GIVE IN TO THE DARK SIDE

EVIL NEVER RESTS

Darth Vader uses his meditation chamber to regroup and confer with his master when making critical decisions. You can remove the chamber and place the LEGO® Darth Vader minifigure inside and/or display it separately. On the back wall screen, the ominous presence of the Emperor is always felt, but you can switch to a neutral black background if you don't want him looming over your set. Maybe you recognise some of the posters on the side wall?

YOUR LACK OF FAITH IS DISTURBING

Grand Moff Tarkin's conference room, where Admiral Motti learns a sobering lesson from Darth Vader, is fully equipped for strategy meetings. The table can be removed to place bickering Imperial LEGO® minifigures in the chairs in the back. From the sliding door, you can access a secret passage to the hallway and superlaser dish control room on the opposite side of the tractor beam shaft – just extend the bridge from the hallway by turning the gearwheel in the floor.

READY, AIM...

In both Death Stars, the superlaser is mainly operated from the primary control room in the Theta Sector. Here, Grand Moff Tarkin oversees all manoeuvres of the gigantic battle station, and gunners can activate the laser dish. This room can be removed from the model to either access the floor below or place minifigures. Through the viewport in the back, you can see Alderaan (before it's blown up). If you turn the small gearwheel on the left side of the model, the view shifts to the devastating destruction of the planet...

ENFORCERS OF THE EMPIRE

DARTH VADER

For decades, the once-so-promising Jedi has enforced the evil Emperor's will as a Sith Lord, using his unparalleled dark powers to crush any and every fraction of the Rebel Alliance he can track down. But there is still good in him...

ADMIRAL MOTTI

After serving as one of the Imperial military's Joint Chiefs, the ambitious Admiral Motti has become a trusted ally of Grand Moff Tarkin. He serves as head of naval operations on the first Death Star - in his words "the ultimate power in the universe".

GENERAL TAGGE

General Cassio Tagge, Vader's chief of military operations aboard the first Death Star, seems to be the only one with the courage to voice concerns about the threat of the Rebel Alliance. (Acknowledging this, the Emperor later promotes him to Grand General in charge of the Imperial military.)

COLONEL WULLF YULAREN

Since serving as a Republic admiral in the Clone Wars, Yularen's loyalty to Darth Vader has never wavered. Often rigid in his convictions and actions, he admires Vader's bravery and trusts his instincts almost to a fault.

GRAND MOFF TARKIN

The ruthless Wilhuff Tarkin rose to power under Supreme Chancellor Palpatine, so it was only natural that he was tasked with overseeing the construction of the Death Star. He proudly demonstrates the superlaser's powers on the peaceful, Rebel-friendly planet Alderaan.

DEATH STAR GUNNER

Crews of Death Star gunners serve aboard both Death Star battle stations. This elite gunner is specifically trained to operate the Death Star superlaser and is possibly a little too enthusiastic about his role in destroying planets...
