These illuminated glyphs remain unchanged since our last encounter with the *Renegade*. Though we have not fully translated the Blacktron number-color code, we believe it is a warning against using too low a grade of hyper-fuel.

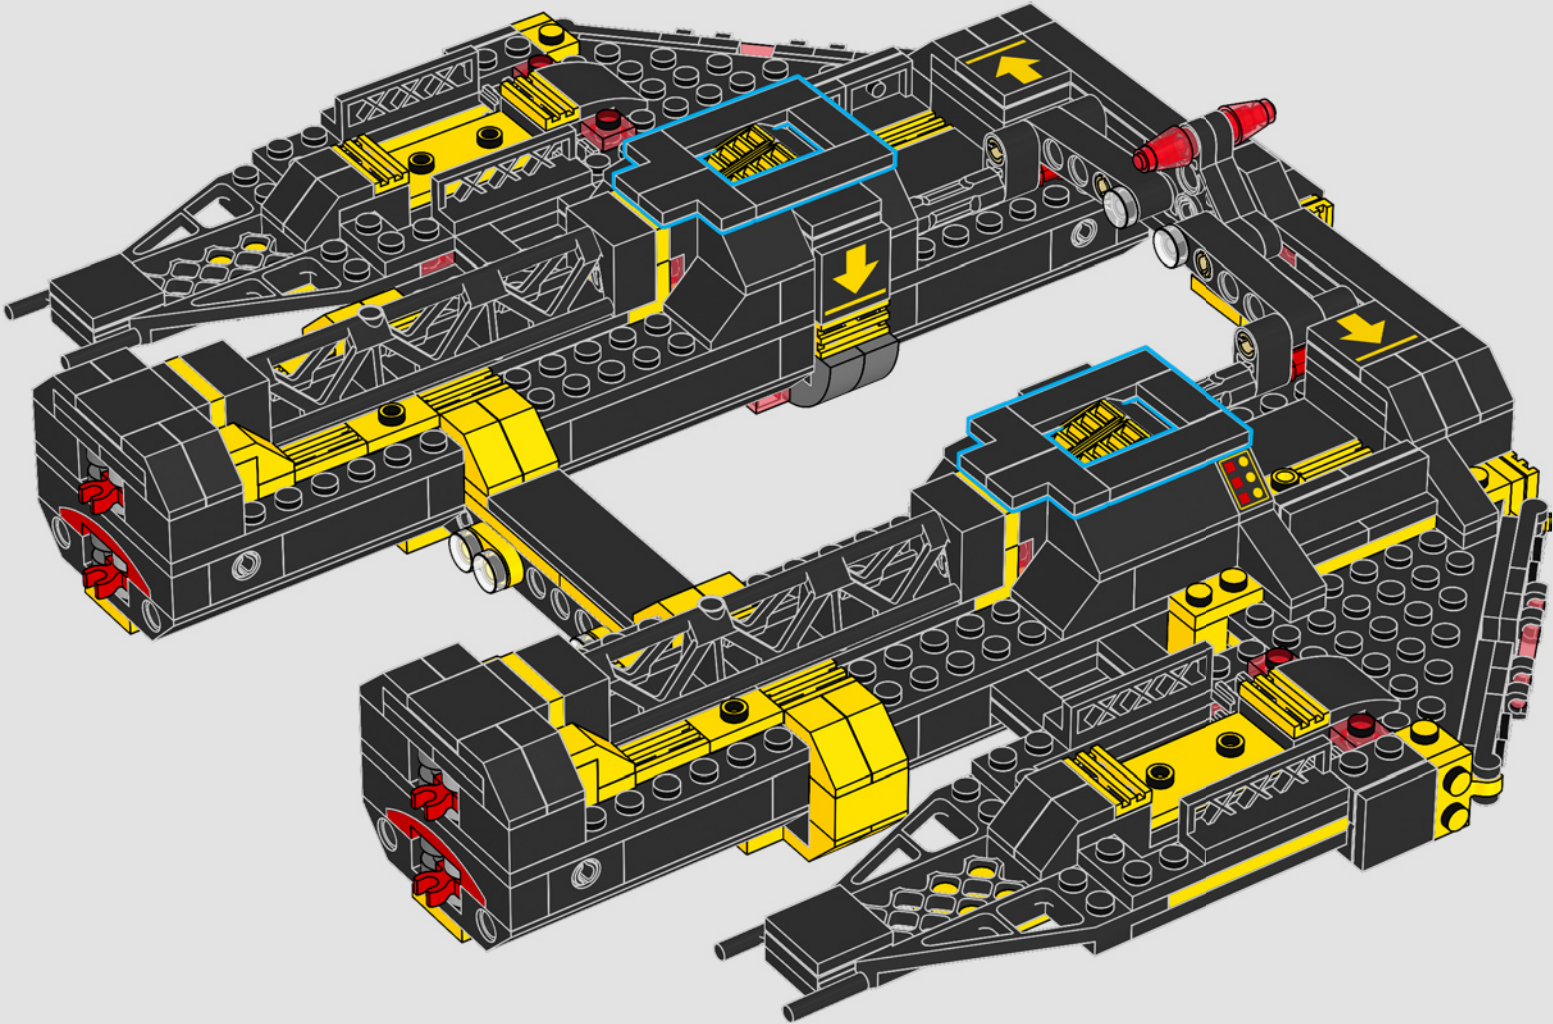

Ces glyphes lumineux n'ont pas changé depuis notre dernière rencontre avec le *Renégat*. Bien que nous n'ayons pas entièrement traduit le code couleur-nombre Blacktron, nous pensons qu'il s'agit d'une mise en garde contre l'utilisation d'une qualité trop faible d'hypercarburant.

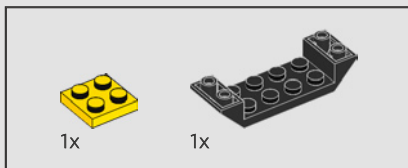

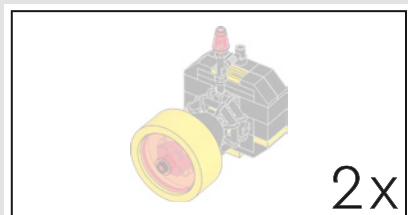

Estos glifos iluminados permanecen inalterados desde nuestro último encuentro con la *Renegade*. Aunque no hemos logrado traducir completamente el código cromático-numérico de Blacktron, creemos se trata de una advertencia contra el uso de hipercombustible de un grado demasiado bajo.

Blacktron Engineering has clearly improved on their ingenious 'modular' designs – all modules can be reordered as needed for any of their operations.

L'ingénierie Blacktron a clairement perfectionné ses ingénieuses conceptions « modulaires » ; tous les modules peuvent être réorganisés en fonction des besoins de leurs opérations.

Blacktron Engineering ha mejorado sustancialmente sus ingeniosos diseños modulares. Ahora, todos los módulos se pueden reordenar para ajustarlos a las necesidades de sus operaciones.

137

138

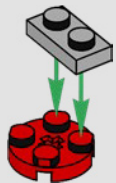

More rocket power has been added to the *Renegade* via these fusion-activated energy pods. The range of the *Renegade* may now be able to reach Futuron bases in this quadrant we previously thought secure.

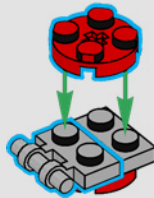

Le *Renégat* a été doté d'une plus grande puissance de fusée grâce à ces capsules d'énergie activées par fusion. Le rayon d'action du *Renégat* pourrait désormais permettre d'atteindre les bases Futuron dans ce quadrant que nous pensions auparavant sécurisé.

Se incorporaron cápsulas de energía activadas por fusión a los cohetes de la *Renegade* para incrementar su potencia. La *Renegade* puede alcanzar ahora las bases Futuron de este cuadrante, que antes considerábamos seguras.

Remain on high alert, even if the *Renegade* leaves orbit!
Blacktron agents can deploy for espionage missions
using one-person infiltration speeders, disguised as the
Blacktron insignia!

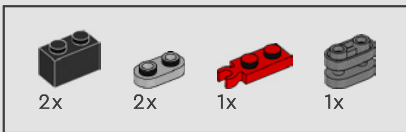

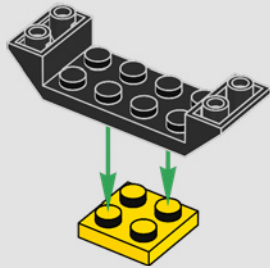

Restez en alerte, même si le *Renégat* quitte l'orbite ! Les
agents Blacktron peuvent se déployer pour des missions
d'espionnage en utilisant des véhicules d'infiltration monoplaces,
déguisés en insigne Blacktron !

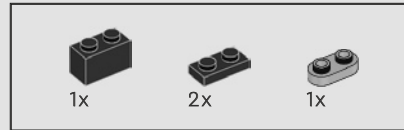

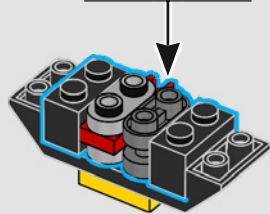

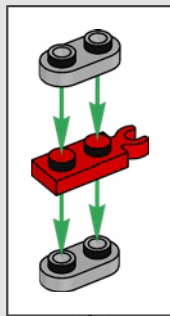

Debes permanecer en alerta máxima, ¡incluso si la *Renegada* abandona nuestra
órbita! ¡Los agentes Blacktron tienen la capacidad de realizar misiones de espionaje
trasladándose en transportes unipersonales que se ocultan bajo la insignia de Blacktron!

We detect a significantly enhanced ship's computer compared to previous versions. This one appears to allow for advanced detection and signal processing, as well as video communication.

Nous détectons un ordinateur de bord nettement amélioré par rapport aux versions précédentes. Celui-ci semble permettre une détection et un traitement des signaux avancés, ainsi qu'une communication vidéo.

En esta variante de la nave, detectamos una computadora notablemente más poderosa que la que llevaban las versiones anteriores. Esta parece tener funciones avanzadas de localización y procesamiento de señales, así como de transmisión de video.

We have confirmed encrypted transmissions are sent from this communications module to 6987 Message Intercept Base. The comms module may be detached and combined with the rear booster to form a remote comms relay.

Nous avons confirmé que des transmissions cryptées sont envoyées de ce module de communication à la Message Intercept Base 6987. Le module de communication peut être détaché et combiné avec le propulseur arrière pour former un relais de communication à distance.

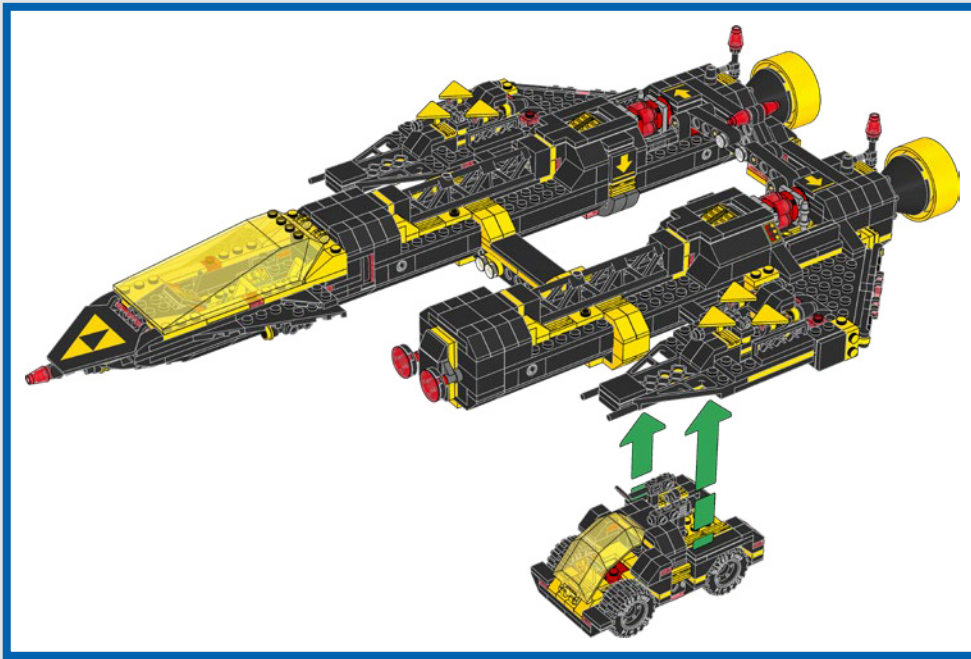

Hemos confirmado que se envían transmisiones encriptadas desde este módulo de comunicaciones a la unidad Message Intercept Base (6987). El módulo de comunicaciones puede separarse para combinarlo con el grupo de potencia posterior, dando forma a una estación remota de repetición de mensajes.

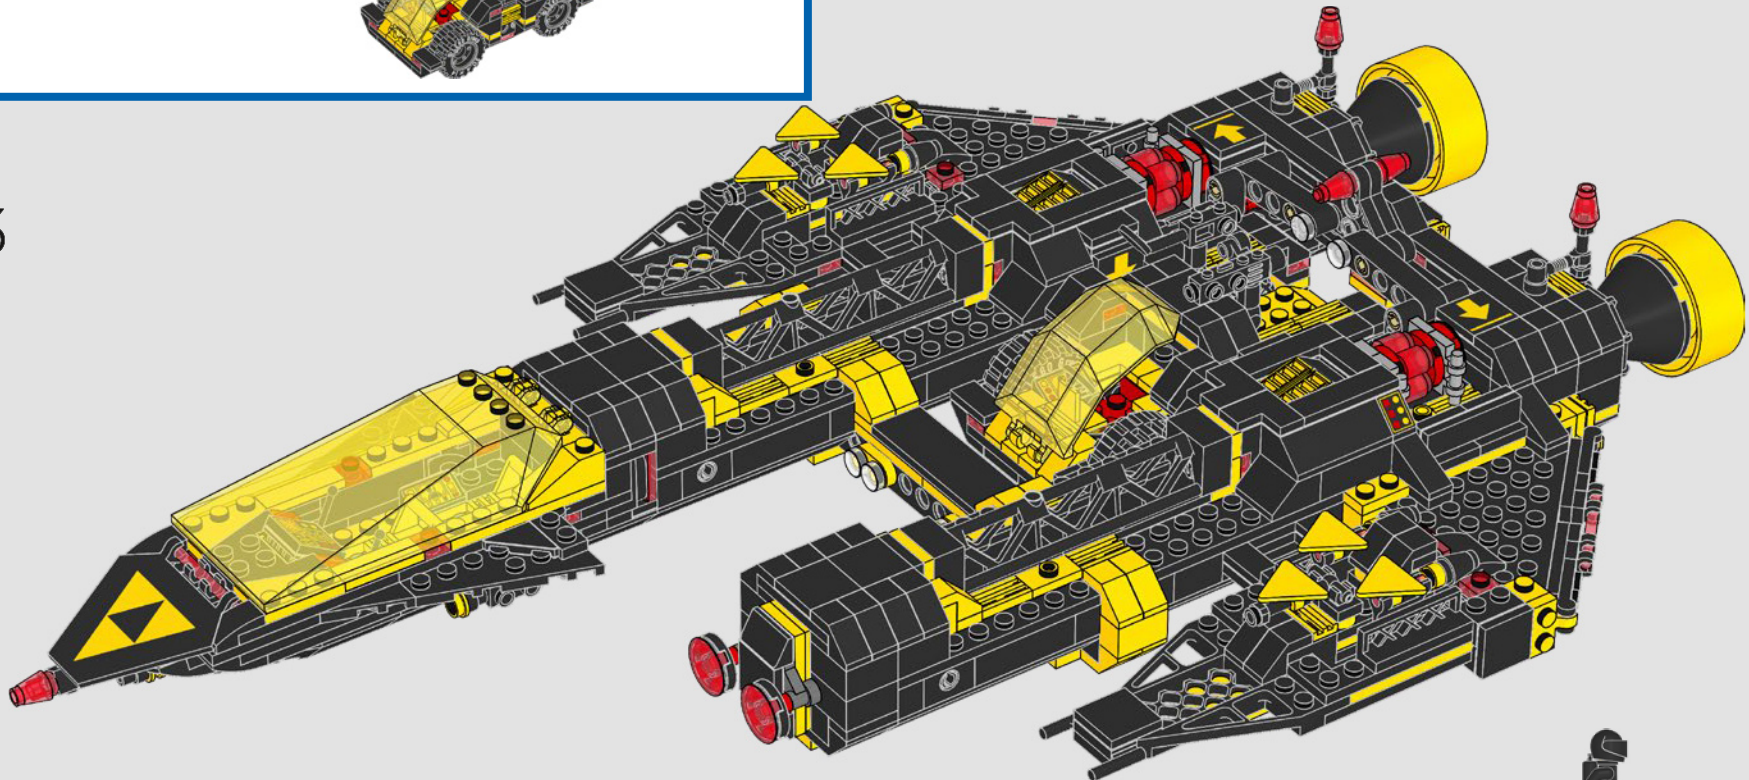

Warning! This new Blacktron dropship technology means their stealth incursions could become even faster and more undetectable!

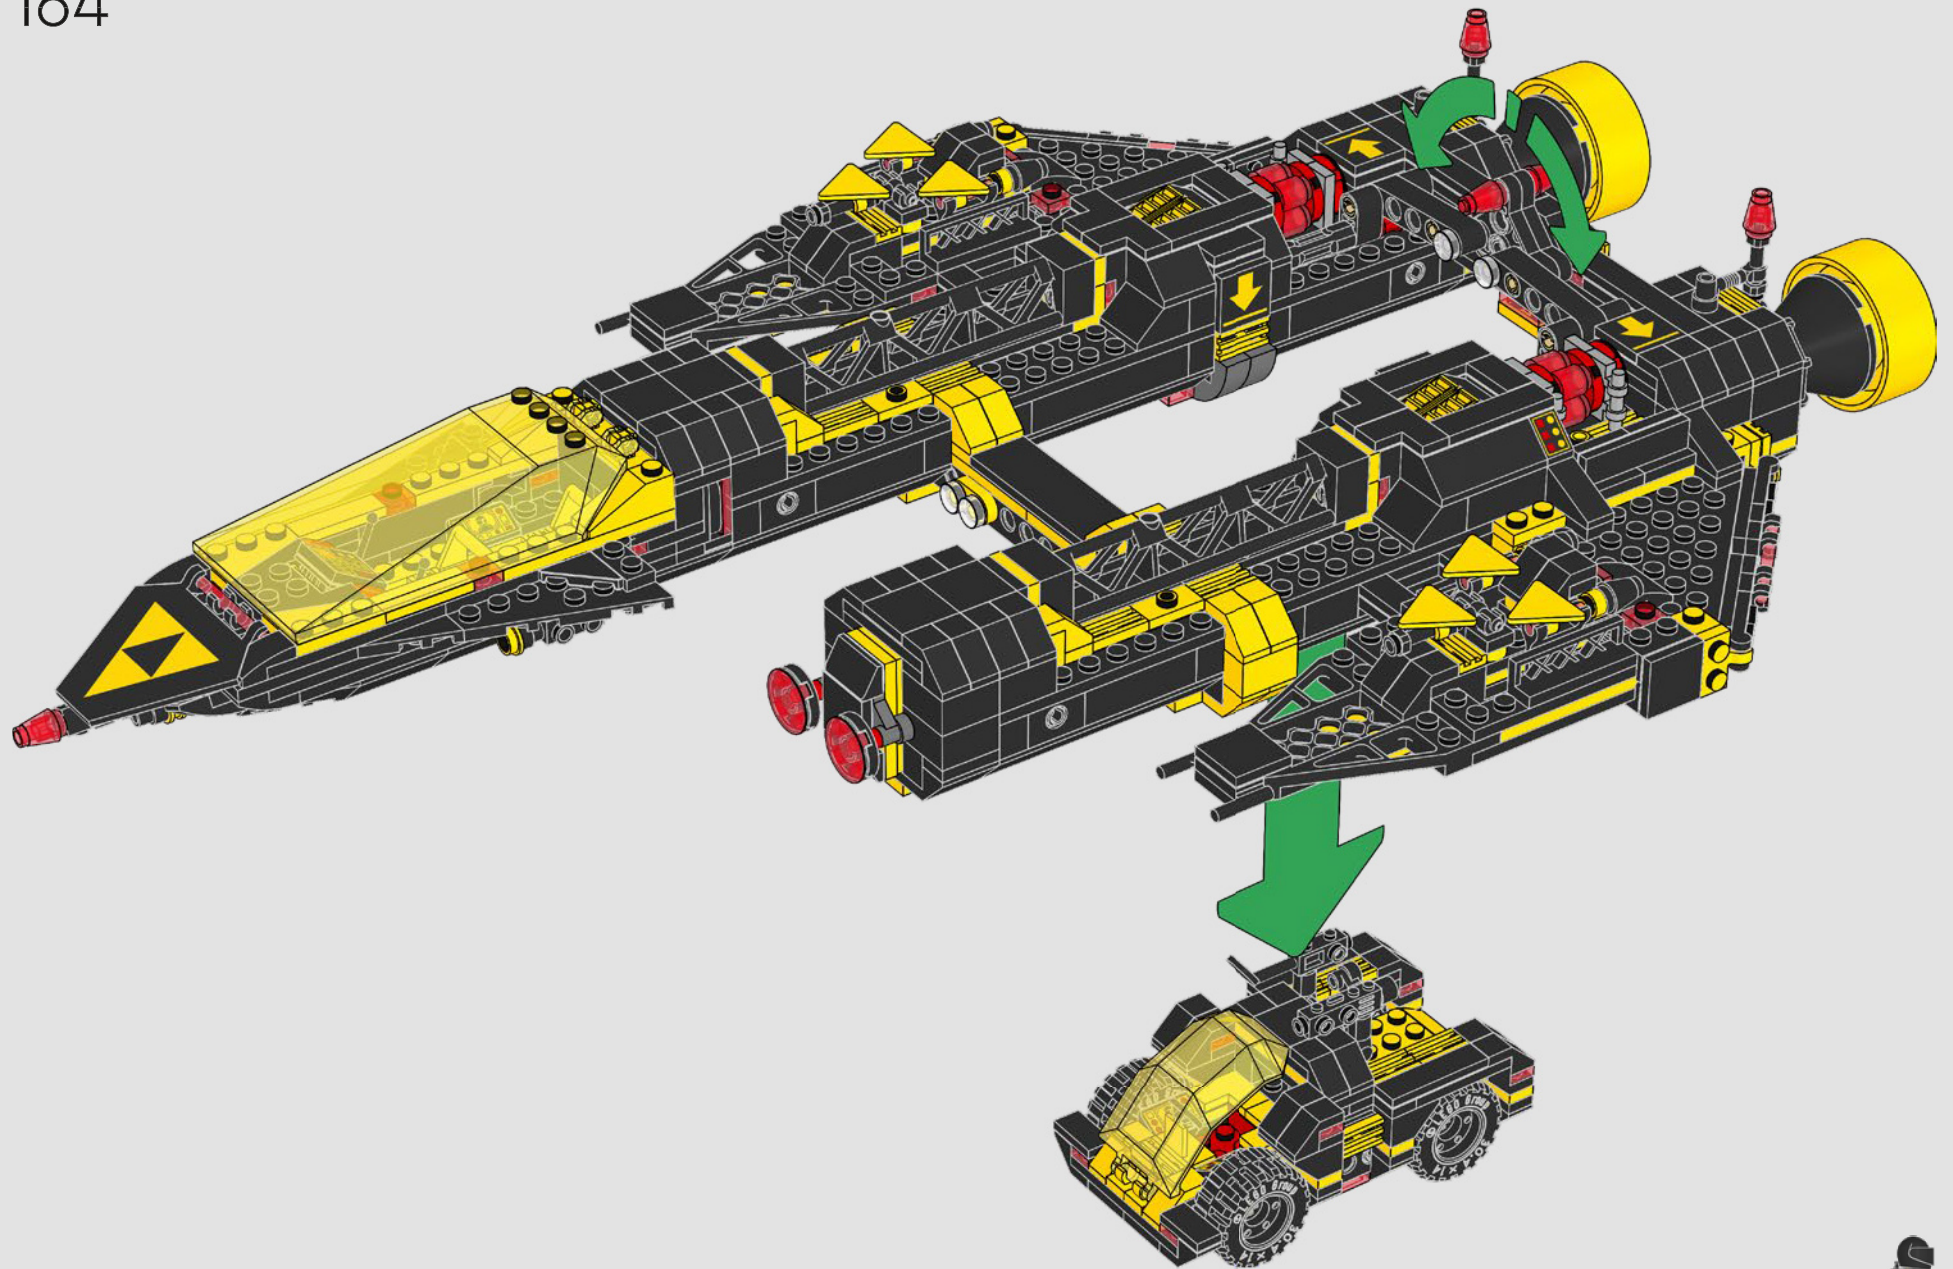

Attention ! Cette nouvelle technologie de parachutage Blacktron signifie que leurs incursions furtives pourraient devenir encore plus rapides et indétectables !

¡Advertencia! Con esta nueva tecnología de despliegue de recursos, ¡las sigilosas incursiones de las naves Blacktron podrían ser aún más rápidas e indetectables!
