"It's him – the Eye."
– Frodo Baggins™

THE DARK TOWER

In *The Lord of the Rings*™ trilogy, we first get a glimpse of the power of Barad-dûr™ when, by chance, Frodo Baggins™ slips the One Ring on his finger. An embodiment of the Dark Lord Sauron™, the Eye of the macabre fortress pierces the black skies of Mordor™ and enters Frodo's mind in a terrifying vision. Over centuries, Sauron has gained the strength to take over all of Middle-earth™. Sustained by the power of the One Ring, Sauron and, by extension, his fortress, are all but indestructible while the ring still exists.

The heroic Hobbits™ join the Fellowship of the Ring on a gruelling journey to destroy the ring in the heart of Mordor. As Samwise Gamgee™ carries Frodo through the final stretch to a doorway on the side of Mount Doom, a frantic Gollum™ tries to stop them and ultimately perishes in the fire with his Precious. Barad-dûr, Sauron and his army of orcs disintegrate in a cataclysmic collapse.

Inspired by the enigmatic monument, this model recreates remarkable details and offers a unique look at events that might have transpired behind the scenes in Mordor.

FROM THE LEGO® DESIGN FELLOWSHIP

"Our LEGO® journey into Middle-earth™ began with a series of The Lord of the Rings™ and The Hobbit™ sets released in 2012-2014, and in 2023 we travelled to Rivendell™ with the Fellowship of the Ring (set 10316). This is the first time we travel this deep into the heart of Mordor™ to peek into the Dark Lord's lair, and it's the first time we are releasing the character of Sauron™ as a LEGO minifigure.

"To fans of *The Lord of the Rings*™ novels and films, Barad-dûr™ is one of the most characteristic locations in Middle-earth. In the films, we barely see the entire tower or its interior up close, so we experimented with different scenes and ideas. The model is quite big, so we split it into sections that allow for a better building experience and better handling of the model.

"The model is very dark, so we added colour gradients to create the illusion of lava reflections, as well as the all-seeing, moving Eye of Sauron™ on the top platform. The model is equipped with several different functions, from the opening front gates and turning ladder in the library, to hidden sections, surprise accessories and secrets of the Dark Tower. We hope fans of both LEGO sets and *The Lord of the Rings* will really enjoy exploring this formidable Mordor landmark."

Antica Bracanov,
LEGO® Senior Model Designer

LEGO® Senior Model Designer

THE FORGE AND DUNGEONS

Your LEGO® Barad-dûr™ model is divided into several different modular levels. At ground level, you can turn the brick button on the left side of the tower to open and close the main gate and enter the forge and dungeons. The sad remains of an unfortunate guest hang glumly above the liquid lava and warn unwelcome visitors of the fate that awaits them if they cross the Dark Lord.

Next door, orcs prepare for the upcoming sieges of Middle-earth™. Shields, helmets, tools, pauldrons and spears are forged, sharpened and fitted in the river of fire that flows through the dungeons from Mount Doom.

At the other end of the dungeon, Gollum™ hides in a small cave. A secret nook in the cave is occupied by a giant spider. Whether Gollum put it there to keep him company or to contain it is uncertain. As the Hobbits™ reach the end of their journey, Gollum's first-hand knowledge of the darkest corners of Mordor™ helps Frodo Baggins™ and Samwise Gamgee™ avoid detection as they sneak through enemy territory.

"What are you waiting for? Just let it go!"

– Samwise Gamgee™
