LEGO® Builder

*A trip down
a medieval lane*

Have you ever imagined what life outside the classic LEGO® Castle walls might have looked like? This set invites you to travel back in time and visit a bustling medieval market square situated not too far from the Castle. Get to know the talented craftspeople who bring this town to life, and take part in the local leisure, pleasures and treasures hidden in every nook and cranny.

The marketplace is home to the Broken Axe Inn, a watchtower, a cheesemaker's shop, a carpenter's workshop and a farmhouse. Open the houses to peek at the activities inside!

The craftspeople and villagers trade goods, favours and perhaps the occasional bit of gossip around the old tree in the square. Feel free to join in the conversation as you build and explore the place.

A tour of the village of Felsa

🛡️ The village attracts a colourful assortment of creative craftspeople. From livestock and hay to homemade cheeses and ornate chairs, they provide the village and the Castle with delightful food, entertainment, building supplies and interior accessories. A Lion Knights' Guard oversees the safety of the village and *Wanted* posters on the tree warn of wayward wanderers and charlatans in sheep's clothing. All in all, it's a peaceful place where people get on well and help each other.

A day in the life

At the end of a long day's work, the hardworking villagers enjoy gathering for a well-deserved drink and some solid, hearty fare at the Broken Axe Inn. They can take turns playing the lute or challenging each other to a game of draughts. (Rumour has it that the Queen's Tax Collector is a formidable, yet perhaps not entirely fair, opponent.)

Inspired by LEGO® history

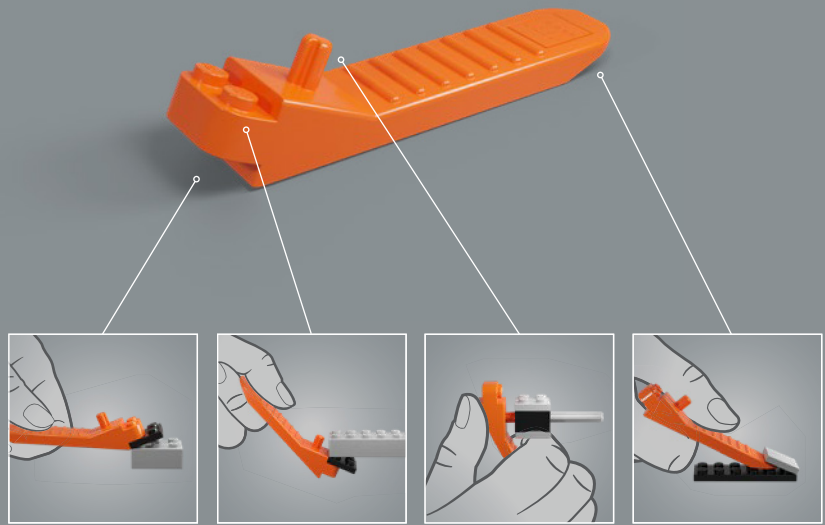

♥ In 2009, the LEGO® Medieval Market Village (10193) was released to wide acclaim from fans everywhere. The detailed, hinged buildings, popular animal figures and charismatic minifigure gallery inspired vivid and creative storytelling in builders of all ages. This set brings these stories and the exciting building experience just a little further, with even more flexibility and action scenarios.

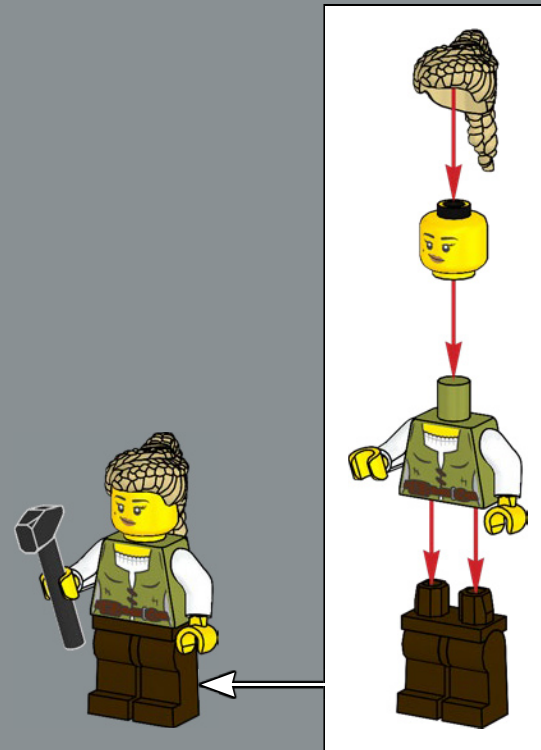

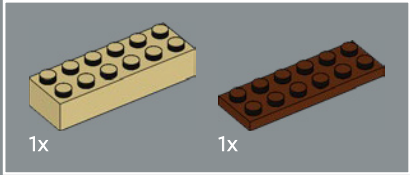

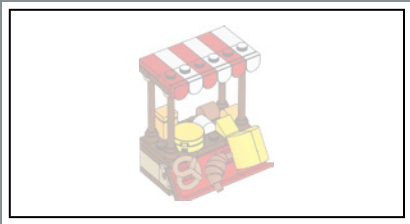

HENRIK RUBIN SAABY
LEGO® Senior Designer

From your LEGO® historian

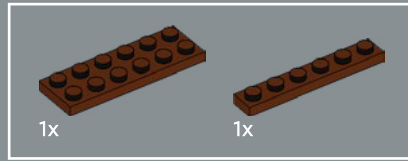

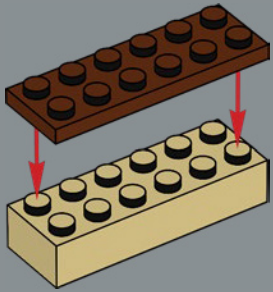

♥ "When we decided to revive this popular theme, we wanted to stay as true to the medieval period as possible and include intricate details to please the eye as well as your 'inner story'. We're introducing new characters, like the Queen's Tax Collector and the Innkeeper and, for the first time, we have three houses hinged together so you can angle and display your model however it fits your shelf or imagination."

The ladder and hatch allow easy access to the Carpenter's workshop. (Use the release lever on the same side as the crane control.)

Does this tapestry look familiar? The motif in the Tapestry-Maker's latest design is actually based on a popular jousting tournament scene from the 1978 LEGO® model 375 Castle.

The cat fills a very important role in keeping the village free from mice and other pesky rodents. It seems only fair it should receive a little milk for its efforts.
