PROJECT: **10262 AM DB5**
CLEARANCE: **00 SECTION ONLY**

FOR YOUR EYES ONLY

The car you will be building is a replica of the Aston Martin DB5 with modifications. Pay attention, please. We require your undivided attention.

YOU HAVE BEEN GRANTED 00 STATUS WITH A LICENCE TO BUILD

007's vehicle includes front-mounted machine guns concealed behind the indicator lights. It has revolving number plates, [redacted] valid in all countries. It also has a series of defence mechanisms, including smokescreen, [redacted] rear bulletproof shield and left and right front-wing machine guns. In the gear lever is [redacted] which releases a section of the roof and fires an ejector seat. It also features a radar tracker, tyre scythes and [redacted] front [redacted]

You will discover many of these modifications in the car you are about to build. Now, please be careful... and do keep the vehicle in one piece.

RIEN QUE POUR VOS YEUX

La voiture que vous allez construire est une réplique de l'Aston Martin DB5 avec des modifications. Votre attention, s'il vous plait. Nous avons besoin de toute votre attention.

NOUS VOUS AVONS OCTROYÉ LE STATUT 00 AVEC UN PERMIS DE CONSTRUIRE

Le véhicule de l'agent 007 est équipé de mitrailleuses montées à l'avant, dissimulées derrière les clignotants. Il dispose de plaques d'immatriculation pivotantes, [redacted] valables dans tous les pays. Il est aussi armé d'une série de mécanismes de défense, notamment des fumigènes, un écran pare-balles [redacted] à l'arrière et des mitrailleuses sur les ailes avant côtés droit et gauche. Dans le levier de vitesse, une commande [redacted] permet d'ôter une partie du toit et déclenche un siège éjectable. Il présente également un radar pour détecter les ennemis, des destructeurs de pneus et [redacted] à l'avant [redacted].

Vous retrouverez bon nombre de ces modifications dans la voiture que vous êtes sur le point de construire. À présent, faites bien attention... Veillez à garder le véhicule

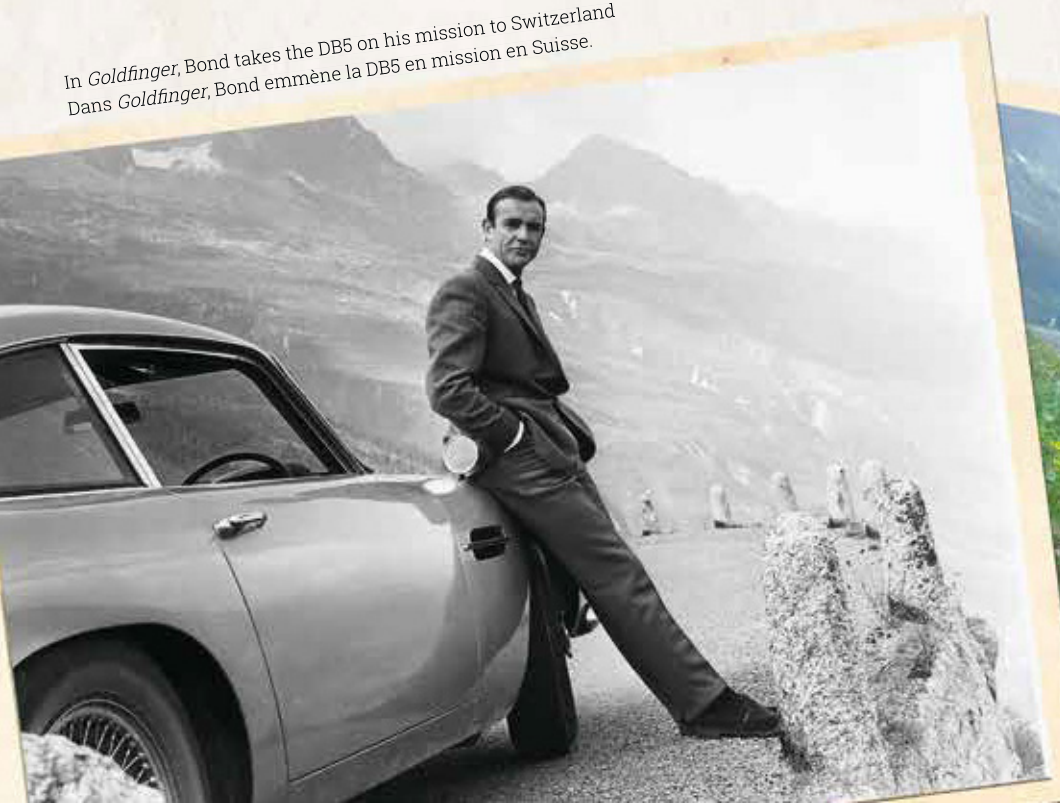

The most famous car in the world

Manufactured between 1963-65, the DB5 with its 5-speed gearbox, six-cylinder twin overhead camshaft and 4.0-liter engine, had a run of just 1,023 cars. Aston Martin handed over the DB5 prototype to the Bond production team for use in *Goldfinger*, where it was fitted with its famous extras. The car returned in the pre-title sequence for *Thunderball*, where it fired high-pressure water cannons.

La voiture la plus célèbre au monde

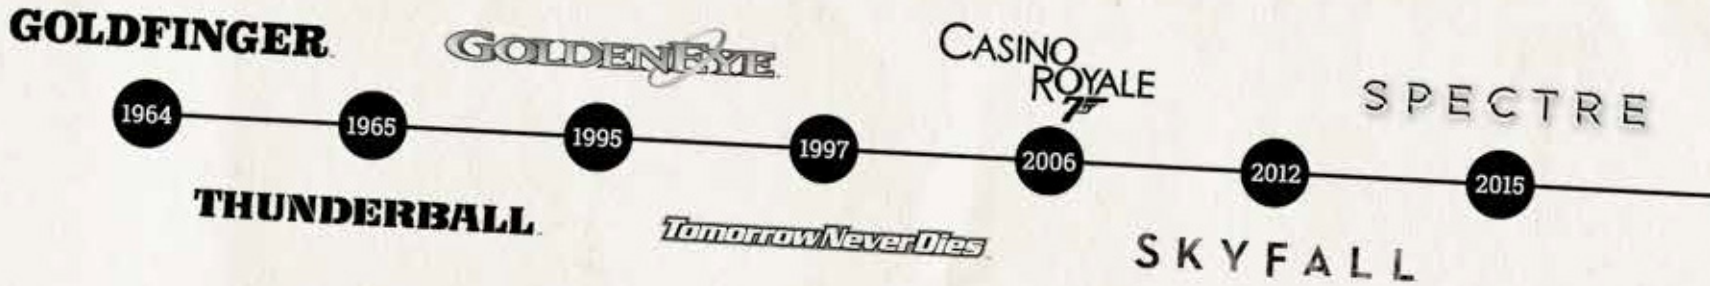

Fabriquée entre 1963 et 1965, la DB5 avec sa boîte de vitesses à 5 rapports, son double arbre à cames en tête, ses six cylindres et son moteur 4,0 litres, a n'a été produite qu'en 1 023 exemplaires. Aston Martin a remis le prototype de la DB5 à l'équipe de production de James Bond pour être utilisé dans *Goldfinger* et a été équipé pour l'occasion de ses célèbres gadgets. La voiture est réapparue dans la séquence d'ouverture avant le générique *d'Opération Tonnerre* où elle arborait des canons à eau haute pression.

In *Goldfinger*, Bond takes the DB5 on his mission to Switzerland
Dans *Goldfinger*, Bond emmène la DB5 en mission en Suisse.

He tracks the villain along the mountain roads using the tyre scythes along the way
Il traque ses adversaires sur les routes de montagne et utilise les destructeurs de pneus lors d'une course poursuite.

After a 30-year absence it reappeared in *GoldenEye*, complete with champagne cooler and fax machine, and then again in *Tomorrow Never Dies*, while in *The World Is Not Enough*, it is caught on a satellite image and also features in a deleted scene. In *Casino Royale*, Bond wins a DB5 in a poker game and in *Skyfall* drives one up to his ancestral home where it is destroyed in a firefight. A restored version then appears in *Spectre* and stars in the film's final shot.

Après 30 ans d'absence, elle revient bien équipée dans *GoldenEye*, avec un rafraîchisseur de champagne et un télécopieur, puis dans *Demain ne meurt jamais,* tandis que dans *Le monde ne suffit pas,* elle est détectée sur une image satellite et apparaît aussi dans une scène supprimée. Dans *Casino Royale,* Bond remporte une DB5 au cours d'une partie de poker et dans *Skyfall,* il la conduit jusqu'à sa demeure ancestrale où elle est détruite au cours d'une fusillade explosive. Une version restaurée revient ensuite dans *Spectre* et joue les stars dans la scène de fusillade finale du film.

Goldfinger 1964

The *Goldfinger* DB5 had three different number plates, the most famous being BMT 216A. In *GoldenEye* Bond drives a DB5 with the number plates BMT 214A leading diehard Bond fans to speculate that this must be Bond's personal vehicle. In *Casino Royale* Bond wins a DB5 on Bahamas plates in a game of poker. Eventually the original BMT 216A made a return in *Skyfall.*

Dans *Goldfinger*, la DB5 arborait trois numéros de plaque différents, le plus célèbre étant BMT 216A. Dans *GoldenEye,* Bond conduit une DB5 immatriculée BMT 214A, ce qui amène les fans de James Bond à se demander s'il ne s'agit pas de son véhicule personnel. Dans *Casino Royale*, James Bond gagne une DB5 immatriculée aux Bahamas au cours d'une partie de poker. Finalement, la plaque originale BMT 216A ressurgit dans *Skyfall.*

La célèbre scène de *Goldfinger*, lorsque Q présente la DB5 à James Bond

"Ejector seat? You're joking!"

- James Bond

"I never joke about my work 007"

- Q

« Un siège éjectable ? Vous plaisantez ? »

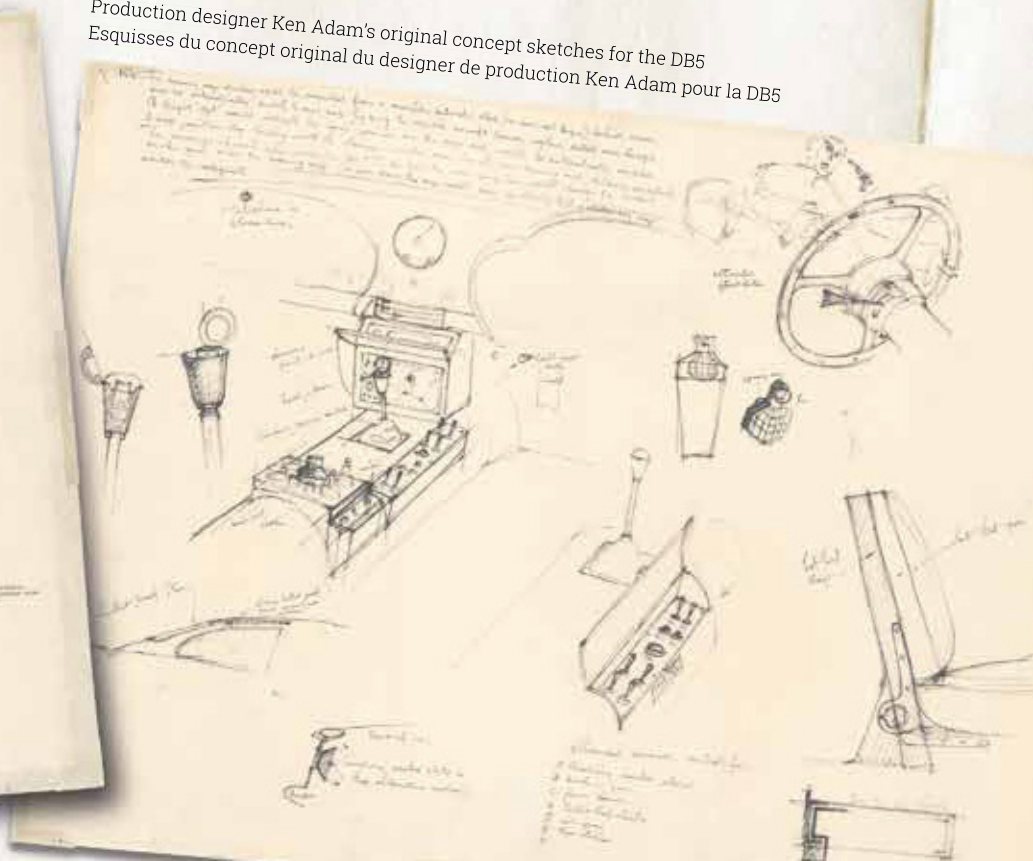

- James Bond

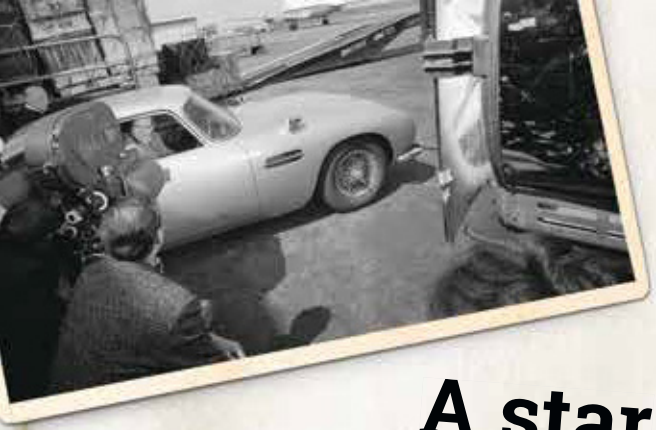

« Je ne plaisante jamais dans le travail 007 »

- Q

Production designer Ken Adam's original concept sketches for the DB5
Esquisses du concept original du designer de production Ken Adam pour la DB5

Legendary production designer Ken Adam at his drawing board
Le chef décorateur légendaire Ken Adam à sa planche à dessin

A star is born

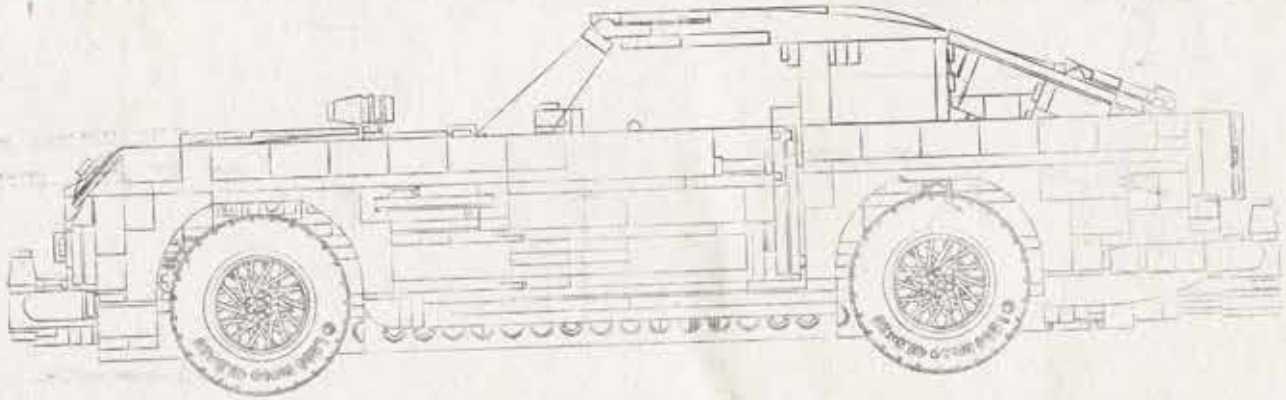

For *Goldfinger*, production designer Ken Adam and special effects man John Stears set about adding the now-famous gadgets to the DB5 prototype. By mid-February 1964, after just six weeks of mechanical labor, they had fitted an arsenal of weapons that would propel the car to stardom.

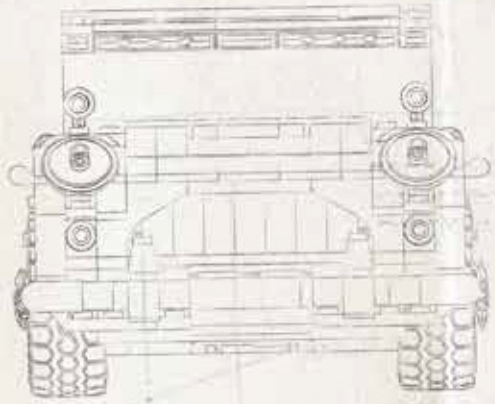

Une étoile est née

Pour *Goldfinger,* le chef décorateur Ken Adam et John Stears le superviseur en effets spéciaux envisagent d'ajouter les désormais célèbres gadgets pour le prototype de la DB5. À la mi-février 1964, après seulement six semaines de travail mécanique, ils avaient monté un arsenal d'armement qui allait propulser la voiture au rang de célébrité.

Get ready to build

You now have your License to Build and are ready to embark upon your mission.

This is a tough assignment, and recreating the car's intricate features and functions will prove a real test of your acumen. You will need to call upon all your skills and knowhow.

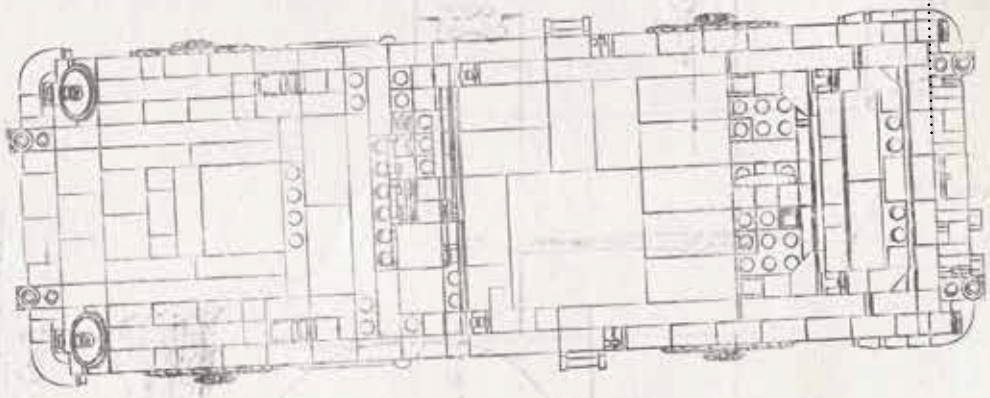

Good luck.

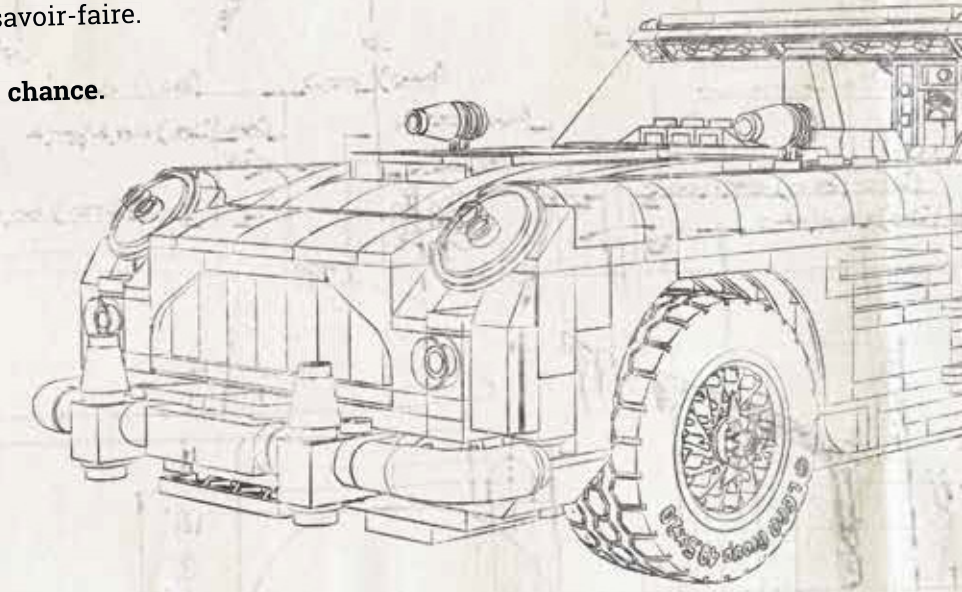

Place à la construction !

Vous êtes à présent en possession de votre permis de construire et êtes prêts à entamer votre mission.

Il s'agit d'une mission difficile, et recréer les caractéristiques et fonctions complexes de la voiture sera un véritable test de votre perspicacité. Vous devrez compter sur toutes vos compétences et votre savoir-faire.

Bonne chance.
