Spathiphyllum

Peace Lily

A timeless potted classic, the peace lily is native to the rainforests of Central and South America. Its name is likely inspired by the flag-like bloom that resembles a white banner of peace. In many cultures, it carries symbolic meaning, representing prosperity and good fortune, purity and serenity. It helps to absorb moisture and purify the air, not only adding a decorative feature to your indoor space but also making it healthier. While the real-life peace lily may be tricky to care for, this version will bloom for years to come.

Grow your collection

Feel inspired to mix your own floral arrangements? From classic bouquets to petite arrangements and potted plants, pick your favourites from our fresh LEGO® Botanicals collection to match your mood and brighten any room.

In LEGO® Botanicals sets, you can often spot elements that are used in new ways. This recoloured LEGO carrot is the perfect shape of the spadix on the partially bloomed flower.

2x

A LEGO® popcorn element makes a perfect top for the spadix on the fully bloomed flower.

The white 'flower' of the Peace Lily is actually a modified leaf called a spathe. What better way to represent it than by recolouring a LEGO leaf element white!
