We're transitioning from single-use plastic to paper-based packaging. As we progress, you may find a mix of paper and plastic in our boxes.

Wir stellen von Einwegkunststoff-Verpackungen auf Verpackungen auf Papierbasis um. Möglicherweise findest du in der Übergangszeit sowohl Papier als auch Kunststoff in unseren Boxen.

Nous passons progressivement des emballages en plastique à usage unique aux emballages à base de papier. Au cours de cette transition, il est possible que vous trouviez à la fois du papier et du plastique dans nos boîtes.

Stiamo passando dalla plastica monouso agli imballaggi basati su carta. In questo periodo, potreste trovare un mix di carta e di plastica nelle nostre confezioni.

Estamos cambiando las bolsas de plástico desechables por bolsas con base de papel. Conforme avanzamos en este propósito, puede que encuentres una mezcla de papel y de plástico en nuestras cajas.

Estamos a fazer a transição do uso de plástico descartável nas embalagens por embalagens à base de papel. À medida que progredimos nesta transição poderá encontrar um misto de papel e plástico nas nossas caixas

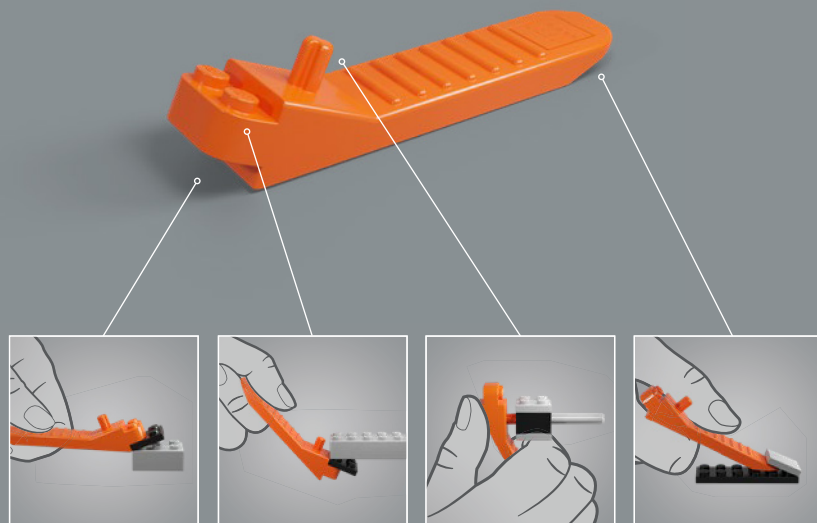

Átállunk az egyszer használatos műanyagról a papír alapú csomagolásra. Az átállás folyamatos, ezért előfordulhat, hogy papír és műanyag zacskót egyaránt találsz a dobozainkban.

Mēs pārejam no vienreizlietojamās plastmasas uz iepakojumu, kurā izmantots papīrs. Pārejas procesa laikā kārbās var būt gan papīra, gan plastmasas daļas.

Facem tranziția de la ambalajele de unică folosință din material plastic la ambalaje pe bază de hârtie. Pe măsură ce avansăm, s-ar putea să găsești un amestec de hârtie și material plastic în cutiile noastre.

我们正在从一次性塑料包装向纸质包装过渡。在此过程中，你可能会发现我们同时采用纸质包装和塑料包装！

SETTING THE STAGE FOR YOUR JAZZ QUARTET

Playing jazz music is much like building with LEGO® bricks. The rhythms in the genre are the ultimate expression and celebration of creativity. Just a few elements let you play with endless combinations to create a perfect harmony. Follow the rules or play off each other's ideas and jazz dance your way to a new masterpiece. That's how this model came to life.

Fan designer, Hsinwei Chi's first strokes set the tone for this swinging, vibrant tribute to jazz music. LEGO Model Designers Ollie Gregory and Justin Ramsden played off Hsinwei's ideas and added their own creative twists to the ensemble. Invited onto the stage, LEGO Model Designer Maria Salgado created the cover illustrations. To add the last layers, LEGO Senior Graphic Designer Diego Lopez Sancho fine-tuned the instrument decoration.

The scale and proportions of the musicians let you build, pose and shape their personalities and dynamism in every little detail. The model is built in four separate stages, so you can build with your own quartet of friends or practice your solo steps. Let the needle drop on your favourite jazz record and enjoy the ultimate co-building experience.

PLAYING THEIR PARTS

TRUMPET

Improvisation is fundamental to jazz, and musicians typically play by lead sheets instead of detailed sheet music. The trumpeter will play from the lead sheet (the 'skeleton' of the music piece) and break into individual solos along the way.

PIANO

There is no right or wrong way to play as a jazz musician. From swinging Saturday nights to smooth Sunday morning jazz, the pianist sets the tone with chords and improvises a fluid melody as the mood inspires.

BASS

The intricate layers in jazz music are held together by the groovy, warm heartstrings of the bass. The bassist plays the roots of the chords and wraps the other instruments in soothing tunes and passionate vibrations.

DRUMS

Along with the bassist, the drummer sets the swinging beat and mirrors the patterns and rhythmic details of the other instruments. With its distinct energetic whisper, the ride cymbal is, perhaps, the most iconic voice in the jazz drum set.

MEET THE FAN DESIGNER

Hsinwei Chi (LEGO® Ideas name LEGO7) is a graphic designer and illustrator from Taiwan. He works in the magazine industry, plays badminton and loves drawing. While LEGO sets were part of his childhood, he only rediscovered his passion for building after he bought the first LEGO sets for his daughter.

"Building LEGO creations allows me to relax, focus on things and get peace of mind. This set was my entry for the LEGO Ideas 'Music to our Ears' competition. I loved jazz when I was a student, so building this set was like a joyful reunion. I collected photos of musical instruments and musicians, studied proportions, and drew sketches. I found golden elements for the trumpet and other parts to capture the look and feel of a real jazz band. I used a lot of joint parts to pose the musicians and express the feeling that they are completely in 'the zone' with their music."

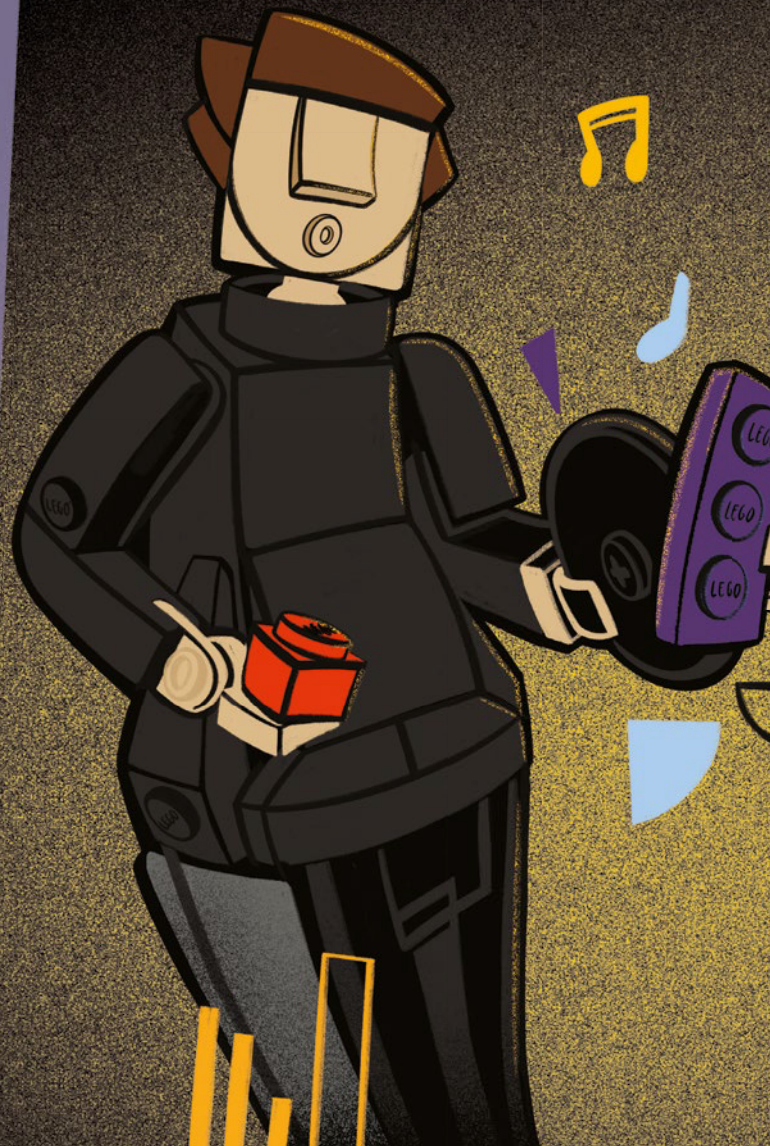

Hsinwei Chi's submission

THE LEGO® PLAYERS

"I was 'jazzed' about a model that celebrates music, creativity and champions different races and genders in the jazz community. The scale of the characters let us create different body types and add articulation to express emotions in ways that I think will really inspire builders. We wanted to make them as detailed as possible, whilst still retaining the iconic yet abstract nature of Hsinwei's original fan submission. Also, take note of the number 7 on the drum kit; it's a nod to Hsinwei's username 'LEGO7'!"

-Justin Ramsden,
LEGO® Senior Model Designer

"The level of expression and movement in this set is unlike anything we have built before. When it came to designing instruments, we had so many talented LEGO® designer colleagues who double as passionate musicians to help us get the accuracy of the instruments right. We went through lots of late-night jam sessions with jazz echoing throughout our offices! I'm a big fan of the pianist, she's our tribute to incredible female pianists/vocalists who showed the world what a powerful medium soulful music can be."

-Ollie Gregory, LEGO® Model Designer
