WE'RE MAKING OUR PACKAGING MORE SUSTAINABLE

We're transitioning from single-use plastic to paper-based packaging. As we progress, you may find a mix of paper and plastic in our boxes.

NOUS RENDONS NOS EMBALLAGES PLUS DURABLES

Nous passons des emballages en plastique à usage unique aux emballages à base de papier. Durant la transition, vous pourriez trouver un mélange de papier et de plastique dans nos boîtes.

QUEREMOS HACER MÁS SUSTENTABLES NUESTROS MATERIALES DE EMBALAJE

Estamos cambiando las bolsas de plástico desechables por bolsas con base de papel. Conforme avanzamos en este propósito, puedes encontrar una mezcla de papel y de plástico en nuestras cajas.

Q LEGO® Builder

FAST CARS, FURIOUS ACTION

Fueled by adrenaline, and a lot of NOS, the *Fast & Furious* saga has raced through more than two decades, crossing lines between high-speed heists, high-octane action and humor. Packed full of dynamic street races and global adventures, the saga is about more than fast cars – however fierce they may be! It's about family, loyalty, trust and pushing limits. With its pulse-pounding stunts and lasting legacy, the series has cemented its place as one of cinema's most thrilling action franchises. We went total LEGO® Technic™ on this one, so buckle up!

VOITURES RAPIDES, JEUX DANGEREUX

Alimentée par l'adrénaline et beaucoup d'oxyde nitreux, la saga *Rapides et dangereux* court depuis plus de deux décennies, mêlant braquages à grande vitesse, action à haute intensité et humour. Remplie de courses de rue dynamiques et d'aventures mondiales, la saga ne se résume pas à des voitures rapides – aussi fougueuses soient-elles! Elle porte sur la famille, la loyauté, la confiance et le dépassement des limites. Avec ses cascades à couper le souffle et son héritage impérissable, la série s'est imposée comme l'une des franchises d'action les plus palpitantes du cinéma. Ce modèle pousse le génie de LEGO® Technic™ à son paroxysme, alors attachez vos ceintures!

AUTOS RÁPIDOS, ACCIÓN FURIOSA

Impulsada por adrenalina y una generosa cantidad de NOS, la saga *Rápidos y Furiosos* ha pisado el acelerador durante más de dos décadas, rompiendo fronteras entre asaltos a toda velocidad, acción explosiva y un toque de humor. Llena de dinámicas carreras callejeras y aventuras por todo el mundo, la serie cinematográfica va más allá de los autos rápidos, ¡por muy salvajes que se vean! Los temas giran en torno a la familia, la lealtad, la confianza y superar siempre los límites. Con acrobacias que te dejan sin aliento y un legado que perdura hasta hoy, la franquicia de acción se ha ganado su lugar como una de las más emocionantes del cine. Sacamos lo máximo de LEGO® Technic™ con este set, ¡así que abróchate el cinturón!

WE WON'T FORGET ABOUT IT

Brian O'Conner's iconic silver and blue Nissan Skyline GT-R (R34) has become one of the most recognizable vehicles from the *Fast & Furious* franchise. 'Translated' into LEGO® Technic™ building language, this version captures the characteristic exterior silhouette, livery and an array of functions to mimic some of its classic movie maneuvers (Who could forget the opening race in *2 Fast 2 Furious* (2003) on the hot, humid streets of Miami?). Recreating this fan favorite, with its high-speed potential, all-wheel-drive system and inline engine, offered an exciting challenge for LEGO designers – and a really fun building experience! Take a quick sneak peek at some of the details before you race to open the first bag.

NOUS NE L'OUBLIERONS JAMAIS

L'emblématique Nissan Skyline GT-R (R34) aux couleurs argent et bleu de Brian O'Conner est devenue l'un des véhicules les plus reconnaissables de la franchise *Rapides et dangereux*. « Traduite » dans le langage de construction LEGO® Technic™, cette version capture la silhouette extérieure caractéristique, la livrée et un ensemble de fonctions pour imiter certaines de ses manœuvres classiques dans les films (qui pourrait oublier la course d'ouverture de *Rapides et dangereux 2* [2003] dans les rues chaudes et humides de Miami?). Recréer cette voiture adorée des amateurs, avec son potentiel de vitesse, son système de traction intégrale et son moteur en ligne, a représenté un défi passionnant pour les concepteurs LEGO – et une expérience de construction vraiment amusante! Découvrez quelques détails avant de foncer ouvrir le premier sac.

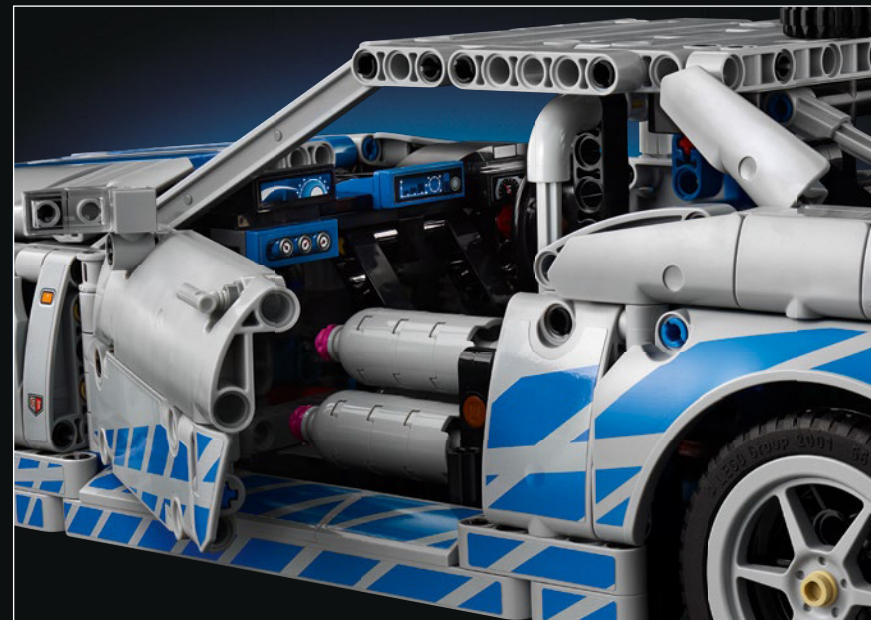

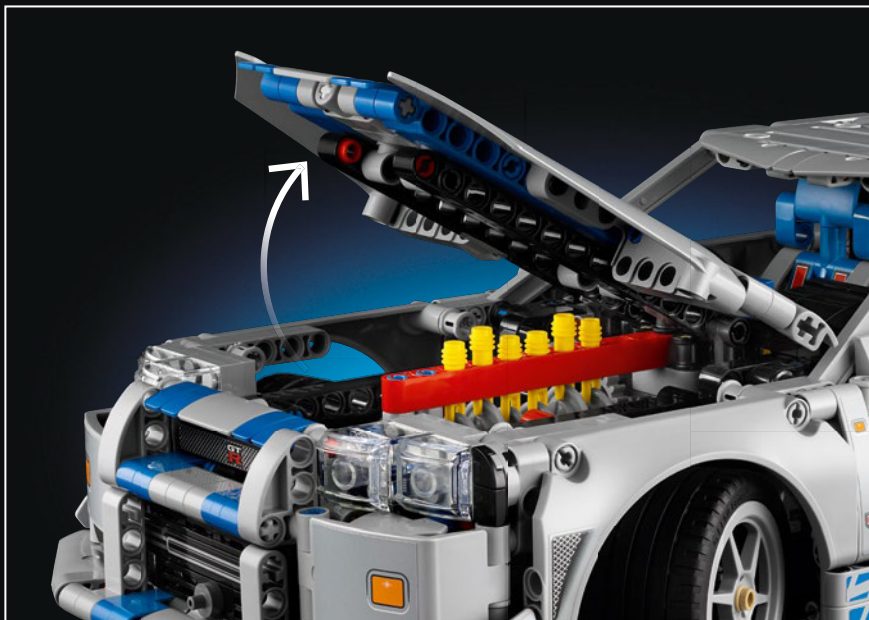

NO LO VAMOS A OLVIDAR

El icónico Nissan Skyline GT-R (R34) plateado y azul de Brian O'Conner se ha convertido en uno de los autos más reconocibles de la saga *Rápidos y Furiosos*. Su versión "traducida" al lenguaje de construcción de LEGO® Technic™ captura la silueta exterior característica, las decoraciones y una diversidad de funciones creadas para simular algunas de sus maniobras clásicas en las películas (¿quién no recuerda la carrera inicial de *Más Rápido, Más Furioso* [2003] en las cálidas y húmedas calles de Miami?). Recrear este favorito de los fans, con todo su potencial de alta velocidad, su sistema de tracción en las cuatro ruedas y su motor en línea, fue todo un apasionante desafío para los diseñadores de LEGO, ¡y también una experiencia de construcción muy divertida! Dale un vistazo a algunos de los detalles antes de lanzarte por la primera bolsa.

2FAST 2FURIOUS

NISSAN SKYLINE
GT-R (R34)

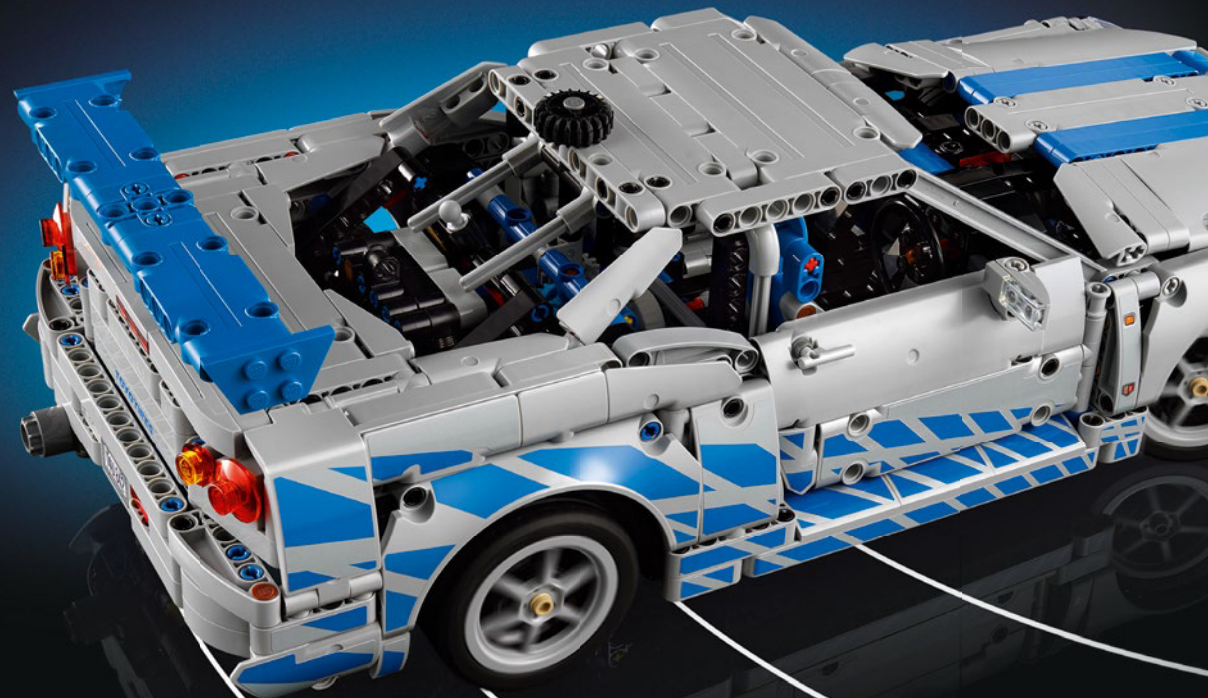

YOU NEED NOS

Inside and out, this street-racing rocket model oozes power and authenticity. What makes the Nissan Skyline GT-R (R34) stand out in the movie is its road and racing performance. We've incorporated an awesome new technique to mimic this: A switch in the back activates a function that gears the front wheels to the rear powertrain and raises the chassis slightly. This makes the rear wheels spin faster, and two ball elements keep the car steady while you race and drift! With front and rear suspension, it moves smoothly across most surfaces. The doors and trunk open, and under the hood, the inline 6-cylinder engine moves when the car is driving. Steering works either with the wheel or top steering, and you can adjust the rear wing for the perfect display pose. On the left side of the car, you'll even find three tanks of LEGO® Technic™ NOS (Nitrous Oxide Systems). Are you ready? GO!

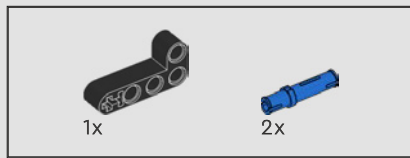

VOUS AVEZ BESOIN D'OXYDE NITREUX

À l'intérieur comme à l'extérieur, ce modèle de fusée de course de rue rayonne de puissance et d'authenticité. Ce qui distingue la Nissan Skyline GT-R (R34) dans le film, ce sont ses performances sur route et en course. Nous avons intégré une nouvelle technique impressionnante pour imiter ces performances : un interrupteur situé à l'arrière active une fonction qui adapte les roues avant au groupe motopropulseur arrière et soulève légèrement le châssis. Les roues arrière tournent alors plus vite, et deux éléments sphériques maintiennent la voiture stable pendant que vous faites des courses et des dérapages! Grâce aux suspensions avant et arrière, la voiture se déplace en douceur sur la plupart des surfaces. Les portes et le coffre s'ouvrent, et sous le capot, le moteur 6 cylindres en ligne tourne lorsque la voiture roule. Vous pouvez diriger la voiture à l'aide du volant ou de la direction sur le toit, et vous pouvez ajuster l'aileron arrière pour obtenir la pose parfaite. Sur le côté gauche de la voiture, vous trouverez même trois bonbonnes d'oxyde nitreux LEGO® Technic™. Vous avez soif de vitesse? FONCEZ!

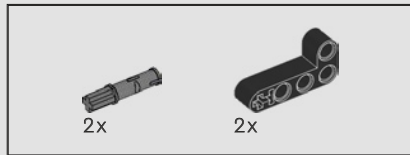

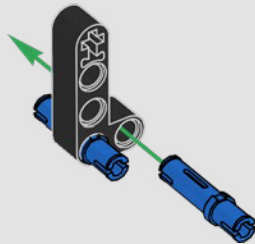

NECESITAS NOS

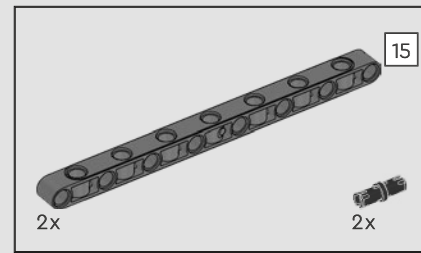

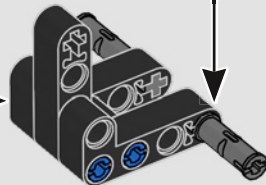

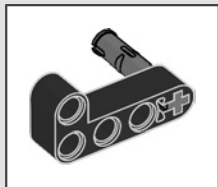

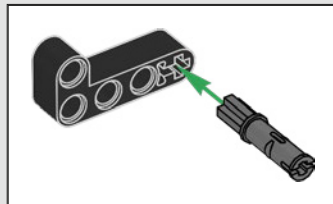

Este modelo de carreras callejeras es pura potencia y autenticidad, tanto por dentro como por fuera. Lo que hace que el Nissan Skyline GT-R (R34) destaque en la película es su desempeño en la pista y en la calle. Para replicar eso, incorporamos una función técnica bastante increíble: un interruptor en la parte trasera que se activa para engranar las ruedas delanteras con la transmisión trasera, elevando un poco el chasis. ¡Esto hace que las ruedas traseras giren más rápido, al mismo tiempo que dos elementos esféricos mantienen el auto estable mientras corres y derrapas! Con suspensión frontal y posterior, se mueve con toda suavidad sobre la mayoría de las superficies. Las puertas y la cajuela se abren; además, debajo del cofre, el motor de 6 cilindros en línea se mueve cuando el auto está avanzando. También puedes controlar la dirección con el volante o con el control superior, así como ajustar el alerón trasero para lograr la pose de exhibición perfecta. En el lado izquierdo del auto puedes encontrar tres tanques de NOS (Nitrous Oxide Systems) creados con elementos LEGO® Technic™. ¿Estás listo? ¡ACELERA!
