GIVE IN TO THE DARK SIDE

EVIL NEVER RESTS

Darth Vader uses his meditation chamber to regroup and confer with his master when making critical decisions. You can remove the chamber and place the LEGO® Darth Vader minifigure inside, and/or display it separately. On the back wall screen, the ominous presence of the Emperor is always felt, but you can switch to a neutral black background if you don't want him looming over your set. Maybe you recognize some of the posters on the side wall?

SUCCOMBEZ AU CÔTÉ OBSCUR

LE MAL NE SE REPOSE JAMAIS

Darth Vader utilise sa chambre de méditation pour se ressourcer et s'entretenir avec son maître lorsqu'il doit prendre des décisions cruciales. Vous pouvez retirer la chambre et y placer la figurine LEGO® Darth Vader, ou l'exposer séparément. Sur l'écran mural du fond, la présence inquiétante de l'Empereur se fait toujours sentir, mais vous pouvez passer à un fond noir neutre si vous ne voulez pas qu'il plane au-dessus de votre ensemble. Peut-être reconnaissez-vous certaines des affiches sur le mur latéral?

ENTRÉGATE AL LADO OSCURO

EL MAL NUNCA DESCANSA

Darth Vader usa su cámara de meditación para recuperar fuerzas y consultar con su maestro cuando toma decisiones críticas. Puedes retirar la cámara y colocar en su interior la minifigura LEGO® de Darth Vader, y/o exhibirla por separado. En la pantalla de la pared posterior se siente constantemente la imponente presencia del Emperador, pero puedes cambiarla por un fondo negro neutro si no quieres que se cierna sobre tu set. Quizá reconozcas alguno de los pósters de la pared lateral...

YOUR LACK OF FAITH IS DISTURBING

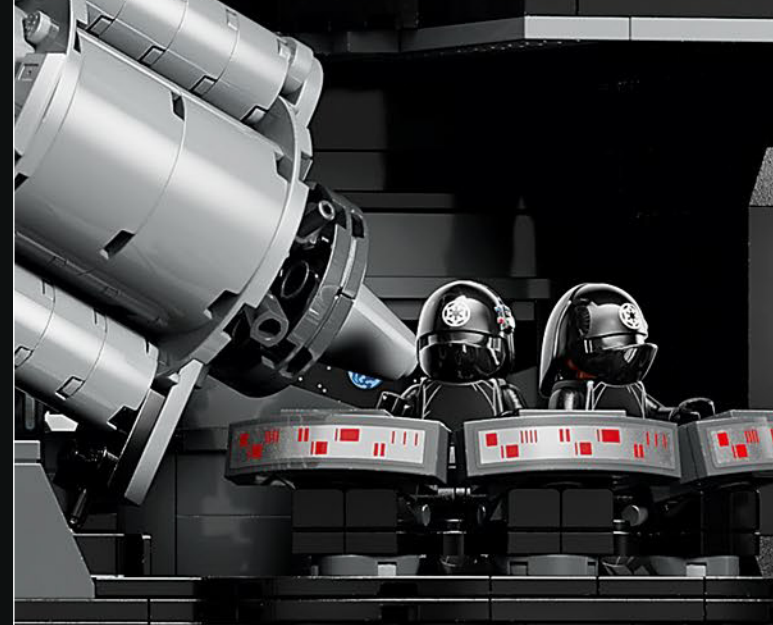

Grand Moff Tarkin's conference room, where Admiral Motti learns a sobering lesson from Darth Vader, is fully equipped for strategy meetings. The table can be removed to place bickering Imperial LEGO® minifigures in the chairs in the back. From the sliding door, you can access a secret passageway to the hallway and superlaser dish control room on the opposite side of the tractor beam shaft – just extend the bridge from the hallway by turning the gearwheel in the floor.

VOTRE MANQUE DE FOI EST INQUIÉTANT

La salle de conférence du Grand Moff Tarkin, où l'amiral Motti apprend une leçon qui donne à réfléchir de Darth Vader, est entièrement équipée pour les réunions stratégiques. La table peut être retirée pour placer les figurines impériales LEGO® qui se chamaillent sur les chaises à l'arrière. Depuis la porte coulissante, vous pouvez accéder à un passage secret menant au couloir et à la salle de contrôle de la parabole du superlaser, de l'autre côté de l'arbre du rayon tracteur. Il suffit d'étendre la passerelle depuis le couloir en tournant la roue dentée dans le sol.

SU FALTA DE FE RESULTA MOLESTA

La sala de conferencias del Gran Moff Tarkin, donde Darth Vader da al Almirante Motti una lección que lo devuelve a la realidad, está totalmente equipada para reuniones de estrategia. La mesa puede retirarse para colocar minifiguras LEGO® imperiales con ganas de discutir en las sillas del fondo. Desde la puerta corrediza, puedes acceder a un pasadizo secreto que conduce al vestíbulo y a la sala de control de la antena del superláser en el lado opuesto del conducto del rayo tractor: solo tienes que extender el puente desde el vestíbulo girando el engrane del suelo.

READY, AIM...

In both Death Stars, the superlaser is mainly operated from the primary control room in the Theta Sector. Here, Grand Moff Tarkin oversees all maneuvers of the gigantic battle station, and gunners can activate the laser dish. This room can be removed from the model to either access the floor below or place minifigures. Through the viewport in the back, you can see Alderaan (before it's blown up). If you turn the small gearwheel on the left side of the model, the view shifts to the devastating destruction of the planet...

PRÊT, VISEZ...

Dans les deux Étoiles de la Mort, le superlaser est principalement commandé depuis la salle de contrôle principale du secteur Thêta. C'est là que le Grand Moff Tarkin supervise toutes les manœuvres de la gigantesque station de combat, et que les artilleurs peuvent activer l'antenne laser. Cette pièce peut être retirée du modèle pour accéder à l'étage inférieur ou pour y placer des figurines. Par la fenêtre à l'arrière, on peut voir Alderaan (avant qu'elle n'explose). Si vous tournez la petite roue dentée sur le côté gauche du modèle, la vue se déplace vers la destruction dévastatrice de la planète...

PREPAREN, APUNTEN...

En ambas Estrellas de la Muerte, el superláser se opera primordialmente desde la sala de control principal del sector Theta. Aquí, el Gran Moff Tarkin supervisa todas las maniobras de la gigantesca estación de batalla, y los artilleros pueden activar el reflector parabólico del láser. Esta sala puede separarse del modelo para acceder al piso inferior o colocar minifiguras. Puedes ver Alderaan por el mirador de la parte trasera (antes de que vuele en pedazos). Si giras el engrane pequeño de la parte izquierda del modelo, la vista se cambia por la devastadora destrucción del planeta...

ENFORCERS OF THE EMPIRE

LES EXÉCUTEURS DE L'EMPIRE

EJECUTORES DEL IMPERIO

DARTH VADER

For decades, the once so promising Jedi has enforced the evil Emperor's will as a Sith Lord, using his unparalleled dark powers to crush any and every fraction of the Rebel Alliance he can track down. But there is still good in him...

DARTH VADER

Pendant des décennies, le Jedi autrefois si prometteur a fait respecter la volonté du maléfique Empereur en tant que Seigneur Sith, utilisant ses pouvoirs obscurs sans pitié pour écraser chaque fraction de l'Alliance rebelle qu'il pouvait traquer. Mais il y a encore du bon en lui...

DARTH VADER

Durante décadas, el otrora prometedor Jedi ha impuesto la voluntad del malvado Emperador como Lord Sith, usando sus incomparables poderes oscuros para aplastar a todas y cada una de las facciones de la Alianza Rebelde que ha podido ubicar. Pero aún queda algo bueno en él...

ADMIRAL MOTTI

After serving as one of the Imperial military's Joint Chiefs, the ambitious Admiral Motti has become a trusted ally of Grand Moff Tarkin. He serves as head of naval operations on the first Death Star – in his words “the ultimate power in the universe”.

AMIRAL MOTTI

Après avoir été l'un des chefs d'état-major de l'Armée impériale, l'ambitieux Amiral Motti est devenu un allié de confiance du Grand Moff Tarkin. Il est à la tête des opérations navales sur la première Étoile de la Mort, « la puissance suprême de l'univers », selon ses propres termes.

ALMIRANTE MOTTI

Luego de servir como alto mando en el ejército imperial, el ambicioso Almirante Motti se ha convertido en un aliado de confianza del Gran Moff Tarkin. Sirve como jefe de operaciones navales en la primera Estrella de la Muerte, en sus palabras, “el máximo poder del universo”.

GENERAL TAGGE

General Cassio Tagge, Vader's chief of military operations aboard the first Death Star, seems to be the only one with the courage to voice concerns about the threat of the Rebel Alliance. (Acknowledging this, the Emperor later promotes him to Grand General in charge of the Imperial military.)

GÉNÉRAL TAGGE

Le général Cassio Tagge, chef des opérations militaires de Vader à bord de la première Étoile de la Mort, semble être le seul à avoir le courage d'exprimer ses inquiétudes face à la menace de l'Alliance rebelle. (Reconnaissant cela, l'Empereur le promeut plus tard au rang de Grand général en charge de l'Armée impériale.)

GENERAL TAGGE

El General Cassio Tagge, jefe de operaciones militares de Vader a bordo de la primera Estrella de la Muerte, parece ser el único lo suficientemente valiente como para expresar su preocupación por la amenaza de la Alianza Rebelde. (En reconocimiento de este hecho, el Emperador lo asciende más tarde a gran general a cargo del ejército imperial).

COLONEL WULLF YULAREN

Since serving as a Republic admiral in the Clone Wars, Yularen's loyalty to Darth Vader has never wavered. Often rigid in his convictions and actions, he admires Vader's bravery and trusts his instincts almost to a fault.

COLONEL WULLF YULAREN

Depuis qu'il a servi en tant qu'amiral de la République pendant la Guerre des Clones, la loyauté de Yularen envers Darth Vader n'a jamais faibli. Souvent rigide dans ses convictions et ses actions, il admire la bravoure de Vader et fait presque trop confiance à son instinct.

CORONEL WULLF YULAREN

Desde que sirvió como almirante de la República en la Guerra de los Clones, la lealtad de Yularen a Darth Vader nunca ha disminuido. Rígido en sus convicciones y acciones la mayoría de las veces, admira la valentía de Vader y confía en sus instintos casi hasta la exageración.

GRAND MOFF TARKIN

The ruthless Wilhuff Tarkin rose to power under Supreme Chancellor Palpatine, so it was only natural that he was tasked with overseeing the construction of the Death Star. He proudly demonstrates the superlaser's powers on the peaceful, Rebel-friendly planet Alderaan.

GRAND MOFF TARKIN

L'impitoyable Wilhuff Tarkin est arrivé au pouvoir sous le chancelier suprême Palpatine, et c'est donc tout naturellement qu'il a été chargé de superviser la construction de l'Étoile de la Mort. Il fait fièrement la démonstration des pouvoirs du superlaser sur la paisible planète rebelle d'Alderaan.

GRAN MOFF TARKIN

El despiadado Wilhuff Tarkin ascendió al poder bajo el mando del Canciller Supremo Palpatine, por lo que era natural que se le encomendara supervisar la construcción de la Estrella de la Muerte. Demuestra con orgullo el poder del superláser en el pacífico planeta Alderaan, que ha mostrado simpatía por los rebeldes.

DEATH STAR GUNNER

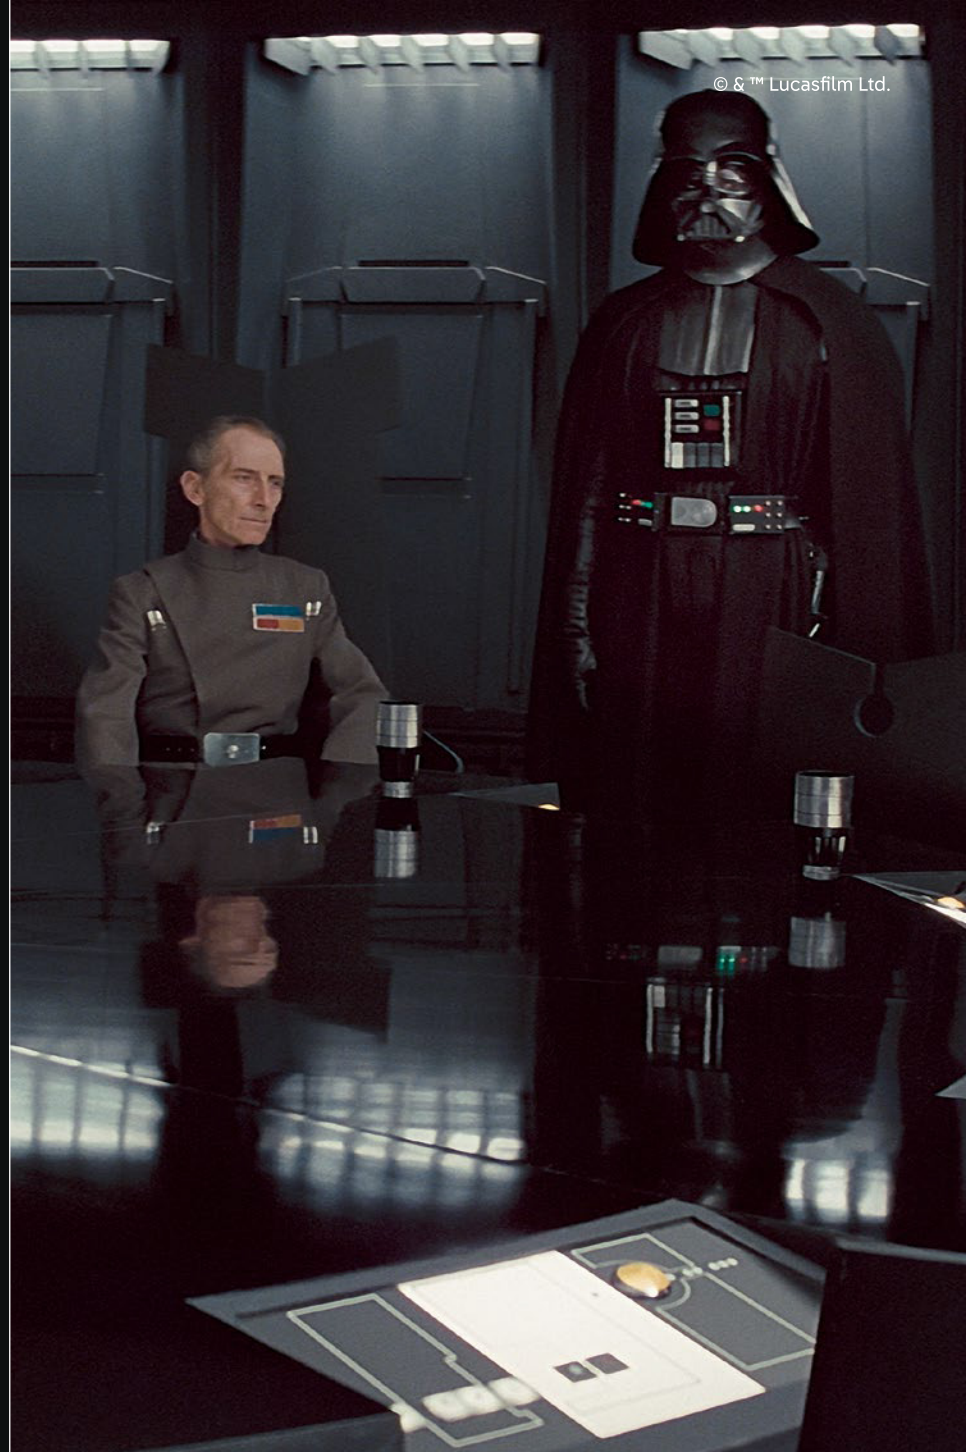

Crews of Death Star gunners serve aboard both Death Star battle stations. This elite gunner is specifically trained to operate the Death Star superlaser and is possibly a little too enthusiastic about his role in destroying planets...

ARTILLEUR DE L'ÉTOILE DE LA MORT

Les équipages d'artilleurs de l'Étoile de la Mort servent à bord des deux postes de combat de l'Étoile de la Mort. Cet artilleur d'élite est spécialement formé pour faire fonctionner le superlaser de l'Étoile de la Mort et est peut-être un peu trop enthousiaste quant à son rôle dans la destruction des planètes...

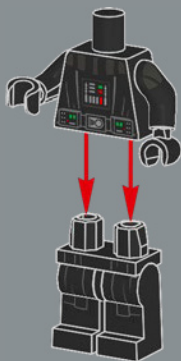

ARTILLERO DE LA ESTRELLA DE LA MUERTE

Las tripulaciones de artilleros de la Estrella de la Muerte sirven a bordo de sus dos estaciones de batalla. Este artillero de élite está entrenado específicamente para manejar el superláser de la Estrella de la Muerte, y posiblemente esté demasiado entusiasmado con el rol que desempeña en la destrucción de planetas...
