with various rooms, corridors, and mechanical details visible through the translucent grey hull. The model is constructed from a mix of grey, black, and white LEGO bricks, with some green and blue accents. The background is a solid red color, which makes the grey model stand out. The text is overlaid on the right side of the image.

UN MOT DE L'ÉQUIPE DE DESIGNERS LEGO® STAR WARS™

L'un des aspects les plus passionnants de la construction des modèles LEGO® Star Wars™ Ultimate Collector Series est que leur grande échelle offre tout l'espace nécessaire pour intégrer des détails complexes. Sur la maquette utilisée dans le film, les designers avaient créé 250 000 « ouvertures lumineuses » afin de représenter les fenêtres et retransmettre l'immensité de l'*Executor*. Nous avons expérimenté différentes techniques pour reproduire cet effet dans la version LEGO et avons finalement créé de nouveaux éléments de fenêtres décorés, visibles sur toute la surface du modèle. La forme en flèche garantit toujours une expérience de construction intéressante et stimulante. De plus, avec ses 136,5 cm de long, il s'agit du plus long modèle LEGO officiel créé à ce jour. De haut en bas, nous avons intégré des références et des éléments authentiques pour captiver votre attention tout au long du processus de construction, et nous espérons que vous serez ravi(e) de l'exposer.

Bonne construction !

TOUS LES MOYENS SONT PERMIS

Tristement célèbres pour leur nature insaisissable, ces chasseurs de primes sont rarement vus ensemble en public, et encore moins dans des sets LEGO® Star Wars™. Pour la première fois, ils sont tous réunis sous forme de minifigurines, convoqués ici par Dark Vader sur la passerelle de l'*Executor*.

DARK VADOR

Puissant bras droit de l'Empereur Palpatine, Dark Vader tient la galaxie d'une main de fer grâce à des ressources illimitées : troupes et flottes impériales, réseau d'espions et chasseurs de primes.

DENGAR

Balafré, bourru et impitoyable, Dengar privilégie la force brute et la puissance de feu. Son apparence cabossée témoigne d'un chasseur implacable doté d'un ego surdimensionné. Pourtant, ses résultats lui valent la confiance et le respect de Boba Fett.

IG-88

Droïde assassin indépendant, IG-88 inspire une terreur bien plus grande que celle de n'importe quel droïde de combat de l'époque de la Guerre des Clones. Sa programmation létale le pousse vers la chasse aux primes, répondant à l'appel de Vader pour capturer le *Millennium Falcon*.

BOBA FETT

Survivant de la Guerre des Clones, Boba Fett n'a aucun scrupule à servir comme l'un des chasseurs de primes les plus prolifiques et impitoyables de Vader. Son armure lourdement modifiée et son tempérament taciturne en font une présence menaçante.

BOSSK

Chasseur trandoshien redouté, Bossk se fie davantage à ses instincts primitifs qu'à la politique. Ancien partenaire d'Aurra Sing et du jeune Boba Fett, il court désormais seul après les crédits et deviendra plus tard le rival de Fett dans la traque du *Millennium Falcon*.

4-LOM

Autrefois droïde de protocole, 4-LOM s'est affranchi de la programmation logique pour embrasser la carrière de chasseur de primes. Désormais rouillé et doté d'une apparence d'insecte, il exploite stratégiquement la peur qu'inspirent les droïdes pour traquer des proies lucratives.

ZUCKUSS

Chasseur de primes Gand méthodique, Zuckuss travaille souvent avec 4-LOM. Silencieux et discipliné, il rejoint la chasse afin de traquer les Rebelles les plus recherchés de la galaxie.
