EXECUTOR SUPER STAR DESTROYER™

STAR WARS

Engineering excellence from the Galactic Empire

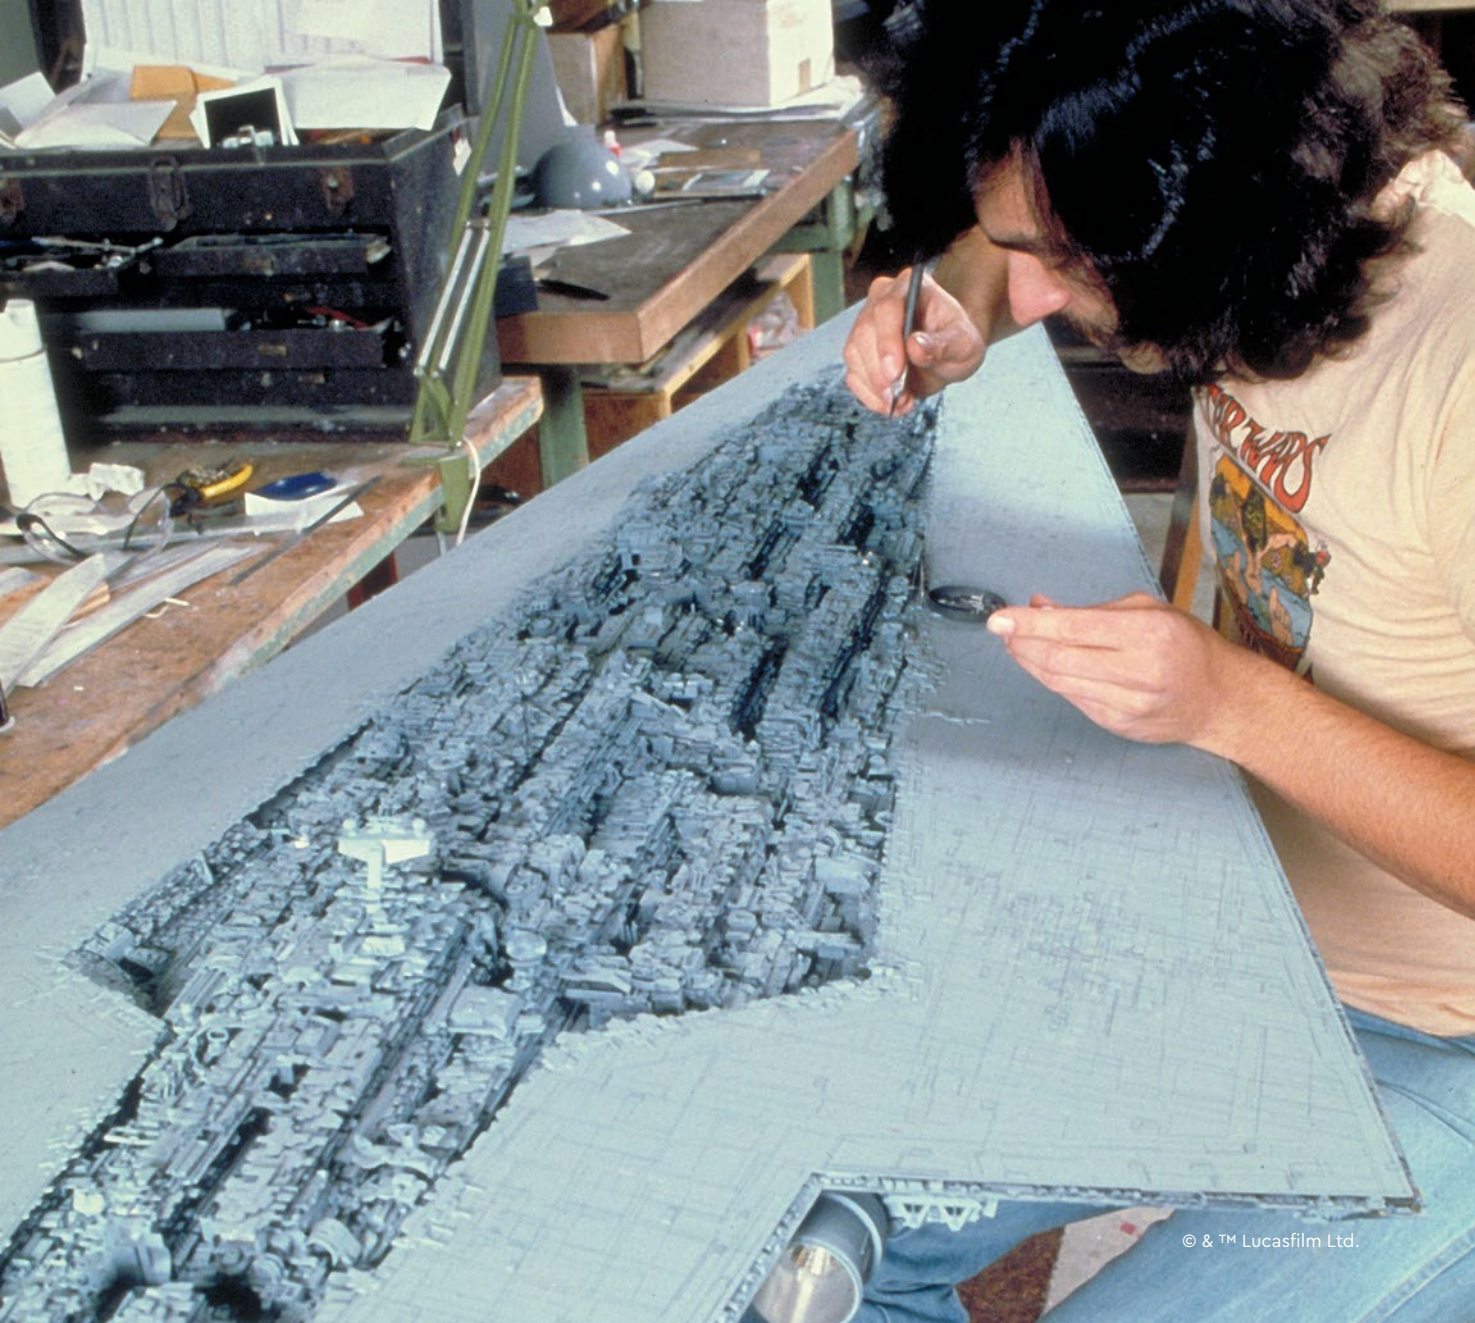

Being a part of our celebration of the 40th anniversary of *Return of the Jedi*, this warship needs no introduction. This impressive model is our latest version of the Super Star Destroyer *Executor* - an exceptional Galactic Empire aggressor. We first see its capacity with the Empire's victory over the Rebels on Hoth under Darth Vader's command, and its shortcomings when it ultimately meets its end in the Battle of Endor. As a part of a new model concept, we created this special mid-scale display version to capture the enormity of the *Executor* in a size that will still fit on your desk or a shelf without preventing you from pretend flying it through your house and adding your own battle stories to Galactic Empire lore.

Enjoy building!

Built by Kuat Drive Yards

Darth Vader's titanic Star Dreadnought measures 19 kilometres in length, with a capacity for 280,784 crew members, 38,000 troops and support staff. Armed with more than 1,000 turbolasers, missile launchers, ion and laser cannons, it transports up to a thousand starfighters and hundreds of shuttles. A team of movie model makers created the scale model in just seven weeks. To convey the unprecedented size of the *Executor*, the team etched tiny holes in brass plates to allow light to shine through the starship's exterior, creating the illusion of around 250,000 lights!

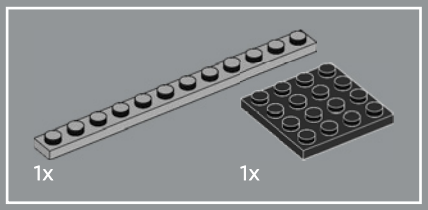

The dark side is in the details

The idea for this model came from the 77904 Nebulon-B Frigate™, an exclusive we created for the 2020 Comic-Con International. It was meant as a one-off concept – a large-scale starship recreated in table-top scale. It became hugely popular, and fans asked for more sets in the same category, so we're excited to share this set with Rebels, Jedi and Sith Lords throughout the LEGO® *Star Wars*™ galaxy. (We even added a few surprises inside the model to make sure you still feel the presence of the dark side as you build.)
