WE'RE MAKING OUR PACKAGING MORE SUSTAINABLE

We're transitioning from single-use plastic to paper-based packaging. As we progress, you may find a mix of paper and plastic in our boxes.

NOUS RENDONS NOS EMBALLAGES PLUS DURABLES

Nous passons des emballages en plastique à usage unique aux emballages à base de papier. Durant la transition, vous pourriez trouver un mélange de papier et de plastique dans nos boîtes.

QUEREMOS HACER MÁS SUSTENTABLES NUESTROS MATERIALES DE EMBALAJE

Estamos cambiando las bolsas de plástico desechables por bolsas con base de papel. Conforme avanzamos en este propósito, puedes encontrar una mezcla de papel y de plástico en nuestras cajas.

Elegant by nature

When we design a LEGO® floral arrangement, nature offers us a cornucopia of colors, plant species and scents for inspiration. Styling pastel and vibrantly colored blossoms with elegant evergreens, we experimented with new techniques (and creative uses of LEGO elements) to bring this lavish bouquet to life. Every detail is meticulously recreated as an authentic and artistic tribute to nature's own diverse treasures.

The LEGO® Botanicals Design Team

L'élégance au naturel

Lorsque nous concevons une composition florale LEGO®, nous puisons notre inspiration dans la nature, riche en couleurs, en espèces végétales et en fragrances. Grâce à de nouvelles techniques (et à l'utilisation créative d'éléments LEGO), la combinaison des fleurs aux couleurs pastel et vibrantes avec d'élégantes plantes à feuilles persistantes donne vie à ce somptueux bouquet. Chaque détail est méticuleusement recréé pour rendre un hommage authentique et artistique aux divers trésors de la nature.

L'équipe de conception de LEGO® Botanique

Elegante por naturaleza

Cuando diseñamos un arreglo floral LEGO®, la naturaleza nos ofrece una enorme abundancia de colores, especies de plantas y olores como fuente de inspiración. Mientras combinamos flores en colores vibrantes y tonos pastel con elegantes hojas de un intenso verde, experimentamos con nuevas técnicas (y usos creativos de los elementos LEGO) para dar vida a este opulento ramo. Cada detalle se ha recreado meticulosamente para rendir un homenaje tan auténtico como artístico a los diversos tesoros de la naturaleza.
