Welcome to Café Fleur

From small towns to big cities, whether you've been going there for years or are exploring a new resting spot on your travels, finding the perfect patisserie comes with the promise of an invigorating experience. The irresistible, alluring scent of freshly brewed coffee mixed with delectable local delicacies served fresh from the oven... There is something universally inviting about a cosy café. A relaxing oasis on a cold day or a buzzing hub filled with music and friends, exchanging ideas and life moments.

The centuries-old coffeehouse tradition transcends time and geography and continues to draw us in and delight our senses. Today, cafés serve us slices of authentic gastronomy, local architecture and culture and, sometimes, a flavour of history. As you build your LEGO® Café Fleur, we hope you'll make yourself at home and fill it with your fondest memories.

à la suite

From the LEGO® Icons Design Team

Creativity is always the daily special on the menu at the LEGO® Icons Café Fleur. As the new owner, you get a café packed with details and expressions inspired by both classic architecture and world travel. From the brick-built pavement to the interior decor, it's an artistic rendition of a traditional café, set in a historical building in an urban environment – with lots of little LEGO twists!

We developed new building techniques to capture as many authentic details as possible and make sure the model still fits on your bookshelf. You will also find lots of LEGO elements in green and peach colours for the first time. The main focal point of the model is the entrance, and all decorations are printed, including some of the new window pieces and transparent elements. Maybe this building experience will inspire you to create your own special builds?

The angle here is achieved by using reflected triangles.
This geometry makes the elements fit perfectly to create
the angled wall you'll see later.

Few LEGO® windows are 3 modules wide!
The new 1x3x2 windows are introduced here for the first time in green. The windows are built sideways to utilise their relatively unusual size.
