WE'RE MAKING OUR PACKAGING MORE SUSTAINABLE

We're transitioning from single-use plastic to paper-based packaging. As we progress, you may find a mix of paper and plastic in our boxes.

NOUS RENDONS NOS EMBALLAGES PLUS DURABLES

Nous passons des emballages en plastique à usage unique aux emballages à base de papier. Durant la transition, vous pourriez trouver un mélange de papier et de plastique dans nos boîtes.

QUEREMOS HACER MÁS SUSTENTABLES NUESTROS MATERIALES DE EMBALAJE

Estamos cambiando las bolsas de plástico desechables por bolsas con base de papel. Conforme avanzamos en este propósito, puedes encontrar una mezcla de papel y de plástico en nuestras cajas.

Protective sepals caress the delicate rosebud in its early stages. As the bud opens, the sepals release their protective grasp.

Des sépales protecteurs caressent le délicat bouton de rose dans ses premiers stades de développement. Lorsque le bourgeon s'ouvre, les sépales relâchent leur emprise protectrice.

En sus primeras etapas de crecimiento, los sépalos protectores acarician el delicado capullo de la rosa. Cuando el capullo se abre, los sépalos liberan su protectora sujeción.

Thorns are often removed from cut roses,
but some have escaped the pruning clippers.

Les épines sont souvent retirées des roses coupées,
mais certaines ont échappé au sécateur.

Si bien se suelen eliminar las espinas de las rosas
cortadas, algunas se escaparon de las tijeras.
