WE'RE MAKING OUR PACKAGING MORE SUSTAINABLE

We're transitioning from single-use plastic to paper-based packaging. As we progress, you may find a mix of paper and plastic in our boxes.

NOUS RENDONS NOS EMBALLAGES PLUS DURABLES

Nous passons des emballages en plastique à usage unique aux emballages à base de papier. Durant la transition, vous pourriez trouver un mélange de papier et de plastique dans nos boîtes.

QUEREMOS HACER MÁS SUSTENTABLES NUESTROS MATERIALES DE EMBALAJE

Estamos cambiando las bolsas de plástico desechables por bolsas con base de papel. Conforme avanzamos en este propósito, puedes encontrar una mezcla de papel y de plástico en nuestras cajas.

This model of one of the world's biggest conventional crawler cranes nearly requires a construction site of its own. Designed in partnership with Liebherr, the LEGO® Technic™ Liebherr LR 13000 Crawler Crane is the largest ever LEGO Technic model in all dimensional measurements. Design details and LEGO Technic Control+ App functions mirror real-life features: Six XL angular motors and two smart hubs let you drive the crane, turn the superstructure, control the boom, jib and hook. 24 new weight elements provide nearly 2.2 lbs. (1 kg) of counterweight. Sensors and alarms generate warnings if you approach the safety limits of the crane. At 39 in. (100cm) high, 43.5 in. (111cm) long and 11 in. (28cm) wide, it is the ultimate construction experience.

Ce modèle de l'une des plus grandes grues sur chenilles conventionnelles du monde nécessite presque un chantier à lui tout seul. Conçue en collaboration avec Liebherr, la grue sur chenilles Liebherr LR 13000 LEGO® Technic™ est le plus grand modèle LEGO Technic jamais réalisé dans toutes les mesures dimensionnelles. Les détails de conception et les fonctions de l'application LEGO Technic Control+ reflètent les caractéristiques de la vie réelle : six grands moteurs angulaires et deux concentrateurs vous permettent de conduire la grue, de faire tourner la superstructure, de contrôler la flèche, le bras et le crochet. Vingt-quatre nouveaux éléments de poids fournissent près de 1 kg de contrepoids. Des capteurs et des alarmes vous avertissent si vous vous approchez des limites de sécurité de la grue. Mesurant 100 cm de haut, 111 cm de long et 28 cm de large, ce modèle représente l'expérience de construction suprême.

Este modelo, creado a imagen de una de las grúas sobre orugas convencionales más grandes del mundo, casi requiere un sitio de construcción propio. Diseñada en colaboración con Liebherr, la Grúa sobre Orugas Liebherr LR 13000 LEGO® Technic™ es el modelo LEGO Technic más grande jamás creado en todas sus medidas dimensionales. Los detalles de diseño y las funciones que aporta la app LEGO Technic Control+ reflejan las características de la máquina de verdad: Seis motores angulares XL y dos Smart Hubs te permiten conducir la grúa, girar la superestructura y controlar el brazo, la pluma y el gancho. 24 nuevos elementos pesados proporcionan casi 1 kg de contrapeso. Los sensores y alarmas generan avisos cuando te acercas a los límites de seguridad de la grúa. Con 100 cm de altura, 111 cm de longitud y 28 cm de anchura, es sin duda la experiencia de construcción suprema.
