WE'RE MAKING OUR PACKAGING MORE SUSTAINABLE

We're transitioning from single-use plastic to paper-based packaging. As we progress, you may find a mix of paper and plastic in our boxes.

NOUS RENDONS NOS EMBALLAGES PLUS DURABLES

Nous passons des emballages en plastique à usage unique aux emballages à base de papier. Durant la transition, vous pourriez trouver un mélange de papier et de plastique dans nos boîtes.

QUEREMOS HACER MÁS SUSTENTABLES NUESTROS MATERIALES DE EMBALAJE

Estamos cambiando las bolsas de plástico desechables por bolsas con base de papel. Conforme avanzamos en este propósito, puedes encontrar una mezcla de papel y de plástico en nuestras cajas.

Q LEGO® Builder

Building serenity

Allow yourself to be whisked away to a serene, tranquil garden and please, stay as long as you like. Maybe you feel inspired to nurture your creative roots or cultivate your own little corner of mindful activity and reflection. This is your space. We hope you will feel right at home among the thriving flora and wildlife by the fountain. You might recognize some of them from your own garden, or a familiar place you have visited on a treasured trip to your dream destination. Every element is as authentic to the area, culture and architecture as possible. The gorgeous decorative tiles are inspired by *zellij* tiles which influenced building traditions in North Africa and South Europe throughout history, and add a gorgeously vivid atmosphere to buildings, interior decorations and gardens. We also decided to introduce a new addition to the LEGO® moths and butterflies collection with the mesmerizingly green Spanish moon moth. You can breathe new life into your garden as you move plants to different locations to suit your mood or let them take turns soaking in the sun or cooling down in the shade. You can even move around larger parts of the model to create different shapes and expressions.

“Bring this idyllic Fountain Garden to life – and a tiny bit of summer atmosphere into your home, all year round.”

– The LEGO® Design Team

Construire la sérénité

Laissez-vous emporter dans un jardin serein et tranquille et restez-y aussi longtemps que vous le souhaitez. Peut-être sentez-vous l'envie de nourrir vos racines créatives ou de cultiver votre propre petit coin d'activité et de réflexion en pleine conscience. Cet espace est le vôtre. Nous espérons que vous vous sentirez comme chez vous parmi la flore et la faune abondantes près de la fontaine. Vous reconnaîtrez peut-être certains animaux et plantes de votre propre jardin ou d'un endroit familier que vous avez visité lors d'un voyage vers la destination de vos rêves. Chaque élément est aussi authentique que possible quant à la région, la culture et l'architecture. Les magnifiques tuiles décoratives s'inspirent des tesselles de zellige, qui ont influencé les traditions de construction en Afrique du Nord et en Europe du Sud tout au long de l'histoire, et ajoutent une atmosphère merveilleusement vivante aux bâtiments, aux décorations intérieures et aux jardins. Nous avons également décidé d'ajouter un nouvel élément à la collection de papillons de jour et de nuit LEGO® avec l'Isabelle, d'un vert envoûtant, originaire d'Espagne. Vous pouvez donner une nouvelle vie à votre jardin en déplaçant les plantes à différents endroits selon votre humeur ou en les laissant s'exposer au soleil ou se rafraîchir à l'ombre à tour de rôle. Vous pouvez même déplacer des parties plus importantes du modèle pour créer des formes et des expressions différentes.

« Donnez vie à ce jardin à la fontaine idyllique – et ajoutez une touche d'ambiance estivale à votre maison, tout au long de l'année. »

– L'équipe de conception LEGO®

Construye tu serenidad

Acepta nuestra invitación a un jardín tranquilo y sereno donde puedes permanecer todo el tiempo que quieras. Tu feliz estancia podría inspirarte para nutrir tus raíces creativas, o incluso animarte a cultivar tu pequeño rincón dedicado a la atención plena y la reflexión. Este es tu espacio. Esperamos que te sientas como en casa entre la floreciente vegetación y la vida silvestre que se congregan en torno a la fuente. Quizá reconozcas algunas de las especies que habitan en tu jardín o que hayas contemplado en tu viaje más añorado al destino de tus sueños.

Cada elemento es lo más fiel posible a la zona, la cultura y la arquitectura. Las preciosas piezas decorativas están inspiradas en los mosaicos *zellige* creados a base de pequeños azulejos que han formado parte de la tradición arquitectónica del norte de África y el sur de Europa durante siglos y aportan una atmósfera armoniosamente vívida a edificios, decoraciones interiores y jardines. También decidimos ampliar la colección de polillas y mariposas LEGO® con la hechizante mariposa isabelina, que resalta por su brillante color verde. Puedes dar un soplo de nueva vida a tu jardín moviendo las plantas a diferentes lugares según tu estado de ánimo, o simplemente dejándolas tomar el sol o refrescarse bajo la sombra según los ciclos naturales. Incluso puedes reorganizar secciones más grandes del modelo para crear distintas formas y expresiones.

“El resultado de dar vida a este idílico Jardín con Fuente es tener en tu hogar un poco de la atmósfera del verano en cualquier época del año”.

– Equipo de diseño de LEGO®

Les pièces décorées créées pour cet ensemble ont été inspirées par le type de mosaïque *zellige*. Ce style est très présent dans l'architecture d'anciens sites et monuments historiques dans des pays tels que le Maroc, l'Algérie, la Tunisie et la région andalouse du sud de l'Espagne.

Ces morceaux de carreaux, appelés tesselles, peuvent être utilisés pour créer des motifs répétés à l'infini. Combien de motifs différents pouvez-vous créer ?

These decorated pieces created for this set were inspired by the *zellige* style of mosaic tilework. They are frequently found in the architecture of ancient historical sites and monuments in countries such as Morocco, Algeria, Tunisia and the Andalusian region of southern Spain.

These tiles can be used to create patterns that can be repeated into infinity, which is called tessellation. How many different patterns can you create?

Estas piezas decoradas, creadas especialmente para el set, están inspiradas en los mosaicos *zellige*, que se elaboran a base de pequeñas teselas. Es frecuente encontrar estas composiciones en la arquitectura de lugares históricos y monumentos de países como Marruecos, Argelia, Túnez y la región de Andalucía, en el sur de España.

Los azulejos que componen estos mosaicos pueden usarse para crear patrones que se repitan infinitamente, lo cual se conoce como *teselación*. ¿Cuántos patrones diferentes puedes crear?

Red hibiscus flower (*Hibiscus rosa-sinensis*)
Hibiscus flowers can be used to test the acidity of a liquid.
A hibiscus flower will turn dark pink in acid, or green in base.
Perfect for checking the acidity of your fountain!

Hibiscus Rose de Chine (*Hibiscus rosa-sinensis*)
Les fleurs d'hibiscus peuvent être utilisées pour tester l'acidité
d'un liquide. Une fleur d'hibiscus deviendra rose foncé en
présence d'un acide, ou verte en présence d'une base.
Parfait pour vérifier l'acidité de votre fontaine !

Tulipán moteado (*Hibiscus rosa-sinensis*)
Los tulipanes moteados pueden usarse para probar la acidez
de un líquido. Sus pétalos adoptan un tono rosa si se exponen
a un ácido, o uno verde si tienen contacto con una base.
¡Son perfectos para medir la pureza de tu fuente!

Pink bougainvillea flower (*Bougainvillea*)
 What most people think of as the 'flower' of bougainvillea are actually called bracts, or 'false flowers', which are a different type of leaf surrounding the real, tiny flowers on the plant.

Bougainvillée rose (*Bougainvillea*)
 Ce que la plupart des gens considèrent comme la « fleur » de la bougainvillée est en réalité une bractée, ou « fausse fleur », un type de feuille non ordinaire entourant la vraie petite fleur de la plante.

Bugambilia (*Bougainvillea*)
 Si bien la mayoría de las personas consideran a las partes más coloridas de la bugambilia como sus flores, estas en realidad son brácteas: hojas de un tipo distinto que rodean a las verdaderas y minúsculas flores de la planta.

188

White petunia (*Petunia axillaris*)
Although some petunia species can be used as garnish, perhaps it's better to leave this beauty to blossom in your garden. It is closely related to not only potatoes and tomatoes, but also deadly nightshade!

189

Pétunia blanc (*Petunia axillaris*)
Bien que certaines espèces de pétunias puissent être utilisées comme garniture, il est peut-être préférable de laisser cette merveille s'épanouir dans votre jardin. Elle est étroitement liée non seulement aux pommes de terre et aux tomates, mais aussi à la belladone !

Petunia blanca (*Petunia axillaris*)
Aunque algunas especies de petunias pueden usarse en la gastronomía con una función ornamental, quizá sea mejor dejar que esta belleza florezca en tu jardín. No solo está estrechamente emparentada con las papas y los tomates, ¡sino también con la belladona!

Red garden geranium (*Pelargonium x hortorum*)
The fragrant garden geranium serves both aesthetic and practical purposes in a serene garden. Its natural oils give off a scent that sends insects packing!

190

Géranium zoné rouge (*Pelargonium x hortorum*)
Le géranium parfumé a une fonction à la fois esthétique et pratique dans un jardin paisible. Ses huiles naturelles dégagent une odeur qui fait fuir les insectes !

Geranio común (*Pelargonium x hortorum*)
El fragante geranio común sirve tanto para fines estéticos como prácticos en un jardín sereno. Sus aceites naturales producen un aroma que ahuyenta a los insectos.

192

193

194

195

196

Iberian waterfrog (*Pelophylax perezi*)
Native to the Iberian Peninsula, this swift little swimmer thrives in freshwater habitats and wetlands.

Grenouille de Pérez (*Pelophylax perezi*)
Originaire de la péninsule ibérique, cette petite nageuse rapide prospère dans les habitats d'eau douce et les zones humides.

Rana común (*Pelophylax perezi*)
Originaria de la península ibérica, esta pequeña y veloz nadadora vive en hábitats de agua dulce y humedales.

197

198

Yellowhammer (*Emberiza citrinella*)
The yellowhammer, with its characteristic bright yellow plumage and distinctive song, is found throughout Europe.

Bruant jaune (*Emberiza citrinella*)
Le bruant jaune, avec son plumage jaune vif caractéristique et son chant distinctif, est présent dans toute l'Europe.

Escribano cerillo (*Emberiza citrinella*)
El escribano cerillo, con su característico plumaje amarillo brillante y su distintivo canto, se encuentra por toda Europa.

Spanish moon moth (*Graellsia isabellae*)
The Spanish moon moth, a stunning species with green wings and unique eyespots, thrives in the Pyrenees mountains. A 'relic' species, it has remained largely unchanged since the last Ice Age.

Isabelle (*Graellsia isabellae*)
L'isabelle, une espèce de papillon étonnante aux ailes vertes et aux ocelles uniques, prospère dans les montagnes des Pyrénées. Espèce « relique », elle demeure pratiquement inchangée depuis la dernière période glaciaire.

Mariposa isabelina (*Graellsia isabellae*)
La mariposa isabelina, una impresionante especie con alas verdes y singulares ocelos, habita en las montañas de los Pirineos. Es una especie "reliquia" que ha permanecido prácticamente inalterada desde la última glaciación.

French marigold (*Tagetes patula*)

Marigolds originate from Central America, but these aromatic little rays of sunshine are loved by gardeners and chefs around the world as decoration or a tangy twist to sweet deserts.

Œillet d'Inde (*Tagetes patula*)

Les œillets d'Inde sont originaires d'Amérique centrale, mais ces petits rayons de soleil aromatiques sont appréciés par les jardiniers et les chefs cuisiniers du monde entier comme décoration ou comme touche acidulée dans les desserts sucrés.

Clavel de moro (*Tagetes patula*)

Originarios de América Central, los aromáticos claveles de moro son muy apreciados por jardineros y cocineros de todo el mundo como decoración o para dar un toque de acidez a los postres dulces.

232

233

Grapevine (*Vitis vinifera*)
A deliciously sweet and juicy food staple, grapes were first cultivated by ancient civilizations more than 10,000 years ago.

Vigne cultivée (*Vitis vinifera*)
Aliment de base délicieusement sucré et juteux, le raisin a été cultivé pour la première fois par les civilisations anciennes il y a plus de 10 000 ans.

Parra (*Vitis vinifera*)
Las uvas, un alimento básico muy apreciado por su dulzura y jugosidad, fueron cultivadas por primera vez hace más de 10.000 años por las civilizaciones de la antigüedad.
