LA POTENZA DELL'IMPERO

Poche navi imperiali incutono più timore dell'ammiraglia di Darth Vader, la mostruosa *Executor*. I suoi predecessori, gli originali Star Destroyer di classe *Imperiale*, quasi impallidiscono al confronto. Dopo il fallimento della strategia d'attacco dell'ammiraglio Ozzel nella Battaglia di Hoth, Vader in persona assume il comando dell'*Executor* per portare a termine la missione. Sebbene la maggior parte dei Ribelli riesca a fuggire, la loro base viene ridotta in macerie. Durante la Battaglia di Endor, le sorti sembrano ancora una volta avverse per i Ribelli, fino a quando il colosso non viene finalmente abbattuto da un caccia A-wing ribelle. La liberazione è catartica. Nel corso degli anni, abbiamo aggiunto astronavi straordinarie alla nostra flotta LEGO® Star Wars™, incluse le precedenti versioni dell'*Executor*, ma mai nulla di proporzioni così colossali.

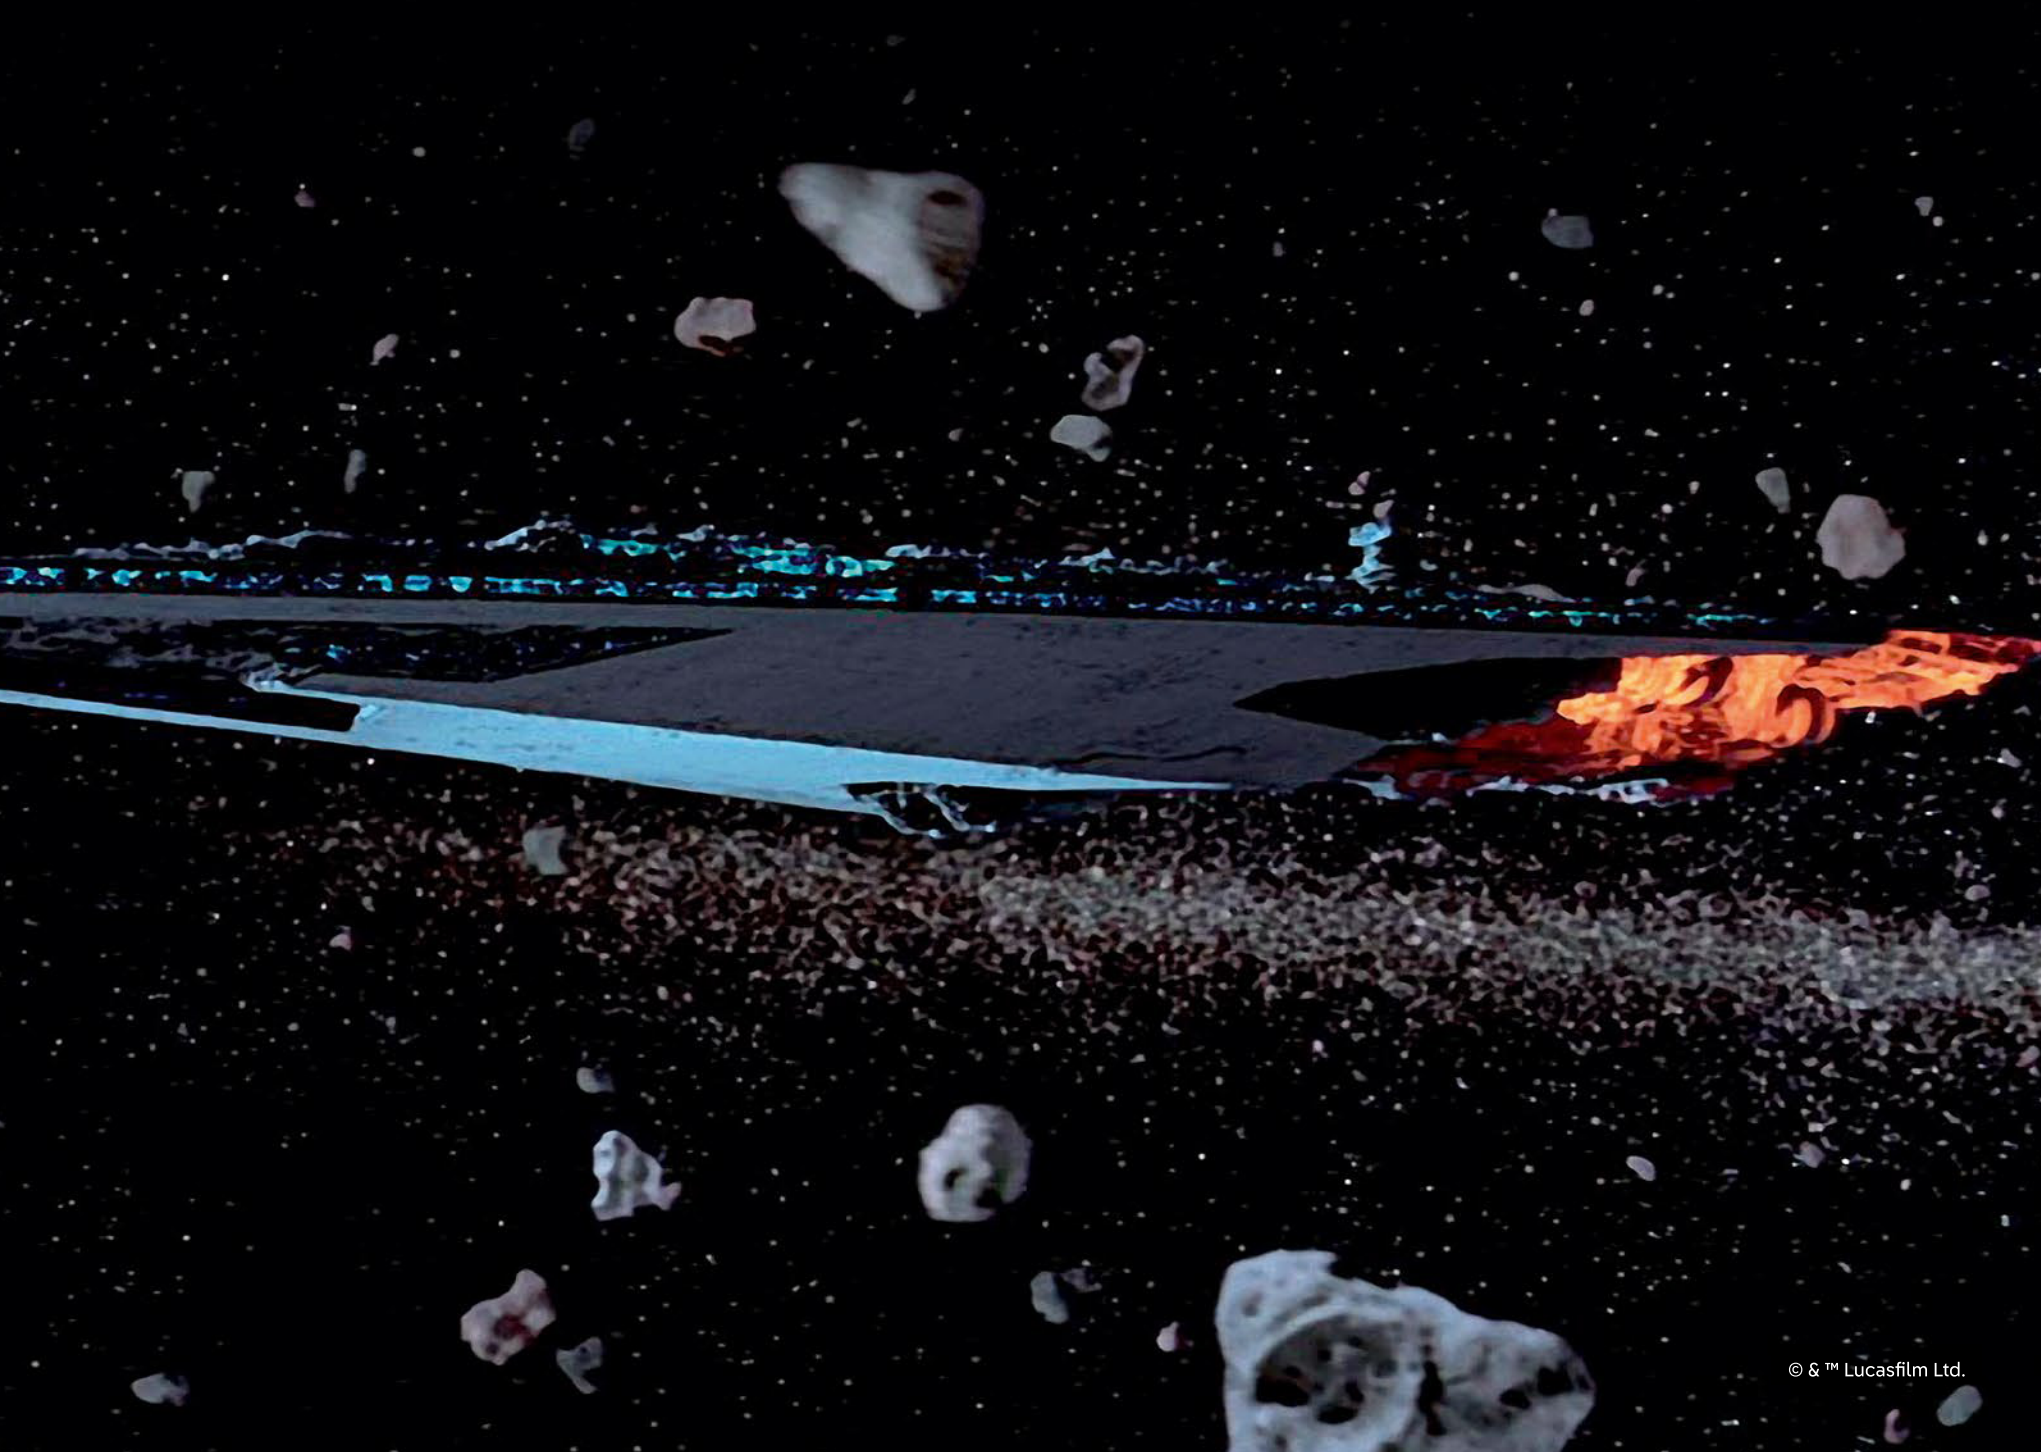

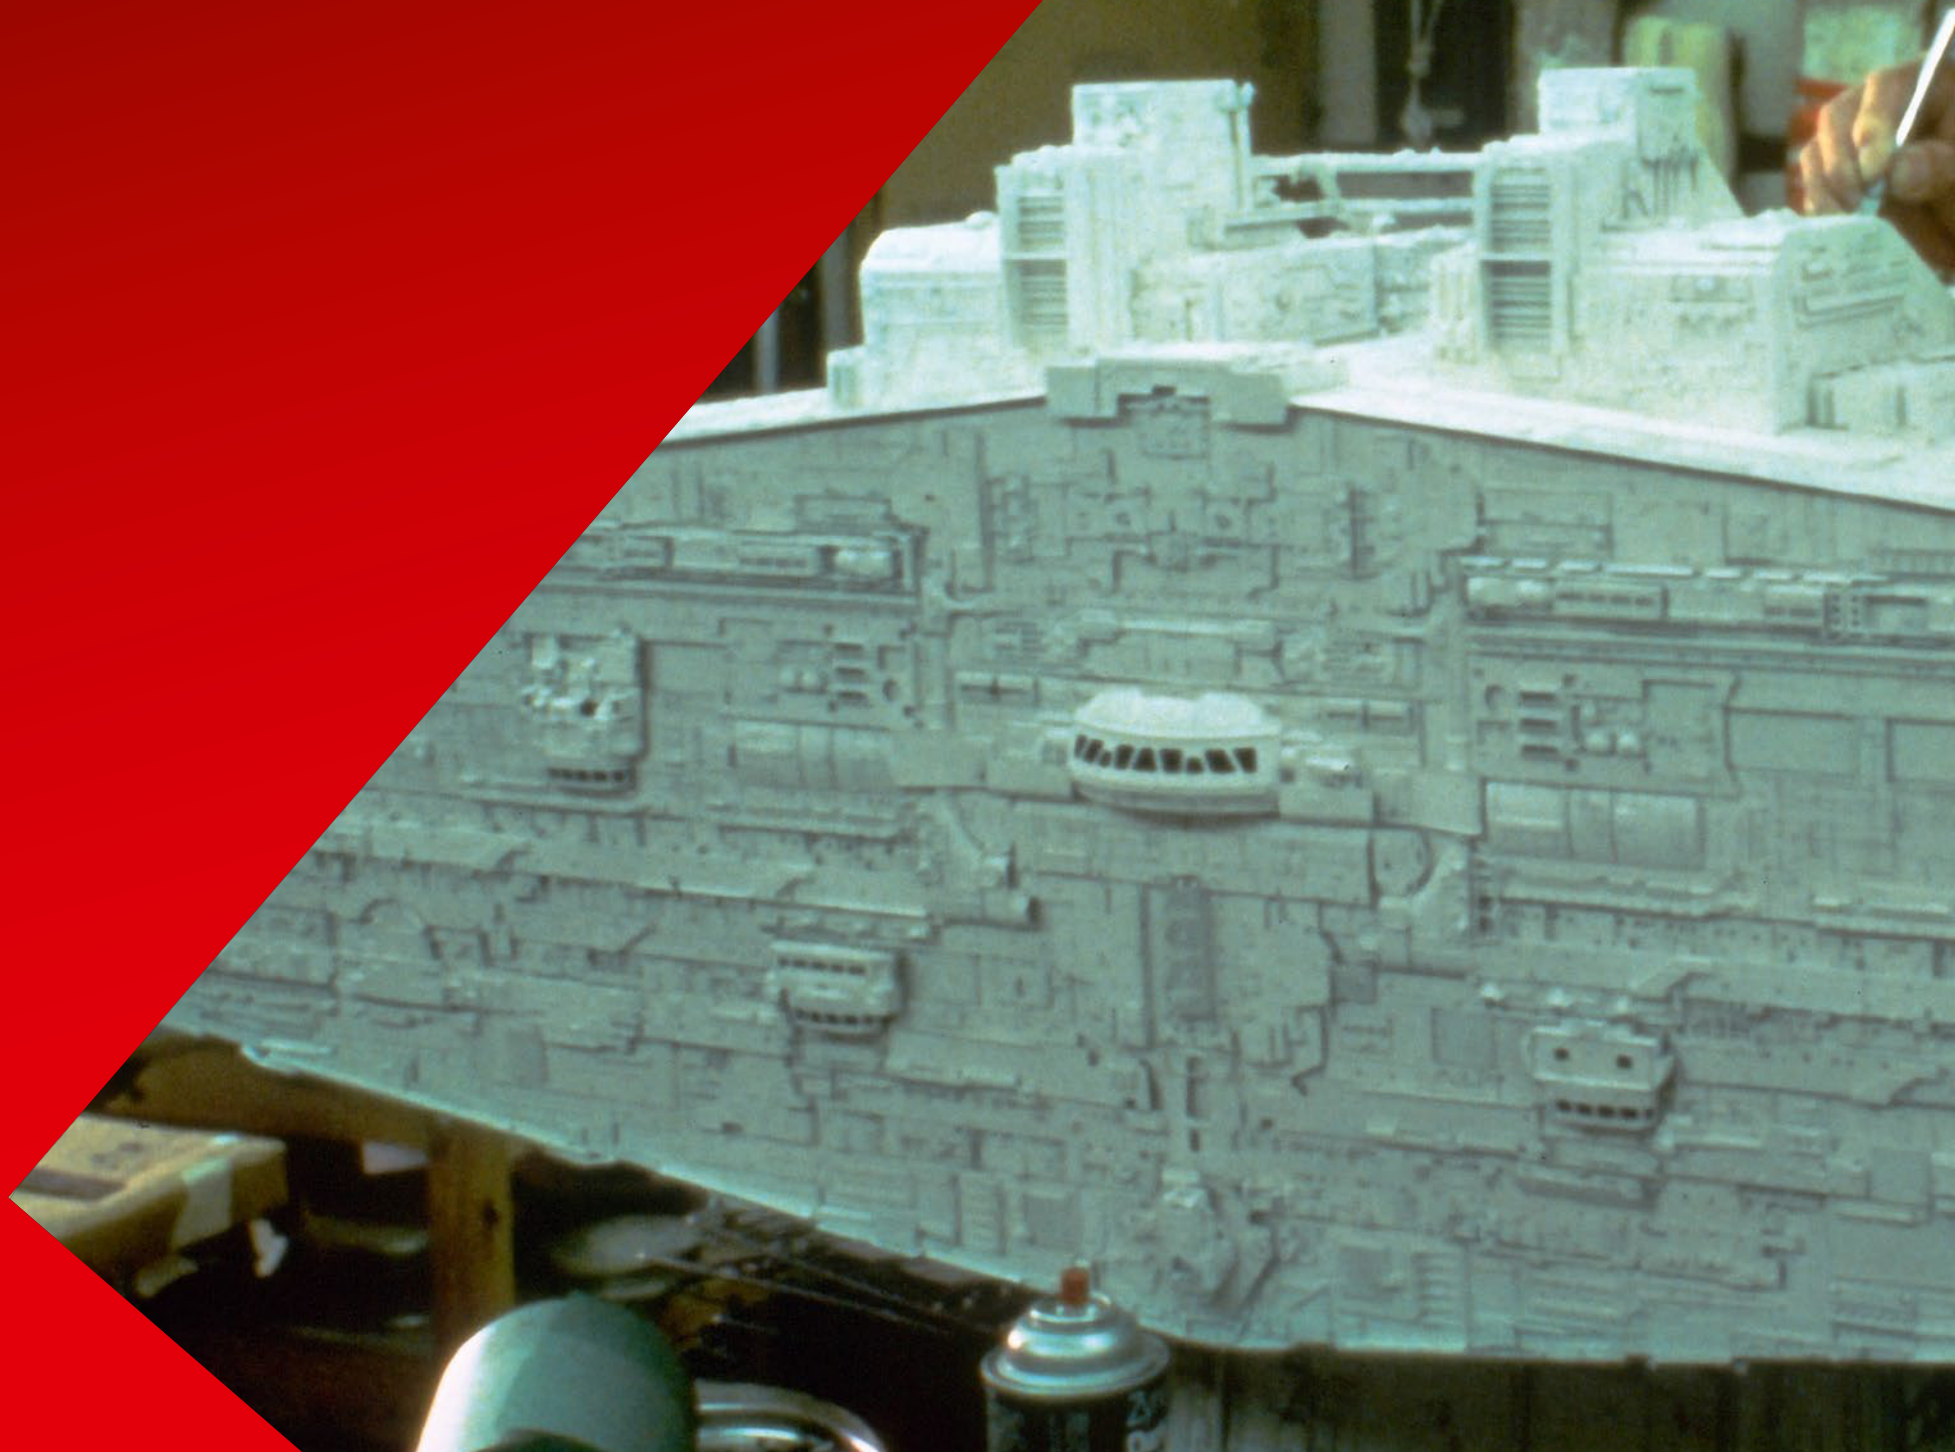

DOMINIO DELLA GALASSIA

Con i suoi incredibili 19 km di lunghezza, circa dodici volte quella degli originali Star Destroyer di classe *Imperiale*, l'inquietante Star Dreadnought di classe *Executor* di Darth Vader è una vera potenza con cui fare i conti. Primo esemplare della sua serie, viene affidato a Vader, che ne fa riallestire gli interni secondo i propri gusti e necessità, includendo una camera di meditazione simile a quella presente su Mustafar. Il design aggressivo, a punta di freccia, vuole simboleggiare il dominio dell'Impero sulla galassia, grazie anche a una dotazione di oltre 1.000 armi. Grazie alla sua imponente artiglieria e ai TIE Fighter e ai TIE Interceptor, l'*Executor* è perfettamente attrezzato per affrontare battaglie sia nello spazio sia sulle superfici planetarie. La sua unica debolezza — che tuttavia si rivelerà determinante — è il ponte di comando principale, che si trova in posizione esposta.

A detailed LEGO Star Wars model of the Executor, a massive Imperial Star Destroyer. The model is shown from a side-on perspective, highlighting its immense length and complex internal structure. The hull is primarily grey, with intricate details in black and white. The wings are large and feature a grid-like pattern of studs. The model is set against a dark background with a red gradient at the top and bottom.

IL LEGO® STAR WARS™ DESIGN TEAM

Uno degli aspetti più entusiasmanti del costruire i modelli LEGO® *Star Wars*™ Ultimate Collector Series è che le grandi dimensioni offrono ampio spazio per dettagli minuziosi. Nel modello cinematografico, gli scenografi hanno creato 250.000 "punti luce" per simulare le finestre e rendere l'idea delle dimensioni colossali dell'*Executor*. Abbiamo sperimentato diverse tecniche per riprodurre lo stesso effetto nella versione LEGO, arrivando infine a creare nuovi elementi decorati per le finestre che potrete notare su tutta la superficie. La forma a freccia garantisce sempre una costruzione interessante e stimolante e, con i suoi 136,5 cm di lunghezza, è il modello LEGO ufficiale più lungo mai realizzato finora. In ogni sua parte, abbiamo inserito riferimenti ed elementi autentici per rendere l'esperienza di costruzione sempre avvincente, e speriamo che sarete entusiasti di esporlo.

Buona costruzione!
- Il LEGO® *Star Wars*™ Design Team

LIBERI DI UTILIZZARE OGNI METODO NECESSARIO

Notoriamente sfuggenti, questi cacciatori di taglie si vedono raramente insieme in pubblico, figuriamoci nei set LEGO® Star Wars™! Ma per la prima volta sono tutti riuniti in versione minifigure, chiamati a raccolta da Darth Vader sul ponte di comando dell'*Executor*.

DARTH VADER

In qualità di potente braccio destro dell'Imperatore Palpatine, Darth Vader stringe la galassia in un pugno di ferro, disponendo di risorse illimitate: dalle truppe e la flotta imperiale fino alla sua fitta rete di spie e cacciatori di taglie.

DENGAR

Sfregiato, burbero e senza compromessi, Dengar predilige la forza bruta e la potenza di fuoco. Il suo aspetto segnato rispecchia un cacciatore implacabile e dall'ego smisurato. Eppure i suoi risultati gli valgono la fiducia e il rispetto di Boba Fett.

IG-88

Droide assassino indipendente, IG-88 incute un terrore ben superiore a quello di qualsiasi droide da battaglia dell'epoca delle Guerre dei Cloni. La letale programmazione di IG-88 lo spinge verso la caccia di taglie, portandolo a rispondere alla chiamata di Vader per catturare il *Millennium Falcon*.

BOBA FETT

Sopravvissuto alle Guerre dei Cloni, Boba Fett non si fa alcuno scrupolo nel servire Vader come uno dei suoi cacciatori di taglie più prolifici e spietati. La sua armatura pesantemente modificata e il suo contegno silenzioso lo rendono una presenza minacciosa.

BOSSK

Il temuto cacciatore trandoshano Bossk si affida all'istinto primordiale anziché alla politica. Un tempo partner di Aurra Sing e di un giovane Boba Fett, ora insegue i crediti in solitudine e in seguito rivaleggia con Fett nella caccia al *Millennium Falcon*.

4-LOM

Un tempo droide protocollare, 4-LOM si è sottratto alla sua programmazione logica per darsi alla caccia alle taglie. Ormai arrugginito nel suo aspetto insettiforme, sfrutta strategicamente il timore che i droidi incutono per dare la caccia a prede redditizie.

ZUCKUSS

Un metodico cacciatore di taglie gand, Zuckuss lavora spesso con 4-LOM. Silenzioso e disciplinato, si unisce alla caccia per scovare i ribelli più ricercati della galassia.
